10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
       ii. *Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015:* **7**
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

<u>GIS Information</u>

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
    - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
    - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586

d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams – Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a. 276
        i. Number in PODs: 65
        ii. Number on Cyber Mission: 3
        iii. Number with FWRTs: 185
        iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866

b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**

a. Unknown at this time until we get the data

11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.

- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.

- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- *Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will* coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- *DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in* the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- *News release sent from Governor's office about the appeal to the President of the disaster declaration.*
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700

c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
   a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams—Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents

- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

- As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.

- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
    - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.

- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256

Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - *1/3 is going to GCCARD and the rest is going to the new warehouse*
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - *Filter Replacements*
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)

        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters

        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>*Local Emergency Operations Center*</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- *All 9 churches received waters, filters, and informational bulletins.*
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving

them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.

- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content

- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. *I am very happy with the PIO work and movement toward coordinated messaging.*
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference *call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts* tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination,**

command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.

- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Flint Water Daily Update
Updated Jan. 29

Current Issues Talking Points

Governor and DEQ encourage home water testing

- The health and safety of Flint residents remains a top priority. Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- It is essential that all Flint residents have the water in their homes tested as soon as possible.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Until water is declared safe, continue to follow established safety protocols.

Governor secures emergency supplemental to immediately aid Flint residents

- Snyder signs $28M Flint bill, hopes for safe water soon (Detroit News)
- The $28 million in funding will help address immediate needs for the people and families of Flint. It is a necessary next step in ongoing recovery efforts for the city.
- The Governor signed the legislation at the first possible opportunity, following its unanimous approval in both the House and Senate.
- The Flint water crisis was a failure of government at all levels – city, state and local. The governor has apologized and taken responsibility for the state's role in this failure.
    - Accepted the resignation of top DEQ officials and suspended two pending a civil service investigation.
    - Approved two emergency funding bills to support Flint residents (This $28 million and a previous $9.3 million in Oct. 2015).
    - Declared and extended a state of emergency for the city and activated the National Guard.
- To date, the Governor and Legislature have approved a total of $37.3 million in emergency funding for Flint while the federal government has earmarked only $5 million in assistance.
    - The Governor will continue to call on the federal government and our Congressional partners to secure additional funding to help address the long-term needs of the city.

- This $28 million in emergency aid will help:
  - Supply free bottled water, faucet filters, and testing kits for Flint residents;
  - Put nine nurses in local schools to monitor student health and well-being;
  - Provide better nutrition for students and infants through WIC and in-school nutrition programs;
  - Replace fixtures in schools, daycares, nursing homes and hospitals;
  - Provide for an infrastructure study using independent experts;
  - Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
  - Provide additional community education opportunities within the Genesee County Health Department;
  - Compensate the Michigan National Guard's work to support water distribution;
  - Assist with home lead abatement costs;
  - Help the City of Flint with utility issues;
  - Provide operational funding for the Flint Interagency Advisory Committee.
- This funding package is just one step of many. Additional long-term resources will be needed as we work together to strengthen the city of Flint moving forward.

Fresh water in State of Michigan Flint office building was for all

- Amid denials state workers in Flint got clean water (Detroit Free Press)
- Fresh water in Flint State building was for all (ABC News)
- In January 2015, as a customer of Flint water, DTMB received a notification that the water system in Flint's state office building was found to be in violation of a drinking water standard.
- DTMB made the decision to provide an alternative drinking option for both building employees and public visitors.
  - Health of visitors was a top priority.
  - Approximately 500 visitors sign into the Flint office building every day. Many of which enter the building for access to DHHS services.
  - Those with an increased risk included people with severely compromised immune systems, infants, or the elderly. A large number of the clients using the DHHS services fall within those demographics.
- After receiving information from the city, verbally, in July 2015 that the water system issue had been addressed, the water coolers were removed.
- It wasn't until late Sept/Oct 2015 when the presence of lead in the water was confirmed that the water coolers were replaced.

Gov. Snyder Approves $28 Million in Immediate Aid for City of Flint
Appropriation will fund several programs to address Water Crisis

FOR IMMEDIATE RELEASE
January 29, 2016
Release #: 23

Flint, Mich. – Gov. Rick Snyder today, signed a $28 million budget supplemental which assists Flint residents by addressing the city's on-going water crisis. The supplemental, which Snyder called for in his State of the State Address January 19th, was approved by the legislature Thursday and signed by the Governor this morning.

"I thank the Legislature for their quick action to make this additional $28 million a reality. It is a necessary next-step in ongoing recovery efforts for the city," Snyder said. "We know that more money will be needed to address long-term concerns and I want to reassure the families of Flint that I remain dedicated to fixing this problem."

House Bill 5220, approved unanimously in both the House and Senate, will help ensure Flint residents have access to safe, clean drinking water in addition to the following:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home.

Gov. Snyder will propose a long-term funding solution to address the ongoing needs of Flint in his Feb. 10 formal budget recommendation to the legislature.

In the continuing effort to identify the location of lead pipes and other components of Flint's water infrastructure, Geographic Information Systems (GIS) experts from the

City of Flint, State of Michigan, the University of Michigan–Flint, and Federal Emergency Management Agency (FEMA) have translated hundreds of hand-drawn plat maps and hand-written notes from the 1980's into digitized maps. The maps are helping the State target its response and determine where safe water is needed.

"Since most of the water system infrastructure is underground, we can't simply walk out and survey it," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and

commander of the Michigan State Police Emergency Management and Homeland Security Division. "This mapping will be a critical component of the State's coordinated response in Flint."

Once maps are fully digitized, they will be synced with 2015 parcel data and can then be overlaid with Census and infrastructure information which will allow analysts to pinpoint which inhabited homes have lead service lines.

Additionally, efforts continue to ensure city-wide distribution of bottled water, filters, water replacement cartridges and water testing kits.

Water response teams continue door-to-door delivery efforts with American Red Cross and other volunteers visiting 924 Flint homes today. Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 216,605 cases of water
- 98,641 water filters
- 31,111 water testing kits

Additionally, water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

Due to an overwhelming response from individuals donating water and other items, a new office has been set-up to assist with donations and inquiries on how individuals can assist. Please direct future inquiries to:

FOR IMMEDIATE RELEASE
Jan. 29, 2016

Gov. Rick Snyder urges Flint residents to get water tested

Gov. Rick Snyder today issued the following statement urging the people of Flint to get their water tested:

"It is essential that all Flint residents have the water in their homes tested as soon as possible. Please make it a priority for your family and encourage your friends and neighbors to obtain testing kits as well. The kits are available free of charge at the water resource sites within Flint fire stations."

Water testing kits are available at city hall and all Flint fire stations. Residents don't need to test their own water - simply fill up the bottle and return it to where it was obtained. Residents with questions can call United Way 2-1-1.

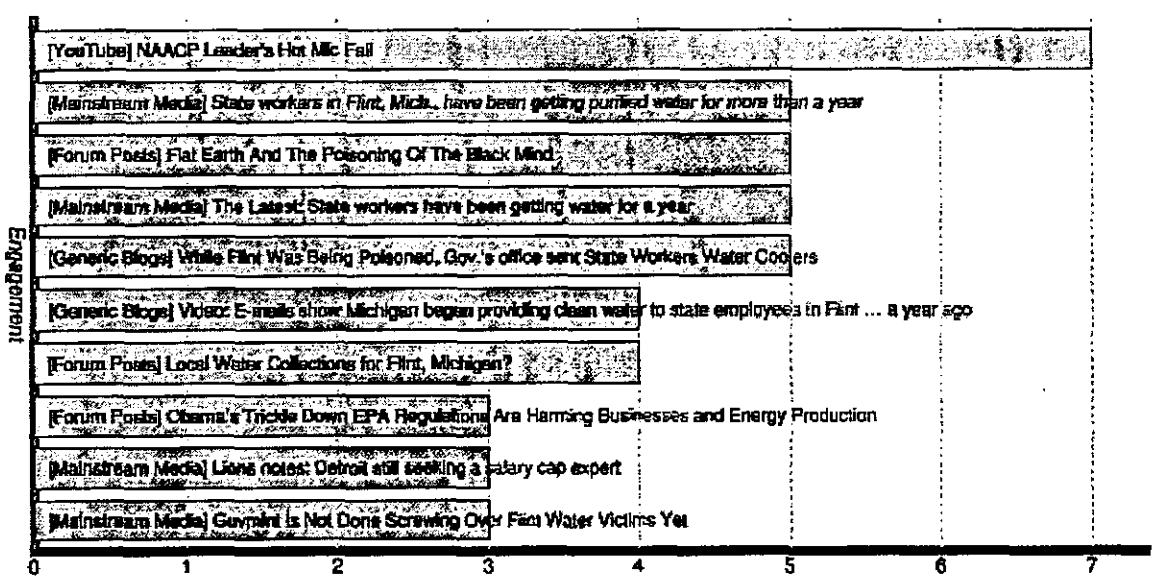
Daily Social Summary: Top Stories Flint Water from Radian6

This is an automatically generated daily report utilizing Radian6 showing two items: (1) Top 10 trending social and online news stories for the day and (2) social media content and news stories manually flagged by the JIC social media admin.

Contact Chad Wiebesick, *Director of Social Median and Interactive Marketing* at MEDC, *wiebesickc@michigan.org* if there are any questions.

Daily Top 10 Trending Stories

This is a collection of the Top 10 stories published online and/or shared on social media. The Radian6 tool monitors both the social web (Facebook, Twitter, blogs, forums, etc.) and also online mainstream news outlets (e.g. NewYorkTimes.com, WSJ.com, MLive.com etc).



Flagged Social Content and News Stories

This is a collection of social content, online trending stories, online videos and other items across the social web flagged by the JIC social media manager. These items were flagged because they were deemed significant or were noteworthy in some *fashion. Keep in mind there are more than 1,000 tweets per hour around the Flint water emergency.*

State Using Technology to Identify Lead Pipes and Track Water Resource Distribution in Flint

FOR IMMEDIATE RELEASE
January 29, 2016
Release #: 22

Flint, Mich. – In an effort to help identify the location of lead pipes and other components of Flint's water infrastructure, GIS experts from the City of Flint, State of Michigan, the University of Michigan – Flint, and FEMA have translated hundreds of hand-drawn plat maps from the 1980s and hand-written notes on thousands of cards about updates to home plumbing systems into digitized maps. These maps are helping with the response and determine where safe water is needed.

"Mapping infrastructure to this depth of detail is highly unusual," said Capt. Chris A. Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police, Emergency Management and Homeland Security Division. "Since most of the water system infrastructure is underground, we can't just walk out and survey it, so GIS mapping is a critical component of the state's coordinated response."

Once the maps are in digital format, they are synched with 2015 parcel data. The maps can then be overlaid with Census information and infrastructure information, allowing analysts to pinpoint which homes have lead service lines.

"The state is making progress in organizing, cataloging, and converting water service line information from paper to searchable databases and digitized maps," said Scott Bailey, a GIS data analyst with FEMA helping with the mapping project. "This is going to be a success story because prior to this event, this type of information was not available in a GIS environment."

The GIS systems have already assisted response teams as they go door to door to deliver water supplies to residents. Each team is armed with an iPad that feeds information into the GIS system. The online application uploads home data in real time, noting whether there are children in the household and which ones have been provided with bottled water, a water test kit, a water filter and replacement cartridges. The information has also helped identify the number of inhabited homes in a city affected by blight. Old data may show a street full of residents, when some houses are actually vacant.

For more information the GIS project, contact James Tchorzynski, at 517-230-5568. Additional information is available at www.michigan.gov/flintwater, by calling 211 or 844-875-9211, or visiting www.helpforflint.com

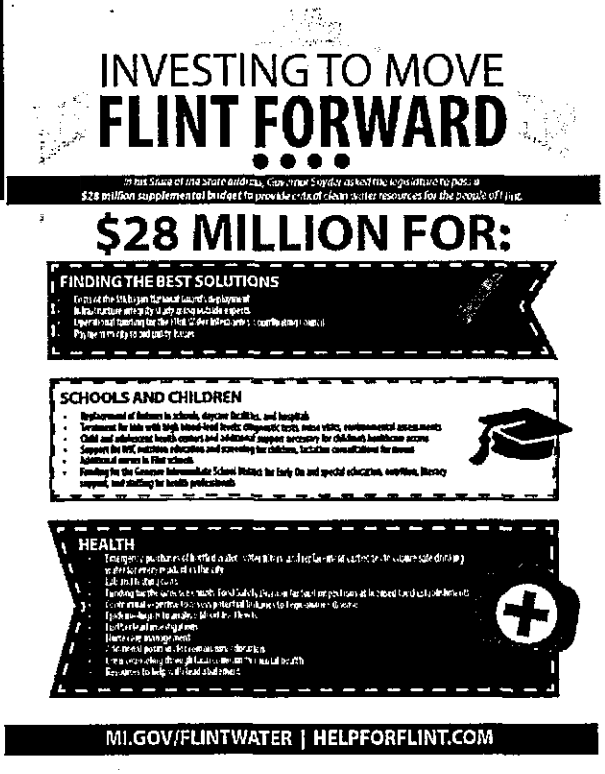
Subject: Friday, Jan. 29 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | FRIDAY, JANUARY 29, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.



Earlier today, Governor Rick Snyder secured $28 million in immediate aid for Flint residents. These additional resources will help families in Flint with lead testing, treatment, and other emergency services. The Governor also renewed his call for additional federal support for the city. **Click here to read more about the details in the funding package.**

Recycling the bottled water in Flint

Lt. Gov. Brian Calley announced yesterday a plan to recycle the thousands of plastic bottles being distributed during the Flint water crisis. The plan includes drop-off sites for recyclables and increased promotion of the curbside pickup

already offered to Flint residents. **To learn more about the recycling plan in Flint, click here.**

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

Gov. Rick Snyder secures $28 million in immediate aid to Flint residents

Governor renews call for federal support for Flint

LANSING, Mich. – Governor Snyder today signed legislation bringing $28 million to immediately help families in Flint with lead testing, treatment and other emergency services. The funding was part of a multi-point relief package the governor outlined last week during his state of the state address to the Michigan Legislature.

Speaking before the editors and publishers of the Michigan Press Association, the Governor also renewed his call for additional federal funding and assistance. To date, the federal government has only earmarked $5 million in assistance for Flint.

"This was a failure of government at every level - federal, state and local. I have apologized for the state's portion of this failure, accepted the resignation of top DEQ officials and suspended two pending a civil service investigation. I pledged to be accountable and those are not idle words - they are being put into action every day," Snyder said.

This is the second emergency supplemental funding bill allocated to assist the city of Flint this

fiscal year. A previous $9.3 million package was approved in October 2015 to reconnect Flint to the Detroit Water and Sewerage Department, provide filters and water testing to residents, aid in follow-up health services for children and assist with plumbing inspections at schools and health facilities.

"I thank the Legislature for their quick action to make this additional $28 million a reality. It is a necessary next-step in ongoing recovery efforts for the city. We know that more money will be needed to address long-term concerns and I want to reassure the families of Flint that I remain dedicated to fixing this problem," Snyder said.

House Bill 5220, sponsored by state Rep. Phil Phelps and approved unanimously in both the House and Senate will help ensure Flint residents have access to safe, clean drinking water while helping to do the following:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares, nursing homes and hospitals;
- Provide for an infrastructure study using independent experts;
- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
- Provide additional community education opportunities within the Genesee County Health Department;
- Compensate the Michigan National Guard's work to support water distribution;
- Assist with home lead abatement costs;
- Help the City of Flint with utility issues;
- Provide operational funding for the Flint Interagency Advisory Committee.

The funding bill totals $28 million with $22.6 million from the general fund. The remaining $5.4 million comes from a combination of federal and restricted funds. It is now Public Act 3 of 2016.

Snyder will propose a long-term funding solution to address the ongoing needs of Flint in his Feb. 10 formal budget recommendation.

Gov. Snyder was in Flint on Tuesday, Wednesday and Thursday this week, meeting with Mayor Karen Weaver, holding a roundtable with local pastors and also convening the first meeting of the Flint Water Interagency Coordinating Committee, which brings together community leaders and independent experts including Dr. Mona Hanna-Attisha and Marc Edwards of Virginia Tech University. The governor also met with the Rev. Jesse Jackson, NAACP President Cornell William Brooks and visited local fire stations to thank members of the National Guard and Red Cross volunteers for their door-to-door efforts.

#

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

THIS WEEK IN WASHINGTON...

Happy Friday, Everyone! This week snow shovels, sleds, salt and of course the ever popular milk and bread were in short supply. As predicted, a massive blizzard hit the east coast leaving roughly 30 inches of snow in some places. The Capitol City didn't escape the mess either. The government, several offices, and schools were all closed for the first part of the week. While plenty of snow remains, DC residents are starting to dig out and enjoy the snow covered city.

The historic blizzard didn't stop some New Yorkers from having a bit of fun. A "Boutique Winter Igloo for 2" showed up for rent on Airbnb over the weekend. The description gave some interesting insight to the snow house get-a-away. "Dripping with ingenuity and alt-lifestyle aura lays the Snowpocalypse of 2016's most desirable getaway. Hand-crafted, and built using only natural elements—we're offering the experience of a lifetime in this chic dome-style bungalow." Too bad it didn't met the occupancy standards.

The House has been out of session all week due to the blizzard. But the Senate spent some of the week in consideration of a measure (S 2012) to overhaul the nation's energy policy for the first time in close to a decade, including upgrades to electric grid reliability and security. This measure could also include a number of amendments such as a $600 million federal emergency relief proposal for the city of Flint, Michigan.

KAYYEM; "IN SHORT, OUR DISASTER MANAGEMENT IS A DISASTER. IT IS TIME TO RESCIND OR FUNDAMENTALLY REVISE THE STAFFORD ACT."

On the heels of FEMA seeking comment for their idea to establish a public assistance deductible, an article by Juliette Kayyem advocates rescinding or drastically revising the Stafford Act.

In the article, Kayyem describes the nation facing multibillion-dollar disasters and a heavy focus on resiliency from policy experts and politicians. She mentions, "in all of these discussion of how to build resiliency into our domestic fabric, we may be getting far ahead of ourselves. There is one fundamental flaw in how we organize, plan, and adapt for the disaster ahead. In short, our disaster management is a disaster. It is time to rescind or fundamentally revise the Stafford Act."

She goes on to say that there is a major design flaw within the Stafford Act. Kayyem states, "It essentially requires that the disaster funds be used to bring the damaged building, road, or home back to the way it was before the disaster came. That's a problem, because recipients, knowing the government will be there to compensate, have no capacity or inclination to alter their behavior. There is simply no requirement that those rebuilt structures be built better, stronger, or more resilient."

Kayyem's article was referenced in another article that described the concept of a disaster deductible that FEMA is exploring. FEMA believes this approach has the potential to incentivize mitigation strategies and promote risk-informed decision-making to build resilience, including for catastrophic events; reduce the costs of future events for both states and the federal government; and facilitate state and local government planning and budgeting for enhanced disaster response and recovery capability through greater transparency.

WHAT KEEPS MAYORS UP AT NIGHT

Communication is key. At least that seems to be the theme from the fourth National Mayors Survey by Politico Magazine. The survey, in which 73 mayors responded, concluded that dozen's of mayors feel "a growing apprehension about attacks on their citizens and a mounting anxiety that they do now have the resources to prepare for it."

In the Politico's snapshot article it was mentioned that, "81 percent of the Mayors surveyed said they are at least somewhat concerned about an increased terrorist threat this year." When they were asked to identify the biggest challenges in counter-terrorism and attack preparedness, "49 percent of mayors highlighted the need for specialized training—protocols that ostensibly would come from state or federal officials—while 37 percent said that a lack of communication with state and federal authorities is proving to be a key obstacle."

"Let's establish sustained, ongoing, structured, working relationships between local law enforcement and federal Homeland Security and other national security agencies," wrote one mayor from a major mid-Atlantic city.

SENATE DEMOCRATS SEEK $600 MILLION IN FLINT WATER CRISIS RELIEF

From a proposal unveiled this week by Michigan's Senators, Flint, Michigan would receive up to $600 million dollars in federal emergency relief. *It just so happens this proposal has the backing of a top Democratic leaders* on Capitol Hill.

Senate Democrats are pushing to include the relief package as an amendment to an energy bill that is currently under consideration on the floor. As of now, the energy bill has bipartisan support, however there are several

amendments that could cause a divide.

Two-thirds of that funding would go toward a joint federal-state effort to replace the water infrastructure. However, this would not only be a federal endeavor. Senator Debbie Stabenow and Sen. Gary Peters (D-MI) explained this week that the $400 million in emergency infrastructure funds would be made available only if the state provides dollar-for-dollar matching funds — covering the $800 million price tag the state has given for replacing lead water lines.

The biggest challenge is likely to be how to pay for the proposed spending. Historically, disaster relief funding has been passed on an emergency basis and has not been subject to deficit-control measures. But emergency spending bills have typically been reserved for natural disasters. "The challenge, obviously, is on the resources," Sen. Stabenow said. "What we are asking for is an emergency appropriation like we would for any other kind of national emergency. That's what we have to work out."

CHAIRMAN MCCAUL ENSURING DHS IS PREPARED TO FIGHT CYBER ATTACKS

This week House Homeland Security Committee Chairman McCaul (R-TX) gave some insight on the nation's cybersecurity efforts in a blog post he wrote for the Bloomberg Government. He also discussed the recently-enacted Cybersecurity Act and its inclusion of provisions from his legislation (H.R. 1731), the National Cybersecurity Protection Advancement Act.

The article discussed recent cyber attacks like the attack on the Office of Personnel Management's (OPM) computer system which "aimed to steal personal information provided for security clearances of more than 21.5 million Americans."

In a world where virtually everything is online, protecting personal information as well as the economy from hackers is becoming increasingly difficult. In an effort to better protect Americans from the prevalent cyber threats, Chairman McCaul introduced cyber legislation. He wrote, "With these new cybersecurity authorities signed into law, the Department of Homeland Security (DHS) will become the sole portal for companies to voluntarily share information with the federal government, while preventing the military and NSA from taking on this role in the future."

He also stated, "Enhancing our cybersecurity doesn't stop with the sharing known cyber threat information; that is just where it begins. We also strengthened our federal cyber networks to ensure DHS has the tools to improve network visibility and to detect and mitigate intrusions and anomalous activity. Additionally, we authorized DHS to execute intrusion detection and prevention capabilities when an imminent cyber threat to a federal agency information system is identified."

EMAC DEPLOYMENTS TO DC

Moving snow has become a way of life for many DC residents recently. As roughly 30 inches of snow fell on the District this past week, we have been digging out for a number of days.

But we haven't been the only ones moving snow. Through the Emergency Management Assistance Compact (EMAC) five active missions have been started to assist Washington in the snow removal.

In fact, 75 personnel from four states have been sent to DC. The total estimated cost reimbursable through EMAC is approximately $950,000. The equipment included in the deployments include:

- One 60-ton snow melter and associated tractor-trailer rig from **Indiana.**
- One 80-ton snow melter, two supporting dump trucks and tractor-trailer rig from **Massachusetts.**
- Seven front-end loaders, one Skid-steer loader (Bobcat), two dump trucks, and associated flatbed tractor trailer rigs and support vehicles from **Massachusetts.**
- Ten dump trucks and associated flatbed tractor-trailer rigs and support vehicles from **Florida.**
- Two loaders with snowblowers, three dump trucks and associated tractor-trailer rigs and support vehicles from **Connecticut.**

Florida Governor Rick Scott tweeted about the convoy sent from Florida to DC and said they are sending more than just trucks. The "sunshine" message is headed our way. (*Photo to the left from Governor Rick Scott's twitter account*)

A big thanks to everyone who has sent resources to help us here in Washington! We are on our way to having the snow removed and getting back to the fast-paced life we live.

THIS WEEK IN WASHINGTON...

Happy Friday, Everyone! This week snow shovels, sleds, salt and of course the ever popular milk and bread were in short supply. As predicted, a massive blizzard hit the east coast leaving roughly 30 inches of snow in some places. The Capitol City didn't escape the mess either. The government, several offices, and schools were all closed for the first part of the week. While plenty of snow remains, DC residents are starting to dig out and enjoy the snow covered city.

The historic blizzard didn't stop some New Yorkers from having a bit of fun. A "Boutique Winter Igloo for 2" showed up for rent on Airbnb over the weekend. The description gave some interesting insight to the snow house get-a-away. "Dripping with ingenuity and alt-lifestyle aura lays the Snowpocalypse of 2016's most desirable getaway. Hand-crafted, and built using only natural elements—we're offering the experience of a lifetime in this chic dome-style bungalow." Too bad it didn't met the occupancy standards.

The House has been out of session all week due to the blizzard. But the Senate spent some of the week in consideration of a measure (S 2012) to overhaul the nation's energy policy for the first time in close to a decade, including upgrades to electric grid reliability and security. This measure could also include a number of amendments such as a $600 million federal emergency relief proposal for the city of Flint, Michigan.

KAYYEM; "IN SHORT, OUR DISASTER MANAGEMENT IS A DISASTER. IT IS TIME TO RESCIND OR FUNDAMENTALLY REVISE THE STAFFORD ACT."

On the heels of FEMA seeking comment for their idea to establish a public assistance deductible, an article by Juliette Kayyem advocates rescinding or drastically revising the Stafford Act.

In the article, Kayyem describes the nation facing multibillion-dollar disasters and a heavy focus on resiliency from policy experts and politicians. She mentions, "in all of these discussion of how to build resiliency into our domestic fabric, we may be getting far ahead of ourselves. There is one fundamental flaw in how we organize, plan, and adapt for the disaster ahead. In short, our disaster management is a disaster. It is time to rescind or fundamentally revise the Stafford Act."

She goes on to say that there is a major design flaw within the Stafford Act. Kayyem states, "It essentially requires that the disaster funds be used to bring the damaged building, road, or home back to the way it was before the disaster came. That's a problem, because recipients, knowing the government will be there to compensate, have no capacity or inclination to alter their behavior. There is simply no requirement that those rebuilt structures be built better, stronger, or more resilient."

Kayyem's article was referenced in another article that described the concept of a disaster deductible that FEMA is exploring. FEMA believes this approach has the potential to incentivize mitigation strategies and promote risk-informed decision-making to build resilience, including for catastrophic events; reduce the costs of future events for both states and the federal government; and facilitate state and local government planning and budgeting for enhanced disaster response and recovery capability through greater transparency.

WHAT KEEPS MAYORS UP AT NIGHT

Communication is key. At least that seems to be the theme from the fourth National Mayors Survey by Politico Magazine. The survey, in which 73 mayors responded, concluded that dozen's of mayors feel "a growing apprehension about attacks on their citizens and a mounting anxiety that they do now have the resources to prepare for it."

In the Politico's snapshot article it was mentioned that, "81 percent of the Mayors surveyed said they are at least somewhat concerned about an increased terrorist threat this year." When they were asked to identify the biggest challenges in counter-terrorism and attack preparedness, "49 percent of mayors highlighted the need for specialized training—protocols that ostensibly would come from state or federal officials—while 37 percent said that a lack of communication with state and federal authorities is proving to be a key obstacle."

"Let's establish sustained, ongoing, structured, working relationships between local law enforcement and federal Homeland Security and other national security agencies," wrote one mayor from a major mid-Atlantic city.

SENATE DEMOCRATS SEEK $600 MILLION IN FLINT WATER CRISIS RELIEF

From a proposal unveiled this week by Michigan's Senators, Flint, Michigan would receive up to $600 million dollars in federal emergency relief. It just so happens this proposal has the backing of a top Democratic leaders on Capitol Hill.

Senate Democrats are pushing to include the relief package as an amendment to an energy bill that is currently under consideration on the floor. As of now, the energy bill has bipartisan support, however there are several

amendments that could cause a divide.

Two-thirds of that funding would go toward a joint federal-state effort to replace the water infrastructure. However, this would not only be a federal endeavor. Senator Debbie Stabenow and Sen. Gary Peters (D-MI) explained this week that the $400 million in emergency infrastructure funds would be made available only if the state provides dollar-for-dollar matching funds — covering the $800 million price tag the state has given for replacing lead water lines.

The biggest challenge is likely to be how to pay for the proposed spending. Historically, disaster relief funding has been passed on an emergency basis and has not been subject to deficit-control measures. But emergency spending bills have typically been reserved for natural disasters. "The challenge, obviously, is on the resources," Sen. Stabenow said. "What we are asking for is an emergency appropriation like we would for any other kind of national emergency. That's what we have to work out."

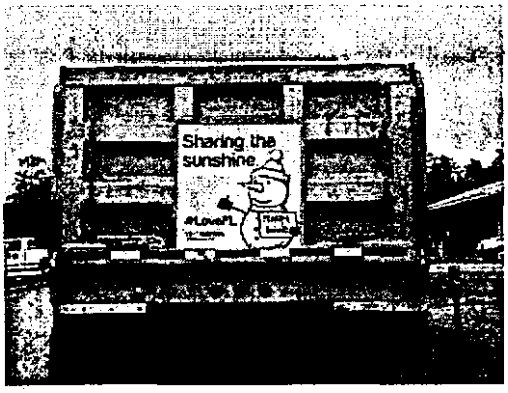
CHAIRMAN MCCAUL ENSURING DHS IS PREPARED TO FIGHT CYBER ATTACKS

This week House Homeland Security Committee Chairman McCaul (R-TX) gave some insight on the nation's cybersecurity efforts in a blog post he wrote for the Bloomberg Government. He also discussed the recently-enacted Cybersecurity Act and its inclusion of provisions from his legislation (H.R. 1731), the National Cybersecurity Protection Advancement Act.

The article discussed recent cyber attacks like the attack on the Office of Personnel Management's (OPM) computer system which "aimed to steal personal information provided for security clearances of more than 21.5 million Americans."

In a world where virtually everything is online, protecting personal information as well as the economy from hackers is becoming increasingly difficult. In an effort to better protect Americans from the prevalent cyber threats, Chairman McCaul introduced cyber legislation. He wrote, "With these new cybersecurity authorities signed into law, the Department of Homeland Security (DHS) will become the sole portal for companies to voluntarily share information with the federal government, while preventing the military and NSA from taking on this role in the future."

He also stated, "Enhancing our cybersecurity doesn't stop with the sharing known cyber threat information; that is just where it begins. We also strengthened our federal cyber networks to ensure DHS has the tools to improve network visibility and to detect and mitigate intrusions and anomalous activity. Additionally, we authorized DHS to execute intrusion detection and prevention capabilities when an imminent cyber threat to a federal agency information system is identified."



EMAC DEPLOYMENTS TO DC

Moving snow has become a way of life for many DC residents recently. As roughly 30 inches of snow fell on the District this past week, we have been digging out for a number of days.

But we haven't been the only ones moving snow. Through the Emergency Management Assistance Compact (EMAC) five active missions have been started to assist Washington in the snow removal.

In fact, 75 personnel from four states have been sent to DC. The total estimated cost reimbursable through EMAC is approximately $950,000. The equipment included in the deployments include:

- One 60-ton snow melter and associated tractor-trailer rig from **Indiana.**
- One 80-ton snow melter, two supporting dump trucks and tractor-trailer rig from **Massachusetts.**
- Seven front-end loaders, one Skid-steer loader (Bobcat), two dump trucks, and associated flatbed tractor trailer rigs and support vehicles from **Massachusetts.**
- Ten dump trucks and associated flatbed tractor-trailer rigs and support vehicles from **Florida.**
- Two loaders with snowblowers, three dump trucks and associated tractor-trailer rigs and support vehicles from **Connecticut.**

Florida Governor Rick Scott tweeted about the convoy sent from Florida to DC and said they are sending more than just trucks. The "sunshine" message is headed our way. (*Photo to the left from Governor Rick Scott's twitter account*)

A big thanks to everyone who has sent resources to help us here in Washington! We are on our way to having the snow removed and getting back to the fast-paced life we live.

Subject: Re: UM-Flint Communications Students

Thanks, Paula, and hi Michelle. I'd be happy to meet sometime next week—it would have to be Monday or Tuesday, though, as I leave for a conference early Wednesday morning. I'm pretty wide open in terms of my schedule, as I am just teaching online this semester, but Monday morning or Tuesday afternoon would work best for me.

Best,
Dan

GOVERNOR'S ACTIVITIES

Flint water

Snyder meets with pastors over Flint's water crisis (Detroit News)
Gov. Rick Snyder again held a private meeting in the city to discuss the state's response to the lead-tainted water crisis. Snyder, with an orange mug of water and a bright Flint pin notched to his lapel, sat near the end of a table inside City Hall Thursday, facing a row of concerned pastors gathered in a conference room. Mayor Karen Weaver also was present.

Gov. Snyder-appointed committee meets to talk Flint water crisis (Mlive)
While Michigan Gov. Rick Snyder was holding his first meeting with the Flint Water Interagency Coordinating Committee, activists waited in hopes of meeting the governor to ask him to resign. Snyder greeted press for the first five minutes of the meeting at the University of Michigan-Flint Northbank Center Wednesday, Jan. 27.

Congress will grill the EPA on Flint, but not Snyder (Michigan Radio)
Governor Snyder will not be called to testify at a Congressional hearing next week looking into the Flint water crisis. Instead, the spotlight will be on the EPA.

Snyder extends Flint emergency declaration to April 14 (Freep)
Michigan Gov. Rick Snyder on Thursday extended to April 14 the state of emergency in Flint and Genesee County, bringing the duration of the state emergency in line with the federal state of emergency declared by President Barack Obama on Jan. 16.

Snyder: Flint emergency declaration extended to April 14 (TV 6 UP)
Gov. Rick Snyder issued a proclamation on Thursday calling for an extension to the emergency declaration in the city of Flint and Genesee County.

Governor Snyder extends State of Emergency for Flint (WTVB)
Governor Snyder has extended the state of emergency in Flint until April 14. It was due to expire on Monday. Both the House and the Senate in Lansing have signed off on that extension, as well as approving the revised version of a $28

million supplemental spending bill for short term aid to provide supplies, testing and early treatment in response to contamination in the city water supply.

Anti-Snyder messages pop up around governor's downtown Ann Arbor condo (Mlive)
As Michigan Gov. Rick Snyder continues to face strong criticism over the Flint water crisis, anti-Snyder messages are popping up on the governor's home turf in downtown Ann Arbor. Several of the messages have been written in chalk — some calling for Snyder's arrest and resignation — on the sidewalks in front of and near the governor's new loft condo on Main Street.

Governor heckled at Old Town Tavern in downtown Ann Arbor (Mlive)
Gov. Rick Snyder, who continues to receive criticism over the Flint water crisis, was heckled and shouted at Thursday night at a downtown Ann Arbor bar and restaurant.

State board rejects petitions to recall Gov. Snyder over Flint water (WDIV)
A state board has rejected petitions to recall Michigan Gov. Rick Snyder over his handling of Flint's lead-contaminated water. The Board of State Canvassers rejected the petitions Thursday, 4-0. The board says the reasons for a recall must be clear and factual, under Michigan law. If they're not, no one can gather signatures to force a recall election.

Board rejects recall bid against governor over Flint (AP)
A state board has rejected petitions to recall Michigan Governor Rick Snyder over his handling of Flint's lead-contaminated water.

Gov. Snyder to sign $28M bill for Flint (AP)
Gov. Rick Snyder will soon sign into law $28 million in emergency funding to address Flint's lead-contaminated water. The Republican governor is expected to sign the measure Friday at a Michigan Press Association meeting in Grand Rapids. He says the funding will provide immediate resources in Flint but is not the end of state assistance.

Michigan governor names panel to fix Flint's contaminated water system (Arab American News)
On Wednesday, Governor Rick Snyder appointed a group of government officials, health and other experts to implement long-term fixes for Flint's lead-contaminated water system, which has become a national scandal.

Gov. Snyder Says He's Been Heckled And Worse Over Flint Water Crisis (WWJ/CBS Detroit)
Gov. Rick Snyder says he has been heckled and threatened over the Flint water crisis. The governor told WWJ Newsradio 950's Charlie Langton he was confronted by hecklers on more than one occasion — once, while dining in a restaurant in Ann Arbor. People are blaming him for what happened in Flint.

Governor talks with Paul W. on Friday about signing the budget supplemental for Flint (WJR)

Governor talks with Paul W. on Thursday regarding Flint (WJR)

LT. GOVERNOR'S ACTIVITIES

Millions of used water bottles can be recycled in Flint, says Lt. Gov. Calley (Mlive)
The millions of bottles of water discarded as a result of the water crisis in Flint don't have to end up in a landfill, state and local leaders said Thursday, Jan. 28. Lt. Gov. Brian Calley, Matt Flechter, the state's recycling market development specialist, and others were in Flint to discuss the recycling options for city residents.

Flint recyclers step up efforts to combat water bottles (Detroit News)
To prevent the pileup of empty bottles in landfills from the fallout of the city's drinking water crisis, officials announced Thursday that residents will immediately have biweekly curbside pickup service.

Recycling push underway in Flint (WDIV)

A coalition of parties, including the state, Genesee County, and City of Flint partners stepped up recycling efforts on Thursday. Lt. Governor Brian Calley, who will be spending more time in Flint during the crisis, was on hand to remind everyone they can easily recycle the plastic bottles.

Flint residents getting bags to recycle bottles (AP)
Officials have announced new recycling efforts in Flint in response to the heavy use of bottled water and filters because of lead-contaminated tap water. The new steps were announced Thursday at a fire station that's doubling as a water distribution site.

Empty Flint water bottles good news for recycling effort (Freep)
As a big, blue garbage truck combs a neighborhood on Flint's east side, Arnold Brown points to a blue recycling bin outside a corner house.

Only $17M in federal loans for Flint, says Lt. Gov. (Freep)
Only $17 million of the $80 million in federal loans available to Michigan can be used in Flint as part of recovery from the water crisis, according to Michigan Lt. Gov. Brian Calley.

FLINT
Senate democrats seeking federal aid for Flint crisis (NYT)
Senate Democrats said Thursday they would seek $600 million in federal aid to help Michigan clean up the contaminated water emergency in the city of Flint, the most far-reaching financial solution proposed to manage the crisis.

U.S. Senate Dems pitch $400 million fix for lead pipes in Flint (AP)
U.S. Senate Democrats are introducing a measure to provide up to $400 million in new federal funding to replace and fix lead-contaminated pipes in Flint, Michigan.

Senators from Michigan propose $400 million in federal aid for Flint (Crains)
Senate Democrats on Thursday proposed up to $400 million in emergency federal aid to Flint, half of what the state's Republican governor says it will cost to replace and fix the city's lead-contaminated pipes.

Senators say they'll ask for more federal money to help pay for Flint water infrastructure (Michigan Radio)
U.S. Senators Debbie Stabenow and Gary Peters say they'll try to make up to $400 million in federal money available to help replace damaged pipes in Flint. The two announced today they'd offer an amendment to a bill the Senate is set to consider next week.

Peters-Stabenow lead-pipe plan may face uphill fight (Detroit News)
Democratic U.S. Sens. Gary Peters and Debbie Stabenow plan to offer an amendment to a bipartisan energy policy bill with the goal of jump-starting the process of repairing or replacing lead services lines contributing to the contamination of drinking water in Flint.

$600 million bill to help Flint faces tough road in Congress (CNN)
Scrambling to respond to the lead poisoning in the Flint, Michigan, water supply, the two Democratic senators from that state unveiled a $600 million proposal to help replace contaminated pipes and treat residents who were exposed to the dangerous element.

State workers in Flint got bottled water as crisis brewed (ABC News)
Michigan offered fresh bottled water for state employees in Flint starting in January 2015, although residents were told that tap water was safe to drink until last fall, a state official said.

Amid denials, state workers in Flint got clean water (Detroit Free Press)
In January of 2015, when state officials were telling worried Flint residents their water was safe to drink, they also were

arranging for coolers of purified water in Flint's State Office Building so employees wouldn't have to drink from the taps, according to state government e-mails released Thursday by the liberal group Progress Michigan.

State workers – but not residents – in Flint, Mich., have been getting purified water for more than a year (Washington post)
Employees at the state office in Flint, Mich., have been drinking from coolers of purified water since last January — the same month that representatives from the Michigan Department of Environmental Quality assured residents the water was safe to drink.

State workers in Flint got clean water over a year ago (The Atlantic)
According to documents, Michigan officials provided coolers and bottled water for government offices several months before a lead advisory went out to city residents.

Little focus on Flint water crisis during GOP debate (Detroit Free Press)
The Republican candidates for President addressed a wide variety of topics during their last debate before the Iowa caucuses on Monday.

Will Detroit be the next Flint? (MSNBC)
The Michigan Department of Environmental Quality will take public comments Thursday night on an application from an oil company to release more sulfur dioxide into the air over southwest Detroit. If the MDEQ approves, city officials will be powerless to stop it.
Lots Of Cities Have The Same Lead Pipes That Poisoned Flint (Huffington Post)
Just how many lead pipes are there in Flint, Michigan, where the water has been undrinkable because of high lead levels? Nobody knows. "A lot of work is being done to even understand where the lead services lines fully are, so I would say any numbers you're hearing at this point are still speculation," Michigan Gov. Rick Snyder (R) said Wednesday.

DETROIT
Detroit teachers union sues DPS, asks for EM Darnell Earley's removal (WDIV)
The Detroit Federation of Teachers (DFT) union announced Thursday that it is suing the Detroit Public Schools (DPS) district and asking a judge to remove state-appointed Emergency Manager Darnell Earley.

A Historical Perspective into the Detroit Public Schools situation (WDET)

Detroit Federation of Teachers files lawsuit against Detroit Public Schools, Darnell Earley (WXYZ)
The Detroit Federation of Teachers, along with the American Federation of Teachers, DFT Interim President Ivy Bailey and more, has filed a lawsuit against Detroit Public Schools and Emergency Manager Darnell Earley.

Union sues DPS over school buildings, asks judge to remove EM (Detroit News)
The Detroit Federation of Teachers is asking a judge to oust Detroit Public Schools' emergency manager, saying his failure to address deteriorating buildings is putting students at risk.

Detroit Federation of Teachers files lawsuit against Detroit Public Schools, Darnell Earley (WXYZ)
The Detroit Federation of Teachers, along with the American Federation of Teachers, DFT Interim President Ivy Bailey and more, has filed a lawsuit against Detroit Public Schools and Emergency Manager Darnell Earley.

Detroit Public Schools hit with lawsuit (CNN)
Detroit's beleaguered school system was hit with a lawsuit by the teachers union Thursday, calling for the removal of the district's emergency manager and accusing officials of allowing the conditions at schools "to deteriorate to the point of crisis."

The Latest: Schools chief: Solution in Lansing, not lawsuit (AP)

The Detroit Public Schools' state-appointed emergency manager says many issues raised in a lawsuit filed against the district by the teachers' union would be handled in a 10-year, $715 million plan put forth by Gov. Rick Snyder.

Welcome Mat: Home news, events around Metro Detroit (Detroit News)

Teachers Union Sues Detroit Schools (U.S. News)
The Detroit Federation of Teachers filed a lawsuit Thursday against the city's public school system, calling for officials to repair what it calls dangerous school conditions and the removal of the system's state-appointed emergency manager.

Arrested Detroit teacher says police reaction to protest 'backfired' (MLive)
Nicole Conway, a vocal teachers union member opposing Lansing control, spent Wednesday afternoon and evening in the jail of a Detroit police precinct following a student protest.

Duggan threatens suit over Marathon refinery emissions (Freep)
Mayor Mike Duggan tonight tore into Marathon Petroleum's proposal to increase certain pollutants at its refinery in southwest Detroit, ultimately threatening a lawsuit against the state if it approves the oil company's plan.

Duggan joins those against Detroit refinery plans (Detroit News)
Mayor Mike Duggan on Thursday called on state environmental regulators to deny a permit by Marathon Petroleum to increase emissions at its refinery in southwest Detroit.

Mayor Duggan: No more pollutants from Marathon Oil (WDIV)
Marathon Oil is petitioning the Michigan Department of Environmental Quality for a permit to release more sulfur dioxide into the air because federal regulations now require less of it in gasoline.

The rank of "policewoman" is about to officially be stripped from the Michigan State Police.

OPINION

Hold firm on vaccination requirements (Detroit Free Press)
It's awfully good news that the number of vaccination waivers in the state of Michigan have dropped nearly 40% in the year since the state began requiring that people who don't want their kids to get disease-preventing shots hear from health department officials about the dangers.

Editorial: Lawmakers should get rid of gag order (Detroit News)
Republican lawmakers zealous about limiting municipal tax increases passed legislation last month that tells schools and other local governments they can't say anything about millage proposals two months before an election. This last-minute amendment was a bad idea at the time, and now it's turned into a lawsuit.

Editor's note: Politicians exploiting Flint crisis (Detroit News)
Now that the Flint water crisis is commanding such a large national spotlight, Michigan politicians are throwing elbows to get under it.

Plummeting vaccination waivers a victory, but bills threaten public health (MLive)
The number of parents choosing not to vaccinate their schoolchildren has plummeted in Michigan, a victory for public health and those who are battling the vocal anti-vaccination movement.

Middle class can't bear cost of decaying infrastructure (MLive)
The Flint Journal started 2016 with an investigative report on Flint's deteriorating multimillion-dollar drinking water situation. However, I hope the Journal does not stop there.

After Flint, you'd expect lawmakers to listen (Port Huron Times Herald)
I just read an article in the Jan. 23 Times Herald that explained how a judge has ordered Walmart to reinstate 16 employees who were fired after protesting over working conditions. The judge said that it "... was wrong to discipline employees who were absent from work because of the demonstrations." I am confused about why it is lawful for one group of people to strike in this country, but in Michigan we have a law that states that one particular group of people — teachers — cannot strike without imposing huge fines. How can this be constitutional?

MSP Trooper From Paw Paw Post Wins State Award
WSJM Radio
1.28.16

A Michigan State Police trooper from the Paw Paw post has received an award for her efforts to look "past the stop." Trooper Lena Wileczek is a 2015 recipient of the Corporal Samuel A. Mapes Criminal Patrol and Investigation Award. It's given to troopers who excel in patrol-generated felony arrests. Wileczek was handed the honor at a ceremony in Lansing at the MSP Training Academy Thursday. She's one of just 64 troopers to get the award this for 2015. Michigan State Police say the honor is named for Corporal Samuel Mapes, one of the MSP's early pioneers in criminal patrol who was killed during a rum running bust in 1927.

Senator Schuitmaker's Bill Eliminating Policewoman Rank Heads To Governor

WSJM Radio
1.29.16

The rank of "policewoman" is about to officially be stripped from the Michigan State Police. The state Senate gave final approval to a bill from Senator Tonya Schuitmaker of Lawton yesterday to eliminate the rank. She introduced the legislation with the backing of Michigan State Police Director, Colonel Kriste Kibbey Etue. The outdated rank was used in the days when female police officers weren't allowed to have the same standing and were paid less than their male counterparts. While that's no longer the case, the rank was still on the books. Governor Snyder is expected to sign the bill.

Chief 'deeply saddened' by two recent police-involved killings
Gus Burns
MLive
1.28.16

Dearborn Police Chief Ronald Haddad issued a statement Thursday, following the second time police killed a suspect in just over a month.

Detroit police are investigating the Dec. 23 fatal shooting of 35-year-old Kevin Matthews, of Detroit, a mentally-ill man alleged to have struggled with a police officer trying to arrest him; and state police are investigating the Wednesday shooting of 31-year-old Janet Wilson, of Detroit, who is accused of trying to hit security guards and police with her vehicle.

Both were shot multiple times.

Below is the statement from the Dearborn police chief:

The Dearborn Police Department is deeply saddened by the two officer involved fatal shooting incidents that have occurred over the past month.
Both of the officer involved shooting incidents are being independently criminally investigated by outside agencies and we are totally committed to transparency and disclosure by fully cooperating with these investigations.

Upon conclusion of the criminal investigations we will be conducting internal reviews on both of these incidents.

While we are very proud of our long history of Civil Rights advocacy as well as our history of appropriate use of force, we will closely examine all of our policies and procedures to ensure that we are employing the latest training and following national best practices in all of our responsibilities to the community.

Once we are allowed and it is appropriate to do so, we fully intend to make public disclosures regarding these incidents.

We remain committed to providing superior public safety services and appreciate the support during this most difficult time for our entire community.

Yon appointed Wixom public safety director, police chief
Hometown Life
1.29.16

The Mayor and City Council of the City of Wixom announce the appointment of Charles Yon as Public Safety Director and Police Chief.

Yon has been employed by the City of Wixom since he became a police cadet in 1988. He has served nine years as a police officer, 15 years as Sergeant, and in 2014 was promoted to Administrative Lieutenant.

Yon began his police service career in the United States Army as a military policeman. He is a graduate of the FBI National Academy - Session #241, Eastern Michigan University's School of Police Staff and Command, the Michigan Police Executive Development Seminar, the Law Enforcement Executive Leadership Institute, and Southern Police Institute's Executive Leadership Program.

Yon is a 1991 graduate of Oakland Community College, where he received an associate's degree in law enforcement. He is a 1995 graduate of Madonna University, where he earned a Bachelor of Science in criminal justice. In 2004, he completed The Eastern Michigan University Master of Liberal Studies program.

Yon served on the executive board for the Juvenile Officers Association of Michigan and Ontario. He has served on several committees for the Fraternal Order of Police, Southwestern Oakland County Lodge #128. He is an active member of the FBI National Academy and Associates, the Michigan Association of Chiefs of Police, and the American Legion.

In attendance at the ceremony Jan. 26 were state Rep. Klint Kesto; Oakland County Commissioner Phil Weipert; 52-1 District Court judges Robert Bondy, Travis Reeds and David Law; Yon's wife, children, and his father, Gerald Yon; officers representing Michigan State Police, Oakland County Sheriff's Office, Milford Police Department, Novi Police Department, Orchard Lake Police Department, South Lyon Police Department, Walled Lake Police Department, Wixom Police Department and Wolverine Lake Police Department, as well as officers from the Wixom Fire Department.

Animal Control impersonator going door-to-door in Fenton area, police warn
Amanda Emery
MLive-Flint
1.28.16

FENTON, MI -- Police are warning of a possible scam involving dog licenses in the Fenton-area.

Genesee County Animal Control has received information that a person identifying themselves as an officer with the department is going to homes in the Fenton-area asking residents about dog licenses, according to a news release from the Genesee County Board of Commissioners.

The suspicious person was reported to be dressed in professional looking clothing and showed residents a lanyard with identification, according to the release. Investigators said the person is not affiliated with Animal Control.

A census of dog licenses will be done sometime after May 1. Animal Control officers will go door-to-door showing identification to residents and will also be dressed in the mandates Animal Control uniform, according to the release.

Animal Control is asking residents if someone approaches their home inquiring about licenses before May, to please call police to report the incident. Residents are also asked to call Animal Control at 810-732-1660.

Facebook messaging key in negotiations with Wyoming shooting suspect
John Tunison
MLive

1.28.16

WYOMING, MI -- Crisis negotiators used Facebook Messenger to communicate with a suspect holed up inside of a Wyoming house, wanted in connection with a fatal shooting.

"As far as I know, it's a first for us," Wyoming police Lt. Mark Easterly said about using social media to negotiate.

The 18-year-old surrendered without incident about 12:30 p.m. Thursday, Jan. 28, coming out of the Colrain Street SW home with his hands up and walking backward.

He was one of three teens -- a 15-year-old and 16-year-old also were arrested -- taken into custody as suspects in the fatal shooting of Isaiah Devere Blue, 17.

Blue was shot after getting off a Rapid bus at 44th Street and Division Avenue about 10:10 p.m. Wednesday, Jan. 27. Three people approached Blue, who was with two others, then demanded property.

The would-be robbers then fired shots as Blue tried to run.

Police determined the suspects had been on the bus with Blue. Detectives then released Rapid surveillance video showing them, and tips began to pour in.

Easterly said investigators used the tips to identify possible suspects and were able to track the 18-year-old to Colrain Street.

8-year-old approached by man in van, told to 'get in my car'
John Tunison
MLive
1.29.16

BYRON TOWNSHIP, MI -- Police are investigating a suspicious situation after an 8-year-old girl told police she was approached by a man in a van who told her to "get in my car."

The girl screamed and started running, and the van left the area.

The girl told Kent County sheriff's deputies she was walking home from a bus stop in the area of Cutler Estates Mobile Home Park about 7:10 p.m. Thursday, Jan. 28, when a dark-colored van drove up to her.

Cutler Estates is near Division Avenue and the M-6 interchange in Byron Township.

After the man told her to "get in my car," the girl ran away. She said the van backed up and left the area in an unknown direction.

The girl told police the van had no side windows, but the only other description was dark in color.

Anyone with information about the incident can call Kent County sheriff's deputies at 632-6100 or Silent Observer at 774-2345.

Subject: Thank you for your service

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: RE: Michigan Joint Information Center NEWS RELEASE - Water Resource Sites Open Daily from 9 a.m. - 9 p.m.

Dan - I've been following #flintwater on twitter and there are several posts of a window saying an ID is required for water. You all may be already working on changing that incorrect information but wanted to make sure you knew. There are also several posts about Arabic and other non-English speakers being left out of getting the correct information. I know you have information in Spanish. Just wanted to flag these issues in the event you hadn't seen the posts.

Thanks,
Eileen

@markmobility .@latinorebels was right. #Flint residents being asked for ID for unleaded water. 1,000 undocumented left out.

Water Resource Sites Open Daily from 9 a.m. - 9 p.m.
Audio Available from Governor Snyder's Tele-Town Hall

FOR IMMEDIATE RELEASE
January 28, 2016
Release #: 21

Flint, Mich. - As efforts continue to ensure Flint residents have safe drinking water, Governor Snyder last night held a live tele-town hall where he and other state officials fielded questions from residents on the state's actions. A recording of the conversation can be heard here<https://www.youtube.com/watch?v=nSLyrspo1FU&feature=youtu.be>.

One of the most visible aspects of the response continues to be the distribution of bottled water, filters, water replacement cartridges and water testing kits by National Guard members at five of the city's fire stations.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

* 207,055 cases of water
* 97,342 water filters
* 30,801 water testing kits

Water response teams also continued door-to-door delivery efforts. Today, 125 American Red Cross and other volunteers visited 1,768 homes providing free bottled water, filters, water replacement cartridges and water testing kits.

Earlier this afternoon, a coalition of public-private partners announced Flint's coordinated recycling program for empty water bottles and used water filter cartridges. Residents can learn more here<http://www.michigan.gov/documents/flintwater/Flint_Recycling_Information_Handout_512267_7.pdf?20160128182706>.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International<http://www.nsf.org/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf/> for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website<http://www.nsf.org/>.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, by calling 211 or visiting www.helpforflint.com<http://www.helpforflint.com/>.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com<http://www.helpforflint.com/>.

A supporter of Donald J. Trump in Des Moines on Thursday. With Mr. Trump absent from the Republican debate, Ted Cruz and Marco Rubio traded ferocious attacks. Damon Winter/The New York Times

Your Friday Briefing

By ADEEL HASSAN

Good morning.

Here's what you need to know:

• Dueling stages for Republicans.

With Donald J. Trump hosting his own event three miles away, Ted Cruz and Marco Rubio traded ferocious attacks during a seven-man Republican debate in Des Moines.

We've fact-checked their claims and compiled a list of Mr. Trump's insults during the campaign.

There's no consensus on who won last night, the final chance for Iowa voters to see presidential candidates together before the caucuses on Monday.

And The Times has produced a virtual reality film from footage of presidential campaign events taken over the past month.

• Syrian peace talks in jeopardy.

Leaders of groups opposed to President Bashar al-Assad say they will not travel to Geneva to attend U.N.-brokered peace talks today unless the government stops its siege of rebel-held areas.

The development further complicates an already-delayed plan to keep the opposing sides in separate rooms while negotiators shuttle between them, and it raised more doubts that they are anywhere close to making compromises to reduce the suffering of civilians.

• Worries about the Olympics.

Foreign visitors are expected to pour into Brazil for the Olympic Games in August, and they may be at risk of getting infected with the Zika virus at a time of peak activity for mosquitoes, which transmit the virus.

Infectious diseases specialists are focused on the risks to the U.S. because as many as 200,000 Americans are expected to travel to Rio de Janeiro.

• Action on pay equity.

The White House is expected to announce today a requirement that companies break down pay for employees by race, gender and ethnicity, part of a push by President Obama to crack down on those that pay women less for doing the same work as men.

The rule, Mr. Obama's latest bid to use his executive power to address a priority that Congress has resisted, would be required for companies with 100 employees or more.

• **The standoff in Oregon.**

As the armed occupation of a federal wildlife refuge continues by a few followers of Ammon Bundy, he and seven others are scheduled to appear today in federal court to face charges related to their antigovernment protest.

Mr. Bundy and his colleagues were arrested this week during a traffic stop, and the F.B.I. has released a video that shows one of the protesters being shot and killed by Oregon State Police troopers.

• **On Capitol Hill.**

Senate Democrats are seeking $600 million in federal aid to help Michigan clean up contaminated water in Flint, where residents still don't know when the situation will be resolved.

Separately, a Senate report concludes that the Department of Health and Human Services placed more than a dozen immigrant children in the custody of human traffickers after failing to conduct background checks.

BUSINESS

• **Japan's central bank** unexpectedly introduced a negative interest rate today for some deposits that it holds for the country's commercial banks.

The bank said that setting the rate at minus 0.1 percent was needed to help stimulate the economy.

• **Xerox** will be the next big U.S. corporation to split.

• **Mattel** says it expects to have curvy, petite and tall versions of Barbie on shelves in March, in an attempt to broaden the iconic doll's demographic appeal.

• **Here are snapshots** of the U.S. and world markets.

NOTEWORTHY

• **Campus notes.**

More than a dozen universities in the South include questions about arrests on their admissions forms. That's prompting an inquiry by a civil-rights group, which says such questions unfairly penalize minorities.

Separately, U.S. universities, led by Stanford, raised a record $40.3 billion in 2015.

• **New fiction.**

Among this week's releases are Melanie Benjamin's "The Swans of Fifth Avenue," Rachel Cantor's "Good on Paper," Sebastian Faulks's "Where My Heart Used to Beat" and Ingrid Betancourt's "The Blue Line."

• **At the movies.**

The disaster film "The Finest Hours," opening today, is based on a real-life 1952 rescue of men aboard a tanker in a brutal storm.

And the distribution rights for "The Birth of a Nation," a slave-revolt drama, has sold for $17.5 million, a record at the Sundance Film Festival.

• **New sounds.**

Rihanna's "Anti" is out, and our pop music critic calls it " a chaotic and scattershot album."

"This Is Acting," by the singer-songwriter Sia, includes songs that she wrote for Rihanna and Adele and will be released today. She ended up keeping the songs for herself when they declined them.

• **In memoriam.**

Paul Kantner, 74, a member of Jefferson Airplane and its successor, Jefferson Starship, has died. He wrote many of the songs for the band, which will receive a Lifetime Achievement Grammy Award in the spring.

• **Heroics.**

Susan Jordan, an Indianapolis elementary school principal, pushed her children out of the path of an oncoming school bus this week, but was herself killed.

BACK STORY

"Hooray for Politics," an exhibition at the National Museum of American History in Washington, opens on Monday, just in time for the Iowa caucuses.

late 1800s. Until then, votes were recorded in a number of ways: by voice, some form of ballot or even objects placed in a container.

The new mechanical contraption required its user to pull a lever that simultaneously drew a privacy curtain and unlocked a handle used to record votes with internal counters.

The machines saved time and money, and, in theory, made counts more accurate.

Their use spread, and in the 1960 presidential election, half the votes were cast on gear-and-lever machines.

But by 2000, they were falling out of favor. A congressional study of the presidential election that year found that many votes were not counted because of outdated equipment and other problems.

In the Internet age, some are wondering when voting will move online.

David Pogue, our former technology writer, explains that concerns about security (namely, the threat of hackers) mean we aren't quite ready for that yet.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/28/16 – 24th Day (23rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 23
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today. (Provide earlier by GIS)
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provide earlier by GIS)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- We continue to send ARC teams to targeted areas potentially missed.
- Collins Road SEOC will be shutdown. New SEOC at 7150 Harris Drive in Windsor Township (former GOB) will be activated for SEOC staff only. All EMHSD admin personnel will start at the new facility on Monday.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- MSP HQ staff completed data entry on all ARC paper copies.
- Recovery Staff attended local Community Partners Meeting.

- Recovery Branch worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required "for Red Cross teams.
- SEOC Logistics researched possible warehouse options with the local EOC, FEMA and General Motors.
- We have a corporate owned (originally thought to be a franchise owned) Kroger that is no longer in business near Fire Station 6. Looking to get a lower cost for potentially use.
- Received an inquiry regarding potential scams being perpetrated on residents of Flint. This information was referred to the Attorney General's office for a possible news release and further action.
- Issued a media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. Used social media to promote the event as it occurred.
- SEOC Operations coordinated water pitcher request for vulnerable population.
- Information reported to the JIC:
    - As of 1/28/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/28/2016
30,770	37,844	6,734	1,768

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	207,055
b. Filters	97,342
c. Filter cartridges	201,848
d. Test kits	30,801

3. Resources purchased:
    a. Cases of water 1,980,504 Liters (additional 517,152 Liters donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/28/16, as of 5 pm, 1,768 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 6,734
3. **Total number of National Guard on the ground:**
    a. 73
        i. Number in PODs: 58
        ii. Command Cell: 6
        iii. Cyber Mission: 3
        iv. Joint Forces Headquarters: 5
4. ***Total Number of Volunteers each day:***
    a. 125 volunteers for 1/28/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	25,221

Active residential water subscribers	26,673	20,788

6. **Number of Water filters distributed (each day and to date):**
    a. 1,806 were distributed on 1/28/2016, and total distributed to date is 97,342.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 8,428 were distributed on 1/28/2016, and total distributed to date is 207,055.
8. **Number of testing kits distributed (each day and to date):**
    a. 466 were distributed on 1/28/2016, and total distributed to date is 30,801.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 3,726 water samples out of 3,972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Planning for transition of operational control to local level.
- Discussed transition and demobilization of EOC support team with SEOC staff, Genesee County Sheriff's Office and Genesee County Emergency Management & Homeland Security.
- Identifying and securing additional warehouse space.
- Implementing recycling program. Promoted program at a press conference with Lt. Gov. Calley.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.
- Continuously addressing public concerns over perceived fraud through door-to-door teams.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/27/16 – 23rd Day (22nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- *Receive, store, and increase quantities of supplies.*
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep 22
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today. (Provided earlier by GIS)

- The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
- Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provided earlier by GIS)
  - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
  - ARC teams are targeting the homes we show that were not visited.
- Information provided to the Governor's Office (Paul Smith) for an extension to the Governor's Declaration of an Emergency. This has to be approved by both houses of the legislature. The extension will put us on the same timeline as FEMA's declaration.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery Branch compiled a list of targets for apartment complexes. Once plan is in place, a team will go to each complex and verify all tenants have been given or have a water filter. Once outreach has taken place for each complex, GIS will manually mark entire parcel as complete.
- SEOC Logistics worked with the Michigan Community Service Commission on donations management and volunteers
- GIS coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.
- GIS coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Planning and Financial provide information for Senate Appropriations Committee meeting this afternoon.
- Financial Reviewed donations as match guidelines for required 25% federal match.
- Information reported to the JIC:
  - As of 1/27/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Total	Targeted Canvassing Mission 1/27/2016
30,770	37,844	4,966	1,020

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

3. Resources purchased*:
   a. Cases of water 165,042 (additional 32,234 donated)
   b. Filters 154,052
   c. Filter Cartridges 299,508
   d. Test kits 62,701
4. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/27/16, as of 5 pm, 1,020 homes were visited today.
2. **Total number of homes visited:**
    a. *Targeted Canvassing Mission: 4,966*
3. **Total number of National Guard on the ground:**
    a. 73
        i. Number in PODs: 58
        ii. Command Cell: 6
        iii. Cyber Mission: 3
        iv. Joint Forces Headquarters: 5
4. **Total Number of Volunteers each day:**
    a. 109 volunteers for 1/27/2016.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	22,939
Active residential water subscribers	26,673	19,677

6. **Number of Water filters distributed (each day and to date):**
    a. 971 were distributed on 1/27/2016, and total distributed to date is 95,417.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,592 were distributed on 1/27/2016, and total distributed to date is 196,456.
8. **Number of testing kits distributed (each day and to date):**
    a. 341 were distributed on 1/27/2016, and total distributed to date is 30,255.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People Tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 2,991 homes, per data from September 3, 2015 to January 27, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

GIS Information

AS OF **1/27/2016** AT 5 p.m. USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,238** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **34,849 (91%)** of the parcels have been engaged (e.g. face to face, left an information card, etc.) as part of response efforts
- **22,939 (60%)** of the parcels have been confirmed to have some form of filter
- **10,723 (28%)** of the parcels have volunteered for water testing sites
- **4,918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29,994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** residential parcels that have the ability to use the Flint Water System. Of these

- **25,457 (95%)** of the parcels have been engaged as part of response efforts
- **19,677 (74%)** of the parcels have been confirmed have some form of filter
- **9,561 (36%)** of the parcels have volunteered for water testing
- **3,718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)

Local EOC

- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.
- Coordinating rapid response deliveries to identified locations.
- Coordinating demobilization of vehicles and technology.
- Working to implement recycling program. Press conference scheduled for 01/28/2016.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as they were not using the door to door App as directed. This data will further clarify areas covered/not covered by any teams.
- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:
    - As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass MissionTotal	Targeted Canvassing Mission 1/26/2016
30,770	37,844	**3,946**	1,350.

2. *Distributed:*

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. Total number of customers on the Flint water system
    a. *29,994 current water system subscribers*
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams – Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. **Total number of homes visited:**

a. Targeted Canvassing Mission: **3,946**

3. **Total number of National Guard on the ground:**
   a. 68
      i. Number in PODs: 58
      ii. *Command Cell: 6*
      iii. Cyber Mission: 3
4. **Total Number of Volunteers each day:**
   a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
   a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
   a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
      *this data is updated bi-monthly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
       *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
    - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
    - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
    - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
    - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016

30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. *29,994 current water system subscribers*
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. Filter Cartridges 285,586
   d. Test kits 62,701

   * Numbers have not been updated due to the following circumstances:
   - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
   - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
   - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

<u>Standing Information Requirements</u>

1. **Number of homes visited each day:**
   a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
   a. Phase II: 37,844
   b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
   a. 65
      i. Number in PODs: 60
      ii. Command and Control Staff for NG Personnel: 5
4. **Total Number of Volunteers each day:**
   a. *135 volunteers for 1/25/2016.*
5. ***Number of homes with filters:**
   a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.

8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. *We have 30 days to appeal and EMHSD staff is gathering information for the appeal.*

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- *School for the Deaf*
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.

- As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.

- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. *Total number of customers on the Flint water system*
   a. 29,944 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. Filter Cartridges 285,586
   d. Test kits 62,701

5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
   a. *1/24/16, as of 5 pm, 11,144 homes were visited today*
2. **Total number of homes visited:**
   a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
   a. 276
      i. Number in PODs: 65
      ii. Number on Cyber Mission: 3
      iii. Number with FWRTs: 185
      iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**

a. 315 volunteers for 1/24/2016.

5. ***Number of homes with filters:**
   a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. ***Number of Water filters distributed (each day and to date):***
   a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
   a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19^{h} Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration

- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

- As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
   a. Cases of water 130,782 (additional 21,682 donated)
   b. Filters 115,700
   c. Filter Cartridges 266,200
   d. Test kits 61,161

4. Teams going out tomorrow:
   a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
   b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
  - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.

- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.

- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. *Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).*
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. *18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team*
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.

- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- *Prepare plans for next phase of operation – Second sweep of city*

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the *Total Dissolved Solids (TDS) meters and citizens' concerns* with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead *the federal response in Flint.* Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

- As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)

b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
  01/16/16
    - Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
    - IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
    - Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy

that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.

- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- *Information reported to the JIC:*

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:
  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed

- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. *We should have 14 for this Sunday. We are working on how we can increase this output.*
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- *SitRep 9*

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.

        - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- *Receive, store and increase quantities of supplies*
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - *1,300 – Zero Water pitchers*
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support

- The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities

to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.

- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>
Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

<u>MSP/EMHSD GIS Section Updates</u>

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- *Produced Filter Distribution Map.*
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

<u>Local Emergency Operations Center</u>

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

<u>Update 1/8/16</u>

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:

- Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
- Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
- Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
- Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- *Deployed two EMHSD/SEOC liaisons to assist the local EOC.*
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies

- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.

- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Water Resource Sites Open Daily from 9 a.m. – 9 p.m.
Audio Available from Governor Snyder's Tele-Town Hall

FOR IMMEDIATE RELEASE
January 28, 2016
Release #: 21

Flint, Mich. – As efforts continue to ensure Flint residents have safe drinking water, Governor Snyder last night held a live tele-town hall where he and other state officials fielded questions from residents on the state's actions. A recording of the conversation can be heard here.

One of the most visible aspects of the response continues to be the distribution of bottled water, filters, water replacement cartridges and water testing kits by National Guard members at five of the city's fire stations.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 207,055 cases of water
- 97,342 water filters
- 30,801 water testing kits

Water response teams also continued door-to-door delivery efforts. Today, 125 American Red Cross and other volunteers visited 1,768 homes providing free bottled water, filters, water replacement cartridges and water testing kits.

Earlier this afternoon, a coalition of public-private partners announced Flint's coordinated recycling program for empty water bottles and used water filter cartridges. Residents can learn more here.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

Good evening,

The CDC has provided the attached documents to us to post to the Flint Water website. They are provider specific:

Guidelines for Pregnant Women
Educational Interventions for Children

Currently, we have two provider documents under 'In Your Body'. We can place these there, or create another tab for 'Resources'? I defer to you!

Thank you,

Angela

Flint Water Daily Update
Updated Jan. 28

Current Issues Talking Points

Michigan Legislature approves immediate supplemental funds for Flint

- The Michigan Legislature has unanimously approved Gov. Rick Snyder's $28 million supplemental proposal for Flint.
- This emergency funding is in addition to the $9.35 million allocated back in October to switch the water source back to Detroit's water system, purchase filters and screen for abnormal blood lead levels.
    - The state is working on longer-term funding to be included in the Governor's budget request in February.
- The $28 million will be used to help Flint's utilities, treating Flint children with high blood lead levels and the replacement of plumbing fixtures in schools, child care centers, foster care and nursing homes.
- This supplemental funding is just one part of the solution for healing Flint.
    - The immediate needs will be met, but so will the long-term needs of residents with regard to public health, infrastructure replacement and community support.

Flint emergency declaration extended to April 14

- Today Gov. Rick Snyder issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.

- The Michigan House and Senate approved the request, extending the emergency until April 14, 2016.

    - This extension coincides with the current Presidential Emergency Declaration.

- Extending this emergency will help us continue providing immediate assistance to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

Federal funds

- In an interview today, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.
- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.
- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

Comprehensive Plan for Flint

- Yesterday, the Governor held a press conference in Flint to outline next steps for the city, including infrastructure needs and clean water.
- Later in the day, Dr. Mark Edwards, who is part of the Governor's newly appointed Flint Water Interagency Coordinating Committee, echoed Governor Snyder's sentiments on how to fix the water issue and how to deal with the pipes.

Medicaid/Federal Asks

- On Jan. 26, Governor Snyder announced that a request will be sent to the federal government that asks for all Flint residents under age 21 to receive additional healthcare services to address potential problems brought on from exposure to lead.
- We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts.
- Request will include:
    - Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level.
    - Lead-abatement programs to help minimize and/or prevent any long term adverse health problems associated with lead exposure.
    - Additional, community-based resources to ensure all children, regardless of health insurance coverage, have access to comprehensive medical treatment.

Subject: 2-1-1 Update Flint Water Response for Thursday, January 28, 2016
Attachments: 2016-01-28 MI211 Flint Water Daily Update.docx

Note: Tomorrow's (Friday) will be delayed due to a prior commitment in Manistee. I will make every effort to get an update out later in the evening, but may not be able to compile information until Saturday.

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, January 28, 2016

GENERAL INFORMATION:

- **FOLLOW UP:** 2-1-1 was hit hard in the aftermath of last night's robo-townhall by Gov. Snyder and the nationally broadcast town meeting with Rachel Maddow on MSNBC. Calls from Flint are becoming longer and expressing more frustration. We received word that some state government outreach materials are directing residents to call 2-1-1 "to share their feelings and ideas". We are working to track down the specific source for this, but it is important to clarify ***2-1-1 is an information and referral service, not a chat line.*** Flint residents clearly need a venue for sharing their feelings and ideas, but 2-1-1 is not equipped to collect or act on this information – using the service for this purpose prevents other callers from receiving the assistance they need.

CALL VOLUME:

The Michigan 2-1-1 system experienced much higher than average call volumes today. Seasonal demand for tax preparation scheduling and assistance are a major source of calls, in addition to over 600 calls from utility assistance customers who received notice that they are no longer eligible for a Michigan Energy Assistance Program that helped in past years with heating expenses. With 14,000 households receiving notices they are being dropped from the program, we anticipate demand from these utility customers will remain high for several more days, particularly in SE Michigan.

The Michigan 2-1-1 providers are working together to address system capacity challenges and to meet quality service expectations. Temporary staff are being added in some locations, but space restrictions limit the number of additional agents who can be added on-site. The 2-1-1 technology platform is highly flexible, requiring only an internet connection and a direct-dial phone number to receive calls. Available options to address the capacity need are 1) deploying regular 2-1-1 staff to work from home; 2) utilizing volunteers to take Flint water calls from an outside location; or 3) contracting for staff from 2-1-1 providers in other states. Each option has training, supervision and cost implications for 2-1-1s and our funding partners to consider.

SPECIAL NEEDS/REQUESTS

- Residents have heard news reports that initial lead and copper test results have been posted. They are calling 2-1-1 for results. 2-1-1 is not sharing individual results, but is instructing these callers to visit http://www.michigan.gov/flintwater and click on the report under the 'In The Home' link.

RUMOR CONTROL

- 2-1-1 continues to receive a number of calls regarding the rumor that Sparklett bottled water is contaminated with lead. Callers are informed that MDEQ has tested all bottled water sources and confirmed they are lead- and copper-free.
- A member of the Communications team at 2-1-1 partner Michigan Association of United Ways shared a link from Twitter and Facebook account 'BrownBlaze' based in Milwaukee with posts stating:

- ☐ "Flint residents are barred from selling their homes and moving their families bc it is illegal to sell with a known lead or copper issue."
- ☑ CPS is threatening to remove children from homes with water issues. **Note:** This rumor has been documented by fact-checking web site Snopes.com as "FALSE".
- ☐ "Undocumented immigrants in Flint aren't just being denied clean water, they aren't being tested for lead poisoning." This tweet included a link to a story about undocumented residents facing ICE raids: http://grist.org/cities/its-not-just-clean-water-flints-undocumented-immigrants-cant-access-medical-lead-testing/

Michigan 2-1-1 forwarded these links to SEOC for response.

UNRESOLVED

- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
- ☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
- ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
- ☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

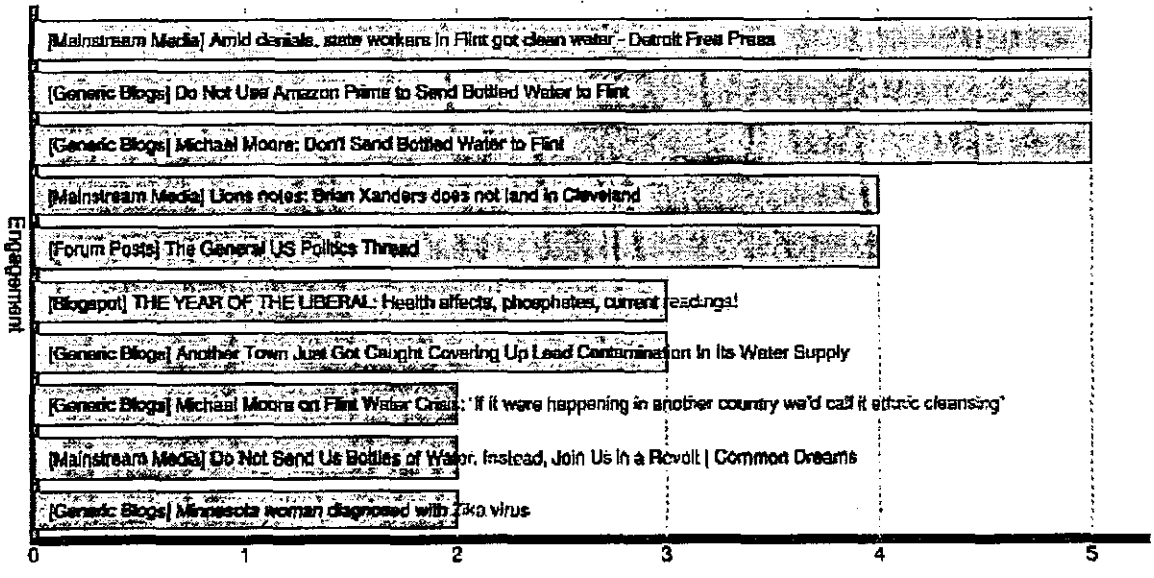
Daily Social Summary: Top Stories Flint Water from Radian6

This is an automatically generated daily report utilizing Radian6 showing two items: (1) Top 10 trending social and online news stories for the day and (2) social media content and news stories manually flagged by the JIC social media admin.

Contact Chad Wiebesick, Director of Social Median and Interactive Marketing at MEDC, wiebesickc@michigan.org if there are any *questions*.

Daily Top 10 Trending Stories

This is a collection of the Top 10 stories published online and/or shared on social media. The Radian6 tool monitors both the social web (Facebook, Twitter, blogs, forums, etc.) and also online mainstream news outlets (e.g. NewYorkTimes.com, WSJ.com, MLive.com etc).



Flagged Social Content and News Stories

This is a collection of social content, online trending stories, online videos and other items across the social web flagged by the JIC social media manager. These items were flagged because they were deemed significant or were noteworthy in some fashion. Keep in mind there are more than 1,000 tweets per hour around the Flint water emergency.

Subject: Thursday, Jan. 28 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | THURSDAY, JANUARY 28, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Today, the Michigan House and Senate passed Governor Rick Snyder's $28 million request for additional recovery resources for Flint. But the Governor noted that this supplemental funding is just one part of the solution for healing the city. The immediate needs will be met, but so will the long-term needs of residents.

The $28 million will be used to help Flint's utilities, treat children with high blood lead levels, add nurses to schools, and replace plumbing fixtures in schools, child care centers, foster care, and nursing homes. Click here to learn about the details in the supplemental budget.

Governor Snyder intends to sign the legislation tomorrow and you can watch the bill signing here: www.mi.gov/SnyderLive

The Governor also issued a proclamation today calling for an extension to the emergency declaration in the city of Flint and Genesee County. While the emergency response has been critically important in Flint's recovery efforts, there is still much more work to be done.

Since January 9, our water resource teams have been delivering critical clean water resources:

- 196,456 cases of bottled water
- 95,417 filters
- 30,255 water testing kits

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters

- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6

Subject: Daily Social Summary - Flint Water Emergency

JIC - Below is a summary as of 3 pm:

- The volume of online news stories and chatter is **declining**. Last week there was an average of 1,000 tweets/hour; this week there is 500 tweets/hour.
- The **negative sentiment is decreasing**, as public opinion is shifting towards volunteering, donating water and making a positive impact. 83% of the postings are negative, down from 88% last week.
- 27% of the online coverage is international. This is the same as last week.
- There are approximately 13,000 postings per day about the Flint water emergency (on social media, discussion forums, blogs, mainstream news websites, etc.) The peak was during the State of the State address.
- topics that people are talking about today include: (1) Pistons owner donating $10 million, (2) Senate Democrats seeking $600 million (3) Michigan approves $28 million (see Word Cloud)

HAPPY MOVE DAY!!!

General Information

LLY here. Meet you at the new location on Monday February 1, 2016!!

ill be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale Office Building – GOB) on Friday, January 29, 2016.

NED to work in the SEOC on Friday, January 29 for the Flint Water ort to the new facility at 8 a.m.

ard area and enter at the main entrance of the GOB (see attached parking and staff will be on site by 7:45 a.m. to greet and escort you to the new SEOC.

all learn our way around, and with new equipment. It may be necessary for us to tions of computers in the SEOC; therefore, your position may not be located in its n until early next week.

those working within the SEOC, it is important that you secure documents and files the PC's or desktops at Collins Road by saving to a memory stick or you may also in the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most ferent PC, and we want to ensure you have the files you need to continue operations as possible.

access card for Collins Road, by Thursday night. A container will be placed near the his purpose.

be established in the SEOC and will be provided as soon as permanent locations ecommend using your cell if someone needs to contact you.

EMHSD Staff not assigned to an SEOC position on Friday, January 29

By COB Thursday night, our janitorial staff will provide blue recycle bins throughout the building – marked for "trash". Please remove all trash by 10:00 am on Friday and place in these designated bins. She will also leave an extra trash bag in your office. Place this fresh trash bag in your wastepaper basket as this will be used to pack your PC accessories for transport.

Please report to Collins Rd at your normal time on Friday, Jan 29. This will be the final day in this building.

Jeans will be permitted on Friday, Jan 29 and Monday, Feb 1, if you are NOT assigned to the SEOC.

DTMB will begin tearing down computers early Friday morning, thereby making worktime on your PC uncertain. **Please accomplish tasks that need to be completed via your computer by COB Thursday.**

All EMHSD Staff that are remaining at Collins Road please report to the Kitchen at 8 a.m. Friday morning for a briefing. Friday will be used to scan the entire building to ensure all items are packed and ready for transport.

As noted previously, we **MUST** ensure there are no paperclips, staples, etc. left in our areas. All drawers, cabinets, shelves, and floors should be double checked. Refrigerators will need to be cleaned once again; NOTHING CAN BE LEFT BEHIND except for furniture that is not being relocated to Harris Rd.

An area has been designated in the kitchen for surplus....it is hopeful that you will not have much left by now, but if you run across small items that have been missed and are intended for surplus, please put them in this area. If it is a quality, useable item, please pack it for transport.

Please ensure you have updated your voice mail message with your new phone #, noting that it will be effective on Monday, February 1. You will be able to check voicemail from Collins Rd for a very short time once we move.

Please leave your ADT access card at the desk of Pam Strobel before you leave on Friday.

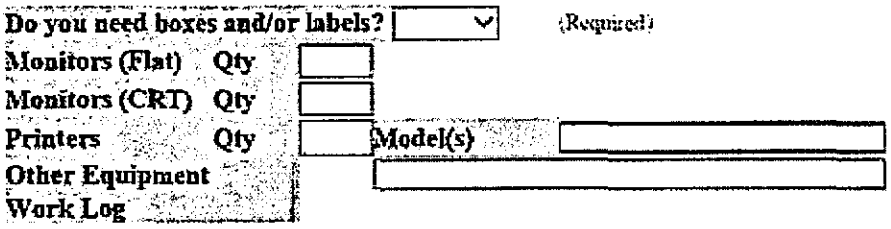
You will report at your normal scheduled time to 7150 Harris Drive, Dimondale, MI on Monday, February 1. **Please DO NOT come in over the weekend as the movers will be unpacking and placing items *throughout the weekend.***

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). Greeters will be on hand to welcome you to our new work site and find your designated workspace. Assistance will be available throughout the day to help with computers, phones, etc. if needed. A welcome mat will be on your desk indicating key items you need to be aware of. Please take a moment to look it over thoroughly.

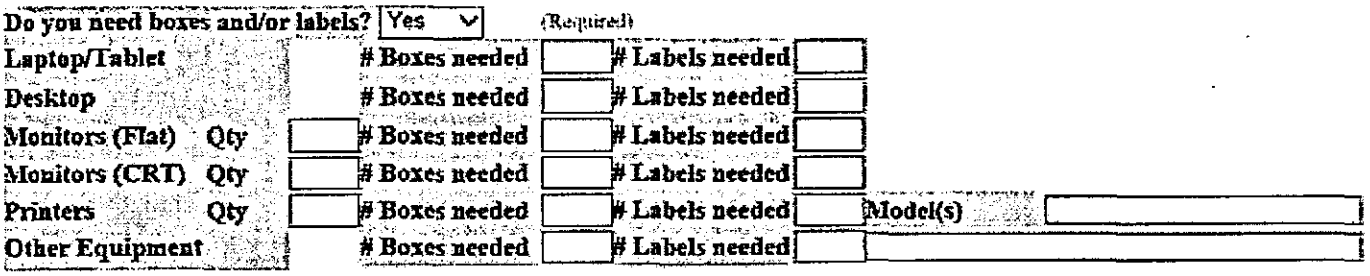
This has been a big project for all, and we are confident you will find the new division location a welcoming and efficient area to accomplish all that you do. Be patient as we become acclimated. New phones and new workspace will take time to get accustomed to.

FROM DTMB: In an effort to reduce shipping costs and increase efficiencies with the AARP process, additional information will be required on each AARP as follows:

1. A required "yes/no" drop down has been added to capture if boxes and labels are needed to return the assets to Depot
2. "Monitors" have been split into two categories "Flat or CRT" (quantity is still needed if you are returning monitors)
3. "Printers" remains the same (quantity and models are needed if you are returning printers)
4. "Other Equipment" remains the same (this field is used when you are returning items such as "box of mice and keyboards)



If you select "Yes" that boxes and labels are needed, the menu will expand allowing you to indicate the quantity of boxes and labels required, as well as, what device(s) the boxes and labels are for (this will in turn, allow Depot to send the correct box size).



These changes will be available on 1/29/2016.

Reminder: If you have shipping labels that you have received for previous AARP requests for the return of assets that you did not use for the designated assets, those labels need to be destroyed.

Labels are directly associated and are specific to each AARP. If you use a label with assets that the label is not designated for there is no way to track the shipment, resulting in the agency needing to file a lost and stolen report if there is an issue with the shipment *and we are unable to locate the asset.*

Additionally, there are plans to relocate Depot and the physical address on the old labels will no longer be accurate.

The AARP URL is http://aarp.state.mi.us/AARP/webWelcome.aspx.

If you have any questions, please contact Chris Nelson at nelsonc12@michigan.gov or 517.241.1142.

Employee Appreciation Committee:

Thinking....Thinking....Thinking

STAFF BULLETIN BOARD

- There is a staff "Suggestion Box" on the table across from Diane's desk. How about suggesting some EMHSD Team stress relievers??
- If you want to join the water fund, it is $5.00 a month to Pam.
- Coffee club members pay $5.00 a month to Joel Pepper.
- Trevor Hawks is the keeper of the EMHSD calendar. Please send items to him. We're avoiding conflicts and showing people how busy we are.
- The EMHSD INTERNAL PHONE LIST is for Staff Use Only – Please send revisions to OG.
- Remember to use MI HR to update your personal information with the SOM. This includes your address, emergency contact numbers, and beneficiaries. Welcome to the MI HR Gateway

Subject: NEWS UPDATE--Flint Supplemental Heads To Snyder

GONGWER Michigan
The Capitol Record Since 1906

Thursday, January 28, 2016, 12:57 PM

Flint Supplemental Heads To Snyder

The House today gave final approval to the $28 million supplemental appropriation for Flint to aid in its efforts to combat the water crisis, with a focus on providing services for children with lead poisoning.

The House concurred in the Senate substitute for HB 5220 106-0.

The bill saw some changes as the amount of water bottle donations to Flint prompted the Senate to move $1.75 million from the Department of Health and Human Services for more water to the Department of Education for Early On Program assessments for babies and toddlers.

The bill will now go to Governor Rick Snyder for his signature.

Gongwer News Service will have more on this story in Thursday's Michigan Report.

FOR IMMEDIATE RELEASE
Thursday, Jan. 28, 2016

Gov. Rick Snyder: Flint emergency declaration extended to April 14

LANSING, Mich. – Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.

"The emergency response in the city of Flint has been critical to ensure every Flint family has access to bottled water, filters, and testing kits. While these efforts have a big impact in the short term, there is still much more work to be done.

"Extending this emergency will help us continue these efforts while working on long-term solutions to help Flint recover from this tragedy."

The Michigan House and Senate approved the request today, extending the emergency until April 14, 2016. The extension coincides with the current Presidential Emergency Declaration.

FOR IMMEDIATE RELEASE
Thursday, January 28, 2016

$28 million in immediate supplemental funds for Flint approved by Michigan House, Senate

Funding passed unanimously in both chambers

LANSING, Mich. – Twenty-eight million in direct funding will aid with recovery efforts in Flint, after the Michigan House and Senate unanimously voted to pass a supplemental bill package today.

"Thanks to the swift action of the Legislature, this $28 million will provide the immediate resources needed in Flint," Snyder said. "I want the residents of Flint to know this supplemental funding is just one part of the solution for healing the city. The immediate needs will be met, but so will the long-term needs of residents with regard to public health, infrastructure replacement and community support.

"The quick approval of this funding shows how all of Michigan can pull together in times of crisis, and further shows what working together can accomplish."

The supplemental will allocate funding to:

- Supply free bottled water, faucet filters, and testing kits for Flint residents;
- Put nine nurses in local schools to monitor student health and well-being;
- Provide better nutrition for students and infants through WIC and in-school nutrition programs;
- Replace fixtures in schools, daycares and nursing homes;
- Provide for an infrastructure study using independent experts;

- Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
- Help the city of Flint relieve residents of water bill payments.

Gov. Snyder asked for the $28 million during his State of the State address on Jan. 19. Further recommendations on long-term budget resources for Flint will come during his annual budget presentation on Feb. 10.

Kaitlynn Colbert, Communications Specialist at Michigan Association of United Way, shared the link below to a series of tweets and Facebook posts from a woman in Milwaukee who is making statements that appear to be incorrect including:

1. Flint residents are barred from selling homes with a known lead/copper issue
2. CPS is threatening to remove kids
3. Undocumented residents cannot get water AND face ICE raids.

Can SEOC respond with accurate information?

Thanks,
Tom

Subject: NEWS UPDATE--Flint Supplemental Clears Senate

GONGWER Michigan
The Capitol Record Since 1906

Thursday, January 28, 2016, 11:00 AM

Flint Supplemental Clears Senate

A supplemental appropriations bill containing about $28 million for the city of Flint and its recovery efforts for children with lead poisoning from their drinking water unanimously cleared the Senate today.

A total of six departments are affected by the bill: Education, Health and Human Services, Environmental Quality, Military and Veterans Affairs, Licensing and Regulatory Affairs and State Police.

The bill will head back to the House for concurrence since the Senate moved about $1.75 million to Education from the money for the DHHS but will go to Governor Rick Snyder's desk thereafter. The funding shift came as legislators saw less of a need to purchase water given all those who have donated and that Michigan is purchasing it from the Federal Emergency Management Agency at a discounted rate.

Instead, the money is primarily intended to be used for Early On Program assessments of babies and toddlers.

The Senate amended the bill to have the Office of the Auditor General audit the use of the funds and report findings to the chairs of the House and Senate Appropriations committees.

Gongwer News Service will have more on this story in Thursday's Michigan Report.

GOV's ACTIVITIES

Flint water press conference

Governor Snyder commits to fixing Flint (WLNS)
The Governor's actions include increasing their physical presence in Flint with an office at City Hall, expanding Medicaid benefits to residents under the age of 21, and developing low interest loans for small businesses. With Flint residents concerned about the city's future, Governor Rick Snyder made sure to let the people know, it's crunch time.

Gov. Snyder unveils new plans to fix Flint water (Fox 2 Detroit)
Governor Rick Snyder was back in Flint Wednesday to roll out new programs to help people cope and recover during the ongoing toxic water crisis in Flint. But these new programs still haven't solved the problem of where the people of Flint can get flowing water that's safe to drink.

'Hero' Expert Marc Edwards to Oversee Flint Water Testing (NBC News)
The researcher who first uncovered lead in the water of dozens of homes in Flint, Michigan, and was pooh-poohed by government officials is now being brought in to determine when it's safe for people to drink from their taps.

Flint's Mayor, Governor Snyder Discuss New Approach to the City's Water Crisis (9&10 News)
Governor Rick Snyder met with the mayor of Flint Wednesday to discuss a new approach to the city's toxic water disaster. The state Department of Environmental quality say it's too soon to give people the go-ahead to start drinking unfiltered water.

Snyder appoints field experts to oversee long-term solutions for Flint water system (Crain's Detroit Business)
Michigan Gov. Rick Snyder on Wednesday appointed a group of medical and field experts, including a doctor and professor who helped expose the Flint water contamination crisis, to a committee charged with identifying long-term solutions.

Michigan governor appoints Flint whistleblowers to remedy water crisis (Washington Post)
Michigan Gov. Rick Snyder named a panel of experts Wednesday to help solve the city of Flint's water crisis, including

some of the very critics who forced local, state and federal governments to acknowledge dangerous levels of lead in the drinking water there.

Flint mayor expects $3 million from Gov. Snyder for water bill relief (Mlive)
Flint Mayor Karen Weaver is expecting $3 million in state funds will help to pay for residents water bills but whether that assistance comes in the form of refunds, forgiveness of past bills or future rate reductions hasn't been decided.

Gov. Snyder Forms Committee to Oversee Flint's Water Crisis (NBC News)
Michigan Gov. Rick Snyder has named a group of medical and field experts to a committee that will determine long-term solutions to fix Flint's water system and help residents who have been exposed to lead.

Few Answers on When Flint Will Have Clean Water Again (NY Times)
More than three months after officials declared that Flint residents should not drink the lead-tainted water from their taps, people who live here are still lugging bottled water from a Walmart or firehouse back to their homes, where they use it to drink, prepare food, brush their teeth and bathe their children.

Gov. Snyder pledges help to Flint amid mistrust of gov't (AP)
Flint residents coping with lead contamination will be cleared to drink unfiltered water again only when outside experts determine it is safe, Michigan Gov. Rick Snyder said Wednesday, acknowledging their mistrust of government officials while saying a full replacement of the city's pipes is not imminent.

Michigan Gov. Snyder says full replacement of Flint's lead pipes not imminent (Fox News)
Michigan Gov. Rick Snyder said Wednesday the full replacement of the Flint's lead pipes is not imminent despite the ongoing crisis of city's lead-poisoned tap water. Environmental and civil rights groups filed a lawsuit earlier in the day demanding the prompt replacement of all lead pipes in Flint's water system at no cost to customers. Snyder didn't rule at eventually replacing the lead service lines leading from water mains, but said it's a longer-term consideration.

Snyder lays out plan to make Flint's lead pipes safer (Freep)
Under mounting pressure to rip out and replace lead pipes that connect an estimated 15,000 or more customers to main water lines, Gov. Rick Snyder said at a news conference Wednesday that the state first intends to make the existing pipes safe by rebuilding a protective coating between the lead and the water.

Gov. Snyder names experts to study Flint water (WDIV)
Michigan Gov. Rick Snyder has named a group of medical and field experts to a committee that will determine long-term solutions to fix Flint's water system and help residents who have been exposed to lead.

Governor Snyder announces team to oversee Flint water system (Fox 47 News)
Gov. Snyder will name a group of medical and field experts to oversee long-term solutions to solve the Flint water crisis. The group will operate under the name of the Flint Water Interagency Coordinating Committee, and their goal will be to set up long-term solutions to fix Flint's water system.

UPDATE: Gov. Snyder on Flint water crisis: "It's a matter of trust" (WLNS)
Gov. Rick Snyder agreed that it is "a matter of trust" as efforts are made to fix the Flint water crisis.

Governor Announces Long Term Plans (WILX)
For the residents in Flint, enough is enough. "I was glad that the governor said these are just first steps because I'm asking for a staircase," said Flint Mayor Karen Weaver. "We need more, we want more, and we're working together to make that happen."

Long term lead pipe fix for Flint remains elusive (Fox 17)
Michigan Gov. Rick Snyder has named a group of medical and field experts to a committee that will determine long-term solutions to fix Flint's water system and help residents who have been exposed to lead.

Michigan Gov. Seeks Federal Loans, Expansion of Medicaid Coverage for Flint (WSJ)
Michigan Gov. Rick Snyder pledged more state assistance to address the lead-contamination crisis in Flint, as well as seeking federal loans and an expansion of Medicaid coverage for residents under the age of 21.

Interviews
Flint water crisis: 7 takeaways from CNN interview with Gov. Rick Snyder (CNN)
Embattled Michigan Gov. Rick Snyder says he's committed to dealing with the crisis that sent lead-poisoned water into homes in one of his state's poorest cities. In an exclusive interview with CNN's Poppy Harlow, Snyder spoke about the situation in Flint, his concerns about what happens next and his response to class-action lawsuits filed against the city and state.

Michigan governor: Flint water crisis could affect 'many more' kids (CNN)
It's too soon to know exactly how many children were harmed by lead-poisoned water in Flint, Michigan, the state's governor says. But officials are bracing for the possibility of a much higher tally than what blood tests have revealed so far. "There could be many more," Gov. Rick Snyder told CNN, "and we're assuming that."

On CNN, Snyder grilled on replacing lead pipes in Flint (Detroit News)
Gov. Rick Snyder said the safest thing to do for the health of Flint residents would be to replace all lead service lines in the city, but he stopped short of committing to full replacement Wednesday.

Flint meetings/tele-town hall
Michigan Gov: About 200 Flint kids have elevated blood-lead levels (AP)
Michigan Gov. Rick Snyder said officials have identified about 200 Flint children with elevated blood-lead levels since the city's water crisis was exposed in the fall. Snyder disclosed the figure during a tele-town hall event Wednesday with nearly 8,000 listeners. He said the state is working to ensure all kids are tested.

Gov. Rick Snyder, Rev. Jesse Jackson meet to discuss Flint water (Mlive)
The Rev. Jesse Jackson met with Gov. Rick Snyder today to discuss the city's water crisis, according to state officials. The meeting occurred Wednesday, Jan. 27, at the Northbank Center just prior to the first official meeting of Snyder's Flint Water Interagency Coordinating Committee, according to Snyder Press Secretary Dave Murray.

Polling
After the Flint water crisis, Michigan Gov. Rick Snyder is down but not out (Washington Post)
The numbers that Michigan Gov. Rick Snyder (R) and his team have been waiting for are out: His job approval ratings since the Flint water crisis became a national scandal. As we expected, they're not good.

Poll: Michigan thinks Snyder handled Flint badly (WOOD-TV)
A new poll shows the majority of Michigan residents think Gov. Rick Snyder has done a poor job responding to the water crisis in Flint. The EPIC-MRA poll released Wednesday found that 69 percent of respondents had an overall negative impression of Snyder's handling of the crisis, while 21 percent hand an overall positive impression and 10 percent were undecided or decline to respond.

Congressional hearing
U.S. House panel plans Flint hearing without Snyder (Detroit News)
The U.S. House Committee on Oversight and Government Reform will hold a hearing Feb. 3 about the Flint water crisis, a committee spokesman said Wednesday. Snyder said at a Wednesday news conference in Flint that he has not been contacted to testify before Congress on the Flint issue.

Congressman asks why Gov. Snyder isn't being called to Congress as town hall focuses on Flint (WXYZ)
A national talk show host held a special town hall meeting in Flint Wednesday night. Rachel Maddow was at Holmes

Stem Academy with 500 invited guests, focusing on what's next during the water crisis. Federal and state lawmakers, along with those who first discovered the elevated lead levels in the drinking water were on hand in the gym.

U.S. House doesn't invite Snyder to Flint water hearing (Freep)
A U.S. House Oversight and Government Reform Committee spokesperson confirmed Wednesday that the panel will hold Congress' first hearing on the Flint water crisis next Wednesday, Feb. 3.

LT. GOVERNOR'S ACTIVITIES

State leaders address painkiller, heroin addiction at conference (Macomb Daily)
More than 300 people listened to presentations from two top state leaders Tuesday about opioids-abuse, at a conference staged by Operation Rx in Macomb County. Michigan Lt. Gov. Brian Calley, chairman of the Michigan Prescription Drug and Opioid Abuse Task Force, and U.S. Attorney Barbara McQuade were highlighted speakers at the event held at Macomb Intermediate School District offices in Clinton Township. It was designed to help professionals and the public combat prescription drug abuse and heroin use.

Give Michigan Special-Needs Students Fair Access to the Best Options (Mackinac Center)
Last fall, Lt. Gov. Brian Calley took the helm of a group to recommend reforms to Michigan's special education system. For affected Michigan families looking for something better, one particular solution, unfortunately, lies out of immediate reach.

Flint Needs Long-Term Solutions To Unsafe Water, State Official Says (NPR)

FLINT

In Flint's wake, nationwide lead water testing methods questioned (Mlive)
In the wake of Flint's ongoing lead-contaminated water crisis, the protocol by which water utilities around Michigan and other states test for lead and copper in municipal drinking water under federal guidelines is being called into question.

Michigan cities beyond Flint have concerning lead water levels, data shows (Mlive)
All eyes are fixed on Flint as the crisis over lead in the city's drinking water supply has unfolded at an accelerating pace since 2014. But Flint is not the only municipal or private water supply in Michigan where the drinking water is testing at or above levels that researchers and public health officials consider to be the threshold for concerning exposure to a potent neurotoxin.

MSNBC's Rachel Maddow tells Flint 'America is with you now' in water crisis (Mlive)
Henadi Savage shook her as she watched a segment on MSNBC from Rachel Maddow's town hall meeting at Holmes STEM Academy in Flint. "This just make me angry," she mouthed, as a waitress dropped off the check at a large table filled up by her family at Luigi's Restaurant on Davison Road where a crowd of around 100 people looked up at televisions around the room.

MSNBC's Rachel Maddow holds Flint town hall (Detroit News)
MSNBC host Rachel Maddow opened her talk show at a live town hall Wednesday on the Flint water crisis saying, "This is a disaster of national proportions and the problem is not being fixed."

DETROIT

DPS police, protesters clash over demonstration (Detroit News)
Continuing frustration over conditions in Detroit Public Schools boiled over Wednesday when about 35 students from East English Village Preparatory Academy walked out at noon and ended up in a confrontation with district police.

Three arrested, several maced as DPS walkouts escalate (WJBK)

Police clash with students and demonstrators outside the East English Academy in Detroit as teens walked out of class, protesting a long list of problems plaguing the school district.

3 arrested in BAMN demonstration at Detroit school (Freep)
A teacher and two other people were arrested this afternoon during a confrontation with police at a student demonstration outside East English Village Preparatory Academy that was organized by members of a controversial civil rights justice group.

Teacher arrested, man pepper-sprayed during Detroit high school student protest (MLive)
A Detroit public school teacher and two adult activists were arrested Wednesday after they joined high school students in a walkout protest and march.

Detroit Federation of Teachers expected to make big announcement (WXYZ)
A major announcement is expected today regarding the Detroit Public Schools district. The Detroit Federation of Teachers says it's planning to make that announcement this afternoon around 2:30 p.m.

$28M emergency funding for Flint nears vote in state Senate (Michigan Radio)

The state Senate could vote as soon as Thursday on emergency funding to help address Flint's water crisis.

OPINION

Phil Power: Flint water and Detroit Schools raise doubts about emergency manager law (Holland Sentinel)

What you don't want is a solution that ends up aggravating the problem. But that seems to happen all too often. That's my skeptical — bordering on cynical — response to many of the well-intended brainwaves policymakers concocted to deal with problems, either in business or, more commonly, in public policy.

Jacques: For public workers, hard work to get fired (Detroit News)
The spotlight that's been on lead in Flint water and teacher "sickouts" at Detroit Public Schools has highlighted all sorts of problems within state government. And it got me wondering, what does it take for a public employee to get fired?

Editorial: EPA must release emails (Detroit News)
As details about Flint's water crisis continue to unfold, it's critical the public gets the truth from all parties responsible. It will help Flint residents recover from the trauma, and it will help inform elected leaders how to prevent this kind of problem in the future.

Many Michigan cities have higher lead levels than Flint (Detroit News)
Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

The path to truth, understanding, healing (Detroit Free Press)
In 2016, the truth about American history is still shrouded in fantasy, denial and guilt.

What's the point of environmental regulation? (Detroit Free Press)
Sprawling across 250 acres in southwest Detroit, the Marathon Petroleum refinery cranks through 123,000 barrels of oil per day.

AG Bill Schuette's Flint water review tainted by campaign donations (MLive)
The state's latest feeble attempt at an investigation into the Flint water crisis has us questioning whether Attorney General Bill Schuette is on duty for the people of Michigan, or for his political allies.

Community Coalition kicks off water bottle recycling program

January 28, 2016

Who:
A coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:

- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What:
Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When:
Thursday, January 28, 2016
11:30 a.m.

Where:
Fire Station #1
310 E. 5th St., Flint

- The press conference will take place behind the fire station near the water distribution station

Details:
Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/27/16 – 23rd Day (22nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep 22
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today. (Provided earlier by GIS)
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provided earlier by GIS)
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
    - ARC teams are targeting the homes we show that were not visited.
- Information provided to the Governor's Office (Paul Smith) for an extension to the Governor's Declaration of an Emergency. This has to be approved by both houses of the legislature. The extension will put us on the same timeline as FEMA's declaration.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery Branch compiled a list of targets for apartment complexes. Once plan is in place, a team will go to each complex and verify all tenants have been given or have a water filter. Once outreach has taken place for each complex, GIS will manually mark entire parcel as complete.
- SEOC Logistics worked with the Michigan Community Service Commission on donations management and volunteers
- GIS coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.
- GIS coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Planning and Financial provide information for Senate Appropriations Committee meeting this afternoon.
- Financial Reviewed donations as match guidelines for required 25% federal match.
- Information reported to the JIC:
    - As of 1/27/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Total	Targeted Canvassing Mission 1/27/2016
30,770	37,844	4,966	1,020

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

3. Resources purchased*:
    a. Cases of water 165,042 (additional 32,234 donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/27/16, as of 5 pm, 1,020 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 4,966
3. **Total number of National Guard on the ground:**
    a. 73
        i. Number in PODs: 58
        ii. Command Cell: 6
        iii. Cyber Mission: 3
        iv. Joint Forces Headquarters: 5
4. **Total Number of Volunteers each day:**
    a. 109 volunteers for 1/27/2016.
5. ***Number of homes with filters:**

	Total	Number with filters

	Number	
Residential parcels	38,238	22,939
Active residential water subscribers	26,673	19,677

6. **Number of Water filters distributed (each day and to date):**
    a. 971 were distributed on 1/27/2016, and total distributed to date is 95,417.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,592 were distributed on 1/27/2016, and total distributed to date is 196,456.
8. **Number of testing kits distributed (each day and to date):**
    a. 341 were distributed on 1/27/2016, and total distributed to date is 30,255.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People Tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 2,991 homes, per data from September 3, 2015 to January 27, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

GIS Information

AS OF **1/27/2016** AT 5 p.m. USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,238** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **34,849 (91%)** of the parcels have been engaged (e.g. face to face, left an information card, etc.) as part of response efforts
- **22,939 (60%)** of the parcels have been confirmed to have some form of filter
- **10,723 (28%)** of the parcels have volunteered for water testing sites
- **4,918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29,994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** residential parcels that have the ability to use the Flint Water System. Of these

- **25,457 (95%)** of the parcels have been engaged as part of response efforts
- **19,677 (74%)** of the parcels have been confirmed have some form of filter
- **9,561 (36%)** of the parcels have volunteered for water testing
- **3,718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)

Local EOC

- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.

- Coordinating rapid response deliveries to identified locations.
- Coordinating demobilization of vehicles and technology.
- Working to implement recycling program. Press conference scheduled for 01/28/2016.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as they were not using the door to door App as directed. This data will further clarify areas covered/not covered by any teams.
- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:

- As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass MissionTotal	Targeted Canvassing Mission 1/26/2016
30,770	37,844	**3,946**	1,350.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. *Total number of customers on the Flint water system*
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
   b. Filters 154,052
   c. Filter Cartridges 299,508
   d. Test kits 62,701
5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: **3,946**
3. **Total number of National Guard on the ground:**
   a. 68
      i. Number in PODs: 58
      ii. Command Cell: 6
      iii. Cyber Mission: 3
4. **Total Number of Volunteers each day:**
   a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
   a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
   a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**

*this data is updated bi-monthly

10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**

        *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
  - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
  - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
  - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:

a. Cases of water 141,982 (additional 24,634 donated)
b. Filters 124,052
c. Filter Cartridges 285,586
d. Test kits 62,701

* Numbers have not been updated due to the following circumstances:
    - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
    - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
    - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a. 65
        i. Number in PODs: 60
        ii. Command and Control Staff for NG Personnel: 5
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC
Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).

- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
  - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
  - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local

		4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a. 276
        i. Number in PODs: 65
        ii. Number on Cyber Mission: 3
        iii. Number with FWRTs: 185
        iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.

- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams

- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687

c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- *Working on finalizing a recycling plan for the incident.*
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)

- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - o <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.

• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.

- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

- We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
- We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- *SitRep* 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:
    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams—Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers

b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.

- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- *Continue to work on Governor's Declaration of an Emergency*

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- *Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement* of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.

- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs

- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- SitRep 6

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note
- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.

- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center
• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:
- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***

- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).

- GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.

- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
- Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and

trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- *Published the Incident Action Plan and continued assignment of objectives/tasks.*
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**

- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. *Investigate and identify all available programs for assistance with direct or related impacts, including the* federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC

- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Efforts Continue to Provide Safe Water Resources in Flint
1,020 Homes Visited Today by Water Response Teams

FOR IMMEDIATE RELEASE
January 27, 2016
Release #: 20

Flint, Mich. – Water response teams comprised of 109 city, county and state personnel, American Red Cross and volunteers continued door-to-door delivery efforts today visiting 1,020 homes. These teams are canvassing the city providing free bottled water, filters, water replacement cartridges and water testing kits to Flint homes not yet identified as having a water filter.

As part of the distribution process, residents seeking water filters and replacement cartridges are asked to share their address. This data is being collected and mapped in real-time to assist with long-term recovery and help water response teams know where to focus their door-to-door efforts. It is important to note that no resident will be denied resources if an address is not provided, and a photo identification is not required.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 196,456 cases of water
- 95,417 water filters
- 30,255 water testing kits

In addition to water response teams, water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

Subject: 2-1-1 Update Flint Water Response for Wednesday, January 27, 2016
Attachments: 2016-01-27 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, January 27, 2016

GENERAL INFORMATION:

- At 5:00 pm today Gov. Snyder held a Robo-Townhall with Flint residents. Approximately 8,000 community members participated. During the call an unknown number were cut off. They tried to call back in using caller id, but were unable to reconnect. Several very irate residents called 2-1-1 asking for a number to reconnect. Others called demanding to "take me off the governor's robocall list". By the time 2-1-1 was able to reach state partners to determine what was occurring, the Robo-Townhall was completed. State partners are working to determine if the call was recorded and if there will be link where the public can listen to the call.
    - One caller said Gov. Snyder referred to 2-1-1 "dozens of times". Managers and staff had to stay late without notice to take the additional calls, some of which lasted 30 minutes as angry callers vented on 2-1-1 staff who repeatedly had to explain that 2-1-1 is NOT part of the governor's office or a state agency.
    - Based on the anger and confusion expressed by callers, I asked the one of the PIO working at the SEOC to connect 2-1-1 to the governor's office to address how the state will refer to 2-1-1 and distinguish it as a service independent of state government. The PIO made the introduction and I was immediately contacted by the governor's Director of Communications who expressed a willingness to meet and ensure we have a system in place to coordinate information sharing between 2-1-1 and the governor's office so we can focus on the needs of Flint residents.

CALL VOLUME:

As noted above, there was an unexpected surge in call volume between 5:00 pm – 6:30 pm due to the Governor's Robo-Townhall. Otheriwise daytime call volume is slowly dropping as the seasonal increase for tax prep assistance stabilizes after the initial high demand.

SPECIAL NEEDS/REQUESTS

- **FOLLOW UP:** As noted in past updates, Michigan 2-1-1 been advised by DHHS to refer callers with concerns their children developing rashes from bathing to contact their primary care provider. With 2-1-1 as a partner with Michigan Association of United Ways on the "Children's Health Access Program" (MI-CHAP), MAUW contacted the Genesee County CHAP team to confirm they had the capacity to assist families that do not have a primary care provider. Moving forward 2-1-1 will tell callers *"If you don't have a primary care provider for your child, please contact the Genesee Children's Healthcare Access Program at 1-810-953-CHAP (1-810- 953-2427) for assistance in finding one".*

RUMOR CONTROL

- ☑ **Yesterday's report at on** www.Snopes.com titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?"*** *(http://www.snopes.com/flint-water-crisis-cps/)* has been thoroughly documented, debunked and is labeled **"FALSE".** MDHHS staff responded quickly and followed up with Snopes and provided a statement from Children's Services Agency Executive Director Steve Yager that,

    "MDHHS has not assigned a single Children's Protective Services complaint due to any issues related to Flint water. MDHHS works proactively to assist families whose water is shut off and to ensure families

have water filters and bottled water in Flint. When a family is without water, our goal is to help that family provide clean water for their children. That can be through assisting families in applying for State Emergency Relief, setting up plans for children to access safe water at a relative's home or providing bottled water. **We do not petition the court to remove a child solely for the lack of water in a family's home."**

- ☑ **Is there a contact in state government who is monitoring media who could feed news stories and updates to 2-1-1 to keep the system apprised of emerging stories?**
  - ☑ **UPDATE:** DHHS Communications staff are monitoring social media and responding to social media inquiries and leads as they are identified.
- ☑ Today a City of Flint resident called 2-1-1 reporting a social media post that said "Sparkletts 33.8oz contains lead". The 2-1-1 agent shared the information from the MDEQ statement that all sources of bottled water have been tested and MDEQ has confirmed they are all have undetectable levels of lead and copper.

UNRESOLVED

- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
  - ☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
  - ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
  - ☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

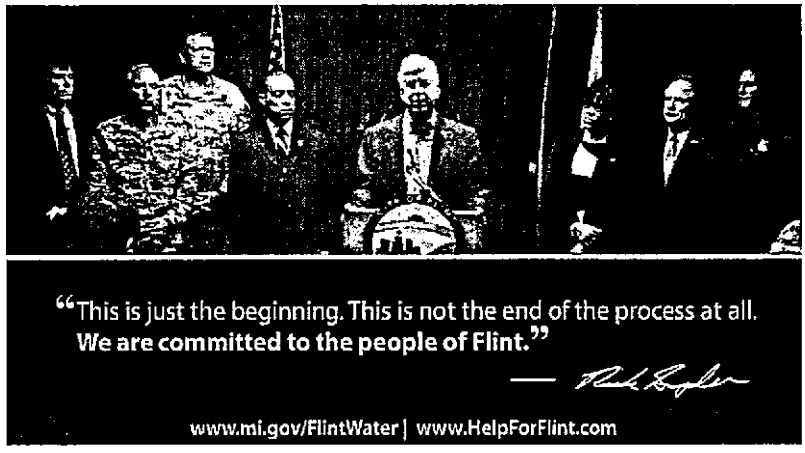
Subject: Wednesday Jan. 27 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | WEDNESDAY, JANUARY 27, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.



In Flint today, Governor Snyder held a press conference with Mayor Karen Weaver to announce a comprehensive effort to improve health, infrastructure, and economic opportunities. The goal is to make Flint a stronger city after the water crisis.

As part of that effort, the Governor announced that one of his top aides, Flint-native Rich Baird, will lead a team with an office in the city focused on improving the quality of life.

In addition, the Governor said that Professor Marc Edwards and Dr. Mona Hanna-Attisha, from Hurley Hospital, both instrumental in bringing to light the problems of elevated blood lead levels in the city, have agreed to be part of the Flint Water Interagency Coordinating Council (FWICC).

Click here to read more about the latest updates from Flint.

Since January 9, our water resource teams have been delivering critical clean water resources:

- 186,309 cases of bottled water
- 94,301 filters
- 29,841 water testing kits

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater

- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

Leix, Ron (MSP)

From: Strobel, Pamela (MSP)
Sent: Wednesday, January 27, 2016 4:47 PM
To: MSP-EMHSD-Division
Subject: It's Time to Move!
Attachments: GOB Parking and Entrance Map.pdf

It's That Time! It's Time to Move!!!

As you may be aware, the **State Emergency Operation Center (SEOC)** will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

All EMHSD staff ASSIGNED to work in the SEOC on Friday, January 29 for the Flint Water Emergency need to report to the new facility at 8 a.m.

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you to the new SEOC.

Please be patient as we all learn our way around, and with new equipment. It may be necessary for us to assign "temporarily" locations of computers in the SEOC; therefore, your position may not be located in its permanent sitting position until early next week.

It has been mentioned to those working within the SEOC, it is important that you secure documents and files you may have stored on the PC's or desktops at Collins Road by saving to a memory stick or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have the files you need to continue operations with as little interruption as possible.

Please return your ADT access card for Collins Road, by Thursday night. A container will be placed near the SEOC sign in-sheet for this purpose.

New phone numbers will be established in the SEOC and will be provided as soon as permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

EMHSD Staff not assigned to an SEOC position on Friday, January 29

By COB Thursday night, our janitorial staff will provide blue recycle bins throughout the building – marked for "trash". Please remove all trash by 10:00 am on Friday and place in these designated bins. She will also leave an extra trash bag in your office. Place this fresh trash bag in your wastepaper basket as this will be used to pack your PC accessories for transport.

Please report to Collins Rd at your normal time on Friday, Jan 29. This will be the final day in this building.

Jeans will be permitted on Friday, Jan 29 and Monday, Feb 1 if you are NOT assigned to the SEOC.

DTMB will begin tearing down computers early Friday morning, thereby making worktime on your PC uncertain. **Please accomplish tasks that need to be completed via your computer by COB Thursday.**

All EMHSD Staff that are remaining at Collins Road please report to the Kitchen at 8 a.m. Friday morning for a briefing. Friday will be used to scan the entire building to ensure all items are packed and ready for transport.

As noted previously, we **MUST** ensure there are no paperclips, staples, etc. left in our areas. All drawers, cabinets, shelves, and floors should be double checked. Refrigerators will need to be cleaned once again; NOTHING CAN BE LEFT BEHIND except for furniture that is not being relocated to Harris Rd.

An area has been designated in the kitchen for surplus....it is hopeful that you will not have much left by now, but if you run across small items that have been missed and are intended for surplus, please put them in this area. If it is a quality, useable item, please pack it for transport.

Please ensure you have updated your voice mail message with your new phone #, noting that it will be effective on Monday, February 1. You will be able to check voicemail from Collins Rd for a very short time once we move.

Please leave your ADT access card at the desk of Pam Strobel before you leave on Friday.

You will report at your normal scheduled time to 7150 Harris Drive, Dimondale, MI on Monday, February 1. **Please DO NOT come in over the weekend as the movers will be unpacking and placing items throughout the weekend.**

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). Greeters will be on hand to welcome you to our new work site and find your designated workspace. Assistance will be available throughout the day to help with computers, phones, etc. if needed. A welcome mat will be on your desk indicating key items you need to be aware of. Please take a moment to look it over thoroughly.

This has been a big project for all, and we are confident you will find the new division location a welcoming and efficient area to accomplish all that you do. Be patient as we become acclimated. New phones and new workspace will take time to get accustomed to.

Thanks for all of your patience and hard work. It takes EVERYONE to ensure a smooth move.

If you have any questions, please contact me.

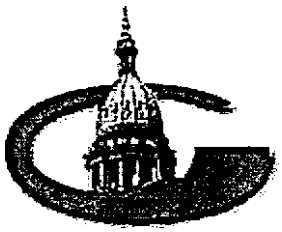
Subject: NEWS UPDATE--$28M Flint Supplemental Clears Senate Committee



GONGWER Michigan
The Capitol Record Since 1906

Wednesday, January 27, 2016, 02:55 PM

$28M Flint Supplemental Clears Senate Committee

A supplemental providing $28 million to the city of Flint to help with recovery efforts in the wake of its contaminated water crisis was unanimously reported today from the Senate Appropriations Committee with some changes in how the money is appropriated.

The biggest difference is the amount of money that had originally been provided to bottled water and water filters.

"We moved a little money out of the Department of Health and Human Services to the Department of Education for health assessment efforts," Sen. Dave Hildenbrand (R-Lowell), chair of the committee, explained of the S-1 substitute adopted by the committee.

Some $2.7 million was shifted to the Department of Education.

Other smaller but still noticeable changes were another $100,000 given to child adolescent health centers and an additional $1.3 million to Genesee County nutritional support. The gross appropriation of $28 million, and the amount of funding coming from the General Fund, has not changed.

Under an amendment adopted today to HB 5220, all kids zero to three will have an early on assessment done and paid for by the state. There are 4,500 children in Flint 0 to 3.

Gongwer News Service will have more on this story in Wednesday's Michigan Report.

Bathing in Water is Safe for Flint Children, Adults

FOR IMMEDIATE RELEASE
January 27, 2016
Release #: 19

FLINT, Mich. – The Michigan Department of Health and Human Services today reminded parents that it is okay to bathe in water from the Flint water system. The state is aware of concerns related to skin issues, but there is no known scientific link connecting rashes to the change in water source.

"Based on current testing and guidance from our federal partners, it's important to reiterate to families that bathing is safe for adults and children in Flint," said Dr. Eden Wells, chief medical executive with the MDHHS. "Naturally, people in Flint continue to be concerned about water quality and our department is working closely with officials from the Centers for Disease Control and Prevention as well as the local provider community to monitor all health issues that may be related to water. At this time there is no evidence to suggest this guidance should change."

MDHHS is currently recommending that bath time be used for bathing only, after which children should be taken out of the bath. Children should be supervised at all times while bathing and caution should be used to ensure that children do not drink the water. Any resident with concerns about a rash should contact their primary care doctor immediately.

Currently, rashes are only reportable to MDHHS when there is a suspect infectious disease such as measles or chickenpox. MDHHS, along with the local provider community, is working in partnership with the Centers for Disease Control and Prevention (CDC) and Environmental Protection Agency (EPA) to determine what additional supports and surveillance may be necessary.

In addition to Michigan Department of Environmental Quality water testing, the EPA samples throughout the city of Flint show that residual chlorine is present in the system, which helps to prevent bacteria. While there are levels in some areas of the system that could be improved, the EPA also collected and analyzed a sample for bacteria at the site with the lowest chlorine level. The test showed that no bacteria (coliform and E. coli) were present.

For more information about Flint water, visit www.michigan.gov/FlintWater. Flint residents with questions should call 2-1-1 to be connected to local resources.

Gov. Rick Snyder announces comprehensive efforts to strengthen Flint

Marc Edwards, Dr. Mona Hanna-Attisha join teams focused on water, health

FLINT, Mich. – Gov. Rick Snyder today announced a comprehensive effort to embrace all aspects of Flint, from health and infrastructure to economic development to make it a stronger city after the water crisis.

Snyder was joined by Flint Mayor Karen Weaver and leaders of state departments that are focused on working with city leaders and experts from across state government.

"We are committed to Flint, working to address immediate concerns, but also long-term challenges residents may face moving forward," Snyder said. "We hope to help Flint not only recover from this water crisis, but also to improve the city's quality of life for generations to come. It's a proud, resilient city, and we are going to work with people in this city and across state government to make it stronger."

Snyder said Flint-native Rich Baird, a top adviser, will lead a team with an office in the city focused on improving the quality of life in Flint across the board, leveraging services to benefit residents, from nutrition programs to economic development.

Baird will be joined by Lt. Gov. Brian Calley, Harvey Hollins – who heads the Office of Urban Initiatives—and experts from the Michigan National Guard, Michigan State Police and other state agencies.

"I've appointed Rich because I know he can get things done, and he cares deeply about his hometown," said Snyder. "He has been a passionate advocate for addressing the problems faced by Flint residents."

Mayor Weaver announced that Virginia Tech Scientist Dr. Marc Edwards has been retained by the City of Flint to oversee all water testing done by the State and the Federal Government. He is fully independent, reports to Mayor Weaver and is funded by private donations.

Snyder also announced that Edwards and Dr. Mona Hanna-Attisha, from Hurley Hospital, both instrumental in bringing to light the problems of elevated blood lead levels in the city, have agreed to be part of Flint Water Interagency Coordinating Council (FWICC).

The council, which will set in place long-term solutions for Flint's water system, also includes Flint and Genesee County leaders, educators, and representatives from across state government.

Nick Lyon, director of the Michigan Department of Health and Human Services, outlined the state's request to the federal government to support state efforts to address current and future medical needs. The request is for additional healthcare services for all Flint residents under age 21 to address potential problems brought on by exposure to lead.

The request will include expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level; lead-abatement programs to help minimize and/or prevent long-term health problems associated with lead exposure; and additional community-based resources to ensure all children have access to comprehensive medical treatment.

Keith Creagh, interim director of the Michigan Department of Environmental Quality, announced the state will adopt recommendations made by the Flint Water Task Force to focus on water quality and testing.

As a member of FWICC, Creagh will have a subcommittee on water quality and water safety that will advise the city and state on necessary steps relative to the conversion to the Karegnondi Water Authority.

The state is working with the U.S. Environmental Protection Agency on a new sampling protocol developed that examines human exposure and not merely technical compliance.

The state will seek the advice of third-party experts and organizations to help assess the quality and safety of drinking water in homes, schools, child care settings and hospitals.

Water testing results are being posted on mi.gov/flintwater.

The state of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County, and local community organizations. For information about clean water resources available in Flint—such as bottled water, water filters, home testing kits, and replacement cartridges, please visit www.mi.gov/FlintWater. For information about donating or volunteering in Flint, please visit www.HelpForFlint.com.

Subject: NEWS RELEASE: Gov. Rick Snyder appoints field experts to oversee long-term solutions for Flint water system

Governor Rick Snyder
REINVENTING MICHIGAN
Getting It Right. Getting It Done.

News Release

Contacts: Dave Murray, Laura Biehl, or Anna Heaton

517-335-6397

FOR IMMEDIATE RELEASE
Wednesday, Jan. 27, 2016

Gov. Rick Snyder appoints field experts to oversee long-term solutions for Flint water system

LANSING, Mich. – Gov. Rick Snyder today named a group of medical and field experts to the Flint Water Interagency Coordinating Committee to set in place long-term solutions to Flint's water system.

The 17 member committee, housed within the Michigan State Police, will be asked to make recommendations regarding the health and welfare of people exposed to lead, study Flint's water infrastructure and determine potential upgrades, review Flint Water Task Force recommendations, and establish ways to improve communication between local and state government.

"Flint residents deserve clean, safe drinking water, and I am confident that the expertise represented on this committee will be a tremendous asset as we continue to address the water crisis in Flint," Snyder said. "I am grateful to these appointees for their willingness to serve on this important committee."

Karen Weaver is the mayor of the city of Flint. She earned a bachelor's degree from Tougaloo College, a master's degree from Long Island University, and a doctorate from

Michigan State University.

Jamie Curtis is the chairman of the Genesee County Board of Commissioners. He earned a millwright apprenticeship certificate from Mott College. Curtis is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Marc Edwards is a professor at Virginia Tech with numerous awards and honors for his work. He earned a bachelor's degree in bio-physics from SUNY Buffalo, and both a master's and doctorate of science in environmental engineering from the University of Washington. Edwards will represent subject matter experts.

Mona Hanna-Attisha is the director of the pediatric residency program at Hurley Medical Center. She earned a bachelor's degree in resource ecology and management/environmental health from the University of Michigan, a doctorate from Michigan State University College of Human Medicine, and a master's from the University of Michigan School of Public Health.

Natasha Henderson is the city administrator and chief administrator officer for the city of Flint. She earned a bachelor's degree from the University of Arkansas – Pine Bluff, and a master's in business administration from Texas A&M University – Texarkana. Henderson is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Jim Koski retired as the Saginaw county drain commissioner, a role in which he had served from 1977 to 1980 and again in 1996 to 2011. He is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

Lawrence Reynolds is president and CEO of the Mott Children's Health Center. He earned a bachelor's degree in political science from Wayne State University and a doctorate from Howard University College of Medicine. Reynolds will represent subject matter experts.

Laura Sullivan is a professor of mechanical engineering at Kettering University. She earned a bachelor's degree in premedical engineering from Arizona State University, and both a master's degree and a doctorate in materials science and engineering from the University of Texas at Arlington. Sullivan is a representative of the city of Flint who shall be submitted by the mayor of the city of Flint.

Mark Valacak is the health officer of the Genesee County Health Department and an instructor at the Michigan State University College of Human Medicine. He earned both a bachelor's degree and a master's of public health degree from the University of Michigan. Valacak is a representative of Genesee County who shall be submitted by the Genesee County Board of Commissioners.

One additional member will be named at a later date.

The following members will also serve on the Coordinating Committee:

- Harvey Hollins, director of Office of Urban Initiatives within the Executive Office of the Governor;
- Col. Chris Kelenske , deputy state director of Emergency Management and Homeland Security within the Michigan Department of State Police;
- Keith Creagh, director of the Department of Environmental Quality, or his or her designee;
- Nick Lyon, director of the Department of Health and Human Services, or his or her designee;
- Mike Zimmer, director of the Department or Licensing and Regulatory Affairs, or his or her designee;
- Nick Khouri, state treasurer, or his or her designee;
- Brian Whiston, superintendent of public instruction, or his or her designee;

Members will serve three-year terms expiring Dec. 31, 2018. Their appointments are not subject to the advice and consent from the Senate.

GOVERNOR'S ACTIVITIES

Press conference
Governor Snyder And Flint Mayor To Make Announcement (WILX)
A major announcement regarding the water crisis in Flint is expected today from the Governor. He and Flint mayor Karen Weaver are holding a news conference today.

Governor Snyder expected to announce additional water testing in Flint (WXYZ)
Governor Rick Snyder is expected to hold a press conference later this morning about additional water testing in Flint. The announcement is expected around 11AM. This comes one day after the national president of the NAACP Cornell William Brooks privately met with the governor about the water crisis.

Medicaid request
Governor Snyder Asking for Additional Health Care Services for Flint Children (9&10 News)
Governor Snyder is asking the federal government for additional health care services for Flint children who may have been exposed to lead-tainted water. The governor is asking for expanded Medicaid eligibility for all those affected up to age 21.

Snyder to seek aid for Flint children exposed to lead (Freep)
Gov. Rick Snyder said Tuesday he will seek permission from the Obama administration to allow all young people in Flint the chance to receive publicly funded health care services for lead exposure amid the city's contaminated drinking water crisis.

Gov. seeks federal health care help in Flint (AP)
Gov. Rick Snyder is asking the federal government for additional health care services for Flint children and young adults who may have been exposed to lead-tainted water. Snyder's office said Tuesday that the state is seeking expanded Medicaid eligibility for all residents in the impacted areas up to age 21. He also seeking additional community-based

resources to ensure all children have access to comprehensive medical treatment and a federal Medicaid match for lead abatement.

Gov. Snyder to request extra medical care for Flint children (WWMT)
Under a new request to the federal government, Flint residents under 21 would receive extra healthcare services to address potential problems due to lead exposure. Governor Rick Snyder's office announced the request Tuesday afternoon.

Snyder requests federal medical aid for Flint (Detroit News)
Gov. Rick Snyder is requesting an unknown amount of federal medical aid to help Flint residents under 21 with potential health problems from the city's lead-contaminated water. The Snyder administration said Tuesday it plans to direct its request to the U.S. Department of Health and Human Services.

Snyder requests additional services for people affected by Flint water crisis (Mlive)
Gov. Rick Snyder is requesting additional medical services for Flint residents under 21-years-old. The request to be sent by Snyder would allow all Flint residents under the age of 21-years-old to receive additional healthcare services to address issues brought on by lead exposure, according to a news release from the governor's office.

Governor Snyder asks federal government for extra Medicaid help in Flint (WILX)
Gov. Rick Snyder is asking the federal government for additional health care services for Flint children and young adults who may have been exposed to lead-tainted water. Snyder's office said Tuesday that the state is seeking expanded Medicaid eligibility for all residents in the impacted areas up to age 21.

NAACP meeting
NAACP president, Mayor Weaver meet with Snyder to talk Flint water crisis (Mlive)
NAACP President Cornell William Brooks and Flint Mayor Karen Weaver had a private meeting with Michigan Gov. Rick Snyder to discuss plans to bring Flint out of its water crisis. Brooks was visiting Flint for a mass meeting at the University of Michigan-Flint Northbank Center in downtown Flint where NAACP heads called for action from the state in addressing a 15-point plan that the organization compiled.

NAACP president meets with Flint residents, leaders over water crisis (Fox 2 Detroit)
NAACP President Cornell William Brooks recently tweeted that environmental racism plus indifference equals lead in the water and blood.

Civil rights panel, NAACP concerned over Flint woes (Freep)
The Michigan Civil Rights Commission said Tuesday it will investigate whether discrimination played a role in Flint's water problems as the national leader of the NAACP said the residents of Flint may have been ignored because many are minorities.

Gov. Snyder meets with NAACP president on Flint water crisis (Michigan Radio)
Governor Snyder met behind closed doors with the national president of the NAACP in Flint Tuesday night. NAACP president Cornell William Brooks said he, Gov. Rick Snyder and Flint Mayor Karen Weaver had a "frank" discussions about Flint's drinking water crisis.

The Latest: NAACP leader to meet with governor (Washington Post)
National NAACP President and Chief Executive Cornell Brooks is expected to meet with Michigan Gov. Rick Snyder to discuss the crisis in Flint sparked by lead-tainted water.

Communications Help

Michigan Rep. Troubled That Gov. Snyder Is Hiring PR Firms with Dark Money (Huffington Post)
We were joined today on T & Z Talk by Michigan Democratic House leader Tim Greimel, who came on to discuss the water crisis in Flint, Michigan. In particular, to address Gov. Rick Snyder's hiring outside public relations firms using non-public funds.

Snyder fund foots bill for PR firms in Flint crisis (Detroit News)
Gov. Rick Snyder's tax-exempt nonprofit fund is footing the bill for public relations specialists as his administration grapples with the Flint water contamination crisis. A top Snyder aide said Friday that "extreme interest" from state and national media over Flint had led to the hire of Mercury Public Affairs of Washington, D.C., and Bill Nowling of Finn Partners, a New York firm with an office in Detroit. But it was not clear from where the money would come to pay them.

Gov. Snyder says non-profit fund, not state, will pay PR firm for help with Flint water crisis (Michigan Radio)
Some Democrats are upset that Gov. Snyder hired this new PR firm. They say Flint's water problems are a public health crisis not a PR one.

Gov. Snyder using Moving Michigan Forward Fund to pay public relations firms in Flint water crisis (WXYZ)
A ton of new questions are surrounding the Flint water crisis and Governor Rick Snyder. The latest may sound familiar: Who's helping the governor financially get through this public relations mess?

Executive Order
Gov. Snyder signs order re-organizing three ethnic affairs commissions (WWMT)
On Tuesday, Governor Rick Snyder signed an executive order transferring administrative responsibilities of three ethnic commissions to the Department of Licensing and Regulatory Affairs.

Bill Signing
Snyder signs bill encouraging participation in free fishing weekends (TV 6 UP)
Under legislation signed Tuesday by Governor Rick Snyder, more people will have access to boating sites on state owned land during free fishing weekends. House Bill 4983, sponsored by state Representative Bruce Rendon, allows vehicles without a recreation passport to enter state parks and use boating sites in areas where there is an opportunity to fish on free fishing weekends.

Gov. Rick Snyder signs bill encouraging participation in free fishing weekends (UP Matters/TV 3)
More people will have access to boating sites on state owned land during free fishing weekends, under legislation signed Tuesday by Gov. Rick Snyder.

Misc
Snyder Cancels Mid-East Trade Trip Because of Flint Water Crisis (Michigan Radio)
Governor Rick Snyder has cancelled plans to make a business development trip to the Middle East so he can remain in Michigan and focus on the Flint water crisis. The trade trip to Israel, Quatar, and other Middle East countries had been in the works for months to build better relationships with defense, and water technology companies.

DEQ memo names Michigan drinking water officials suspended over Flint water (Mlive)
The state's former top municipal drinking water official and the district supervisor for this area are the two unnamed Department of Environmental Quality employees suspended as a result of Flint's water crisis.

Snyder won't know Flint costs before next budget is due (Detroit Free Press)
The state won't know how much it needs to spend to repair and replace water infrastructure in Flint in 2016-17 before Gov. Rick Snyder presents the 2017 fiscal year budget on Feb. 10, according to a spokesman for state Budget Director John Roberts. "We don't have an exact date yet as to when the infrastructure study will be completed," said Kurt Weiss.

Flint class-action suit lawyers subpoena Snyder records (Metro Times)

The deadline has just passed for subpoenas to be delivered to the Snyder administration requesting records, the first credible legal action against the governor related to Flint we've heard of. It was less than a week ago when Gov. Snyder, as part of his State of the State address, declared, "Tomorrow I will release my 2014 and 2015 e-mails regarding Flint to you, the citizens, so that you will have answers to your questions about what we've done ..."

Governor Snyder, state officials sued in class action lawsuit over Flint water crisis (WZZM)
A lawsuit filed this week, by lawyers representing Flint residents, seeks to obtain documents relating to the Flint water crisis dating back to Jan. of 2011. The plaintiffs blame Gov. Rick Snyder and members of his staff and administration for a slow response to the city's water emergency. They say that slow response not only violated their 14th Amendment rights but also endangered their health and property.

Local, education leaders sue state over 'gag order' election law (Mlive)
Groups representing local government and school leaders have filed a lawsuit against the state, claiming the recent 'gag order' bill signed by Gov. Rick Snyder earlier this month is unconstitutional. The bill in question passed the legislature in December, ballooning from 12 to 53 pages in a last-minute substitute. That new language included a prohibition on local schools and governments sending informational mass communications to residents in the 60 days leading up to a ballot proposal.

LT. GOVERNOR'S ACTIVITIES

Lt. Governor: Water System At Large Will Be Back To Pre-Flint Condition In Months (WWJ)
Michigan Lt. Governor Brian Calley addressed the water crisis in Flint with WWJ. Though he says much work still needs to be done, he thinks progress will be made soon.

FLINT

The Latest: United Nations monitoring developments in Flint's lead-tainted water crisis (AP)
The lead-tainted water crisis in Flint has attracted the attention of the United Nations. Baskut Tuncak the international organization's expert on hazardous substance and waste, tells The Associated Press on Tuesday the UN is "following the developments in Flint and looking at it from the human rights lens."

Slight drop in percentage of Flint homes with high lead in water, reports show (Mlive)
The percentage of homes with lead in excess of federal limits has dropped slightly since the city stopped using Flint River water, according to the most recent test results from the state. The Michigan Department of Environmental Quality says that testing of 1,186 homes showed 87 samples -- 7.3 percent -- registered at more than 15 parts per billion of lead, exceeding the federal threshold.

Ex-Prosecutor to Spearhead Investigation into Flint Water (ABC News)
Michigan's attorney general named a former prosecutor on Monday to spearhead an investigation into the process that left Flint's drinking water tainted with lead, though Democrats questioned whether the special counsel would be impartial. Republican Bill Schuette said Todd Flood, a former assistant prosecutor for Wayne County, which includes Detroit, will lead the probe and be joined by Andy Arena, a retired head of Detroit's FBI office.

Water bill collections dropping amid Flint crisis (AP)
A Flint official says the city's water utility could run out of money by year's end as more people skip paying bills amid the crisis with lead-tainted water. City Administrator Natasha Henderson told city council members at a meeting Monday that the public health emergency is driving down collections on water bills. She says it's an "imminent concern" and it is leaving the city in a "very precarious situation."

DETROIT

What Detroit Schools Need Is Better Teachers (Wall Street Journal)
It's true that "the collapse of Detroit's schools has been decades in the making" ("Detroit's Public School Plague," Review & Outlook, Jan. 23). But I know from working with teachers in both Detroit public and charter schools that it's neither the unions nor the "lack of accountability for failure" that are responsible for the decline of Detroit schools.

Detroit's Cass Tech High School is on lockdown due to shooting in area (WDIV)
Cass Technical High School is on lockdown due to a shooting in the area, according to a Detroit Public Schools district spokeswoman. District spokeswoman Michelle Zdrodowski said the school is on lockdown as a precautionary measure.

Lawsuit against Detroit Teacher 'Sick-Outs' Hits Snag (Wall Street Journal)
Last Wednesday most of Detroit's public schools closed their doors after teachers staged a mass "sick-out," part of a series of protests spurred by complaints of hazardous school building conditions, pay cuts and other grievances. In Michigan, it's illegal for public teachers and other government employees to go on strike. Like many states, Michigan has a labor law that provides public employees with strong organizational and collective bargaining rights while banning them from engaging in unauthorized concerted work stoppages.

DPS EM passes a "snitch" ordinance to penalize striking teachers and those aware of striking teachers (Metro Times)
As we've previously reported Detroit Public Schools Emergency Manager Darnell Early (ya, ya, old news now, the same guy in charge of Flint) is displeased with the teacher "sick-outs" taking place within the district he is currently running.

Judge denies order to stop Detroit teacher 'sick-outs' (AP)
A Detroit judge has again denied a temporary restraining order requested by the city's school district that would force teachers to stop skipping school. The judge said Monday there's no proof the union or individual activists are behind the teacher absences, called sick-outs.

Q&A: A look at the Detroit Public Schools teacher sick-outs (AP)
Detroit Public Schools teachers have complained for several years about poor pay, overcrowded classrooms, a lack of supplies, unsafe building conditions and uncertainty about their futures as the district struggles under a mountain of debt. Rolling teacher sick-outs have — so far in January — forced the district to close dozens of schools on some days. A preliminary hearing will be held next month on the district's lawsuit seeking to end the sick-outs.

DEPARTMENT NEWS

DEQ
Detroit residents angry about Marathon refinery's request to increase emissions (Michigan Radio)
The Marathon oil refinery in southwest Detroit is no stranger to controversy. But its request to increase sulfur dioxide emissions has sparked a major backlash. The company has done a huge expansion of its southwest Detroit refinery in the past few years.

New DEQ chart sheds light on Flint water response (Detroit Free Press)
An updated organizational chart posted online by the Michigan Department of Environmental Quality sheds new light on the actions the DEQ has taken – and not taken – in the wake of the Flint drinking water crisis. Two prominent names are missing from the chart posted Friday, the same day the DEQ announced it had suspended without pay, pending investigations, two unnamed officials in connection with DEQ mistakes related to Flint.

Trendwell pulls Summerfield injection well plan (Monroe News)
State and local officials and residents are hailing Trendwell Energy Corporation's decision late last week to withdraw its permit for an injection well proposed in Summerfield Township. The Rockford company notified by e-mail nearly a thousand landowners leasing property to the firm for oil and gas production that due to "our exploration results to date and the low oil-price environment, we cannot justify additional exploration activities at this time."

Can The Flint Water Crisis Happen In West Michigan (WOOD News Radio)
The City of Grand Rapids Water System continues to consistently meet the challenge and responsibility for providing safe, quality water which meets or exceeds the requirements set forth by the Environmental Protection Agency and the Michigan Department of Environmental Quality. The System proudly serves residential and commercial customers in Ada Township, Cascade Charter Township, City of Grand Rapids, City of East Grand Rapids, Grand Rapids Charter Township, City of Kentwood, Tallmadge Charter Township, City of Walker and portions of Ottawa County.

Kent County to start testing water for lead (Mlive)
The county's health department plans to get new equipment installed next week in order to start testing water for lead, copper and arsenic by the middle of February. The new testing is not in response to the spike in lead levels in the water in Flint, a lab manager said, although it could ease a backlog of water testing coming into the Michigan Department of Environmental Quality.

Residents rally against oil drilling at church (C & G Newspapers)
The temperature hovered in the teens Jan. 17, but that didn't stop a group of spirited residents from picketing outside Word of Faith International Christian Center, a church in talks with an oil and gas company to drill an exploratory well. According to a statement in a previous report from Jordan Development Co., a privately owned oil and gas exploration and development company, the company has entered into an agreement with the church, 20000 W. Nine Mile Road, to explore for oil and gas on part of the church's 110-acre property.

DHHS
In Flint, MDHHS eyes possible Legionnaires' disease sites (WKAR)
State, federal and local officials continue working to gain more control of the Flint water crisis. In recent days, we've heard both good and bad news. Among the good, early tests suggest a drop in lead levels in Flint's water since the switch back to Detroit's water system.

Four cases of listeriosis in Michigan (WLKM)
The Michigan Department of Health and Human Services has been collaborating with local health departments on a multistate foodborne outbreak of listeriosis. Rebecca Burns, director of the Branch-Hillsdale-St. Joseph Community Health Agency, said listeriosis is a bacterial infection that causes fever and muscle aches, often preceded by gastrointestinal symptoms. Twelve people in six states have been infected with the outbreak strain of listeria since July 2015, including four cases in Michigan

LARA
Council approves liquor license for nontraditional business (C & G Newspaper)
With an ever-growing downtown district, the Ferndale City Council approved a liquor license for the Rust Belt Market, 22801 Woodward Ave., in hopes of contributing to the growth of a business that cultivates other business owners in the area. The Rust Belt Market, which has been open for nearly five years at the corner of Woodward and West Nine Mile Road, is home to about 50 businesses who use the space to set up shop and sell their products, from pictures to jewelry and food.

MDARD
BCYF beef registration deadline is Monday (The Herald Palladium)
Market beef registration for the 2016 Berrien County Youth Fair is underway and the registration deadline has been set for Feb. 1. Exhibitors must be at least 5 years old to show animals at the youth fair, which will take place Aug. 15-20. Berrien County children between the ages of 5 and 20 – as of Jan. 1 – can register their market beef animals by picking up a form at the fair office or by calling the office at 269-473-4251.

MDOT
Falling ice closes Mackinac Bridge for 2nd time in four days (UP Matters TV 3)
Accumulated ice falling from the Mackinac Bridge has prompted bridge officials to close it to traffic temporarily as a safety precaution. Warmer temperatures and increased sun have loosened ice that formed on the bridge's towers and

cables, causing some of it to fall on the driving lanes below. The Mackinac Bridge Authority (MBA) has closed the bridge until the ice is clear or has stopped falling, which in the past has taken an average of a few hours, depending on weather conditions.

MPSC

Utility regulators should look at water rates (The Times Herald)

Northville Township residents are up in arms because of a proposal to raise their water and sewer rates by about 10 percent. Northville Township is a customer of the Detroit Water and Sewerage Department. Opponents of the increase have suggested a fix for what they consider arbitrary and illogical increases. They say that the Michigan Public Service Commission should set water rates, particularly within the Detroit system. There is an obvious logic to the proposal. The MPSC sets rates for monopoly public utilities in the state — for electricity, for natural gas, for the Harsens Island ferry.

LEGISLATIVE

$28M Flint water crisis aid to evolve in Michigan Senate Wednesday (Mlive)

The total amount of money the state is appropriating to help Flint recover from its water crisis will remain the same under Senate consideration Wednesday, but where those dollars are directed will look slightly different. "We have some better information about where it can be used the best, and I think we're going to make those changes," Senate Majority Leader Arlan Meekhof, R-West Olive, told reporters on the Senate floor Tuesday.

Local officials sue to block law prohibiting ballot info (AP)

School and local government officials have filed a federal lawsuit to block a new Michigan law that restricts them from informing voters about ballot issues. The complaint Tuesday against the state alleges the "gag order" law unconstitutionally infringes on free speech rights. Local officials are seeking an injunction so they can disseminate information before March 8 elections.

Pettalia Supports Gov. Snyder's Attempts to Fix Flint Crisis (WBKB)

Governor Rick Snyder has been under a lot of fire lately for the water crisis in Flint, and 106th District Representative, Peter Pettalia, feels that Snyder's state of the state address the other night was sincere and tackled the issue the best way he could. Governor Snyder accepted major responsibility for the Flint drinking water catastrophe in his state of the state address on Tuesday and set out both short–term and long–term promises to make things right.

OPINION

Our editorial: Don't pay for dirty Flint water (Detroit News)

Flint city leaders continue to bill residents for water service, including bills for past service of contaminated water. But residents shouldn't be on the hook for water they can't use. Until households have the water filters and other materials they need to make sure their water is clean, it's unfair to ask them to pay for the utility.

Editorial: Flint's water disaster offers lessons for Virginia (Richmond Times-Dispatch)

Much of the country has been horrified and angered by the disaster that has unfolded in Flint, Michigan, because of the city's tainted water supply. Let's hope state and local officials are taking notes and thinking about how to avoid similar disasters. The struggling city decided to join a regional water system then under construction and, in the meantime, draw from the Flint River. Officials with the state's Department of Environmental Quality did not require the use of anti-corrosion chemicals, in defiance of federal rules. This led to (surprise!) corrosion and dangerously elevated lead levels in the drinking water.

Editorial: Rethink how young convicts are treated (Detroit News)

This week's U.S. Supreme Court ruling granting a reprieve for convicts serving life sentences without parole for crimes

committed as juveniles forces Michigan to adhere to common sense criminal justice reforms. State officials and lawmakers should use the ruling as the impetus to rethink how it deals with young criminals.

Politics & Prejudices: What really caused the Flint disaster (Metro Times)
Dan Kildee, Flint's congressman for the last three years, should have had a sense of satisfaction the day I talked to him. For months, he had been pushing Gov. Rick Snyder to swallow his pride and ask for federal help for Flint.

Subject:	SEOC Update 1/26/16 - Flint Water - Limited Distribution
Attachments:	20160126_1700_Parcels_Contacted.pdf; 20160126_1700_Parcels_Filter_Status.pdf; 2015-10-01 City of Flint Water Contamination-Shortage SitRep 21 2016-01-....pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as

they were not using the door to door App as directed. This data will further clarify areas covered/not covered by any teams.

- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:
  - <u>As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass MissionTotal	Targeted Canvassing Mission 1/26/2016
30,770	37,844	**3,946**	1,350.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
   b. Filters 154,052
   c. Filter Cartridges 299,508
   d. Test kits 62,701
5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

<u>Standing Information Requirements</u>

1. **Number of homes visited each day:**
   a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. ***Total number of homes visited:***
   a. Targeted Canvassing Mission: **3,946**
3. **Total number of National Guard on the ground:**
   a. 68
      i. Number in PODs: 58
      ii. Command Cell: 6
      iii. Cyber Mission: 3
4. **Total Number of Volunteers each day:**
   a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
   a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.

7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
    a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
    *this data is updated bi-monthly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
    *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.

- The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
  - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
  - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
  - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers

b. ~45,000 hookups (This is our high end target #)
c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

    * Numbers have not been updated due to the following circumstances:
        - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
        - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
        - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.
5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

<u>Standing Information Requirements</u>

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a. 65
        i. Number in PODs: 60
        ii. Command and Control Staff for NG Personnel: 5
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. ***Number of Water filters distributed (each day and to date):***
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. ***Number of people tested for elevated blood levels (kids, adults, total):***
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
    - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
    - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a. 276
        i. Number in PODs: 65
        ii. Number on Cyber Mission: 3
        iii. Number with FWRTs: 185
        iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.

11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. *Resources purchased:*
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404

b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)

- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. *Homes visited by the FWRTs to date.*

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.

• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.

- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

- We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
- We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:
    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
    - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers

b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.

- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.

- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs

- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.

- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***

- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).

- GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.

- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
- Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and

trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**

- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC

- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

1,350 Homes Visited Today by Water Response Teams

FOR IMMEDIATE RELEASE
January 26, 2016
Release #: 18

Flint, Mich. – Water response teams comprised of 98 city, county and state personnel, American Red Cross and volunteers continued their door-to-door efforts today visiting 1,350 homes to provide free bottled water, filters, water replacement cartridges and water testing kits to Flint residents.

"We are committed to ensuring every household has access to safe and clean drinking water," said Capt. Chris. A. Kelenske, deputy state director of emergency management and homeland security and commander of the Michigan State Police, Emergency Management and Homeland Security Division. "Water response teams continue working to find residents who may not have a filter or replacement cartridges. We encourage neighbors to check on neighbors, and anyone who needs help should call 2-1-1."

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 186,309 cases of water
- 94,301 water filters
- 29,841 water testing kits

A coalition of community partners is organizing a recycling program for the thousands of bottles of water being distributed to Flint residents. While additional locations and options are still being finalized, most immediately residents are encouraged to bring their empty water bottles to the following locations.

Young's Environmental Cleanup:

- Bill Carr Signs, 719 W. 12th St., Flint (8 a.m. – 4 p.m., M - F)
- Young's Environmental Offices, 5305 N. Dort Hwy., Flint (8 a.m. – 6 p.m., M - F)
- Food Bank of Eastern Michigan, 2300 Lapeer Rd., Flint (8 a.m. – 4:30 p.m., M – F)

Schupan Recycling – available daily 9 a.m. – 9 p.m.:

Fire Station #1
310 East 5th St.

Fire Station #5
3402 Western Rd.

Fire Station #8
202 East Atherton Rd.

Bottles are only accepted in clear plastic bags; solid color bags and grocery bags will not be accepted. Residents can use their own clear plastic bags or they can pick up free bags at Fire Station #1, Fire Station #5 or Fire Station #8.

Republic Services offers bi-weekly curbside recycling at no cost to residents with weekly curbside trash pickup. Residents can have a curbside bin delivered to their door by calling Republic Services at 1-800-438-0966.

Additional information about recycling options will be released when available.

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a recycling site)
202 East Atherton Rd.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.

Subject: 2-1-1 Update Flint Water Response for Tuesday, January 26, 2016
Attachments: 2016-01-26 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, January 26, 2016

GENERAL INFORMATION:

- **Reminder: Anyone having difficulty dialing 2-1-1 can use the alternate toll-free number 844-875-9211.**
- On Wednesday, January 27 at 7pm MSNBC's Rachel Maddow will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_madd.html

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume continues to be high, requiring extra staffing from other regional Michigan 2-1-1 partners and using managers at Central Michigan 2-1-1 to again take calls during the peak demand. Wait time today did increase around the noon hour resulting a 20-30 minute hold time for callers during that period. Callers did not express frustration or dissatisfaction with longer than average wait times.

Follow on 1/25/16 call volume: Jennie Pollak, Central Michigan 2-1-1 Manager, reported that during yesterday's peak demand there were a maximum of four (4) calls in queue for Flint Water Assistance. The major cause of high call volume over the past week is related to referrals for free tax preparation assistance.

- 2-1-1 is exploring options to address capacity issues with the SEOC and Michigan Community Service Commission, including utilizing volunteers or contracting with an out-of-state 2-1-1 provider to assist with water-related calls.

SPECIAL NEEDS/REQUESTS

- ☐ **Callers continue to have many questions about various water filter options.**
  - ☐ Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
  - ☐ There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
  - ☐ Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**
- ☐ **FOLLOW UP:** SEOC is coordinating with Michigan 2-1-1 on a standard form to use for water resource delivery requests. A MI211 vendor is converting the form into an electronic that will allow 2-1-1 agents to collect the callers' needs and delivery information, then automatically send the individual requests in real-time to the Genesee Sheriff contact responsible for managing deliveries. **The vendor notes it is possible to automate work orders directly to an e-tablet or mobile device if this would be useful for tracking. Is there SEOC/Sheriff's Dept interest in pursuing this option?**

- A handful of callers have asked 2-1-1 specifically about FEMA relocation assistance. 2-1-1 has directed them to traditional relocation services such as DHHS with the caveat that this kind of support is minimal and that no formal relocation assistance has been established at this time for Flint residents due to the water situation.
- Callers are asking about reimbursement for medical expenses, such as previous co-pays, that are related to treatment or testing. Until further notice 2-1-1 is telling callers they are responsible for their medical expenses, but we anticipate this will be an ongoing concern.

RUMOR CONTROL

- ☑ **FOLLOW UP ON 1/25/16:** 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water".
  - ☑ SEOC provided a copy of the "Lead In Water" information sheet as a reference for 2-1-1 agents and posted the document at www.michigan.gov/flintwater under the "In Your Body" link.
  - ☑ **DHHS has issued the following statement on the safety of bathing in Flint water:**
    - Parents can maintain routine bathing practices. We do recommend that bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.
    - We are aware that there have been concerns related to rashes.
    - If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.
    - Currently, rashes are only reportable to MDHHS when there is a suspect infectious disease such as measles or chickenpox.
    - MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.
    - We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.
- ☑ **FOLLOW UP ON 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
  - ☑ **RESOLUTION:** DHHS Medical Epidemiologist, Dr. McFadden, provided the following response:

Q: Can Legionella bacteria be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes?

A: Boiling water is one effective way to kill bacteria including Legionella, so steam that comes directly from a source of boiling water will not contain live Legionella and is not a source for Legionella transmission.

Inhalation of aerosolized water droplets containing Legionella is one of the ways that people get legionellosis. ***In-home portable humidifiers are known to generate aerosolized water particles that can then be inhaled. Dirty reservoirs and filters in humidifiers can quickly breed bacteria like Legionella.*** Use of tap water for these devices is strongly discouraged. Most manufacturer guidelines specify that only sterile water should be used in such devices (including rinsing of humidifier containers) and they should be cleaned regularly and thoroughly to prevent bacterial growth and transmission of potentially-aerosolized organisms like legionella. If these devices are used, manufacturer guidelines should be closely followed.

- ☐ **WHO FROM STATE OF MICHIGAN IS MONITORING SNOPES.COM?** www.Snopes.com is a popular fact-checking web site that works to identify the source of internet rumors, then verify or dispel them. It labels stories as 'True', 'False' or 'Unproven'. There is long article posted today on Snopes at http://www.snopes.com/flint-water-crisis-cps/ titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?".*** The label on the story is **'UNPROVEN'.**
  - **SEOC is following up with SNOPES after receiving an advisory message from 2-1-1.**
  - **Strongly advise a PIO or other communications professional is tasked with monitoring this site on a daily basis to address rumors as they emerge.**
- ☐ **Is there a contact in state government who is monitoring media who could feed news stories and updates to 2-1-1 to keep the system apprised of emerging stories?**
- **FOLLOW-UP ON 1/25/16:** 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been taken away due to concerns that tracking data on the needs of

homebound residents is a potential violation of HIPPA. **SUGGESTION:** 2-1-1 received a recommendation that e-tablets could have an electronic disclaimer that residents could sign when they receive their first delivery. This could also authorize regular deliveries of water-related supplies to homebound residents.

- ☐ **Is there any discussion about establishing a regular delivery schedule for homebound residents, particularly those with a need for sterile water for medical devices like nebulizer? What issues need to be addressed to support this?**

UNRESOLVED

- ☑ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites. **RESOLUTION: SEOC has approved inclusion of this need on the standard referral form mentioned above in the Special Needs/Requests section.**
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☑ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

RESOLUTION: See DHHS statement above in Rumor Control

- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☑ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles? RESOLUTION:** Youngs Environmental has provided 2-1-1 with information on several recycling drop off sites.
- ☑ **From 1/25/26:** 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. **Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders? RESOLUTION:** National Guard provided 2-1-1 a contact to report any issues. Jennie Pollak at Central Michigan 2-1-1 is the internal contact for collecting these reports, then forwarding them in a manner that protects the caller's confidentiality.
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**

Flint Water Discussion Points
Updated Jan. 26

Current Issues Talking Points

Medicaid/Federal Asks

- Governor Snyder today announced that a request will be sent to the federal government that asks for all Flint residents under age 21 to receive additional healthcare services to address potential problems brought on from exposure to lead.
- We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts.
- Request will include:
  - Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level.
  - Lead-abatement programs to help minimize and/or prevent any long term adverse health problems associated with lead exposure.
  - Additional, community-based resources to ensure all children, regardless of health insurance coverage, have access to comprehensive medical treatment.

House passage of the $28 million supplemental bill (unanimous vote)

- The supplemental request includes short-term funding to address immediate needs in the city, including bottled water, filters and testing kits.
  - The supplemental request will also include funds to address the most critical needs of Flint residents.
  - The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support for the health of Flint residents.
- The health and safety of Flint residents remains a top priority. The Governor has worked closely with the Legislature to encourage quick passage of the supplemental to encourage immediate action.
- We look forward to the Senate taking action on this bill this week.

General High-level talking points

- There are people in the state of Michigan that can't drink their water, and that is unacceptable to all of us. As Governor, Rick Snyder has taken responsibility, taken emergency response measures and is committed to dedicate all the resources needed to make this right for the people of Flint.

- The top priority for Governor Snyder and his administration is ensuring every Flint resident has access to clean, safe drinking water. We are committed to providing affected children and families access to medical and educational resources to ensure long-term care and treatment.

- The Flint water crisis has been a systemic failure of government at all levels: from the city of Flint, the state of Michigan, the civil servant scientists and the U.S. Environmental Protection Agency (EPA).

- The Governor has held himself and his government accountable. The Governor replaced the leadership of Michigan Department of Environmental Quality (MDEQ) and has taken disciplinary measures on the staff and civil servant scientists responsible for the crisis. Actions have been taken to ensure a new and capable team is overseeing Flint water and creating a department culture focused on the health and safety of Michigan residents. Two DEQ officials involved in the testing of Flint water have been suspended pending an investigation, in accordance with civil service rules.

- The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support to the health of Flint residents. In addition, the supplemental budget request will provide funds to the city to help alleviate the need for utility shutoffs.

- Governor Snyder and his administration are committed to working in partnership with Flint Mayor Karen Weaver, independent experts, and the federal government to ensure both short-term and long-term solutions.

Resources distributed (as of 1/25/2016):

- 176,118 cases of water
- 93,048 filters
- 29,320 testing kits
- 198,552 filter cartridges

Homes visited by Flint Water Response Teams (as of 1/24/16): 37,844

For more information, visit www.mi.gov/flintwater or www.helpforflint.com.

AT A GLANCE: Flint Action Timeline: For the 2006 – Jan. 16, 2016 Timeline click here

- **Sept. 28, 2015:** For the first time, DEQ and DHHS directors briefed the governor on the potential scope and magnitude of the lead issue. They begin discussion on what actions should be taken if the concerns raised by outside researchers were to be verified.
- **Oct. 1. 2015:** DHHS director informed the governor that his epidemiologists reviewed the data and confirmed Dr. Mona Hanna-Attisha's conclusions that blood lead levels in children were elevated – due to an association with lead contaminated water in certain ZIP codes.
- **October 2, 2015:** Governor releases 10-point Plan to address water systems, designates $1 million for water filters and anticorrosion treatment. This action was taken with 24 hours of DHHS confirmation that there was lead present in Flint's drinking water. The 10-Point Plan is available here.
- **Oct. 8, 2015:** Governor announces plan to reconnect to Detroit water.

- **Oct. 15, 2015**: Governor signs supplemental appropriation with $9.35 million to assist Flint in reconnecting to DWSD. Mott Foundation contributed $4 million and Flint $2 million. Flint officially reconnects to Detroit water system the following day, October 16.

For October 15, 2015 – January 16, 2016 click here

- **January 19, 2016**: Governor gives State of the State Address. Focuses on Flint response, short-term and long-term solutions.
- **January 20, 2016**: Governor releases all Flint emails sent and received on Flint between January 2014 and December 2015.
- **January 20, 2016**: Governor appeals denial of federal major disaster declaration for Flint. House of Representatives passes $28 million supplemental bill to support Flint.
- **January 22, 2016**: Two DEQ officials involved in Flint water testing are suspended pending an investigation, in accordance with Civil Service rules.
- **January 22, 2016**: Executive power to appoint city administrator and all department heads is returned to Flint Mayor via resolution approved by Flint RTAB and Treasurer Khouri.
- **January 22, 2016**: Governor announces he will seek additional federal aid to help Flint residents despite rejected appeal. Will request resources under the Individual Households Program which provides housing assistance, personal property replacement and emergency protective measure funding. This announcement followed the President's denial of the major disaster declaration appeal.

Subject: IMPORTANT: Informational Update for all State Agency Emergency Management Coordinators and First Alternates
Attachments: GOB Parking and Entrance Map.pdf

Importance: High

Dear State Agency Emergency Management Coordinators:

As you are aware, the State Emergency Operation Center (SEOC) will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

All State Agency Emergency Management Coordinators (SEMC) currently working on the Flint Water Emergency need to report to the new facility at 8 a.m. on Friday, January 29, 2016.

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you to the new SEOC.

We ask for your patience as we all learn our way around and with new equipment. It may be necessary for us to assign "temporarily" locations of computers in the SEOC; therefore, you may not be located in your permanent sitting position until early next week.

It has been mentioned to the SEMC or alternate working within the SEOC throughout the week, it is important that you secure documents and files you may have stored on the PC's or desktops at Collins Road by saving to a memory stick or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have the files you need to continue operations with as little interruption as possible. If you have manuals specific to your discipline in the current SEOC, please take those with you on Thursday and bring them to the Harris Road SEOC on Friday morning. If you are not working in the SEOC at this time and have manuals specific to your discipline, please stop by before Thursday night to retrieve them. Any materials left behind will be discarded.

Please return your ADT access card for Collins Road, by Thursday. A container will be placed near the SEOC sign in-sheet for this purpose.

New phone numbers will be established in the SEOC and will be provided as soon as permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

If you have any questions, please contact me.

Thank you,
Pam

Subject: Tuesday Jan. 26 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | TUESDAY, JANUARY 26, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

Governor Snyder announced today that the state of Michigan will request through the federal government additional healthcare services for all Flint residents under the age of 21.

The request will be submitted by the Michigan Department of Health and Human Services to the U.S. Department of Health and Human Services and will include:

- Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level.
- Additional, community-based resources to ensure all children, regardless of health insurance coverage, have access to comprehensive medical treatment. This will include physical and behavioral health treatment in addition to long-term health care services.
- Federal Medicaid match for lead abatement activities in impacted areas. Because of the number of children enrolled in Medicaid in the impacted area, lead-abatement programs would help minimize and/or prevent any long term adverse health problems associated with lead exposure.

Click here to learn more about the state's request.

Since January 9, our water resource teams have been delivering critical clean water resources:

- 176,118 cases of bottled water
- 93,048 filters
- 198,552 filter cartridges
- 29,320 water testing kits

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

Gov. Rick Snyder: State to request additional medical services for Flint residents under age 21

Request would boost coverage for children affected by lead exposure

LANSING, Mich. – All Flint residents under age 21 would receive additional healthcare services to address potential problems brought on from exposure to lead, under a request to be sent to the federal government by Gov. Rick Snyder.

"We're focused on protecting the health and welfare of Flint residents, especially children and young adults who might have been exposed to lead." Snyder said. "We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts."

The request will include:

- Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level. The request would also include the expansion of Medicaid coverage for people already enrolled in other forms of insurance to ensure comprehensive benefits are available to children who may have come into contact with lead in the water.
- Additional, community-based resources to ensure all children, regardless of health

insurance coverage, have access to comprehensive medical treatment. This will include physical and behavioral health treatment in addition to long-term health care services.

- Federal Medicaid match for lead abatement activities in impacted areas. Because of the number of children enrolled in Medicaid in the impacted area, lead-abatement programs would help minimize and/or prevent any long term adverse health problems associated with lead exposure.

These are efforts that will supplement state-supported health and well-being programs that are already in place to help people in Flint and across the state.

The formal request will be submitted soon by the Michigan Department of Health and Human Services to the U.S. Department of Health and Human Services.

For updates on Flint water, please visit www.mi.gov/flintwater.

Subject: RE: 2-1-1 Update Flint Water Response for Monday, January 25, 2016

Hi Tom,

Current messaging from Michigan Department of Health and Human Services regarding bathing:

- Parents can maintain routine bathing practices. We do recommend that bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.
- We are aware that there have been concerns related to rashes.
- If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.
- Currently, rashes are only reportable to MDHHS when there is a suspect infectious disease such as measles or chickenpox.
- MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.
- We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.

Please let me know if you have any questions.

Thanks,

Ron

Subject: 2-1-1 Update Flint Water Response for Monday, January 25, 2016

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 25, 2016

GENERAL INFORMATION:

- ☑ Thank you to the PIOs and DHHS partners who offered to discuss the growing public perception that 2-1-1 is a state agency and how the state is promoting 2-1-1 for the response. I will work to coordinate a meeting or conference call later this week.
- There are two major public meetings this week.
  - **Tuesday, January 26 at 5pm the NAACP is holding a Public Mass Meeting** at University of Michigan-Flint, Northbank Center, 432 N. SAGINAW STREET, FLINT, MI 48502. The meeting will be hosted by Cornell William Brooks, national NAACP President & CEO.
  - **Wednesday, January 27 at 7pm MSNBC's Rachel Maddow** will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_madd.html.

- The Flint Water Plant reported it is receiving the results of lead tests and is compiling the results from up to 100 tests per day. Processing the results is labor intensive as it requires converting the lab data into parts-per-billion, then preparing letters to residents with the results.
    - Water samples submitted for testing take up to three (3) weeks to process. The department is telling the public it is a 30 day wait for results.
    - Many samples are submitted with incomplete contact information, requiring additional research to get results back to the resident.
    - Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
- There are reports that residents using the free Lifeline phones (also known as Obama phones)are having problems using the abbreviated 2-1-1 dialing code. The Michigan 2-1-1 State Office is trying to verify this. If there is a problem we will work with the Lifeline vendor to correct the issue. **Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.**

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Jennie Pollak, Central Michigan 2-1-1 Manager, was out sick today and was not able to provide a report on call volume and demand. While call numbers are not yet available, the vendor who provides the statewide call platform notified the Michigan 2-1-1 office that 85% of our incoming and outgoing lines were in use, an indicator that volume was again very high. This 85% threshold triggers close monitoring of the system by the 2-1-1 Technology Director who can turn on additional capacity if needed, ensuring that callers can still reach the 2-1-1 system. 2-1-1 continues to use the 'call-back' feature that allows caller to keep their place in the queue without holding on the line, then be contacted by the first available agent.

SPECIAL NEEDS/REQUESTS

- See above request for a contact to get sample bottles for residents to submit water for testing.
- SEOC is developing a standard form for 2-1-1 to use for water resource delivery requests. Once the format is standardized, Michigan 2-1-1 will work with one of our vendors to convert the this into an electronic form that will allow 2-1-1 agents to collect the callers needs and delivery information, then automatically send the individual requests in real-time to the contact responsible for managing deliveries.
- 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. **Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders?**
-
- 2-1-1 has received several questions from responders asking how we handle non-English speakers, as well as deaf/hard of hearing individuals.
    - There are a few 2-1-1 agents in the state system who are fluent in Spanish and Arabic. When these staff are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.
    - 2-1-1 handles requests from deaf and hard of hearing individuals in several ways.
        - TDD/TTY is available at every center, but very few calls come in this way
        - 7-1-1 teleinterpreter is regularly used by callers to reach 2-1-1
        - Email is widely used as it allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent
        - Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time

RUMOR CONTROL

- 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water". 2-1-1 contacted SEOC about how to respond and was informed the "Lead In Water" document . 2-1-1 agents have this document available, but it does not appear to be available on the state's web site. **Can the SEOC provide a link where we can refer callers to read the document, or give Michigan 2-1-1 permission to post it at MI211.org?**
    - Hearing different messages from different state officials is causing concern and confusion for the public. **Can PIOs provide any guidance as to how 2-1-1 should handle questions from callers about the reliability of information from these officials?**
- 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been away due to concerns that tracking data on the needs of homebound residents is a potential violation of HIPPA. **Can the SEOC verify if this is correct? If so, who is working on a HIPPA-compliant process for tracking information on the needs of homebound residents and when is it expected to be available?**
-

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites.
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
- ☐ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

GOV's ACTIVITIES

Flint water
Governor Snyder answers questions about Flint water crisis (WDIV)
Governor Rick Snyder sat down with Local 4 on Monday to answer questions you have. The Defenders have been flooded with questions and comments about the water crisis in Flint. Now we're getting answers directly from the governor.

Flint water task force wants to question Gov. Snyder before issuing final report (Mlive)
A task force on Flint water wants to ask Gov. Rick Snyder some questions before issuing its final report next month and the governor says he's ready to answer. Chris DeWitt, a spokesman for the group, said details of the meeting are being worked out with Snyder's office in advance of a final report that's expected to be issued by the end of February.

Subpoenas Served to Governor Snyder and MDEQ in Flint class action suit (Michigan Radio)
The legal team representing one of the class action lawsuits stemming from the Flint water crisis served subpoenas for records today on Governor Snyder, the Governor's Office and the Michigan Department of Environmental Quality (MDEQ).

State civil rights panel plans to hold Flint hearings (Detroit News)
The Michigan Civil Rights Commission voted Monday to conduct a series of public hearings on whether racial discrimination contributed to Flint's contaminated water. The commission, created under the state constitution and appointed by the governor, unanimously adopted a resolution to convene at least three public meetings on Flint water, including one within 30 days. Dates have not yet been finalized.

State of the State
Snyder mentions NMU program during State of the State address (TV 6 UP)
During Governor Snyder's State of the State address, he gave a shout out to a group of students and leaders of Invent@NMU. Invent@NMU helps students, community members and start-ups turn inventions or product ideas into reality. This program offers opportunities that Snyder says should be "part of our DNA in this state."

FLINT WATER

Expert: Flint's lead test results show improvement (Detroit News)
Water samples taken from Flint homes in recent weeks indicate the city's water quality is improving, an expert said Monday, but state officials don't want residents to abandon bottled water and filters.

Ex-prosecutor to lead investigation into Flint water (AP)
A former prosecutor and a retired head of the Detroit FBI will play key roles in an investigation into Flint's water crisis as part of an effort to seek answers and prevent potential conflicts of interest in the ongoing probe, Michigan's attorney general announced Monday.

Former Detroit FBI chief to assist Flint water probe (Freep)
he team Michigan Attorney General Bill Schuette appointed to lead his investigation of the lead contamination of Flint drinking water vowed Monday to turn over every stone in determining whether state laws were broken in the lead-up to the public health crisis.

DETROIT

'Illegal' teacher strikes common in Michigan long before Detroit Public Schools sick-outs (MLive)
The year was 1979 and Michigan classrooms in more than 25 districts were empty.

Cass Tech students walk out to support teachers (Detroit News)
Detroit Public School teachers, students and other supporters rallied Monday in support of instructors who have staged repeated sickouts to protest poor building conditions and other problems in the state's largest school district.

City of Detroit releases DPS inspections reports, requirements moving forward (WDIV)
The city of Detroit has released the results of recent inspections conducted at Detroit Public Schools (DPS) buildings.

Grant program invests in Detroit neighborhoods (Detroit News)
Development projects in two neighborhood districts, a bridal boutique co-owned by a reality television star, and trade school specializing in fashion and film, were among the recipients of $500,000 in grants in the second round of Detroit's Motor City Match program.

City finds heat, electric issues, rodents at DPS sites (Detroit News)
Mold and rodent abatement, and heating and electrical repairs are among the corrective actions being ordered for several ailing Detroit Public Schools buildings, according to inspection documents released Monday.

Judge refuses to issue order ending Detroit teacher sick-outs, sets another hearing (MLive)
A Michigan Court of Claims judge on Monday refused to issue an immediate order barring Detroit Public Schools teachers from conducting "sick-out" protests that have intermittently forced schools to close.

Judge denies order to stop Detroit teacher 'sick-outs' (AP)
A Detroit judge has again denied a temporary restraining order requested by the city's school district that would force teachers to stop skipping school. The judge said Monday there's no proof the union or individual activists are behind the teacher absences, called sick-outs.

Students plan walk out in support of Detroit teachers (Fox 2)
Students at several Detroit Public Schools have threatened to walkout in support of teachers on Monday. FOX 2 has learned that students at three different schools are planning to walk out of class Monday in support of their teachers who have been protesting the conditions of classrooms for several weeks.

Several Michigan schools close due to social media threats (Michigan Radio)

Several schools around the state closed Monday in response to threats made on social media over the weekend.

Social media threats shut down schools in metro Detroit (Freep)
Classes were canceled Monday at a handful of schools across metro Detroit after districts received threats that were posted on social media today and over the weekend.

Are Detroit's sick-outs legal? School district takes teachers to court (Christian Science Monitor)
Detroit teachers on Monday plan to rally outside a courthouse where a judge is set to hear a case that could force them to stop skipping class to protest working conditions in the city's public schools.

Mayor puts the brakes on elections billboard contract (Detroit News)
Detroit Mayor Mike Duggan is putting the brakes on a controversial campaign to spend nearly $1 million reminding residents to vote.

Duggan appoints 3 new members to city water commission (Detroit News)
Mayor Mike Duggan Monday said he has appointed three new members to the Detroit Water and Sewerage Department's Board of Water Commissioners.

Detroit Public Schools' executives are still among the highest paid in the country (WXYZ)
Last year, in his first budget address as emergency manager for the Detroit Public Schools, Darnell Earley hit a familiar note.

DEPARTMENTS

Attorney General
Michigan Attorney General Picks Investigator for Flint Water Case (New York Times)
The attorney general of Michigan said Monday that a former county prosecutor would lead his office's investigation into the water crisis in Flint, where a 2014 switch of the city's drinking water source led to contamination and widespread health concerns.

Local Circuit Court judge to resign from bench, join AG's office (LSJ)
8th Circuit Court Judge David Hoort will step down from the bench next month. Hoort is resigning to accept a position in the Michigan Attorney General's Office. He will work as an attorney in the Civil Litigation, Employment and Elections Division.

AG creates 'conflict wall' in Flint water probe (CNN)
Michigan Attorney General Bill Schuette announced Monday he is appointing an ex-prosecutor and Detroit's former FBI chief to join the investigation into Flint's water crisis, creating a "conflict wall" between the state's probe and the lawsuits targeting the state.

Flint Water Crisis: Investigation Will Be 'Exhaustive, Independent' Says Attorney General (ABC News)
Michigan Attorney General Bill Schuette announced two new leaders of the investigation into the ongoing Flint water crisis.

Water Bills in Poisoned Flint an 'Outrage,' Attorney General Says (NBC News)
Michigan's top prosecutor said Monday that it's an "outrage" that residents of Flint are being forced to pay for water that's unsafe to drink — and his office may take action to stop the billing.

MDOT
Decision on I-375 delayed indefinitely (Freep)
A recommendation on what to do with Detroit's aging I-375 expressway, originally expected more than a year ago, has now been delayed indefinitely.

DHHS

Reminders for women to stay on top of their health during Cervical Health Awareness month (FOX 28)
The Michigan Department of Health and Human Services reminds women to improve their health by staying current on their cervical cancer screening, in recognition of January as Cervical Cancer Awareness Month.

DEQ

Harsens Island bridge plan resurrected (Times Herald)
Efforts to build a bridge to Harsens Island are moving forward. The Detroit International Bridge Company has applied for a permit from the Michigan Department of Environmental Quality to build a 1,750-foot bascule bridge across the North Channel of the St. Clair River.

Supreme Court

High Court gives Michigan teen lifers 2nd chance (Detroit News)
More than 1,000 prison inmates, some behind bars more than 50 years for murders they committed as teenagers, will get a chance to seek their freedom under a Supreme Court decision announced Monday.

The Supreme Court just gave juvenile lifers a shot at parole (MLive)
Nearly 350 prisoners in Michigan serving mandatory life sentences for murder or other violent acts committed as minors could now be eligible for parole under an opinion handed down Monday by the U.S. Supreme Court.

MSHDA

Metro Detroit housing projects earn federal tax credits (Detroit News)
Six projects in Metro Detroit are among those across the state receiving some of more than $11.7 million in low-income housing tax credits, Michigan State Housing Development Authority officials announced Monday.

MEDC

2015 'best year ever' for tourism in West Michigan (WZZM)
The year 2015 was a record-breaking year for tourism across West Michigan, which means more money into the local economy.

LEGISLATIVE

Michigan Lawmakers Join 15 Other States Introducing Privacy Legislation (MPRN-Lansing)
A bipartisan group of state lawmakers hopes to send privacy protection legislation to Gov. Rick Snyder's desk this year.

Michigan lawmakers jump in to help National Guard in Flint (WLNS)
Lawmakers had their boots on the ground to join the troops in Flint Monday. "We're to help and observe. See what the needs are on the ground. That's why we're here. That's the only way you know what's going on is by going door to door and hear from the people of Flint what's going on," said Rep. Holly Hughes (R), Montague.

Disgraced Former Detroit Mayor Says Michigan Lawmakers Have Long Known About Flint Water Crisis (Huffington Post)
In a letter reportedly written from federal prison, disgraced former Detroit mayorKwame Kilpatrick claims Michigan officials have known about contamination in Flint's water supply for much longer than they're letting on.

Former Representative Cindy Gamrat launches new website against surveillance abuse (WWMT)
Former State Representative Cindy Gamrat has launched a new website to help people suffering from surveillance abuse.

OPINION

Editorial: Don't pay for dirty Flint water (Detroit News)

Flint city leaders continue to bill residents for water service, including bills for past service of contaminated water. But residents shouldn't be on the hook for water they can't use.

Let DPS families choose schools (Detroit News)
The plans proposed to date to address Detroit's public school crisis are too expensive and insufficient to the task of eliminating debt while elevating the education prospects of the city's 46,000 public school kids. For a city that has seen the Detroit Three become vital again through re-invention, it's sad that Motor City perseverance has yet to pervade the education sector.

Jacques: More school choice would help Detroit (Detroit News)
This is National School Choice Week, and it's an awareness campaign of the variety of choices parents should have regarding where to send their children to school.

Thompson: Independent probe needed in Flint (Detroit News)
It is hard to predict what Michigan Attorney General Bill Schuette will do next, having staged one news conference after another and making carefully calculated announcements regarding Flint's water crisis.

Editorial: High court does what Michigan failed to do (Detroit Free Press)
Here's what we know about young people's brains. We know they aren't fully formed until well after the legal age of adulthood, at least as far as judgment is concerned.

Susan J. Demas: Flint water crisis could propel Kildee to run for governor in 2018 (MLive)
He's a gravelly-voiced guy from Flint, a place nobody spent much time thinking about until last month.

End disasters in Detroit schools, Flint by ending emergency management (MLive)
When is enough really enough? Gov. Rick Snyder, through appointment of emergency managers, primarily in communities of color, continues to extend an oppressive form of governance that takes away local control and power from Michigan residents.

The Flint disaster is Rick Snyder's fault (Washington Post)
But the Flint disaster, three years in the making, is not a failure of government generally. It's the failure of a specific governing philosophy: Snyder's belief that government works better if run more like a business.

Trooper of the Year is stationed at Michigan State Police Tri-City Post
MLive
By: Cole Waterman
1.22.16

A state police trooper at the Michigan State Police Tri-City Post in Williams Township has been named Trooper of the Year.

MSP Director Col. Kriste Kibbey Etue and Michigan Attorney General Bill Schuette presented the Dr. Carl A. Gerstacker Trooper of the Year Award to Trooper Michael Darrow at a special ceremony in Lansing Thursday, Jan. 21.

The Gerstacker Award recognizes the trooper or sergeant who symbolizes outstanding professional ethics, dedication to duty and a concern for giving back to their community. The late Carl A. Gerstacker, former chairman of Dow Chemical Co., created the award in 1961.

Schuette is Gerstacker's stepson.

"Trooper Darrow's exceptional work performance, leadership skills and dedication to community outreach make him an excellent choice for the Trooper of the Year Award," Etue said in a press release.

Darrow has been with the agency for 15 years. He serves as a community service trooper at the Tri-City Post, 2402 Salzburg Road, where he has taken on multiple leadership roles in work and community-related programs, and is known for his dedication to service.

Darrow is instrumental in several MSP community outreach initiatives, such as Light Up the City and the Community Action United Team In Our Neighborhood program, known as CAUTION, the press release continued.

Darrow also serves as a team leader for the Michigan Special Olympics Torch Run and oversees the new cadet program being established for the MSP Third District covering the Flint, Saginaw, and Bay City areas.

Darrow serves as an instructor for the Student Tools for Emergency Planning (STEP) program, the MSP Teaching, Educating and Mentoring (TEAM) curriculum and for the youth leadership academies for at-risk youth held at the MSP Training Academy in Lansing. He has also assisted a local law enforcement agency with organizing its leadership academy and served as an instructor and mentor for the program.

Darrow is a horse leader for the Bay County 4-H Horsemanship for Handicappers, a nonprofit organization that provides therapeutic and recreational horseback riding to children and adults with physical, emotional, mental and social challenges. He and his family own all of the horses used in the program.

In addition, Darrow helped a local recording artist Kyrsta Strickland organize a 5-on-5 basketball tournament between youth and law enforcement officers to help strengthen the relationship between the community and law enforcement. As a result of the event's success, the sponsor agreed to hold the tournament annually.

Darrow served in the U.S. Army from 1986 to 1991 and he attended Central Texas University. He hails from Mackinaw City and currently resides in Bay City with his wife.

Zylstra named Motor Carrier Officer of Year
Hillsdale Daily News
1.25.16

Michigan State Police (MSP) director Col. Kriste Kibbey Etue recently announced that MC Officer Jason Zylstra of the Jackson Post is the recipient of the 2015 Motor Carrier Officer of the Year.

The award is sponsored by the Michigan Trucking Association since 1985, recognizes the MSP motor carrier officer who symbolizes outstanding professionals ethics, dedication to duty and concern for giving back to their community.

"Officer Zylstra's reputation of outstanding work performance, commercial vehicle enforcement training, knowledge and commitment to service make him an excellent choice for the Motor Carrier Officer of the Year Award," Etue said.

Zylstra serves as a Commercial Vehicle Safety Alliance certified instructor, background investigator and a recruiter for the department. He was also a presenter at the Michigan Traffic Safety Summit last year. Additionally, he serves as a member of the temporary staff for the 20th Motor Carrier Officer Recruit School, which graduates in February.

Zylstra enlisted with the MSP in 2011, graduating as a member of the 17th Motor Carrier Officer Recruit School. He has served at the Jackson Post since graduation.

He is a 10-year combat veteran of the Army National Guard, serving in Afghanistan as a chief warrant officer two and a medivac Blackhawk helicopter pilot. During his deployment in Afghanistan, he flew over 90 missions and transported 110 patients.

He is a native of Wayland and currently lives in Lansing with his wife and their two dogs.

State police to hold recruiting seminar for women
Detroit News
1.25.16

Michigan State Police are hosting an informational recruiting seminar for women at Schoolcraft College in Livonia on March 19.

The event is scheduled for 10 a.m. to noon at the VisTaTek auditorium, Room 550, on the campus' north end, 18600 Haggerty. Attendees are asked to arrive by 9:45 a.m. The attire is business casual. To attend, email richardsonm2@michigan.gov.

It's expected to include many of the state agency's specialty units, including the Forensic Science Division, Canine Unit, Special Investigations, Computer Crimes and Gaming Section, officials said.

To be considered, an applicant must be a United States citizen, be at least 21 years old with no felony convictions, be a Michigan resident when appointed to the academy, possess a high school diploma or G.E.D., have a good driving record and moral character, and maintain a stable credit history.

Starting salary at the beginning of the 21-week recruit school is $44,000 annually with a $7,800 raise upon completing one year, MSP said.

MSP Brings Awareness to Human Trafficking
WBKB11
By: Erika Fernandez
1.26.16

As part of human trafficking awareness month, Michigan State Police Alpena Post hosted a human trafficking presentation at the Alpena Public Library.

MSP is aiming to bring awareness to the Alpena area on human trafficking.

The presentation on monday explained what human trafficking is, how it can take place, and where it might be taking place.

Each month, dozens of girls are taken into human trafficking in the state of Michigan. Just a few weeks ago, it was reported in Traverse City, that two people were arrested on prostitution and human trafficking charges after being found at a northern Michigan hotel.

Community Service Trooper Simpson advises everyone to be aware of situations that may look unusual.

If you witness suspicious activity or if a household does not seem like a typical family home–life, report it immediately to law enforcement because it could be a case of human trafficking or even a domestic violence case.

http://www.wbkb11.com/news/local/9000-msp-brings-awareness-to-human-trafficking

Stay safe, don't get distracted
Three Rivers News
By: Elena Hines
1.23.16

What is distracted driving?

"Anything that takes your attention away from the task of driving," Maurice Burton, a Michigan State Police trooper of 30 years, told the Three Rivers High School student body Friday during a Positive School Climate/Safe Driving Assembly at the Performing Arts Center.

That could be visual (taking one's eyes off the roadway), manual (taking one's hands off the roadway, such as when eating a sandwich) or cognitive (when one's mind is somewhere else).

"It only takes one second to have an accident when your mind is out there," Burton said.

Distractions include being drunk, on a cell phone, texting, talking to passengers, brushing hair, reading a navigator, watching a video or tuning the radio to a different station, he explained.

Already this winter there have been several accidents, such as on I-94, where people were going too fast and not paying attention.

There is a $200 fine for the first offense of texting while driving, and Level 1 and Level 2 drivers — such as some of the high school students — are not allowed to use cell phones at all while driving.

More than 176,100 Cases of Water Provided to Flint Residents to Date

FOR IMMEDIATE RELEASE
January 25, 2016

For more information contact:
Joint Information Center
888-EMD-TODAY (888-363-8632)
Release #: 17

FLINT, Mich. – In just over a two-week time period, 176,118 cases of water and 93,048 water filters have been provided to Flint residents, both at water resource sites and by water response teams.
Water response teams comprised of city, county and state personnel, American Red Cross and volunteers continued their door-to-door efforts, today visiting another 2,596 homes providing free bottled water, filters, water replacement cartridges and water testing kits.

Now that water response teams have completed two canvasses of the city providing water resources, the Michigan National Guard has scaled back their commitment from approximately 270 soldiers and Airmen to 70 soldiers who continue to staff water resource sites.

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 176,118 cases of water
- 93,048 water filters
- 29,320 water testing kits

Water resource sites remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6

716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

Subject: SEOC Update 1/25/16 - Flint Water - Limited Distribution
Attachments: 2016-01-20 - Flint Lead MDHHS Sitrep.pdf; 20160125_1700_Parcels_Contacted.pdf; 20160125_1700_Parcels_Filter_Status.pdf; SitRep20.pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:

- There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
- It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
- SEOC DEQ desk will continue to monitor and work this issue.

- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. Filter Cartridges 285,586
   d. Test kits 62,701

   * Numbers have not been updated due to the following circumstances:
   - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
   - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.

- At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a. 65
        i. Number in PODs: 60
        ii. Command and Control Staff for NG Personnel: 5
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.

- The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
- Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
  - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
  - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
  - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a. 276
        i. Number in PODs: 65
        ii. Number on Cyber Mission: 3
        iii. Number with FWRTs: 185
        iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- *Distribution of supplies at five water resource sites in the City of Flint.*
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).

- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:
    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,

6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.

- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (*PODs after 5 pm, ARC worksheets and local EOC hotshots.*)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams – Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water

testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337

b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams—Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.

- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs

- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:
  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.

- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.

- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	**114**	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.

- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)

- Ordered on 1/12/16 to arrive Wednesday
  - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR Vertical faucet mount
    - 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:

- 217 Door Hangers
- 152 Vacant Homes
- 117 Water Distributions
- 112 Filters
- 3 Pitchers
- 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***

- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers

- 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.

- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**

        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area

    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Subject: 2-1-1 Update Flint Water Response for Monday, January 25, 2016
Attachments: 2016-01-25 MI211 Flint Water Daily Update.docx

This is the daily 2-1-1 summary on the Flint Water Response for Monday, January 25, 2016

GENERAL INFORMATION:

- ☑ Thank you to the PIOs and DHHS partners who offered to discuss the growing public perception that 2-1-1 is a state agency and how the state is promoting 2-1-1 for the response. I will work to coordinate a meeting or conference call later this week.
- There are two major public meetings this week.
  - **Tuesday, January 26 at 5pm the NAACP is holding a Public Mass Meeting** at University of Michigan-Flint, Northbank Center, 432 N. SAGINAW STREET, FLINT, MI 48502. The meeting will be hosted by Cornell William Brooks, national NAACP President & CEO.
  - **Wednesday, January 27 at 7pm MSNBC's Rachel Maddow** will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_madd.html.
- The Flint Water Plant reported it is receiving the results of lead tests and is compiling the results from up to 100 tests per day. Processing the results is labor intensive as it requires converting the lab data into parts-per-billion, then preparing letters to residents with the results.
  - Water samples submitted for testing take up to three (3) weeks to process. The department is telling the public it is a 30 day wait for results.
  - Many samples are submitted with incomplete contact information, requiring additional research to get results back to the resident.
  - Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
- There are reports that residents using the free Lifeline phones (also known as Obama phones)are having problems using the abbreviated 2-1-1 dialing code. The Michigan 2-1-1 State Office is trying to verify this. If there is a problem we will work with the Lifeline vendor to correct the issue. **Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.**

CORRECTIONS AND CLARIFICATIONS
None today

CALL VOLUME:
Jennie Pollak, Central Michigan 2-1-1 Manager, was out sick today and was not able to provide a report on call volume and demand. While call numbers are not yet available, the vendor who provides the statewide call platform notified the Michigan 2-1-1 office that 85% of our incoming and outgoing lines were in use, an indicator that volume was again very high. This 85% threshold triggers close monitoring of the system by the 2-1-1 Technology Director who can turn on additional capacity if needed, ensuring that callers can still reach the 2-1-1 system. 2-1-1 continues to use the 'call-back' feature that allows caller to keep their place in the queue without holding on the line, then be contacted by the first available agent.

SPECIAL NEEDS/REQUESTS

- See above request for a contact to get sample bottles for residents to submit water for testing.
- SEOC is developing a standard form for 2-1-1 to use for water resource delivery requests. Once the format is standardized, Michigan 2-1-1 will work with one of our vendors to convert the this into an electronic form that will allow 2-1-1 agents to collect the callers needs and delivery information, then automatically send the individual requests in real-time to the contact responsible for managing deliveries.
- 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. **Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders?**
-
- 2-1-1 has received several questions from responders asking how we handle non-English speakers, as well as deaf/hard of hearing individuals.
    - There are a few 2-1-1 agents in the state system who are fluent in Spanish and Arabic. When these staff are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.
    - 2-1-1 handles requests from deaf and hard of hearing individuals in several ways.
        - TDD/TTY is available at every center, but very few calls come in this way
        - 7-1-1 teleinterpreter is regularly used by callers to reach 2-1-1
        - Email is widely used as it allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent
        - Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time

RUMOR CONTROL

- 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water". 2-1-1 contacted SEOC about how to respond and was informed the "Lead In Water" document . 2-1-1 agents have this document available, but it does not appear to be available on the state's web site. **Can the SEOC provide a link where we can refer callers to read the document, or give Michigan 2-1-1 permission to post it at MI211.org?**
    - Hearing different messages from different state officials is causing concern and confusion for the public. **Can PIOs provide any guidance as to how 2-1-1 should handle questions from callers about the reliability of information from these officials?**
- 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been away due to concerns that tracking data on the needs of homebound residents is a potential violation of HIPPA. **Can the SEOC verify if this is correct? If so, who is working on a HIPPA-compliant process for tracking information on the needs of homebound residents and when is it expected to be available?**
-

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites.
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**

- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
- ☐ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

If the constituent goes to a distribution center he will probably be able to get one, but it will not be a commercial grade and should probably not be relied upon to supply water to the whole business.

Flint Water Discussion Points
Updated Jan. 25

General High-level talking points

- There are people in the state of Michigan that can't drink their water, and that is unacceptable to all of us. As Governor, Rick Snyder has taken responsibility, taken emergency response measures and is committed to dedicate all the resources needed to make this right for the people of Flint.

- The top priority for Governor Snyder and his administration is ensuring every Flint resident has access to clean, safe drinking water. We are committed to providing affected children and families access to medical and educational resources to ensure long-term care and treatment.

- The Flint water crisis has been a systemic failure of government at all levels: from the city of Flint, the state of Michigan, the civil servant scientists and the U.S. Environmental Protection Agency (EPA).

- The Governor has held himself and his government accountable. The Governor replaced the leadership of Michigan Department of Environmental Quality (MDEQ) and has taken disciplinary measures on the staff and civil servant scientists responsible for the crisis. Actions have been taken to ensure a new and capable team is overseeing Flint water and creating a department culture focused on the health and safety of Michigan residents. Two DEQ officials involved in the testing of Flint water have been suspended pending an investigation, in accordance with civil service rules.

- The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support to the health of Flint residents. In addition, the supplemental budget request will provide funds to the city to help alleviate the need for utility shutoffs.

- Governor Snyder and his administration are committed to working in partnership with Flint Mayor Karen Weaver, independent experts, and the federal government to ensure both short-term and long-term solutions.

Current Issues Talking Points

House passage of the $28 million supplemental bill (162-0 vote)

- The supplemental request is a short-term solution to address immediate needs in the city, including bottled water, filters and testing kits.
- The health and safety of Flint residents remains a top priority. The Governor has worked closely with the Legislature to encourage quick passage of the supplemental to encourage immediate action.
- We look forward to the Senate taking action on this bill this week.

$80 million from federal Clean Water Revolving Fund

- $80 million is part of the federal budget and will be offered to state in the form of low-interest loans.
- It has not been determined how much of this money will be awarded to Flint. The state must submit a plan to the federal government detailing the spending allocations before it's awarded.

Denial of the major disaster declaration and upcoming appeal

- The Flint water disaster is the result of failures in all levels of government. Just as our own Legislature is working to quickly approve funding to provide clean water resources and long-term support for the people of Flint, it is our hope to receive further support from the federal government and Michigan's Congressional Delegation.
- On Friday, January 22, the President denied the Governor's appeal for a federal disaster declaration to aid Flint.
- The Governor will request that the President reconsider awarding funds under two programs allowed under the emergency declaration: The Individuals and Households Program, which provides such things as housing assistance and replacement of personal property; and money for emergency protective measures.

Resources distributed (as of 1/24/2016):

- 164,991 cases of water
- 91,763 filters
- 28,763 testing kits
- 197,775 filter cartridges

Homes visited by Flint Water Response Teams (as of 1/24/16): 37,844

For more information, visit www.mi.gov/flintwater or www.helpforflint.com.

AT A GLANCE: Flint Action Timeline: For the 2006 – Jan. 16, 2016 Timeline click here

- **Sept. 28, 2015:** For the first time, DEQ and DHHS directors briefed the governor on the potential scope and magnitude of the lead issue. They begin discussion on what actions should be taken if the concerns raised by outside researchers were to be verified.
- **Oct. 1. 2015:** DHHS director informed the governor that his epidemiologists reviewed the data and confirmed Dr. Mona Hanna-Attisha's conclusions that blood lead levels in children were elevated – due to an association with lead contaminated water in certain ZIP codes.
- **October 2, 2015:** Governor releases 10-point Plan to address water systems, designates $1 million for water filters and anticorrosion treatment. This action was taken with 24 hours of DHHS confirmation that there was lead present in Flint's drinking water. The 10-Point Plan is available here.
- **Oct. 8, 2015:** Governor announces plan to reconnect to Detroit water.

- **Oct. 15, 2015**: Governor signs supplemental appropriation with $9.35 million to assist Flint in reconnecting to DWSD. Mott Foundation contributed $4 million and Flint $2 million. Flint officially reconnects to Detroit water system the following day, October 16.

For October 15, 2015 – January 16, 2016 click here

- **January 19, 2016**: Governor gives State of the State Address. Focuses on Flint response, short-term and long-term solutions.
- **January 20, 2016**: Governor releases all Flint emails sent and received on Flint between January 2014 and December 2015.
- **January 20, 2016**: Governor appeals denial of federal major disaster declaration for Flint. House of Representatives passes $28 million supplemental bill to support Flint.
- **January 22, 2016**: Two DEQ officials involved in Flint water testing are suspended pending an investigation, in accordance with Civil Service rules.
- **January 22, 2016**: Executive power to appoint city administrator and all department heads is returned to Flint Mayor via resolution approved by Flint RTAB and Treasurer Khouri.
- **January 22, 2016**: Governor announces he will seek additional federal aid to help Flint residents despite rejected appeal. Will request resources under the Individual Households Program which provides housing assistance, personal property replacement and emergency protective measure funding. This announcement followed the President's denial of the major disaster declaration appeal.

Voice of the River Annual Celebration

Flint Water Crisis

January 28th, 2016 6:00 – 9:00 Sloan Museum

1211 E. Kearsley Street, Flint, MI

Flint, MI. January 22, 2016 – The Flint River Watershed Coalition (FRWC) is gearing up for its 2016 Voice of the River Annual Celebration.

We invite one and all to join us on Thursday January 28th at the Sloan Museum to celebrate all the wonderful features of the Flint River. We also will share our most recent testing data, our plans to pursue National River designation, as well as our plans to restore the river as it flows through downtown Flint. And as always, we'll have great food, great companionship, awards, and some fun auction items.

Tickets are $25 and can be obtained by calling 810-767-6490 or emailing ewesthoff@flintriver.org. Payment can be made at the door, but we would appreciate an rsvp so we know you'll be joining us!

Join us on Thursday, and join us in telling the world: #itsnottheriver.

This year's event is happening during a time of significant hardship for Flint residents. Lead contamination in the City's drinking water supply has many questioning the quality and health of the Flint River. The FRWC is appalled at the condition of the City's drinking water, and dismayed that the local, state, and federal agencies that are meant to protect our citizens and our drinking water all seemed to fail so completely.

Our message to the world is simple. It's not the river. The Flint River is a vibrant ecosystem that supports growing populations of pollution intolerant species such as eagles and ospreys. Recreational opportunities in and along the Flint River are abundant, and we're seeing higher numbers of users each and every year. Local support for the protection, preservation, and improvement of the river has never been stronger.

News reports are erroneously making statements such as "the highly caustic Flint River" or "the river serves as an industrial sewer." These reports simply do not accurately state the facts. Our long term monitoring date show an ecosystem that is consistently trending from "good" to "excellent." Recent chloride testing is showing levels well within the threshold for acceptable. As well, recent lead tests show no indication of lead in the river itself.

Treating river water is very different from treating lake water. Unfortunately, far too many mistakes were made from the very start of the switch to using the Flint River as our drinking water source. From high bacteria levels, to violations of the Safe Drinking Water Act for TTHM levels, to the current lead crisis and possible link to the Legionnaires outbreak. This failure to treat the water and the failure for agencies to take action have harmed our citizens and have harmed this invaluable freshwater resource. This is unacceptable.

Learn more about the Flint River Watershed Coalition and the work that we do by joining us at the Annual Voice of the River Celebration. You'll have a chance to view the newest exhibit at the Sloan Museum, 'Water's Extreme Journey,' share your experiences about the Flint River, and lend your voice as we call out #itsnottheriver.

This year's award winners:

Tom Jones, Genesee County Drain Commission is award the Dr. Gary Pace Volunteer of the Year award for his dedication to the Flint River GREEN program, including building a data collection and compilation website for the program.

Art Wenzlaf, International Academy is awarded the Joe Leonardi Leadership award for his dedication and tireless effort to improve and protect the Thread Creek and Thread Lake.

Golden Gloves award will be announced at the Voice of the River Celebration following the online vote. Vote now at https://www.surveymonkey.com/r/J9MP3J5

Subject: Monday, Jan. 25 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

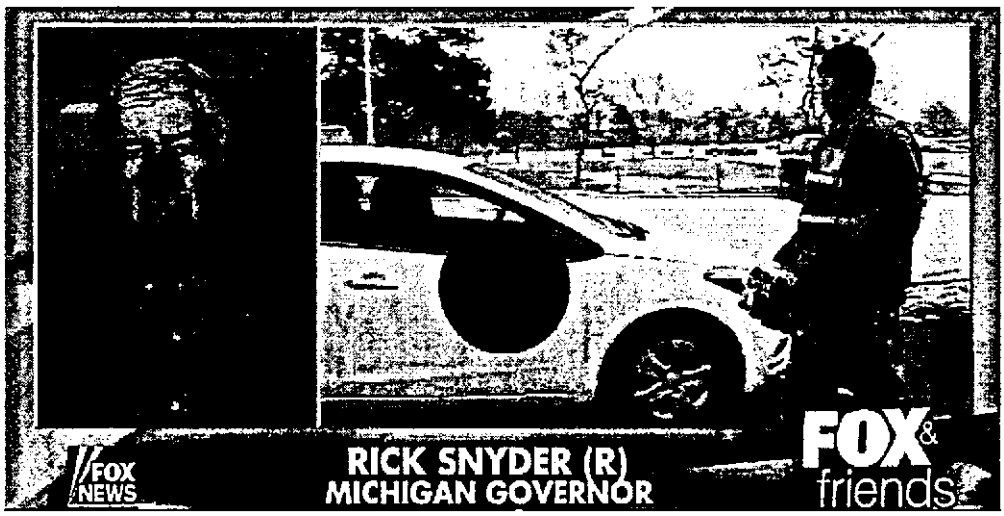
UPDATE | MONDAY, JANUARY 25, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

To date, our water resource teams have visited more than 37,000 homes in Flint to deliver critical clean water resources to families in need.

Since January 9, 164,991 cases of bottled water, 91,763 water filters, and 28,763 water testing kits have been distributed in Flint. If you would like to donate or volunteer to help the residents of Flint, please visit www.HelpForFlint.com.

Governor Snyder on Fox and Friends this morning



This morning Governor Snyder joined the Fox and Friends crew to discuss the Flint water crisis and the efforts to ensure immediate and ongoing access to clean, safe drinking water. **Click here to watch the Governor's full interview.**

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for

drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

Fire Station #1
310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Rd.
Flint, MI 48506

Fire Station #6
716 West Pierson Rd.
Flint, MI 48505

Fire Station #8
202 East Atherton Rd.
Flint, MI 48507

We will continue to work to improve the water situation in Flint. Community members and local officials are working together to make sure we hear and respond to concerns. Governor Snyder will continue to keep you updated on the latest news and information. **If you don't find the resources you need by dialing 211 please call the Governor's office directly at 517-335-7858.**

Attachments: JIC Social Media Quick Start Guide for Radian6 v1.doc

All – attached is a quick start guide for Radian6, to be used by whomever is in on assignment that day to manage social media at the JIC.

Radian6 retrieves results from more than 150 million sites and sources including: social media (Facebook, Twitter, etc.), blogs, discussion forums, local and national mainstream news (NYTimes.com, WSJ.com, DetroitNews.com, etc.), and much more.

The social media manager assigned to the JIC can use Radian6 to monitor online *volume*, *sentiment* and *content*. Furthermore, the JIC social media manager can flag content that they deem important or noteworthy. On average, there are more than 1,000 tweets per hour about the Flint water crisis. The manually-flagged content will be included in an automated email daily summary sent to JICManager@michigan.gov.

Subject: Re: Social Media Tools - Flint Water

Tilak and Rod - I'm creating a JIC Social Media Quick Start Guide for Radian6. Consider me a social media resource for the JIC and Radian6. I've been granting Radian6 admin access to the Gov's office, MDARD, and others who are assisting with the JIC. I've configured a Flint Water Social Media Monitoring Dashboard and also set up a shared login for whomever is managing social media that day at the JIC.

GOV's ACTIVITIES

Interviews

Gov on Flint crisis: 'It will always be terrible' (Detroit News)
It's clear Gov. Rick Snyder has thought a lot about this question: What would you have done differently in your response to the Flint water crisis? "I would have called out the National Guard on Oct. 1," the governor told me in an interview Thursday. This is certainly a recognition that his public response lacked the urgency the situation required.

Returning powers to Flint

State grants additional executive powers to Flint mayor (AP)
Michigan officials have approved granting additional executive powers to Flint's mayor as the city moves out of state oversight.

Management powers restored to Flint mayor (Detroit News)
With Flint's water crisis dominating national headlines, Gov. Rick Snyder's administration moved Friday to restore much of Flint Mayor Karen Weaver's management powers. The state's Flint receivership transition advisory board granted Weaver the power to hire and fire the city administrator, Flint's police and fire chiefs and all other city department directors

DEQ workers suspended

Michigan governor suspends state workers over Flint water crisis (Al Jazeera)
Michigan Governor Rick Snyder on Friday suspended two state workers in connection with water testing failures in the Flint contamination crisis, and the state restored some powers to Mayor Karen Weaver.

Two Michigan DEQ officials involved in Flint water testing suspended (Mlive)
wo Michigan Department of Environmental Quality employees have been suspended as a result of pending questions regarding actions related to water testing in Flint. Both employees have been suspended pending an investigation, in accordance with Civil Services rules, according to a news release from Gov. Rick Snyder's office.

2 suspended in Michigan's DEQ over handling of Flint water crisis (WDIV)
An internal investigation by Gov. Rick Snyder's office has led to two suspensions over the Flint water crisis. Two people have been suspended without pay, according to Local 4 Mara MacDonald's sources. The employees could be fired once the civil servant process is complete.

Disaster appeal denied
Snyder seeking additional federal aid in Flint water crisis after appeal rejected (Mlive)
President Barack Obama has denied Gov. Rick Snyder's appeal for a federal disaster declaration to aid in Flint's water crisis. A letter from the Federal Emergency Management Agency (FEMA) states the call for a federal disaster declaration was called "not appropriate for this event."

Gov. Snyder asking for more federal funding, despite rejection (WWMT)
Governor Rick Snyder is asking for more funding for Flint, after President Obama denied his request for a federal disaster declaration a second time. The government says the crisis in Flint is man-made.

FEMA again denies Snyder's Flint disaster request (Detroit News)
The Federal Emergency Management Agency denied Friday Gov. Rick Snyder's appeal of its decision that Flint's contaminated water crisis is a federal emergency instead of a major disaster. Snyder requested $96 million in disaster relief, but Obama extended $5 million in federal emergency aid and followed Thursday with an $80 million allocation to the state of Michigan for federal drinking water construction aid and loans.

US denies appeal for Flint disaster declaration (Elkhart Truth)
The Obama administration has denied an appeal by Michigan Gov. Rick Snyder for additional aid for Flint through a disaster declaration, saying the program isn't appropriate for the city's drinking water crisis.

Communications assistance
Snyder hires help to deal with news media on Flint water (AP)
Gov. Rick Snyder is hiring public relations specialists to help him deal with the Flint water crisis. Snyder chief of staff Jarrod Agen says public money won't be used. The Detroit News and Detroit Free Press say the governor has hired the Mercury firm, where Agen's wife is a senior vice president in the firm's Ft. Lauderdale, Florida, office.

Snyder hires PR firm with ties to new chief of staff (Freep)
Gov. Rick Snyder has hired the national public relations firm Mercury LLC, where the spouse of Snyder's new chief of staff is a senior vice president, to help with communications during the Flint water crisis. The governor has also hired another communications expert, Bill Nowling, chief of staff Jarrod Agen said late Friday.

Report: Gov. Snyder hires public relations firm in wake of Flint water crisis (Mlive)
Gov. Rick Snyder has hired a national public relations firm as well as another communications expert to help with communications during the Flint water crisis. Snyder hired the public relations firm Mercury LLC, which has a tie to his new Chief of Staff Jarrod Agen, according to a report from the Detroit Free Press. Agen's wife, Bettina Inclan-Agen, is a senior vice president in Mercury's Florida office in Fort Lauderdale. The company has no offices in Michigan.

Snyder hires two PR firms amid Flint crisis (Detroit News)
Gov. Rick Snyder has hired two public relations firms to help his office deal with the Flint water contamination crisis. Mercury Public Affairs of Washington, D.C., and Bill Nowling of Finn Partners, a New York firm with offices in Detroit, are working for the governor, Chief of Staff Jarrod Agen confirmed Friday.

With Flint water crisis center stage, Gov. Snyder hires national PR firm (Michigan Radio)
The Snyder administration is now in over-drive to create both the perception and the reality that the state is engaged in making rapid progress in dealing with the Flint water crisis.

Snyder hires Mercury PR firm to help with Flint lead crisis (Crain's)
Gov. Rick Snyder is hiring public relations specialists to help him deal with the Flint water crisis.

Task force report

Flint water task force urges action on new system (Freep)
Gov. Rick Snyder's Flint Water Advisory Task Force says it's essential to re-establish a trusted drinking water distribution system in Flint "to replace the unsustainable and expensive bottled water and filter distribution program." In a letter to Snyder released Friday, the task force also calls on the state to ask the U.S. Centers for Disease Control and Prevention to help the state in assessing outbreaks of Legionnaires' disease in 2014 and 2015, which may have been linked to the Flint water problem, and which caused nine deaths in Genesee County.

Emails

Michigan Governor Releases Emails About Flint's Water — But There's a 7-Month Gap (Vice News)
Michigan Governor Rick Snyder, whose administration has been embroiled in controversy over its response to the city of Flint's contaminated water, released 274 pages of relevant emails on Wednesday in an attempt at transparency. But there's a seven-month gap in the disclosed correspondence between February and September 2015 — a critical period during which many developments occurred and concerns over the public water supply reached a fever pitch.

Lawyers look for Snyder documents dating back to 2011 (Freep)
A lawyer representing a growing number of Flint residents will serve a comprehensive request for documents to Gov. Rick Snyder on Monday. "The Governor says he has immunity from the Freedom of Information Act, but he doesn't have immunity from our lawsuit," said Michael Pitt, who is one of a group of attorneys who filed class action lawsuits this week against the state in Genesee County and the state Court of Claims.

EPA response

Michigan questions legality of EPA directive on Flint (Detroit News)
The state of Michigan responded Friday to a U.S. Environmental Protection Agency directive to address "serious and ongoing concerns" with Flint's drinking water by questioning whether the federal order is even legal. Michigan Department of Environmental Quality Director Keith Creagh, in a Friday letter to EPA Administrator Gina McCarthy, disputed whether the EPA "has the legal authority" to require a state to take the actions outlined in the order, saying the state would share those concerns by letter or in person.

Michigan official takes confrontational tone with EPA chief over Flint water crisis (AP)
Michigan's top environmental officer was by turns cooperative and confrontational with the U.S. Environmental Protection Agency on Friday, pledging to work together to ensure the safety of Flint's drinking water but challenging the legality and scope of some federal demands.

State questions EPA's Flint order but will comply (Freep)
The political and regulatory blame game taking place as Flint's water and public health crisis unfolds, took another turn Friday with the new head of Michigan's Department of Environmental Quality saying the state will comply with a federal order regarding the handling of the emergency, but taking a combative stance in doing so.

Michigan questions some U.S. demands regarding Flint water (Holland Sentinel)
Michigan's top environmental officer was by turns cooperative and confrontational with the U.S. Environmental

Protection Agency in a letter pledging to work with the federal government to ensure the safety of Flint's drinking water but challenging the legality and scope of some federal demands.

Jeb Bush support

Jeb Bush: Michigan governor shouldn't resign over Flint water crisis (Washington Times)
Republican presidential candidate Jeb Bush said Sunday that Michigan Gov. Rick Snyder should not have to resign for how the state handled the contaminated water crisis in Flint.

Jeb Bush offers admiration for Gov. Snyder's response to Flint water crisis (MLive)
Republican presidential candidate Jeb Bush shared admiration for Gov. Rick Snyder's response to the Flint water crisis.

Jeb Bush defends Michigan Gov. Rick Snyder for trying to fix Flint water crisis (Daily News)
Fading GOP 2016 candidate Jeb Bush on Sunday praised and defended disgraced Michigan Gov. Rick Snyder for his response to fallout resulting from the water crisis in Flint, Mich.

Jeb Bush defends Governor Snyder (WILX)
Governor Rick Snyder is under fire for his administration's handling of the water crisis in Flint, but a fellow republican comes to his defense.

Jeb Bush on Michigan Gov. Rick Snyder: 'He's taken responsibility, and I admire that' (Latin Post)
Despite receiving criticism from almost every direction, Michigan Gov. Rick Snyder got some praise from Republican presidential candidate Jeb Bush.

Jeb praises Mich. governor after crisis (Daily Beast)
During an interview on CNN's "State of the Union" on Sunday, Jeb Bush praised Michigan governor Rick Snyder for "stepping up" to address the Flint water crisis. "I admire Rick Snyder for stepping up right now.

Jeb Bush defends Snyder's handling of Flint crisis (Detroit News)
Former Florida Gov. Jeb Bush on Sunday defended Republican Gov. Rick Snyder's response to Flint's lead-contaminated water crisis and said the focus should be on fixing the city's drinking water system "instead of blaming people."

Jeb Bush praises Rick Snyder's handling of Flint Water Crisis (Huffington Post)
Republican presidential candidate Jeb Bush on Sunday applauded Michigan Gov. Rick Snyder's response to the water contamination crisis in Flint -- even though the situation was caused by Snyder's own administration.

Detroit Public Schools

Another showdown today over Detroit schools (Detroit News)
This morning is the latest showdown over Detroit Public Schools as district leaders try to get a court to halt the massive teacher "sickouts" that have closed dozens of schools over the past two months

Misc.

Governor Snyder: Race had no Role in Michigan Water Response (Urban Twist)
Michigan Governor, Rick Snyder said on Friday that race was not a factor in the state's response to lead contamination in the drinking water in Flint. Flint is a poor, majority-black city where the supply has been tainted for more than a year, but for much of that time, state officials reported that it was safe to drink.

Celebs weigh in on Flint (WILX)

Actor Matt Damon told The Daily Beast he thought Governor Rick Snyder should resign because of the Flint water crisis, and went on to call for Snyder to be put on trial.

Report: Matt Damon calls on Gov. Snyder to resign over Flint water crisis (MLive)
A Hollywood heavyweight has chimed in on the Flint water crisis and had some blunt words for Michigan Gov. Rick Snyder.

Dems urge Snyder to request disaster loans for Flint (Detroit News)
Democratic members of Michigan's congressional delegation are urging Gov. Rick Snyder to request disaster loans through the federal Small Business Administration to assist businesses owners who have been affected by the lead contamination of drinking water in Flint.

Governor Snyder's popularity may be tainted after the Flint water crisis (WLNS)
After the Flint water crisis, some critics are placing blame on one person, Governor Rick Snyder. A Lansing polling expert gives his predictions on Snyder's popularity.

State's top doctor admits 'missed opportunity' for earlier Flint response (Freep)
The Michigan Department of Health and Human Services' own review last July showed a spike in blood-lead levels in Flint children in the months after the city switched its water supply to Flint River water. But state epidemiologists explained it away, a "missed opportunity" that could have resulted in an earlier response to the crisis, the agency's chief medical officer said.

Flint lead problem could be eased by recoating old pipes (AP)
Flint's mayor has floated a shockingly high price tag to fix the Michigan city's lead-contamination problem: $1.5 billion to replace damaged pipes. Gov. Rick Snyder put the figure at $700 million.

An unnatural disaster in Flint (Chicago Tribune)
A year ago, Michigan Gov. Rick Snyder chose an unfortunate metaphor to launch his second term in office. During his state of the state address in January 2015, the Republican governor shared his vision for bringing all Michigan residents into a "river of opportunity."

Government run like a business poisons kids (Huffington Post)
The people of Michigan hired themselves a GOP businessman to be governor in 2011. And what they got was children poisoned by public water in Flint.

The Flint, Mich. water crisis is just the latest racial violence (The Athens News)
People in Flint, Michigan, a poverty-stricken, black-majority city, have been ignored for months as they complained that the water from the new source coming into their city was brownish-colored, had a unusual odor and was having strange health effects.

Kwame Kilpatrick calls Rick Snyder a liar about Flint water crisis from behind bars (CBS)
Disgraced former Detroit Mayor Kwame Kilpatrick reached out from behind bars to lambaste Michigan Gov. Rick Snyder about the Flint water crisis and accuse the governor of misleading the public about his knowledge of it.

Flint water crisis timeline (Crains)
March 2013: The Flint City Council approves joining the Karegnondi Water Authority after an exploration period of

several years. The idea is to pipe water in from Lake Huron to mid-Michigan instead of relying on Detroit city water. Flint Emergency Manager Ed Kurtz supports the plan.

FLINT WATER

Exclusive: Gov. Rick Snyder's men originally rejected using Flint's toxic river (Daily Beast)
The emergency manager for Flint, Michigan, appointed by Gov. Rick Snyder in 2012, rejected using the city's river as drinking water after consulting with the state's environmental protection agency.

Lead levels in Flint appear to be falling (Detroit Free Press)
Preliminary results from tests on Flint's drinking water done since the city switched back to Detroit's water system and added phosphates show that lead levels appear to be falling.

Militia in Flint join calls for justice in water crisis (Detroit Free Press)
Flint may have seen multiple rallies in recent weeks that called attention to the city's water crisis — but few if any were as surprising as a rally held by the Genesee County Volunteer Militia.

Jimmy Fallon donates $10,000 to Flint (Detroit Free Press)
Late night talk show host Jimmy Fallon is donating $10,000 to Flint as its residents grapple with a water crisis linked to lead contamination.

Jeb Bush defends Snyder's handling of Flint crisis (Detroit News)
Former Florida Gov. Jeb Bush on Sunday defended Republican Gov. Rick Snyder's response to Flint's lead-contaminated water crisis and said the focus should be on fixing the city's drinking water system "instead of blaming people."

FEMA again denies Snyder's Flint disaster request (Detroit News)
The Federal Emergency Management Agency denied Friday Gov. Rick Snyder's appeal of its decision that Flint's contaminated water crisis is a federal emergency instead of a major disaster.

MSNBC's Rachel Maddow to host town hall in Flint (Detroit News)
MSNBC host Rachel Maddow is taking her liberal talk show to Flint next week to highlight the saga of the city's contaminated water.

Management powers restored to Flint mayor (Detroit News)
With Flint's water crisis dominating national headlines, Gov. Rick Snyder's administration moved Friday to restore much of Flint Mayor Karen Weaver's management powers.

Hospital ties Legionnaires' to Flint water (Detroit News)
Flint's contaminated water likely contributed to the Legionnaires' disease outbreak in Genesee County, where the bacteria was found in a hospital's water supply, an expert for McLaren Regional Medical Center said.

Report: Matt Damon calls on Gov. Snyder to resign over Flint water crisis (MLive)
A Hollywood heavyweight has chimed in on the Flint water crisis and had some blunt words for Michigan Gov. Rick Snyder.

Cher calls Gov. Snyder 'liar or idiot' on 'The View' segment on Flint water (MLive)
Cher unleashed on ABC's national talk show "The View," telling the panel Gov. Rick Snyder is "either a liar or an idiot," and said he is "wearing his pinstripes the wrong way," suggesting he should be jailed for his role in the Flint water crisis.

Free lead testing event for children at Flint elementary school (MLive)
A free lead testing event for children is set for this week at Eisenhower Elementary School in Flint.

DETROIT

Attendance up at this year's Detroit auto show (Detroit Free Press)
Toledo resident Dylan Singleton might have a handful of years before he can drive, but that didn't stop him from marveling at the dozens of shiny cars and trucks Sunday during the last day of the 2016 North American International Auto Show at Cobo Center.

Detroit teachers plan protest Monday; schools may close (Detroit Free Press)
Some Detroit teachers plan to hold another protest on Monday, which means that an unknown number schools may close for the day.

Detroit, Flint problems show rift on emergency managers (ABC News)
Darnell Earley didn't come up with the plan to channel corrosive river water into Flint's old lead-lined water pipes, causing a health emergency. And he certainly can't be blamed for the Detroit school system's decaying facilities and wrecked finances, which have prompted teacher boycotts this month.

2 Detroit schools closed to sickouts (Detroit News)
Two public schools in Michigan's biggest school district are closed Monday due to teacher sickouts, Detroit Public Schools announced Monday morning.

Social media threats shut down schools in metro Detroit (Detroit Free Press)
Classes were canceled Monday at a handful of schools across metro Detroit after districts received threats that were posted on social media today and over the weekend.

LEGISLATIVE

Bill aimed at DPS sick-outs, Flint water introduced (Detroit Free Press)
Two of the most vexing problems facing the state, the Flint water crisis and the financially struggling Detroit Public Schools, were the subjects of bills introduced by lawmakers in Lansing last week.

'They can't just leave;' Michigan looks to change enforcement of human trafficking laws (Mlive)
A paradigm shift in the way criminal justice deals with human trafficking is driving recommendations to help victims and punish perpetrators, a Michigan judge said.

Michigan service dog laws get a face lift (Fox 17)
There's relief for several people with disabilities in Michigan who count on a four-legged friend in their daily lives. A new state law went into effect this week updating Michigan's rules on service animals.

AG Bill Scheutte to provide update on Flint water crisis investigation (MLive)
Michigan Attorney General Bill Schuette is scheduled to provide an update Monday, Jan. 25 on his office's investigation regarding the water crisis in Flint.

Detroit teachers face off with EM Earley over legality of 'sick-outs' Monday (Detroit Free Press)
On the day President Barack Obama visited Michigan to attend the Detroit auto show, 88 of Detroit's nearly 100 public schools were closed.

Hearing today on request to block DPS teacher sick-outs (Detroit Free Press)
Attorneys for Detroit Public Schools will appear in court Monday to request a temporary restraining order aimed at halting a recent wave of teacher sick-outs.

OPINION

Detroit Public Schools is not too big to fail (Detroit Free Press)
Trying to address the myriad of issues that are tied to Detroit Public Schools is not simple, yet the state Legislature is has been continually working on those problems despite what anybody in Detroit says.

Voters' distrust didn't begin with Flint water crisis (Detroit Free Press)
He spoke with genuine contrition, like a man who belatedly realizes that a thoughtless romantic dalliance has put his marriage and professional reputation at mortal risk.

Fixes for DPS can't come fast enough—literally (Detroit free Press)
Say this for more than a month of "sick-outs," unofficial strikes staged by Detroit Public Schools teachers — they've brought the district's horrors clearly into focus: a dead mouse in one elementary school, classrooms so cold that children expect to wear coats until noon; pictures from another school show a profusion of mushrooms growing out of a wall.

Editorial: declare Flint a federal disaster (Detroit News)
President Barack Obama promised in Detroit last week that he will "have the backs of the people of Flint." He backed that up this week with an $80 million water infrastructure grant for the state, much of which should be used in Flint.

Crisis communications can't clean up Flint mess (Detroit News)
When communicating through a crisis, it's imperative that you admit the mistakes and commit to fixing the problem. It is the only way to regain the trust of the people. That is exactly what Gov. Rick Snyder did during his State of the State address.

Gov on Flint crisis: It will always be terrible (Detroit News)
It's clear Gov. Rick Snyder has thought a lot about this question: What would you have done differently in your response to the Flint water crisis?

Editorial: Assigning blame in Flint (Detroit News)
With the release of Gov. Rick Snyder's emails regarding Flint, and other information that has emerged over the past few weeks, responsibility for the blunders that allowed dangerous levels of lead into the city's drinking water is becoming clearer.

Prof: Handling of Flint water crisis likely to damage Snyder's legacy (CM Life)
When citizens lose trust in their government, political science professor James Hill said one of two things usually happens: They become more politically active or decline to participate in government at all.

Op-ed: Rick Snyder, Michigan alum (Michigan Daily)
When news of the Flint water crisis broke national headlines, I couldn't believe the reports I was reading. The citizens of Flint had been drinking river water contaminated not only by lead, but also with E. coli and trihalomethanes, for more than an entire year. Worse yet, they essentially were poisoned in order to save the city money. Every article brought new testimonies — new tragedies — from victims of the crisis.

Opinion: Buck stops with Snyder, but here's whom to really blame in Flint water crisis (Crain's)
It's not the state. It's not Rick Snyder, who has become everybody's whipping boy, locally and nationally. It's not the emergency managers.

Truth and meaning: A Crisis of Leadership...and faith (Midland Daily News)
People of faith across Michigan find themselves wrestling with the ongoing revelations that state officials knowingly allowed the poisoning of the people of Flint without warning for more than a year. Every day, more information shows us that Gov. Rick Snyder's appointees sacrificed the health and well-being of thousands of citizens recklessly, perhaps immorally. As we learn more, we must cope with our immediate response to the crisis while at the same time discerning its cause.

Flint: Playing the blame game won't fix the problem (Forbes)
Governor Rick Snyder appointed an emergency manager in an attempt to revive the city's finances. In April 2014, the emergency manager, decided to replace the city's drinking water which came from Detroit with water from the Flint River.

Rochelle Riley: Gov. Snyder can help kids in DPS now (Detroit Free Press)
How blind can we be? The terrible tragedy unfolding in Flint for more than two years is, in some ways, not unlike the terrible tragedy that has unfolded in Detroit schools over the last quarter-century.

Leix, Ron (MSP)

Leix, Ron (MSP)

From: Thelen, Richard (DHHS)
Sent: Monday, January 25, 2016 10:07 AM
To: Tom Page; Bob Tonander; JICManager; Holmes, Virginia (DHHS); Jamie Gaskin; Eisner, Jennifer (DHHS); Jennifer Pollak (jennifer.pollak@lifewayscmh.org); Leix, Ron (MSP); 'Kathryn.halliday@fema.dhs.gov'
Subject: RE: 2-1-1 Update Flint Water Response for Friday, January 22, 2016

Thanks Tom. A conference call would be great. Our FEMA VAL, Katie Halliday suggested we also discuss your surge capacity, and what assistance may be necessary if there is a large influx due to the multiple media pushes scheduled by various organizations this week.

From: Tom Page [mailto:tpage@uwmich.org]
Sent: Monday, January 25, 2016 9:57 AM
To: Bob Tonander <btonander@gryphon.org>; JICManager <JICManager@michigan.gov>; Holmes, Virginia (DHHS) <HolmesV@michigan.gov>; Jamie Gaskin <jgaskin@unitedwaygenesee.org>; Eisner, Jennifer (DHHS) <EisnerJ@michigan.gov>; Jennifer Pollak (jennifer.pollak@lifewayscmh.org) <jennifer.pollak@lifewayscmh.org>; Thelen, Richard (DHHS) <ThelenR4@michigan.gov>; Leix, Ron (MSP) <LeixR@michigan.gov>
Subject: 2-1-1 Update Flint Water Response for Friday, January 22, 2016

My apologies for the delay in distributing the Friday update. I was traveling and had a problem getting an internet connection outside the office.
Tom

This is the daily 2-1-1 summary on the Flint Water Response for Friday, January 22, 2016

GENERAL INFORMATION:

- Based on State of Michigan references to "Call 211" in print and online media sources, many callers to the service think 2-1-1 is a state agency. This leads some to ask questions about potential bias in the information 2-1-1 is providing about the Flint water situation. The public understanding of 2-1-1 as an independent and impartial service is essential to maintaining our position as a trusted source of information with both the community at-large and state partners. **Michigan 2-1-1 would like to set up a call or meeting with the appropriate state representatives and some key stakeholders to standardize how the state publicizes the 2-1-1 service.**
- Central Michigan 2-1-1 has created a Drop Box folder for 2-1-1 agents taking Flint Water calls. It holds a four page master document that ensures updates and new information are immediately available to all 2-1-1 staff. It includes sections on Background Information (including President Obama's Emergency Declaration), Rumor Control, Health & Water Quality/Safety Concerns, the Taxonomy Terms 2-1-1 is using to provide referrals and track needs, a general Q&A section, and links to Printed Materials and online resources such www.helpforflint.com along with various flyers and statements on the response from State of Michigan.
    - If you have information or materials to include on the master document, please email them to jennifer.pollak@lifewayscmh.org, melissa.ladd-patnode@lifewayscmh.org, and tpage@uwmich.org.

CORRECTIONS AND CLARIFICATIONS
None today

CALL VOLUME:
Call volume continues to be higher than average, but is dropping from the Wednesday peak. Average wait time was down significantly to under 15 minutes during peak volume

- There was a brief period today when the queue for Flint water calls reached 20 callers. Central Michigan 2-1-1 contacted other regional 2-1-1 partners for assistance and was able to reduce the queue and wait time for Flint caller back down to approximately two minutes.

SPECIAL NEEDS/REQUESTS

- The lifting of the requirement to provide identification is making it easier for undocumented residents and residents without ID to access water resources. 2-1-1 working to verify whether the Hispanic Center will continue to provide access assistance for the residents.
- 2-1-1 continues to receive several calls a day from churches, nursing homes and business owners asking about filters for their establishments. They are being referred to the Chamber of Commerce to share the impact on their organizations.

RUMOR CONTROL

- No new rumors to report.

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites.
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
- ☐ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

Subject: 2-1-1 Update Flint Water Response for Friday, January 22, 2016
Attachments: 2016-01-22 MI211 Flint Water Daily Update.docx

My apologies for the delay in distributing the Friday update. I was traveling and had a problem getting an internet connection outside the office.
Tom

This is the daily 2-1-1 summary on the Flint Water Response for Friday, January 22, 2016

GENERAL INFORMATION:

- Based on State of Michigan references to "Call 211" in print and online media sources, many callers to the service think 2-1-1 is a state agency. This leads some to ask questions about potential bias in the information 2-1-1 is providing about the Flint water situation. The public understanding of 2-1-1 as an independent and impartial service is essential to maintaining our position as a trusted source of information with both the community at-large and state partners. **Michigan 2-1-1 would like to set up a call or meeting with the appropriate state representatives and some key stakeholders to standardize how the state publicizes the 2-1-1 service.**
- Central Michigan 2-1-1 has created a Drop Box folder for 2-1-1 agents taking Flint Water calls. It holds a four page master document that ensures updates and new information are immediately available to all 2-1-1 staff. It includes sections on Background Information (including President Obama's Emergency Declaration), Rumor Control, Health & Water Quality/Safety Concerns, the Taxonomy Terms 2-1-1 is using to provide referrals and track needs, a general Q&A section, and links to Printed Materials and online resources such www.helpforflint.com along with various flyers and statements on the response from State of Michigan.
    - If you have information or materials to include on the master document, please email them to jennifer.pollak@lifewayscmh.org, melissa.ladd-patnode@lifewayscmh.org, and tpage@uwmich.org.

CORRECTIONS AND CLARIFICATIONS
None today

CALL VOLUME:
Call volume continues to be higher than average, but is dropping from the Wednesday peak. Average wait time was down significantly to under 15 minutes during peak volume

- There was a brief period today when the queue for Flint water calls reached 20 callers. Central Michigan 2-1-1 contacted other regional 2-1-1 partners for assistance and was able to reduce the queue and wait time for Flint caller back down to approximately two minutes.

SPECIAL NEEDS/REQUESTS

- The lifting of the requirement to provide identification is making it easier for undocumented residents and residents without ID to access water resources. 2-1-1 working to verify whether the Hispanic Center will continue to provide access assistance for the residents.
- 2-1-1 continues to receive several calls a day from churches, nursing homes and business owners asking about filters for their establishments. They are being referred to the Chamber of Commerce to share the impact on their organizations.

RUMOR CONTROL

- No new rumors to report.

Water Response Teams Visit More Than 11,000 Homes Today State Continues To Provide Water Resources in Flint

FOR IMMEDIATE RELEASE
January 24, 2016

For more information contact:
Joint Information Center
888-EMD-TODAY (888-363-8632)
Release #: 16

FLINT, Mich. – Water response teams continued their door-to-door efforts, today visiting another 11,144 homes providing free bottled water, filters, water replacement cartridges and water testing kits.

The Michigan Department of Environmental Quality reports that since implementation of residential monitoring, water sampling reports are as follows through Jan. 22, 2016:

- 1,186 total Residential Samples reported
  - 1,099 samples at or below the Action Level of 15 ppb (92.7%)
  - 966 samples at or below 5 ppb (81.5%)
  - 87 samples exceed the Action Level of 15 ppb (7.3%)

"We are in the process of establishing a formal sampling protocol that will be representative of the entire distribution system and we will revisit these sites routinely to establish a baseline and conduct trend analysis," stated Keith Creagh, Director of the Michigan Department of Environmental Quality.

Those who get their water test results should know that the units in the reports are expressed in milligrams per liter (mg/L), also known as parts per million (ppm). In order to convert to parts per billion, multiply the result by 1,000. For example, a result of 0.004 (mg/L) would equal 4 parts per billion (ppb).

Flint residents are encouraged to turn in the water test kits at the five water resource sites. You can watch how to use a water test kit here.

Creagh continued, "While we recognize not all the samples within the program are officially recognized. The reason we are collecting this data is because we are trying to get an overall assessment of the water system and to identify potential areas of ongoing concern."

Water resource sites where residents can obtain free bottled water, filters, replacement cartridges and water testing kits remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1

310 East 5th St.
Flint, MI 48502

Fire Station #3
1525 Martin Luther King Ave.
Flint, MI 48503

Fire Station #5
3402 Western Road
Flint, MI 48506

Fire Station #6
716 West Pierson Road
Flint, MI 48505

Fire Station #8
202 East Atherton Road
Flint, MI 48507

Since Jan. 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 164,991 cases of water
- 91,763 water filters
- 28,763 water testing kits

The State of Michigan has purchased the following resources, in addition to donations, since January 5:

- 141,982 cases of water
- 124,052 water filters
- 62,701 water testing kits

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland, MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
    - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
    - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a. 276
        i. Number in PODs: 65
        ii. Number on Cyber Mission: 3
        iii. Number with FWRTs: 185
        iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers

b. ~45,000 hookups (This is our high end target #)
c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 133,662 (additional 24,634 donated)
   b. Filters 115,700
   c. Filter Cartridges 266,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
   a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
   a. 276
4. **Total Number of Volunteers each day:**
   a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
   a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
   a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
   a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
   a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)

- With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.

- 11,471 Non-Water Subscribers in Flint.
  - Non Water Subscribers with a Filter = 2,196 (19%)
  - Non Water Subscribers without a Filter = 9,275 (81%)
- The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

- <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
   a. Cases of water 130,782 (additional 21,682 donated)
   b. Filters 115,700
   c. Filter Cartridges 266,200
   d. Test kits 61,161

4. Teams going out tomorrow:
   a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
   b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
  - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.

- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.

- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system

a. 29,944 paying customers
b. ~45,000 hookups (This is our high end target #)
c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.

- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - <u>As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams—Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

- As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
  01/16/16
    - Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
    - IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
    - Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
    - Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

  01/17/16
    - Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
    - DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

  We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:

a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
   a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.

- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
    - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.

- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	3417	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	3741			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256

Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)

        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters

        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving

them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to

these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department

- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination,**

command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.

- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Capt. Chris A. Kelenske
Deputy State Director/Commander
Emergency Management and Homeland Security Division
Michigan State Police
4000 Collins Road
Lansing, MI 48910

Subject: Re: Sample Information from DEQ

So it appears that there still needs to be significant verification of the current data. Although it represents 53% of the city it is not based on site visits. We will resolve in the near future so we can obtain valid samples on which to base our decisions. I will contact the Captain tomorrow to sort out the details.
Regards-Keith

Is there information showing testing trends at the same location? Or is this just the baseline we intend to measure against?

> Below is some good information from DEQ SEOC desk:

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:
1186 total Residential Samples have been reported
1099 Samples are at or below the Action Level of 15 ppb (92.7%)
966 Samples are at or below 5 ppb (81.5%)
87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:
514 total Residential Samples have been reported
477 Samples are at or below the Action Level of 15 ppb (92.8%)
432 Samples are at or below 5 ppb (84.0%)
37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:
341 total Residential Samples have been reported
322 Samples are at or below the Action Level of 15 ppb (94.4%)
432 Samples are at or below 5 ppb (87.4%)
19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery -

recovery plan/transition of PODs

Attached Documents:

* SitRep 18

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:
· We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
· We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note
· Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
· Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
· SEOC Logistics worked on future resource planning and a local business commodity supply plan.
· Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
· Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
· Information reported to the JIC:

o As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
To Date

1/23/2016

37,943

6,323 National Guard
7,361 ARC

1. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.
Commodity

Total to Date

1. Number of cases of water

148,866

1. Filters

86,843

1. Filter cartridges

194,622

1. Test kits

25,586

1. Total number of customers on the Flint water system
   * 29,944 paying customers
   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes (The is the low end target #)

1. Resources purchased:
   * Cases of water 133,662 (additional 24,634 donated)
   * Filters 115,700
   * Filter Cartridges 266,200
   * Test kits 61,161

1. Teams going out tomorrow:
   * 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   * 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. Number of homes visited each day:
a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. Total number of homes visited:
a. 37,943, does include duplicate counts from the second canvasing
3. Total number of National Guard on the ground:
a. 276
4. Total Number of Volunteers each day:
a. 310 volunteers for 1/23/2016
5. Number of homes with filters:
a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. Number of Water filters distributed (each day and to date):
a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. Cases of Bottle water distributed (each day and to date):
a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. Number of testing kits distributed (each day and to date):
a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. Number of people tested for elevated blood levels (kids, adults, total):
a. Unknown at this time until we get the data
10. Number of people with elevated blood level (kids, adults, total):
a. Unknown at this time until we get the data
11. Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):
a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep # 17
* Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son…I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long

term strategy.

· Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.

· SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.

· Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.

· Have received numerous inquiries from celebrities on how they can assist and donate.

· We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.

o 26,673 water subscribers in Flint (not including franchise).

§ Water Subscribers with a Filter = 15,399 (57.7%)

§ Water Subscribers without a Filter = 11,274 (42.2%)

· With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.

o 11,471 Non-Water Subscribers in Flint.

§ Non Water Subscribers with a Filter = 2,196 (19%)

§ Non Water Subscribers without a Filter = 9,275 (81%)

o The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

· SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.

· Information reported to the JIC:

o As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date

1/22/2016

37,697

5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)
Commodity

Total to Date

1. Number of cases of water

121,404

1. Filters

82,687

1. Filter cartridges

191,704

1. Test kits

23,415

3. Resources purchased:
a. Cases of water 130,782 (additional 21,682 donated)
b. Filters 115,700
c. Filter Cartridges 266,200
d. Test kits 61,161

4. Teams going out tomorrow:
a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC
Operations:
- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.

o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.

- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep 16
* Draft Water Operations Plan for moving to next phases (Discussion document)
* Resident Water Sample Results Map (Not for public distribution)
* January 13-19 comparison map

Status on Governor's request letter to the President

* Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet … POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.

* Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - o We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - o We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.

- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

o As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
Phase 1

Phase 2

30,770

5,409

1. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

1,588

21,625

1. Total number of customers on the Flint water system
   * 29,944 paying customers

* ~45,000 hookups (This is our high end target #)
* ~39,000 includes apartment complexes/multi family (The is the low end target #)

1. Resources purchased:
* Cases of water 124,398 (additional 20,098 donated)
* Filters 115,700
* Filter cartridges 243,200
* Test kits 61,161

1. Teams going out tomorrow:
* 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
* 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations

· Continue to implement the logistics plan and adjust as needed
· Continue door to door/Flint Water Response Teams (FWRTs)
· Prepare for second phase of door to door operations
· Submitted appeal to FEMA Region V
· Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

* SitRep 16

Status on Governor's request letter to the President:

* Emergency declaration received.

Key items for tomorrow to note are:
· Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
· The logistics plan will be fully executed tomorrow with all teams.
o We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
· Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
· A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
· DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note
· Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
· MSP and local Sheriff's Department continue to provide over watch for WRTs.
· Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
· News release sent from Governor's office about the appeal to the President of the disaster declaration.
· SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com<http://www.helpforflint.com>
· SEOC Operations continued to develop and finalize Phase 2

canvassing roll out.

- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
a. Number of cases of water 90,337
b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 111,630 (additional 18,502 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.

- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

* SitRep 14

Status on Governor's request letter to the President:

* Emergency declaration received.
* Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all

teams.
o We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
· Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
· Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
· DTMB is working to secure space in Flint for FEMA staff.
· Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
· 5 Additional NG personnel being requested to assist with Warehouse inventories.
· 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
· Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
· LG is going to be in Flint working at one of the PODs on Wednesday.
· Information reported to the JIC:

o As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
a. Number of cases of water 77,794
b. Filters 69,730
c. Filter cartridges 184,457
d. Test kits 16,671

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 95,760 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

* Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
* Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
* Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
* Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

* SitRep 13
* Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

* Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - o We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - o NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
a. Number of cases of water 37,313
b. Filters 53,713
c. Filter cartridges 169,520
d. Test kits 7,379

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 82,992 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:
- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

* SitRep 12

Status on Governor's request letter to the President:

* Emergency declaration received.
* Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
* Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:
· The logistics plan will be fully executed tomorrow with all teams.
o We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
· Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
o 4,963 homes visited today.
· DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
01/16/16

• Approximately 5:00PM, Michigan.gov<http://michigan.gov> began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov<http://michigan.gov> site became inaccessible caused by of a denial of service attack.

• IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov<http://michigan.gov> websites were again available to the public.

• Approximately 7:30PM, a new attack was initiated on the michigan.gov<http://michigan.gov> environment. The attack focused on the DNS servers and resulted in michigan.gov<http://michigan.gov> becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.

• Shortly after the michigan.gov<http://michigan.gov> websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

• Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.

• DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com<http://www.cityofflint.com>) or Flint Township Police (flinttownshippolice.org<http://www.flinttownshippolice.org>) websites. We'll continue to pass information along as we receive it.

· Information reported to the JIC:

o As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 27,195
b. Filters 50,432
c. Filter cartridges 168,605
d. Test kits 4,861

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081

d. Test kits 28,901

5. Teams going out tomorrow:
a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
Local EOC

Operations:

* Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
* Coordinated supplies for distribution to students at the U of M Flint campus.
* Still concerned about people going to every fire station and collecting water/filters.
* Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
* Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
· Receive, store and increase quantities of supplies
· Continue to implement the logistics plan and adjust as needed
· Continue door to door/Flint Water Response Teams (FWRTs)
· Prepare for possible surge in FWRTs utilizing NG personnel
· Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

* SitRep 11

Status on Governor's request letter to the President:

* Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from

FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
* The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:
· The logistics plan will be fully executed tomorrow with all teams.
o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
· I will be back on duty Sunday.
· We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
· A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note
· LT Gov visited the local EOC today; discussed local EOC operations.
· Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
· DEQ sampling kits are now being received at the PODs.
· DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
· The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
· NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
o 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
· Information reported to the JIC:

o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
a. Number of cases of water 20,876
b. Filters 47,935
c. Filter cartridges 167,401
d. Test kits 3,322

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

* Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
* Still concerned about people going to every fire station and collecting water/filters.
* Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

* SitRep 10

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
* When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two

handouts were put in MICIMS for all state and local personnel to view.

· Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.

· Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 18,576
b. Filters 45,916
c. Filter cartridges 165,382
d. Test kits 3,217

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 44,688 (additional 12,884 donated)
b. Filters 78,520
c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

* Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

* We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
* Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
* Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

* SitRep 9

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
  - The Community Health Emergency Coordination Center

(CHECC) is working on the following:
§ A nutrition plan
§ Education materials, messaging, and working with local agencies
§ Developing a community assessment for disaster behavioral health services.

- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's

Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

* SitRep 8

Status on Governor's request letter to the President:

* All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
* Current timeline:
  * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

* The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
* The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
* This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
* Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
* Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)

* If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

· We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
· Logistics Support
o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
§ Mission – A filter in every home ASAP.
§ 4 Distribution Methods
· PODs (5)
· Water Response Teams (20 effective tomorrow and this will increase)
· Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
· Local EOC support for other local requests (Faith based for distribution, etc.)
§ Three warehouse locations at this time
§ How to better leverage ARC resources

· Supplies – Daily Numbers

o Replacement Cartridges - 30,700 delivered.

o Water (cases) - 19,152 cases delivered

· Budget projection completed and will be submitted to SBO for review.

· Notes from Water Response Team Command (MSP)
o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:
· Receive, store and increase quantities of supplies
· Fine-tune logistics
· Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
· Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

* SitRep 7
* Executive Order Activating the National Guard

Key items for tomorrow to note are:
· The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
o I have briefed the ARC Disaster Officer on this plan.
· The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as

part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.

- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)

§ 11,000 – PUR vertical faucet mount
§ 1,500 – PUR Horizontal faucet mount
§ 5,000 – Brita faucet mount
§ 10,000 – Brita adv faucet mount white
§ 12,000 – Brita adv faucet mount chrome
o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 117,600 – PUR replacement filter

· Test Kits
o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
o 500 have been assembled and are ready for distribution
o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
o 10,142 unassembled kits to arrive at GCCARD early next week

· Second warehouse – Located in Flint
o 100, 000 square feet of secure warehouse obtained.
o Accepting commodities beginning Wednesday, January 13

· Logistics Support
o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

· Door to Door Numbers
o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
o We are working on version 2.0 so this can be used at the PODs
o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
o Notes from the field commander:
§ "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
o In the end, there were 394 total home visits with the following breakdowns:
· 217 Door Hangers

- 152 Vacant Homes
- 117 Water Distributions
- 112 Filters
- 3 Pitchers
- 48 Water Test Kits
- 211

o CALL VOLUME:

§ 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

* SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.

o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.

o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water

every day starting tomorrow. We are still working with other distributors too.

· ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.

· Began mapping lead service lines (anticipate having draft of lead service lines Friday).

· Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.

• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.

• Working to establish a warehouse for local resource storage.

• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.

• Discussed potential long term water sources between local EOC and SEOC.

• Established planning cycle/meeting scheduled for 1/12/16.

• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

* SitRep 5
* Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put

this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
- An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."
  - o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
- Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."
  - o Debris Removal = self-explanatory and we do not have this
  - o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)
  - o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government

cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.

Back to the update…

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
  - o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
  - o The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint

for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
· GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data.
Distributed to date (as of 1/8/16).
o 12,386 filters
o 1,985 replacement filters
o 354 Pitchers
o 2500 Lead Testing Kits
· Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
o We have ordered an additional (expedited delivery with ETAs tomorrow)
§ 40,000 Brita Filters
§ 40,000 Brita Replacement Filters
§ 1000 Zero 8-Cup Pitchers
§ 1000 Zero 8-Cup Pitchers
§ 2000 PUR Replacement Filters
§ 93 Pallets of water (about 6700 cases)
· GIS continues to produce multiple maps for use.
· JIC Items
o Requested PSA on the radio. Media has been approved and working with MAB.
o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
§ Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
§ JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to

my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:
Station 1:

* Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

* Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

* Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
* Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

* Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
* 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
* We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

* Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
* Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout

the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.

* Reports received that the last couple of hours were slow.
* Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

* United Way set up meeting with Food Bank to discuss.
* Had EOC meeting on this topic to discuss options.

Churches:

* All 9 churches received waters, filters, and informational bulletins.
* Lt Roach received positive feedback from 3 of the pastors.
* No complaints were received.

Signage:

* Provided information to SEOC on signage requirements at the fire stations.

Storage:

* Researched storage spaces; established temporary site at GCCARD.

Personnel:

* Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
* Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
* Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
  - o A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5

Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.

· The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

· A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

· Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.

o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.

§ Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.

o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.

o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

· A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

• Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.

- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to

address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.

- 10 American Red Cross (ARC) volunteers will meet the

DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

· Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

· STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

· The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

· It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

· A Volunteer Management Coordinator is in the Genesee County EOC as of today.

· A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

· DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM

being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.

- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.

- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs

to fix it and no other impacts.

· I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.

· GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.

· Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

· Filters can be obtained at the following locations:

· Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502

· Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504

· Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507

· Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

* Conducted briefing with local EOC and county executive.
* Conducted briefing with state agencies (daily updates).
* Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
* JIC continued to develop messaging.
* Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
* Deployed two EMHSD/SEOC liaisons to assist the local EOC.
* Published the Incident Action Plan and continued assignment of objectives/tasks.
* FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
* I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.

* We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
* Local agencies and NGOs continue to provide water and filters to citizens.
* The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried

to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

* Set goals for SEOC and identified response/recovery emphasis
* Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
* PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
* Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
* I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
* MDHHS – Elevated Blood Lead Levels
* Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
* MDEQ – Water Testing Protocols
* Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
* Developed Incident objectives, strategy and tactics (see attached)
* Identified SEOC and state agency staff positions
* Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016

* Reviewed planned actions, prepared final draft Incident Action Plan
* Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include

the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
* I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.

* The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.

1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.

3. Obtain and maintain situational awareness and common operating picture of all activities.

4. Establish SEOC operational period and hours of operations.

5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.

6. Develop a comprehensive GIS strategy.

7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.

8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.

9. Provide technical assistance to the local Damage Assessment process.

10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.

12. Establish and disseminate cost center information for the incident.

Additional tasks include:

* Determine what federal agencies are already involved and their status
* Identify potential water supplies
* Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
* Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
* Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

* Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
* Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
* Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  * Water Pipeline Locations
  * Filter Distribution Locations
  * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  * Affected School Locations
  * Predictive analysis of blood lead levels for affected area
  * Updated Parcels
  * Demographics
  * Block Groups
* Produced a map for the filter distribution locations
* Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.

- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.

o This included information on the SEOC activation and a 0900 briefing for SEMCs.

o Some subject matter experts will provide us an update to establish a common operating picture.

- We have been in contact with FEMA Region V watch desk … they will be on the call tomorrow and continue to monitor the situation.

- I have been in contact with the FEMA Region V Administrator to keep him updated.

- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.

- Situation Reports (SitReps) will be provided in the evenings.

- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: Re: Sample Information from DEQ

The issue for the sentinel sites is the confirmation of lead service lines. We have learned that approx 53% of the city has been mapped for lead service lines. On Monday we will overlay that with the sites that have agreed to be part of the testing efforts. Once identified we will have an individual stop in and personally visit (train) the individual in sampling parameters and protocols. We will run this by the External Advisory group on Monday. Tentative plan is to sample on 2 week intervals with 4 sample sets before making any decisions. I have also asked if the 2 priority zip codes have been mapped. If not we will request that they be a priority. Please let me know if you have any concerns or questions.

Is there information showing testing trends at the same location? Or is this just the baseline we intend to measure against?

Below is some good information from DEQ SEOC desk:

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:
1186 total Residential Samples have been reported
1099 Samples are at or below the Action Level of 15 ppb (92.7%)
966 Samples are at or below 5 ppb (81.5%)
87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:
514 total Residential Samples have been reported
477 Samples are at or below the Action Level of 15 ppb (92.8%)
432 Samples are at or below 5 ppb (84.0%)
37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:
341 total Residential Samples have been reported
322 Samples are at or below the Action Level of 15 ppb (94.4%)
432 Samples are at or below 5 ppb (87.4%)
19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams

(FWRTs)
· Prepare appeal on denial of Category B under the Presidential Emergency Declaration
· Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

* SitRep 18

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:
· We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
· We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note
· Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
· Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
· SEOC Logistics worked on future resource planning and a local business commodity supply plan.
· Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
· Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
· Information reported to the JIC:

o As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
To Date

1/23/2016

37,943

6,323 National Guard
7,361 ARC

1. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.
Commodity

Total to Date

1. Number of cases of water

148,866

1. Filters

86,843

1. Filter cartridges

194,622

1. Test kits

25,586

1. Total number of customers on the Flint water system
   * 29,944 paying customers
   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes (The is the low end target #)

1. Resources purchased:
   * Cases of water 133,662 (additional 24,634 donated)
   * Filters 115,700
   * Filter Cartridges 266,200
   * Test kits 61,161

1. Teams going out tomorrow:

* 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
* 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. Number of homes visited each day:
a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. Total number of homes visited:
a. 37,943, does include duplicate counts from the second canvasing
3. Total number of National Guard on the ground:
a. 276
4. Total Number of Volunteers each day:
a. 310 volunteers for 1/23/2016
5. Number of homes with filters:
a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. Number of Water filters distributed (each day and to date):
a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. Cases of Bottle water distributed (each day and to date):
a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. Number of testing kits distributed (each day and to date):
a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. Number of people tested for elevated blood levels (kids, adults, total):
a. Unknown at this time until we get the data
10. Number of people with elevated blood level (kids, adults, total):
a. Unknown at this time until we get the data
11. Number of homes with safe drinking water (Not sure whether

it's possible right now to provide this number):
a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep # 17
* Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:
- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son…I will be available by phone and Tony will again be acting.

Items to Note

· Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.

· SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.

· SEOC Planning worked on the further development of long term strategy.

· Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.

· SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.

· Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.

· Have received numerous inquiries from celebrities on how they can assist and donate.

· We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.

o 26,673 water subscribers in Flint (not including franchise).

§ Water Subscribers with a Filter = 15,399 (57.7%)

§ Water Subscribers without a Filter = 11,274 (42.2%)

· With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.

o 11,471 Non-Water Subscribers in Flint.

§ Non Water Subscribers with a Filter = 2,196 (19%)

§ Non Water Subscribers without a Filter = 9,275 (81%)

o The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

· SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.

· Information reported to the JIC:

o As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date

1/22/2016

37,697

5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)
Commodity

Total to Date

1. Number of cases of water

121,404

1. Filters

82,687

1. Filter cartridges

191,704

1. Test kits

23,415

3. Resources purchased:
a. Cases of water 130,782 (additional 21,682 donated)
b. Filters 115,700
c. Filter Cartridges 266,200
d. Test kits 61,161

4. Teams going out tomorrow:
a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC
Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep 16
* Draft Water Operations Plan for moving to next phases (Discussion document)
* Resident Water Sample Results Map (Not for public distribution)
* January 13-19 comparison map

Status on Governor's request letter to the President

* Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet … POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
* Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water

Response Teams to the field today.

- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

o As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
Phase 1

   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes/multi family (The is the low end target #)

1. Resources purchased:
   * Cases of water 124,398 (additional 20,098 donated)
   * Filters 115,700
   * Filter cartridges 243,200
   * Test kits 61,161

1. Teams going out tomorrow:
   * 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
   * 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

* SitRep 16

Status on Governor's request letter to the President:

* Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.

o We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.

· News release sent from Governor's office about the appeal to the President of the disaster declaration.
· SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com<http://www.helpforflint.com>
· SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
· Meeting held with Dr. Luri from HHS.
· Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
· End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
· Additional 5 person NG team for warehouse support approved.
· Information reported to the JIC:

o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
a. Number of cases of water 90,337
b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 111,630 (additional 18,502 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

* SitRep 14

Status on Governor's request letter to the President:

* Emergency declaration received.
* Appeal letter pending.

Key items for tomorrow to note are:

· The logistics plan will be fully executed tomorrow with all teams.

o We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.

o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

· Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.

· Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.

· DTMB is working to secure space in Flint for FEMA staff.

· Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.

· 5 Additional NG personnel being requested to assist with Warehouse inventories.

· 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.

· Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.

· LG is going to be in Flint working at one of the PODs on Wednesday.

· Information reported to the JIC:

o As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

a. Number of cases of water 77,794
b. Filters 69,730
c. Filter cartridges 184,457
d. Test kits 16,671

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 95,760 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

* Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
* Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
* Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
* Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
· Receive, store and increase quantities of supplies
· Continue to implement the logistics plan and adjust as needed
· Continue door to door/Flint Water Response Teams (FWRTs) and PODs

· Prepare for possible surge in FWRTs utilizing NG personnel
· Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
· Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

* SitRep 13
* Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

* Appeal in process.

Key items for tomorrow to note are:
· The logistics plan will be fully executed tomorrow with all teams.
o We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
o NG will be bringing in personnel to prep for surge.

Items to Note
· Beginning tomorrow the operational periods will be 7 days long.
· The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
· An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
· Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
· DTMB is working to secure space in Flint for FEMA staff.
· Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
· ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
· Media availability conducted today at 3pm at the VRC.
· Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the

callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

- Information reported to the JIC:

o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
a. Number of cases of water 37,313
b. Filters 53,713
c. Filter cartridges 169,520
d. Test kits 7,379

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 82,992 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as

needed
· Continue door to door/Flint Water Response Teams (FWRTs), PODs
· Prepare for possible surge in FWRTs utilizing NG personnel
· Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

* SitRep 12

Status on Governor's request letter to the President:

* Emergency declaration received.
* Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
* Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:
· The logistics plan will be fully executed tomorrow with all teams.
o We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
· Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
o 4,963 homes visited today.
· DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
01/16/16

• Approximately 5:00PM, Michigan.gov<http://michigan.gov> began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov<http://michigan.gov> site became inaccessible caused by of a denial of service attack.

• IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov<http://michigan.gov> websites were again available to the public.

• Approximately 7:30PM, a new attack was initiated on the michigan.gov<http://michigan.gov> environment. The attack focused on the DNS servers and resulted in michigan.gov<http://michigan.gov> becoming

inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.

- Shortly after the michigan.gov<http://michigan.gov> websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.

- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com<http://www.cityofflint.com>) or Flint Township Police (flinttownshippolice.org<http://www.flinttownshippolice.org>) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

o As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 27,195
b. Filters 50,432
c. Filter cartridges 168,605
d. Test kits 4,861

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end

target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
Local EOC

Operations:

* Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
* Coordinated supplies for distribution to students at the U of M Flint campus.
* Still concerned about people going to every fire station and collecting water/filters.
* Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
* Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

* SitRep 11

Status on Governor's request letter to the President:

* Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
* The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note
- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
a. Number of cases of water 20,876
b. Filters 47,935
c. Filter cartridges 167,401
d. Test kits 3,322

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

* Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
* Still concerned about people going to every fire station and collecting water/filters.
* Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

* SitRep 10

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
* When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky

will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 18,576
b. Filters 45,916
c. Filter cartridges 165,382
d. Test kits 3,217

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 44,688 (additional 12,884 donated)
b. Filters 78,520
c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

* Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

* We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
* Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
* Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for

future team use

· Submit request for a Presidential Declaration of a Major Disaster and Emergency

· Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

* SitRep 9

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

· The door to door teams will continue in the morning.

· We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.

· ARC will increase the number of their Water Response Teams.

· Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

· DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.

· LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.

· Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.

· Email sent to state employees to request volunteers for weekend.

· Media monitoring showed no incorrect information today.

· Michigan Association of Broadcasters is sending PSA to radio stations.

· Coordinating with Red Cross on volunteers for weekend.

· Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.

· National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.

· Senator Ananich visited the SEOC today to see how things

operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.

- DHHS

o The Community Health Emergency Coordination Center (CHECC) is working on the following:

§ A nutrition plan

§ Education materials, messaging, and working with local agencies

§ Developing a community assessment for disaster behavioral health services.

- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

* SitRep 8

Status on Governor's request letter to the President:

* All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
* Current timeline:
  * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

* The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
* The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
* This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
* Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or

replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
* Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
* If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:
· The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
· We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
· MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note
· Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
· Managed and corrected misinformation on NG role.
· Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
· Working with Comcast so they can put teams in the field for distribution.
· Penske is going to give us 15-20 trucks over the weekend.
· Contact made with Two Men and a Truck for resources.
· Meeting set with Google where they will brief me and key staff potential tasks.
· Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
· Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
· We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
· 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide

more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

· We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
· Logistics Support
o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
§ Mission – A filter in every home ASAP.
§ 4 Distribution Methods
· PODs (5)
· Water Response Teams (20 effective tomorrow and this will increase)
· Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
· Local EOC support for other local requests (Faith based for distribution, etc.)
§ Three warehouse locations at this time
§ How to better leverage ARC resources

· Supplies – Daily Numbers

o Replacement Cartridges - 30,700 delivered.

o Water (cases) - 19,152 cases delivered

· Budget projection completed and will be submitted to SBO for review.

· Notes from Water Response Team Command (MSP)
o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:
· Receive, store and increase quantities of supplies
· Fine-tune logistics
· Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
· Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

* SitRep 7
* Executive Order Activating the National Guard

Key items for tomorrow to note are:
· The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for

door to door activities.
o I have briefed the ARC Disaster Officer on this plan.
· The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
· The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
· We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note
· PSA video sent out to Flint citizens on resources available.

· Water
o Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
o Ordered:
§ 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
· 1/3 is going to GCCARD and the rest is going to the new warehouse
§ 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

· Filters
o Today's numbers
§ Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
· 2,000 – Brita filter faucet mounts
§ Filter Replacements
· 2,400 – Brita filter replacements (single pack)
· 8,000 – Brita filter replacements (two pack)
o Ordered on 1/12/16 to arrive Wednesday
§ Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
· 10,000 – PUR Vertical faucet mount
· 2,500 – PUR Horizontal mount
§ Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
· 10,000 – PUR replacement filters (3 pack)
· 10,000 – PUR replacement filters (single pack)
§ PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
· 10,700 – PUR combo packs

- To arrive Thursday
  - o Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - § 1,300 – Zero Water pitchers
  - o Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - § 11,000 – PUR vertical faucet mount
    - § 1,500 – PUR Horizontal faucet mount
    - § 5,000 – Brita faucet mount
    - § 10,000 – Brita adv faucet mount white
    - § 12,000 – Brita adv faucet mount chrome
  - o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - § 117,600 – PUR replacement filter

- Test Kits
  - o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - o 500 have been assembled and are ready for distribution
  - o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - o 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - o 100, 000 square feet of secure warehouse obtained.
  - o Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - o We are working on version 2.0 so this can be used at the PODs
  - o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - o Notes from the field commander:
    - § "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a

game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."

o In the end, there were 394 total home visits with the following breakdowns:

- 217 Door Hangers
- 152 Vacant Homes
- 117 Water Distributions
- 112 Filters
- 3 Pitchers
- 48 Water Test Kits
- 211

o CALL VOLUME:

§ 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

* SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.

o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.

o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.

· We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
· Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
· We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
· ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
· Began mapping lead service lines (anticipate having draft of lead service lines Friday).
· Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center
• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

* SitRep 5
* Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally

hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
- An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."

o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.

- Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
- Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."

o Debris Removal = self-explanatory and we do not have this
o Emergency Protective measures = water, commodities, transportation (remember … to supplement what the locals and state are already doing if we need more)
o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.

Back to the update…

Key items for tomorrow to note are:
· Training is occurring for the door to door teams scheduled for Tuesday morning.
· Deploying an additional MSP District Coordinator to the local EOC for command and control support.
· Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
· Media event with the Governor in Flint.
· New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note
· All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
· Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
· The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.

· The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
o The door card is attached that will be left if no one is home.
· Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
· GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data.
Distributed to date (as of 1/8/16).
o 12,386 filters
o 1,985 replacement filters
o 354 Pitchers
o 2500 Lead Testing Kits
· Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
o We have ordered an additional (expedited delivery with ETAs tomorrow)
§ 40,000 Brita Filters
§ 40,000 Brita Replacement Filters
§ 1000 Zero 8-Cup Pitchers
§ 1000 Zero 8-Cup Pitchers
§ 2000 PUR Replacement Filters
§ 93 Pallets of water (about 6700 cases)
· GIS continues to produce multiple maps for use.
· · JIC Items
o Requested PSA on the radio. Media has been approved and working with MAB.
o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
§ Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
§ JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:
Station 1:

* Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

* Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

* Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
* Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

* Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
* 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
* We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

* Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
* Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
* Reports received that the last couple of hours were slow.
* Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

* United Way set up meeting with Food Bank to discuss.
* Had EOC meeting on this topic to discuss options.

Churches:

* All 9 churches received waters, filters, and informational bulletins.
* Lt Roach received positive feedback from 3 of the pastors.
* No complaints were received.

Signage:

* Provided information to SEOC on signage requirements at the fire stations.

Storage:

* Researched storage spaces; established temporary site at GCCARD.

Personnel:

* Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
* Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
* Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution

map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.

o A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.

· I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.

· The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

· A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

· Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.

o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.

§ Training is so those going door to door can explain what the filters do, how to install them; if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.

o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.

o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

· A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.

- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.

- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.

- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

· I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.

· I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.

· GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.

· Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

· Filters can be obtained at the following locations:

· Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502

· Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504

· Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507

· Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

* Conducted briefing with local EOC and county executive.
* Conducted briefing with state agencies (daily updates).
* Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
* JIC continued to develop messaging.
* Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
* Deployed two EMHSD/SEOC liaisons to assist the local EOC.
* Published the Incident Action Plan and continued assignment of objectives/tasks.

* FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
* I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
* We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
* Local agencies and NGOs continue to provide water and filters to citizens.
* The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

* Set goals for SEOC and identified response/recovery emphasis
* Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
* PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
* Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
* I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
* MDHHS – Elevated Blood Lead Levels
* Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
* MDEQ – Water Testing Protocols
* Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
* Developed Incident objectives, strategy and tactics (see attached)
* Identified SEOC and state agency staff positions
* Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016

* Reviewed planned actions, prepared final draft Incident Action Plan
* Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
* I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.

* The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.

1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.

3. Obtain and maintain situational awareness and common operating picture of all activities.

4. Establish SEOC operational period and hours of operations.

5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.

6. Develop a comprehensive GIS strategy.

7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.

8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.

9. Provide technical assistance to the local Damage Assessment process.

10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as

appropriate.

12. Establish and disseminate cost center information for the incident.

Additional tasks include:

* Determine what federal agencies are already involved and their status
* Identify potential water supplies
* Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
* Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
* Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

* Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
* Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
* Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  * Water Pipeline Locations
  * Filter Distribution Locations
  * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  * Affected School Locations
  * Predictive analysis of blood lead levels for affected area
  * Updated Parcels
  * Demographics
  * Block Groups
* Produced a map for the filter distribution locations
* Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.

- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.

o This included information on the SEOC activation and a 0900 briefing for SEMCs.

o Some subject matter experts will provide us an update to establish a common operating picture.

- We have been in contact with FEMA Region V watch desk … they will be on the call tomorrow and continue to monitor the situation.

- I have been in contact with the FEMA Region V Administrator to keep him updated.

- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.

- Situation Reports (SitReps) will be provided in the evenings.

- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: Sunday Jan. 24 update from the Flint Water Response Team

FLINT WATER RESPONSE TEAM

UPDATE | SUNDAY, JANUARY 24, 2016

This daily update is being issued in order to provide the latest information regarding actions and available resources.

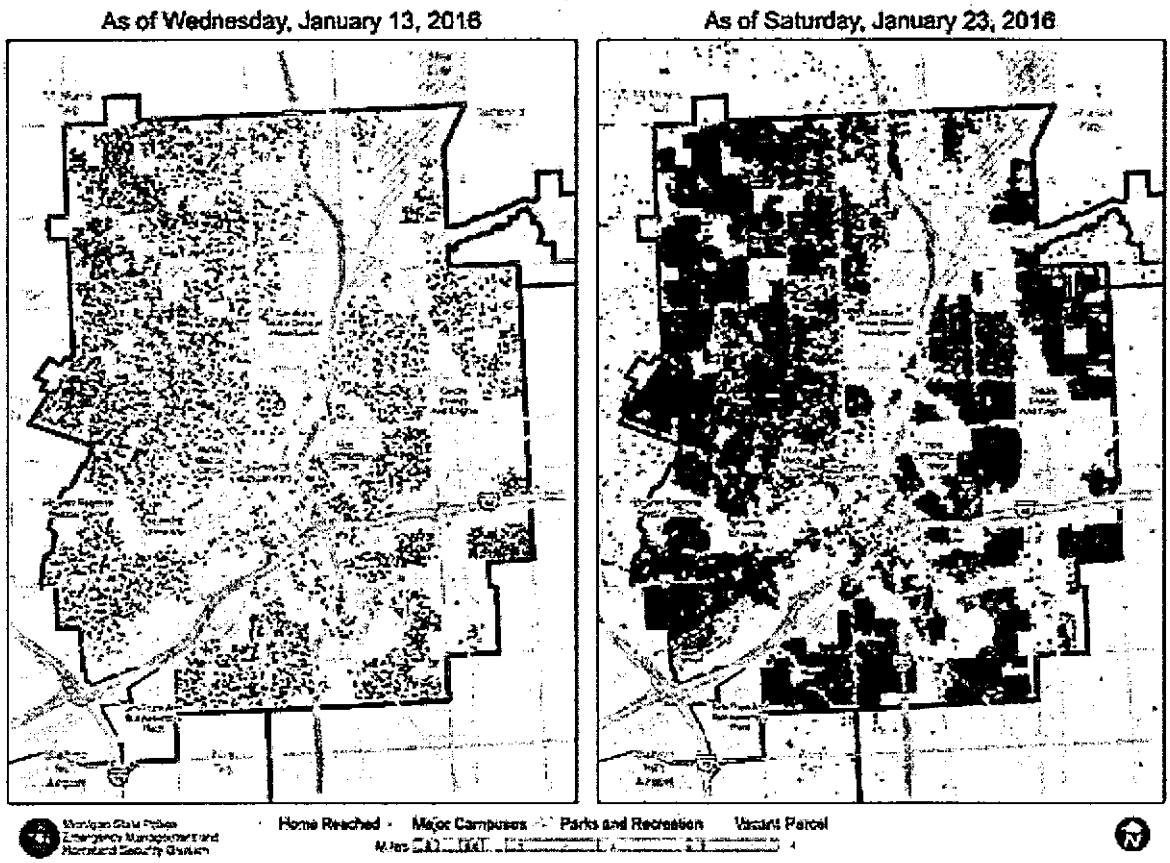
WATER RESOURCES
Yesterday, Flint Water Response Teams visited 13,684 homes providing free bottled water, filters, water replacement cartridges and water testing kits. The teams were composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen. More than 300 volunteers took part in Saturday's activities.

Since January 9, 2016, the following resources have been distributed to residents, both at the water resource sites and by water response teams:

- 148,866 cases of water
- 86,843 water filters
- 25,586 water testing kits

Here is a map of Flint Water Response Team activity from January 13th to January 23rd.

Flint Water Response Team Activity



Today, more teams composed of city, county and state personnel, American Red Cross and volunteers, as well as National Guard Soldiers and Airmen are continuing door to door efforts and expect to visit another 10,000 homes. We will keep you updated on their progress in tomorrow's update. To stay updated on social media follow @MichEMHS and @onetoughnerd.

REMINDERS

- For Flint water assistance: Dial 211 or visit www.mi.gov/FlintWater
- To donate or volunteer: visit www.HelpForFlint.com
- Residents should install filters to their taps to ensure they have immediate and ongoing access to safe water. Only run cold water through the water filter and use filtered water for drinking and cooking. Monitor the cartridge on the filter and replace as needed.

WATER RESOURCE LOCATIONS
These sites are open seven days a week from 9 a.m. to 9 p.m. with the following resources:

- Bottled water
- Water filters
- Replacement cartridges for water filters
- Water testing kits pick-up
- Drop-off location for water testing kits

To:	Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV); Baird, Richard (GOV); Hollins, Harvey (GOV); Clement, Elizabeth (GOV); Snyder, Rick (GOV); Calley, Brian (GOV); Creagh, Keith (DEQ)
Cc:	Banner, Shanon (MSP); Leix, Ron (MSP); Murray, David (GOV); Holland, Meegan (GOV); Katarsky, Anthony (MSP); Sachs, Tori (GOV); Agen, Jarrod (GOV); Scott, Allison (GOV); Redford, James (GOV)
Subject:	Re: Sample Information from DEQ

There was a typo in the information I sent earlier. The percentage was correct but not the number. Please see the below correct numbers (correction is in bold and underlined). Thanks Harvey for noting this.

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:

1186 total Residential Samples have been reported

1099 Samples are at or below the Action Level of 15 ppb (92.7%)

966 Samples are at or below 5 ppb (81.5%)

87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:

514 total Residential Samples have been reported

477 Samples are at or below the Action Level of 15 ppb (92.8%)

432 Samples are at or below 5 ppb (84.0%)

37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:

341 total Residential Samples have been reported

322 Samples are at or below the Action Level of 15 ppb (94.4%)

298 Samples are at or below 5 ppb (87.4%)

19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery -

recovery plan/transition of PODs

Attached Documents:

* SitRep 18

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:
- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note
- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

o As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
To Date

1/23/2016

37,943

6,323 National Guard
7,361 ARC

1. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.
Commodity

Total to Date

1. Number of cases of water

148,866

1. Filters

86,843

1. Filter cartridges

194,622

1. Test kits

25,586

1. Total number of customers on the Flint water system
   * 29,944 paying customers
   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes (The is the low end target #)

1. Resources purchased:
   * Cases of water 133,662 (additional 24,634 donated)
   * Filters 115,700
   * Filter Cartridges 266,200
   * Test kits 61,161

1. Teams going out tomorrow:
   * 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   * 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get

to them and track in the iPad.

New Standing Information Requirements

1. Number of homes visited each day:
a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. Total number of homes visited:
a. 37,943, does include duplicate counts from the second canvasing
3. Total number of National Guard on the ground:
a. 276
4. Total Number of Volunteers each day:
a. 310 volunteers for 1/23/2016
5. Number of homes with filters:
a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. Number of Water filters distributed (each day and to date):
a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. Cases of Bottle water distributed (each day and to date):
a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. Number of testing kits distributed (each day and to date):
a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. Number of people tested for elevated blood levels (kids, adults, total):
a. Unknown at this time until we get the data
10. Number of people with elevated blood level (kids, adults, total):
a. Unknown at this time until we get the data
11. Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):
a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep # 17
* Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.

o 26,673 water subscribers in Flint (not including franchise).
§ Water Subscribers with a Filter = 15,399 (57.7%)
§ Water Subscribers without a Filter = 11,274 (42.2%)

- With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.

o 11,471 Non-Water Subscribers in Flint.
§ Non Water Subscribers with a Filter = 2,196 (19%)
§ Non Water Subscribers without a Filter = 9,275 (81%)
o The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

o As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
To Date

1/22/2016

37,697

5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)
Commodity

Total to Date

1. Number of cases of water

121,404

1. Filters

82,687

1. Filter cartridges

191,704

1. Test kits

23,415

3. Resources purchased:
a. Cases of water 130,782 (additional 21,682 donated)
b. Filters 115,700
c. Filter Cartridges 266,200
d. Test kits 61,161

4. Teams going out tomorrow:
a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC
Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.

o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.

- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep 16
* Draft Water Operations Plan for moving to next phases (Discussion document)
* Resident Water Sample Results Map (Not for public distribution)
* January 13-19 comparison map

Status on Governor's request letter to the President

* Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet … POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
* Category B is critical in that it is for Emergency Protective Measures which includes (but is

not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

o We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.

o We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water.. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

· Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
· Information reported to the JIC:

o As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
Phase 1

1. Test kits

20,037

1,588

21,625

1. Total number of customers on the Flint water system
   * 29,944 paying customers
   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes/multi family (The is the low end target #)

1. Resources purchased:
   * Cases of water 124,398 (additional 20,098 donated)
   * Filters 115,700
   * Filter cartridges 243,200
   * Test kits 61,161

1. Teams going out tomorrow:
   * 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
   * 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and

Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

* SitRep 16

Status on Governor's request letter to the President:

* Emergency declaration received.

Key items for tomorrow to note are:
- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - o We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note
- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource

submission tab on www.helpforflint.com<http://www.helpforflint.com>

- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).

a. Number of cases of water 90,337
b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system

a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:

a. Cases of water 111,630 (additional 18,502 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:

a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.

- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

* SitRep 14

Status on Governor's request letter to the President:

* Emergency declaration received.
* Appeal letter pending.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.

o We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.

· 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
· Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
· LG is going to be in Flint working at one of the PODs on Wednesday.
· Information reported to the JIC:

o As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
a. Number of cases of water 77,794
b. Filters 69,730
c. Filter cartridges 184,457
d. Test kits 16,671

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 95,760 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

* Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
* Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
* Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
* Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

* SitRep 13
* Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

* Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

o We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
o NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on

messaging and work with us on this matter.

- Information reported to the JIC:

o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
a. Number of cases of water 37,313
b. Filters 53,713
c. Filter cartridges 169,520
d. Test kits 7,379

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 82,992 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

* SitRep 12

Status on Governor's request letter to the President:

* Emergency declaration received.
* Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
* Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:
· The logistics plan will be fully executed tomorrow with all teams.
o We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
· Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
o 4,963 homes visited today.
· DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
01/16/16

• Approximately 5:00PM, Michigan.gov<http://michigan.gov> began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov<http://michigan.gov> site became inaccessible caused by of a denial of service attack.

• IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov<http://michigan.gov> websites were again available to the public.

• Approximately 7:30PM, a new attack was initiated on the michigan.gov<http://michigan.gov> environment. The attack focused on the DNS servers and resulted in michigan.gov<http://michigan.gov> becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.

• Shortly after the michigan.gov<http://michigan.gov> websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

• Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.

• DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com<http://www.cityofflint.com>) or Flint Township Police (flinttownshippolice.org<http://www.flinttownshippolice.org>) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

o As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 27,195
b. Filters 50,432
c. Filter cartridges 168,605
d. Test kits 4,861

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
Local EOC

Operations:

* Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
* Coordinated supplies for distribution to students at the U of M Flint campus.
* Still concerned about people going to every fire station and collecting water/filters.
* Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
* Coordinated hotshot deliveries of supplies to home bound population.

Chris

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

* SitRep 11

Status on Governor's request letter to the President:

* Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
* The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
a. Number of cases of water 20,876
b. Filters 47,935
c. Filter cartridges 167,401
d. Test kits 3,322

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

* Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
* Still concerned about people going to every fire station and collecting water/filters.
* Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

* SitRep 10

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
* When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.

o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).

- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note
- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are

trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 18,576
b. Filters 45,916
c. Filter cartridges 165,382
d. Test kits 3,217

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 44,688 (additional 12,884 donated)
b. Filters 78,520
c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

* Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

* We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
* Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
* Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to

provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

* SitRep 9

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red

Cross volunteers active across the operation today.

· National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.

· Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.

· DHHS

o The Community Health Emergency Coordination Center (CHECC) is working on the following:

§ A nutrition plan

§ Education materials, messaging, and working with local agencies

§ Developing a community assessment for disaster behavioral health services.

· Lined up the delivery of filters to two large apartment complexes and a student housing complex.

· We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.

· Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

* SitRep 8

Status on Governor's request letter to the President:

* All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
* Current timeline:
  * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

* The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
* The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
* This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
* Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
* Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
* If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue

through the weekend.

- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

· We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
· Logistics Support
o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
§ Mission – A filter in every home ASAP.
§ 4 Distribution Methods
· PODs (5)
· Water Response Teams (20 effective tomorrow and this will increase)
· Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
· Local EOC support for other local requests (Faith based for distribution, etc.)
§ Three warehouse locations at this time
§ How to better leverage ARC resources

· Supplies – Daily Numbers

o Replacement Cartridges - 30,700 delivered.

o Water (cases) - 19,152 cases delivered

· Budget projection completed and will be submitted to SBO for review.

· Notes from Water Response Team Command (MSP)
o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply

issues.

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

* SitRep 7
* Executive Order Activating the National Guard

Key items for tomorrow to note are:
- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note
- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount

- 2,500 – PUR Horizontal mount

§ Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
- 10,000 – PUR replacement filters (3 pack)
- 10,000 – PUR replacement filters (single pack)

§ PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
- 10,700 – PUR combo packs

- To arrive Thursday

o Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 1,300 – Zero Water pitchers
o Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 11,000 – PUR vertical faucet mount
§ 1,500 – PUR Horizontal faucet mount
§ 5,000 – Brita faucet mount
§ 10,000 – Brita adv faucet mount white
§ 12,000 – Brita adv faucet mount chrome
o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 117,600 – PUR replacement filter

- Test Kits

o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
o 500 have been assembled and are ready for distribution
o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
o 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint

o 100, 000 square feet of secure warehouse obtained.
o Accepting commodities beginning Wednesday, January 13

- Logistics Support

o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers

o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
o We are working on version 2.0 so this can be used at the PODs
o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
o Notes from the field commander:
§ "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
o In the end, there were 394 total home visits with the following breakdowns:

- 217 Door Hangers
- 152 Vacant Homes
- 117 Water Distributions
- 112 Filters
- 3 Pitchers
- 48 Water Test Kits
- 211

o CALL VOLUME:

§ 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

* SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.

o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.

o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these

continual issues of supplies.
· Began mapping lead service lines (anticipate having draft of lead service lines Friday).
· Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center
• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

* SitRep 5
* Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

· We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
· A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic

eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."

· An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."

o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.

· Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....

· Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."

o Debris Removal = self-explanatory and we do not have this

o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)

o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.

Back to the update...

Key items for tomorrow to note are:

· Training is occurring for the door to door teams scheduled for Tuesday morning.

· Deploying an additional MSP District Coordinator to the local EOC for command and control support.

· Deploying two DTMB trucks and two drivers for sustained logistical support for the week.

· Media event with the Governor in Flint.

· New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

· All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.

· Fire station resource locations stayed open from 9a to 9p and will continue with those

hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
· The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
· The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
o The door card is attached that will be left if no one is home.
· Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
· GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
o 12,386 filters
o 1,985 replacement filters
o 354 Pitchers
o 2500 Lead Testing Kits
· Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
o We have ordered an additional (expedited delivery with ETAs tomorrow)
§ 40,000 Brita Filters
§ 40,000 Brita Replacement Filters
§ 1000 Zero 8-Cup Pitchers
§ 1000 Zero 8-Cup Pitchers
§ 2000 PUR Replacement Filters
§ 93 Pallets of water (about 6700 cases)
· GIS continues to produce multiple maps for use.
· JIC Items
o Requested PSA on the radio. Media has been approved and working with MAB.
o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
§ Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
§ JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt

you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:
Station 1:

* Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

* Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

* Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
* Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

* Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
* 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
* We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

* Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
* Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
* Reports received that the last couple of hours were slow.
* Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

* United Way set up meeting with Food Bank to discuss.
* Had EOC meeting on this topic to discuss options.

Churches:

* All 9 churches received waters, filters, and informational bulletins.
* Lt Roach received positive feedback from 3 of the pastors.
* No complaints were received.

Signage:

* Provided information to SEOC on signage requirements at the fire stations.

Storage:

* Researched storage spaces; established temporary site at GCCARD.

Personnel:

* Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
* Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
* Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager

on what our goals for the day are as well as any issues/concerns.

· Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.

o A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.

· I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.

· The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

· A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

· Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.

o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.

§ Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.

o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.

o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

· A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

· The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.

· Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.

· With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:

o Logistical activities to support church operations.
o Logistical activities to support fire stations operations.
o Coordinate Donations Management activities and draft donations management plan
o Coordinate Volunteer Management activities
o Identify local storage/staging facilities
o Overall inventory tracking
o Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

· Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

· We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

· We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

· I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

· DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.

· 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

· Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

· STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on

Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

· Today's SitRep which contains more information than below.

· The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.

· JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

· I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.

· I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.

· GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.

· Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

· Filters can be obtained at the following locations:

· Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502

· Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504

· Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507

· Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

* Conducted briefing with local EOC and county executive.
* Conducted briefing with state agencies (daily updates).
* Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
* JIC continued to develop messaging.
* Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.

* Deployed two EMHSD/SEOC liaisons to assist the local EOC.
* Published the Incident Action Plan and continued assignment of objectives/tasks.
* FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
* I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
* We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
* Local agencies and NGOs continue to provide water and filters to citizens.
* The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

* Set goals for SEOC and identified response/recovery emphasis
* Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
* PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
* Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
  * I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
  * MDHHS – Elevated Blood Lead Levels
    * Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
  * MDEQ – Water Testing Protocols
    * Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
* Developed Incident objectives, strategy and tactics (see attached)
* Identified SEOC and state agency staff positions
* Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016

* Reviewed planned actions, prepared final draft Incident Action Plan
* Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
* I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.

* The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.

1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.

3. Obtain and maintain situational awareness and common operating picture of all activities.

4. Establish SEOC operational period and hours of operations.

5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.

6. Develop a comprehensive GIS strategy.

7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.

8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.

9. Provide technical assistance to the local Damage Assessment process.

10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.

12. Establish and disseminate cost center information for the incident.

Additional tasks include:

* Determine what federal agencies are already involved and their status
* Identify potential water supplies
* Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
* Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
* Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

* Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
* Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
* Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  * Water Pipeline Locations
  * Filter Distribution Locations
  * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  * Affected School Locations

* Predictive analysis of blood lead levels for affected area
* Updated Parcels
* Demographics
* Block Groups

* Produced a map for the filter distribution locations
* Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

· I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.

· I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

· State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.

o This included information on the SEOC activation and a 0900 briefing for SEMCs.

o Some subject matter experts will provide us an update to establish a common operating picture.

· We have been in contact with FEMA Region V watch desk … they will be on the call tomorrow and continue to monitor the situation.

· I have been in contact with the FEMA Region V Administrator to keep him updated.

· Operational period for the SEOC will be M-F, 0800 to 1700 at this time.

· Situation Reports (SitReps) will be provided in the evenings.

- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: Re: Sample Information from DEQ

Capt.,
Thanks for the report. I think the "432"samples ≤ 5ppb is a typo...see below:

"Since January 19, 2016 through January 22, 2016 the numbers are as follows:
341 total Residential Samples have been reported
322 Samples are at or below the Action Level of 15 ppb (94.4%)
432 Samples are at or below 5 ppb (87.4%)
19 Samples exceed the Action Level of 15 ppb (5.6%)"

Best,
Harvey

> a. 15 National Guard State (6-9 folks) type 3 teams – Goal tomorrow 300 homes per team
> b. 40 ARC (2-4 folks) type 5 teams – Goal tomorrow 100 homes per team
>
> Local EOC

> Operations:
> • Worked to identify all vulnerable populations to help streamline Hot Shot process.
> • Working on plan for church water distribution and POD locations.
> • Looking at possible alternative locations for PODs in difficult traffic areas.
> o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
> • Coordinated water donations and delivery areas.
> • Last minute large donations of water and volunteers expected during the weekend.
> • Working on finalizing a recycling plan for the incident.
> • The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
> • Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
> • Team Rubicon is coming tomorrow to assist with home deliveries.
> • Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Increase efficiency of warehouse operations
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
> · Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
> · Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
> · Work with HHS personnel to ensure they have all items needed for operations
>
> Attached Documents:
>
> * SitRep 16
> * Draft Water Operations Plan for moving to next phases (Discussion document)
> * Resident Water Sample Results Map (Not for public distribution)
> * January 13-19 comparison map
>
> Status on Governor's request letter to the President
>
> * Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
> * Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
>
> Items to Note
> · We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
> · The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
> · The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
> · We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
> · FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
> · Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
> · SEOC logistics worked to project future orders of water resources and commodities.
> · Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
> · DEQ test kits are only being provided to those who ask for them.
> · I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
> · MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
> · A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
> · MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
> · Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
> · Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
> · Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
> · Information reported to the JIC:
>

> Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Increase efficiency of warehouse operations
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs)
> · Prepare for second phase of door to door operations
> · Submitted appeal to FEMA Region V
> · Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
>

> Attached Documents:
>
> * SitRep 16
>
> Status on Governor's request letter to the President:
>
> * Emergency declaration received.
>
> Key items for tomorrow to note are:
> · Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> · Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
> · A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
> · DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.
>
> Items to Note
> · Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
> · MSP and local Sheriff's Department continue to provide over watch for WRTs.
> · Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
> · News release sent from Governor's office about the appeal to the President of the disaster declaration.
> · SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com<http://www.helpforflint.com>
> · SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
> · Meeting held with Dr. Luri from HHS.
> · Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
> · End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
> · Additional 5 person NG team for warehouse support approved.
> · Information reported to the JIC:
>
> o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)
>

> · Receive, store and increase quantities of supplies
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs) and PODs
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
> · Complete appeal for Presidential Major Disaster Declaration denial.
>
> Attached Documents:
>
> * SitRep 13
> * Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.
>
> Status on Governor's request letter to the President:
>
> * Appeal in process.
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> o NG will be bringing in personnel to prep for surge.
>
> Items to Note
> · Beginning tomorrow the operational periods will be 7 days long.
> · The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
> · An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
> · Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
> · DTMB is working to secure space in Flint for FEMA staff.
> · Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
> · ARC news release concerning the Volunteer Reception Center (VRC) sent out today.

> · Media availability conducted today at 3pm at the VRC.
> · Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

>
> Items to Note
> · Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
> o 4,963 homes visited today.
> · DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
> 01/16/16
>
> • Approximately 5:00PM, Michigan.gov<http://michigan.gov> began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov<http://michigan.gov> site became inaccessible caused by of a denial of service attack.
>
> • IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov<http://michigan.gov> websites were again available to the public.
>
> • Approximately 7:30PM, a new attack was initiated on the michigan.gov<http://michigan.gov> environment. The attack focused on the DNS servers and resulted in michigan.gov<http://michigan.gov> becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
>
> • Shortly after the michigan.gov<http://michigan.gov> websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.
>
> 01/17/16
>
> • Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
>
> • DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.
>
> We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com<http://www.cityofflint.com>) or Flint Township Police

(flinttownshippolice.org<http://www.flinttownshippolice.org>) websites. We'll continue to pass information along as we receive it.

>
> * Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
> * The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.
>
> Key items for tomorrow to note:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> · I will be back on duty Sunday.
> · We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
> · A logistics briefing will be provided to see how many more teams we can put in the field.
>
> Items to Note
> · LT Gov visited the local EOC today; discussed local EOC operations.
> · Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
> · DEQ sampling kits are now being received at the PODs.
> · DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
> · The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
> · NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
> o 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
> · Information reported to the JIC:
>
> o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).
>
> 2. Distributed:
> a. Number of cases of water 20,876
> b. Filters 47,935
> c. Filter cartridges 167,401

> d. Test kits 3,322
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers
> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)
>
> 4. Resources purchased:
> a. Cases of water 57,456 (additional 12,884 donated)
> b. Filters 108,520
> c. Filter cartridges 239,081
> d. Test kits 28,901
>
> 5. Teams going out tomorrow:
> a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
> b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team
>
> Local EOC
>
> Operations:
>
> * Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
> * Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
> * Still concerned about people going to every fire station and collecting water/filters.
> * Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

> Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Pilot the logistics plan and adjust as needed
> · Continue with door to door/Flint Water Response Teams (FWRTs)
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency
>
> Attached Documents:
>

> * SitRep 10
>
> Status on Governor's request letter to the President:
>
> * All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
> * When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
> · I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.
>
> Items to Note
> · LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
> · Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
> · Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
> · Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
>
> o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.
>
> 2. Distributed:
> a. Number of cases of water 18,576
> b. Filters 45,916
> c. Filter cartridges 165,382
> d. Test kits 3,217
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers
> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)
>
> 4. Resources purchased:
> a. Cases of water 44,688 (additional 12,884 donated)
> b. Filters 78,520
> c. Filter cartridges 163,081
> d. Test kits 18,761
>
> 5. Teams going out tomorrow:
> a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team

> b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team
>
> Local EOC
>
> Home Deliveries:
>
> * Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.
>
> Operations:
>
> * We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
> * Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
> * Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
> * Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

> Chris
>
>
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
> · Continue with door to door teams and finalize planning for future team use
> · Submit request for a Presidential Declaration of a Major Disaster and Emergency
> · Continue to work on long term recovery items (DHHS, DEQ, MDARD)
>
> Attached Documents:
>
> * SitRep 9
>
> Status on Governor's request letter to the President:
>
> * All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.
>

> Key items for tomorrow to note are:
> · The door to door teams will continue in the morning.
> · We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
> · ARC will increase the number of their Water Response Teams.
> · Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.
>
> Items to Note
> · DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
> · LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
> · Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
> · Email sent to state employees to request volunteers for weekend.
> · Media monitoring showed no incorrect information today.
> · Michigan Association of Broadcasters is sending PSA to radio stations.
> · Coordinating with Red Cross on volunteers for weekend.
> · Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
> · National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
> · Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
> · DHHS
> o The Community Health Emergency Coordination Center (CHECC) is working on the following:
> § A nutrition plan
> § Education materials, messaging, and working with local agencies
> § Developing a community assessment for disaster behavioral health services.
> · Lined up the delivery of filters to two large apartment complexes and a student housing complex.
> · We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
> · Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and close lease on warehouse space
> · Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
> · Continue to work on Governor's Declaration of an Emergency
>
> Attached Documents:
>
> * SitRep 8
>
> Status on Governor's request letter to the President:
>
> * All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
> * Current timeline:
> * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
> * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
> * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
> * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.
>
> Requests and potential response from FEMA/President
>
> * The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
> * The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
> * This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
> * Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility

> * Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
> * If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan
>
>
> Key items for tomorrow to note are:
> · The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
> · We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
> · MNG will have a press event at the armory with incoming soldiers and MG Vadnais.
>
> Items to Note
> · Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
> · Managed and corrected misinformation on NG role.
> · Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
> · Working with Comcast so they can put teams in the field for distribution.
> · Penske is going to give us 15-20 trucks over the weekend.
> · Contact made with Two Men and a Truck for resources.
> · Meeting set with Google where they will brief me and key staff potential tasks.
> · Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
> · Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
> · We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
> · 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

> · We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
> o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
> · Logistics Support
> o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
> § Mission – A filter in every home ASAP.
> § 4 Distribution Methods
> · PODs (5)
> · Water Response Teams (20 effective tomorrow and this will increase)
> · Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
> · Local EOC support for other local requests (Faith based for distribution, etc.)
> § Three warehouse locations at this time
> § How to better leverage ARC resources
>
> · Supplies – Daily Numbers
>
> o Replacement Cartridges - 30,700 delivered.
>
> o Water (cases) - 19,152 cases delivered
>
>
> · Budget projection completed and will be submitted to SBO for review.
>
> · Notes from Water Response Team Command (MSP)
> o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
> o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
> o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.
>
> All personnel continue to be fully committed to fixing this as quickly as possible.
>
> Chris
>
>
>
> Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency
>
> I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.
>

> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Fine-tune logistics
> · Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
> · Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)
>
> Attached Documents:
>
> * SitRep 7
> * Executive Order Activating the National Guard
>
> Key items for tomorrow to note are:
> · The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
> o I have briefed the ARC Disaster Officer on this plan.
> · The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
> · The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
> · We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.
>
> Items to Note
> · PSA video sent out to Flint citizens on resources available.
>
> · Water
> o Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
> o Ordered:
> § 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
> · 1/3 is going to GCCARD and the rest is going to the new warehouse
> § 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
>
> · Filters
> o Today's numbers
> § Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
> · 2,000 – Brita filter faucet mounts
> § Filter Replacements
> · 2,400 – Brita filter replacements (single pack)
> · 8,000 – Brita filter replacements (two pack)
> o Ordered on 1/12/16 to arrive Wednesday
> § Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 – PUR Vertical faucet mount
> · 2,500 – PUR Horizontal mount
> § Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 – PUR replacement filters (3 pack)
> · 10,000 – PUR replacement filters (single pack)
> § PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
> · 10,700 – PUR combo packs
>
> · To arrive Thursday

> o Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 1,300 – Zero Water pitchers
> o Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 11,000 – PUR vertical faucet mount
> § 1,500 – PUR Horizontal faucet mount
> § 5,000 – Brita faucet mount
> § 10,000 – Brita adv faucet mount white
> § 12,000 – Brita adv faucet mount chrome
> o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 117,600 – PUR replacement filter
>
> · Test Kits
> o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
> o 500 have been assembled and are ready for distribution
> o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
> o 10,142 unassembled kits to arrive at GCCARD early next week
>
> · Second warehouse – Located in Flint
> o 100, 000 square feet of secure warehouse obtained.
> o Accepting commodities beginning Wednesday, January 13
>
> · Logistics Support
> o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
>
> · Door to Door Numbers
> o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
> o We are working on version 2.0 so this can be used at the PODs
> o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
> o Notes from the field commander:
> § "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
> o In the end, there were 394 total home visits with the following breakdowns:
> · 217 Door Hangers
> · 152 Vacant Homes
> · 117 Water Distributions
> · 112 Filters
> · 3 Pitchers
> · 48 Water Test Kits
> · 211
> o CALL VOLUME:
> § 185 calls for water-related issues had been received as of 4:45 pm.
>
> · Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

>
> Chris
>
>
> Update 1/11/16
>
> The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.
>
> Attached Documents:
>
> * SitRep 6
>
> Key items for tomorrow to note are:
> · The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
> o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
> o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.
>
> Items to Note
> · It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
> · We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
> · Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
> · We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
> · ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
> · Began mapping lead service lines (anticipate having draft of lead service lines Friday).
> · Coordinated with local IT managers overseeing filter tracking system to streamline data collection.
>
> Local Emergency Operations Center
> • Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
> • Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
> • Working to establish a warehouse for local resource storage.
> • Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
> • Discussed potential long term water sources between local EOC and SEOC.
> • Established planning cycle/meeting scheduled for 1/12/16.
> • Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.
>
> Chris

> Update 1/10/16
>
> Attached Documents:
>
> * SitRep 5
> * Door card (English version but Spanish version will be ready for Tuesday)
>
> I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).
>
> I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:
>
>
> 1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
>
>
> 1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
>
> · We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
> · A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
> · An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."
> o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
> · Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
> · Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."
> o Debris Removal = self-explanatory and we do not have this
> o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)
> o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.
>
> Back to the update...
>
> Key items for tomorrow to note are:

> · Training is occurring for the door to door teams scheduled for Tuesday morning.
> · Deploying an additional MSP District Coordinator to the local EOC for command and control support.
> · Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
> · Media event with the Governor in Flint.
> · New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
> 1. Ensure all households within impacted community have required resources.
> 2. Ensure accurate tracking and accounting of all commodities.
> 3. Improve and maintain public information strategy.
> 4. Develop a long term public health and services plan.
> 5. Ensure adequate staffing to support operational requirements.
> 6. Identify possible assistance programs.
> 7. Develop an approved GIS strategy.
> 8. Maintain coordination between partner agencies and organizations.
> 9. Enhance situational awareness and common operating picture of all activities.
> 10. Develop a comprehensive Recovery Plan.
>
> Items to Note
> · All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
> · Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
> · The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
> · The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
> o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
> o The door card is attached that will be left if no one is home.
> · Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
> o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
> · GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
> o 12,386 filters
> o 1,985 replacement filters
> o 354 Pitchers
> o 2500 Lead Testing Kits
> · Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
> o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
> o We have ordered an additional (expedited delivery with ETAs tomorrow)
> § 40,000 Brita Filters
> § 40,000 Brita Replacement Filters
> § 1000 Zero 8-Cup Pitchers
> § 1000 Zero 8-Cup Pitchers
> § 2000 PUR Replacement Filters
> § 93 Pallets of water (about 6700 cases)
> · GIS continues to produce multiple maps for use.

> · JIC Items
> o Requested PSA on the radio. Media has been approved and working with MAB.
> o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
> o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
> § Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
> § JIC moving tomorrow to Flint.
>
> Local Emergency Operations Center
>
> I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.
>
> Fire Station Inventory Levels:
> Station 1:
>
> * Only time without supplies - 15 minutes without water while the truck was unloaded.
> Station 3:
>
> * Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.
> Station 5:
>
> * Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
> * Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.
> Station 6:
>
> * Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
> * 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
> * We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.
> Station 8:
>
> * Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
> * Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
> * Reports received that the last couple of hours were slow.
> * Residents were advised of the other sites and the opportunity to obtain supplies.

>
> Restocking Plan
>
> * United Way set up meeting with Food Bank to discuss.
> * Had EOC meeting on this topic to discuss options.
> Churches:
>
> * All 9 churches received waters, filters, and informational bulletins.
> * Lt Roach received positive feedback from 3 of the pastors.
> * No complaints were received.
> Signage:
>
> * Provided information to SEOC on signage requirements at the fire stations.
> Storage:
>
> * Researched storage spaces; established temporary site at GCCARD.
> Personnel:
>
> * Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
> * Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
> * Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.
>
> Chris
>
>
> Update 1/9/16
>
> SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.
>
> Key items for tomorrow to note are:
>
> · 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
> · 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
> · Media event will take place on the above tomorrow.
>
> Items to Note
>
> · 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
> · We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.

> · A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
> · We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
> · Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
> o A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
> · I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
> · The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
> · A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
> · Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
> o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
> § Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
> o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
> o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
> o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
> · A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.
>
> MSP/EMHSD GIS Section Updates
>
> Accomplished Today (January 9):
> • Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
> • Produced Filter Distribution Map.

> • Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
> • Worked on map of franchise customers outside of Flint City.
> • Produced maps for MDARD on food establishments and Local Health Departments.
> • Produced map of Church Filter Distribution map for DTMB.
>
> Local Emergency Operations Center
>
> · The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
> · Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
> · With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
> o Logistical activities to support church operations.
> o Logistical activities to support fire stations operations.
> o Coordinate Donations Management activities and draft donations management plan
> o Coordinate Volunteer Management activities
> o Identify local storage/staging facilities
> o Overall inventory tracking
> o Tracking of Points of Distribution (PODs)
> Chris
>
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/8/16
>
> SitRep 3 attached.
>
> There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).
>
> Items to Note
>
>
> · Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
>
>
> · We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to

citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.
>
>
>
> · We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
>
>
>
> · I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
>
>
> · DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
>
> · 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
>
> · Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
>
>
> · STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
>
>
> · The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.
>
>
> · It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
>
>
> · A Volunteer Management Coordinator is in the Genesee County EOC as of today.
>
>
> · A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
>
>

> · DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
>
>
> · An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
>
>
> · GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
>
>
>
> · GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.
>
>
> Chris
>
>
>
> UPDATE 1/7/16
>
> A summary of some of today's SEOC activities is provided below. Attached is the following:
>
>
> · Today's SitRep which contains more information than below.
>
> · The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
>
> · JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.
>
> Items to note:
>
>
> · I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
>
> · I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
>
> · GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
>
> · Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based

on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
>
> · Filters can be obtained at the following locations:
>
> · Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
>
> · Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
>
> · Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
>
> · Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
>
> * Conducted briefing with local EOC and county executive.
> * Conducted briefing with state agencies (daily updates).
> * Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
> * JIC continued to develop messaging.
> * Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
> * Deployed two EMHSD/SEOC liaisons to assist the local EOC.
> * Published the Incident Action Plan and continued assignment of objectives/tasks.
> * FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
> * I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
> * We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
> * Local agencies and NGOs continue to provide water and filters to citizens.
> * The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

> UPDATE 1/6/16
>
> A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.
>
> Advise if you want anyone else copied or off this distribution.
>
> Daily Update
>
>
> * Set goals for SEOC and identified response/recovery emphasis
> * Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
> * PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
> * Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
> * I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
> * MDHHS – Elevated Blood Lead Levels
> * Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
> * MDEQ – Water Testing Protocols
> * Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
> * Developed Incident objectives, strategy and tactics (see attached)
> * Identified SEOC and state agency staff positions
> * Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
>
> * Reviewed planned actions, prepared final draft Incident Action Plan
> * Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration

with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
> * I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
>
> * The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
>
> 1. Activate the State Recovery Task Force (SRTF).
>
> 2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
>
> 3. Obtain and maintain situational awareness and common operating picture of all activities.
>
> 4. Establish SEOC operational period and hours of operations.
>
> 5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
>
> 6. Develop a comprehensive GIS strategy.
>
> 7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
>
> 8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
>
> 9. Provide technical assistance to the local Damage Assessment process.
>
> 10. Establish a Joint Information Center (JIC) and develop a public information strategy.
>
> 11. Monitor MI CIMS for resource requests and address as appropriate.
>
> 12. Establish and disseminate cost center information for the incident.
>
> · Additional tasks include:
>
> * Determine what federal agencies are already involved and their status
> * Identify potential water supplies
> * Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
> * Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
> * Determine what mechanisms are in place for nutrition supplementation
>
> EMHSD GIS Accomplishments:
>
> * Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
> * Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
> * Began consolidating local data from local GIS practitioners into a consolidated database, to include:
> * Water Pipeline Locations
> * Filter Distribution Locations
> * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)

> * Affected School Locations
> * Predictive analysis of blood lead levels for affected area
> * Updated Parcels
> * Demographics
> * Block Groups
> * Produced a map for the filter distribution locations
> * Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Sample Information from DEQ

Below is some good information from DEQ SEOC desk:

Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:

1186 total Residential Samples have been reported

1099 Samples are at or below the Action Level of 15 ppb (92.7%)

966 Samples are at or below 5 ppb (81.5%)

87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:

514 total Residential Samples have been reported

477 Samples are at or below the Action Level of 15 ppb (92.8%)

432 Samples are at or below 5 ppb (84.0%)

37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:

341 total Residential Samples have been reported

322 Samples are at or below the Action Level of 15 ppb (94.4%)

432 Samples are at or below 5 ppb (87.4%)

19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.

- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - o As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**

a. 1/23/16, As of 5 pm, 13,684 homes were visited today

2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18^{h} Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams
- 40 ARC (2-4 folks) type 5 teams

- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. 15 National Guard State (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint

Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.

- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard/State/Local (6-9 folks) type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed 10 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.

- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS

Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.

- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

- As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.

- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195

b. Filters 50,432
c. Filter cartridges 168,605
d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

Local EOC

Operations:

- *Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.*
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last

night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.

- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520

c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

- We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
- We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).

- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
   a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.

- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
  - Replacement Cartridges - 30,700 delivered.
  - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
  - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
  - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
  - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:
- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:
- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
  - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.

- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.

- State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
- The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.

- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

<u>Items to Note</u>

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.

- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.

- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504

- Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
- Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final

draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.

5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
6. Develop a comprehensive GIS strategy.
7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
9. Provide technical assistance to the local Damage Assessment process.
10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Flint Water Daily Update
Updated Jan. 29

Current Issues Talking Points

Governor and DEQ encourage home water testing

- The health and safety of Flint residents remains a top priority. Pregnant and nursing mothers and young children should continue to drink bottled water as a precaution.
- It is essential that all Flint residents have the water in their homes tested as soon as possible.
- Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water Samples should be returned to the fire stations for testing.
- Until water is declared safe, continue to follow established safety protocols.

Governor secures emergency supplemental to immediately aid Flint residents

- Snyder signs $28M Flint bill, hopes for safe water soon (Detroit News)
- The $28 million in funding will help address immediate needs for the people and families of Flint. It is a necessary next step in ongoing recovery efforts for the city.
- The Governor signed the legislation at the first possible opportunity, following its unanimous approval in both the House and Senate.
- The Flint water crisis was a failure of government at all levels – city, state and local. The governor has apologized and taken responsibility for the state's role in this failure.
    - Accepted the resignation of top DEQ officials and suspended two pending a civil service investigation.
    - Approved two emergency funding bills to support Flint residents (This $28 million and a previous $9.3 million in Oct. 2015).
    - Declared and extended a state of emergency for the city and activated the National Guard.
- To date, the Governor and Legislature have approved a total of $37.3 million in emergency funding for Flint while the federal government has earmarked only $5 million in assistance.
    - The Governor will continue to call on the federal government and our Congressional partners to secure additional funding to help address the long-term needs of the city.
- This $28 million in emergency aid will help:
    - Supply free bottled water, faucet filters, and testing kits for Flint residents;
    - Put nine nurses in local schools to monitor student health and well-being;
    - Provide better nutrition for students and infants through WIC and in-school nutrition programs;
    - Replace fixtures in schools, daycares, nursing homes and hospitals;
    - Provide for an infrastructure study using independent experts;
    - Treat any children who have high lead levels in the blood, using diagnostic testing, nurse visits and environmental assessments in the home;
    - Provide additional community education opportunities within the Genesee County Health Department;
    - Compensate the Michigan National Guard's work to support water distribution;
    - Assist with home lead abatement costs;
    - Help the City of Flint with utility issues;
    - Provide operational funding for the Flint Interagency Advisory Committee.

- This funding package is just one step of many. Additional long-term resources will be needed as we work together to strengthen the city of Flint moving forward.

Fresh water in State of Michigan Flint office building was for all

- Amid denials state workers in Flint got clean water (Detroit Free Press)
- Fresh water in Flint State building was for all (ABC News)
- In January 2015, as a customer of Flint water, DTMB received a notification that the water system in Flint's state office building was found to be in violation of a drinking water standard.
- DTMB made the decision to provide an alternative drinking option for both building employees and public visitors.
    - Health of visitors was a top priority.
    - Approximately 500 visitors sign into the Flint office building every day. Many of which enter the building for access to DHHS services.
    - Those with an increased risk included people with severely compromised immune systems, infants, or the elderly. A large number of the clients using the DHHS services fall within those demographics.
- After receiving information from the city, verbally, in July 2015 that the water system issue had been addressed, the water coolers were removed.
- It wasn't until late Sept/Oct 2015 when the presence of lead in the water was confirmed that the water coolers were replaced.

Governor Rick Snyder
REINVENTING MICHIGAN
Getting It Right. Getting It Done.

In the News

NEWS (Click the link to read the full article)

GOVERNOR'S ACTIVITIES

Flint water
Snyder meets with pastors over Flint's water crisis (Detroit News)
Gov. Rick Snyder again held a private meeting in the city to discuss the state's response to the lead-tainted water crisis. Snyder, with an orange mug of water and a bright Flint pin notched to his lapel, sat near the end of a table inside City Hall Thursday, facing a row of concerned pastors gathered in a conference room. Mayor Karen Weaver also was present.

Gov. Snyder-appointed committee meets to talk Flint water crisis (Mlive)
While Michigan Gov. Rick Snyder was holding his first meeting with the Flint Water Interagency Coordinating Committee, activists waited in hopes of meeting the governor to ask him to resign. Snyder greeted press for the first five minutes of the meeting at the University of Michigan-Flint Northbank Center Wednesday, Jan. 27.

Congress will grill the EPA on Flint, but not Snyder (Michigan Radio)
Governor Snyder will not be called to testify at a Congressional hearing next week looking into the Flint water crisis. Instead, the spotlight will be on the EPA.

Snyder extends Flint emergency declaration to April 14 (Freep)
Michigan Gov. Rick Snyder on Thursday extended to April 14 the state of emergency in Flint and Genesee County, bringing the duration of the state emergency in line with the federal state of emergency declared by President Barack Obama on Jan. 16.

Snyder: Flint emergency declaration extended to April 14 (TV 6 UP)
Gov. Rick Snyder issued a proclamation on Thursday calling for an extension to the emergency declaration in the city of Flint and Genesee County.

Governor Snyder extends State of Emergency for Flint (WTVB)
Governor Snyder has extended the state of emergency in Flint until April 14. It was due to expire on Monday. Both the House and the Senate in Lansing have signed off on that extension, as well as approving the revised version of a $28 million supplemental spending bill for short term aid to provide supplies, testing and early treatment in response to contamination in the city water supply.

Anti-Snyder messages pop up around governor's downtown Ann Arbor condo (Mlive)
As Michigan Gov. Rick Snyder continues to face strong criticism over the Flint water crisis, anti-Snyder messages are popping up on the governor's home turf in downtown Ann Arbor. Several of the messages have been written in chalk — some calling for Snyder's arrest and resignation — on the sidewalks in front of and near the governor's new loft condo on Main Street.

Governor heckled at Old Town Tavern in downtown Ann Arbor (Mlive)
Gov. Rick Snyder, who continues to receive criticism over the Flint water crisis, was heckled and shouted at Thursday night at a downtown Ann Arbor bar and restaurant.

State board rejects petitions to recall Gov. Snyder over Flint water (WDIV)
A state board has rejected petitions to recall Michigan Gov. Rick Snyder over his handling of Flint's lead-contaminated water. The Board of State Canvassers rejected the petitions Thursday, 4-0. The board says the reasons for a recall must be clear and factual, under Michigan law. If they're not, no one can gather signatures to force a recall election.

Board rejects recall bid against governor over Flint (AP)
A state board has rejected petitions to recall Michigan Governor Rick Snyder over his handling of Flint's lead-contaminated water.

Gov. Snyder to sign $28M bill for Flint (AP)
Gov. Rick Snyder will soon sign into law $28 million in emergency funding to address Flint's lead-contaminated water. The Republican governor is expected to sign the measure Friday at a Michigan Press Association meeting in Grand Rapids. He says the funding will provide immediate resources in Flint but is not the end of state assistance.

Michigan governor names panel to fix Flint's contaminated water system (Arab American News)
On Wednesday, Governor Rick Snyder appointed a group of government officials, health and other experts to implement long-term fixes for Flint's lead-contaminated water system, which has become a national scandal.

Gov. Snyder Says He's Been Heckled And Worse Over Flint Water Crisis (WWJ/CBS Detroit)
Gov. Rick Snyder says he has been heckled and threatened over the Flint water crisis. The governor told WWJ Newsradio 950's Charlie Langton he was confronted by hecklers on more than one occasion — once, while dining in a restaurant in Ann Arbor. People are blaming him for what happened in Flint.

LT. GOVERNOR'S ACTIVITIES

Millions of used water bottles can be recycled in Flint, says Lt. Gov. Calley (Mlive)
The millions of bottles of water discarded as a result of the water crisis in Flint don't have to end up in a landfill, state and local leaders said Thursday, Jan. 28. Lt. Gov. Brian Calley, Matt Flechter, the state's

recycling market development specialist, and others were in Flint to discuss the recycling options for city residents.

Flint recyclers step up efforts to combat water bottles (Detroit News)
To prevent the pileup of empty bottles in landfills from the fallout of the city's drinking water crisis, officials announced Thursday that residents will immediately have biweekly curbside pickup service.

Recycling push underway in Flint (WDIV)
A coalition of parties, including the state, Genesee County, and City of Flint partners stepped up recycling efforts on Thursday. Lt. Governor Brian Calley, who will be spending more time in Flint during the crisis, was on hand to remind everyone they can easily recycle the plastic bottles.

Flint residents getting bags to recycle bottles (AP)
Officials have announced new recycling efforts in Flint in response to the heavy use of bottled water and filters because of lead-contaminated tap water. The new steps were announced Thursday at a fire station that's doubling as a water distribution site.

Empty Flint water bottles good news for recycling effort (Freep)
As a big, blue garbage truck combs a neighborhood on Flint's east side, Arnold Brown points to a blue recycling bin outside a corner house.

Only $17M in federal loans for Flint, says Lt. Gov. (Freep)
Only $17 million of the $80 million in federal loans available to Michigan can be used in Flint as part of recovery from the water crisis, according to Michigan Lt. Gov. Brian Calley.

FLINT
Senate democrats seeking federal aid for Flint crisis (NYT)
Senate Democrats said Thursday they would seek $600 million in federal aid to help Michigan clean up the contaminated water emergency in the city of Flint, the most far-reaching financial solution proposed to manage the crisis.

U.S. Senate Dems pitch $400 million fix for lead pipes in Flint (AP)
U.S. Senate Democrats are introducing a measure to provide up to $400 million in new federal funding to replace and fix lead-contaminated pipes in Flint, Michigan.

Senators from Michigan propose $400 million in federal aid for Flint (Crains)
Senate Democrats on Thursday proposed up to $400 million in emergency federal aid to Flint, half of what the state's Republican governor says it will cost to replace and fix the city's lead-contaminated pipes.

Senators say they'll ask for more federal money to help pay for Flint water infrastructure (Michigan Radio)
U.S. Senators Debbie Stabenow and Gary Peters say they'll try to make up to $400 million in federal money available to help replace damaged pipes in Flint. The two announced today they'd offer an

amendment to a bill the Senate is set to consider next week.

Peters-Stabenow lead-pipe plan may face uphill fight (Detroit News)
Democratic U.S. Sens. Gary Peters and Debbie Stabenow plan to offer an amendment to a bipartisan energy policy bill with the goal of jump-starting the process of repairing or replacing lead services lines contributing to the contamination of drinking water in Flint.

$600 million bill to help Flint faces tough road in Congress (CNN)
Scrambling to respond to the lead poisoning in the Flint, Michigan, water supply, the two Democratic senators from that state unveiled a $600 million proposal to help replace contaminated pipes and treat residents who were exposed to the dangerous element.

State workers in Flint got bottled water as crisis brewed (ABC News)
Michigan offered fresh bottled water for state employees in Flint starting in January 2015, although residents were told that tap water was safe to drink until last fall, a state official said.

Amid denials, state workers in Flint got clean water (Detroit Free Press)
In January of 2015, when state officials were telling worried Flint residents their water was safe to drink, they also were arranging for coolers of purified water in Flint's State Office Building so employees wouldn't have to drink from the taps, according to state government e-mails released Thursday by the liberal group Progress Michigan.

State workers – but not residents – in Flint, Mich., have been getting purified water for more than a year (Washington post)
Employees at the state office in Flint, Mich., have been drinking from coolers of purified water since last January — the same month that representatives from the Michigan Department of Environmental Quality assured residents the water was safe to drink.

State workers in Flint got clean water over a year ago (The Atlantic)
According to documents, Michigan officials provided coolers and bottled water for government offices several months before a lead advisory went out to city residents.

Little focus on Flint water crisis during GOP debate (Detroit Free Press)
The Republican candidates for President addressed a wide variety of topics during their last debate before the Iowa caucuses on Monday.

Will Detroit be the next Flint? (MSNBC)
The Michigan Department of Environmental Quality will take public comments Thursday night on an application from an oil company to release more sulfur dioxide into the air over southwest Detroit. If the MDEQ approves, city officials will be powerless to stop it.

Lots Of Cities Have The Same Lead Pipes That Poisoned Flint (Huffington Post)
Just how many lead pipes are there in Flint, Michigan, where the water has been undrinkable because of high lead levels? Nobody knows. "A lot of work is being done to even understand where the lead services lines fully are, so I would say any numbers you're hearing at this point are still speculation," Michigan Gov. Rick Snyder (R) said Wednesday.

DETROIT

Detroit teachers union sues DPS, asks for EM Darnell Earley's removal (WDIV)

The Detroit Federation of Teachers (DFT) union announced Thursday that it is suing the Detroit Public Schools (DPS) district and asking a judge to remove state-appointed Emergency Manager Darnell Earley.

A Historical Perspective into the Detroit Public Schools situation (WDET)

Detroit Federation of Teachers files lawsuit against Detroit Public Schools, Darnell Earley (WXYZ)
The Detroit Federation of Teachers, along with the American Federation of Teachers, DFT Interim President Ivy Bailey and more, has filed a lawsuit against Detroit Public Schools and Emergency Manager Darnell Earley.

Union sues DPS over school buildings, asks judge to remove EM (Detroit News)
The Detroit Federation of Teachers is asking a judge to oust Detroit Public Schools' emergency manager, saying his failure to address deteriorating buildings is putting students at risk.

Detroit Federation of Teachers files lawsuit against Detroit Public Schools, Darnell Earley (WXYZ)
The Detroit Federation of Teachers, along with the American Federation of Teachers, DFT Interim President Ivy Bailey and more, has filed a lawsuit against Detroit Public Schools and Emergency Manager Darnell Earley.

Detroit Public Schools hit with lawsuit (CNN)
Detroit's beleaguered school system was hit with a lawsuit by the teachers union Thursday, calling for the removal of the district's emergency manager and accusing officials of allowing the conditions at schools "to deteriorate to the point of crisis."

The Latest: Schools chief: Solution in Lansing, not lawsuit (AP)
The Detroit Public Schools' state-appointed emergency manager says many issues raised in a lawsuit filed against the district by the teachers' union would be handled in a 10-year, $715 million plan put forth by Gov. Rick Snyder.

Welcome Mat: Home news, events around Metro Detroit (Detroit News)

Teachers Union Sues Detroit Schools (U.S. News)
The Detroit Federation of Teachers filed a lawsuit Thursday against the city's public school system, calling for officials to repair what it calls dangerous school conditions and the removal of the system's state-appointed emergency manager.

Arrested Detroit teacher says police reaction to protest 'backfired' (MLive)
Nicole Conway, a vocal teachers union member opposing Lansing control, spent Wednesday afternoon and evening in the jail of a Detroit police precinct following a student protest.

Duggan threatens suit over Marathon refinery emissions (Freep)
Mayor Mike Duggan tonight tore into Marathon Petroleum's proposal to increase certain pollutants at its refinery in southwest Detroit, ultimately threatening a lawsuit against the state if it approves the oil company's plan.

Duggan joins those against Detroit refinery plans (Detroit News)
Mayor Mike Duggan on Thursday called on state environmental regulators to deny a permit by Marathon Petroleum to increase emissions at its refinery in southwest Detroit.

Mayor Duggan: No more pollutants from Marathon Oil (WDIV)
Marathon Oil is petitioning the Michigan Department of Environmental Quality for a permit to release more sulfur dioxide into the air because federal regulations now require less of it in gasoline.

DEPARTMENTS

AG

Schuette attempts to build 'conflict wall' between himself, Flint water investigation (Grand Blanc View)
The newly formed team tasked with investigating the steps that led to the contamination of Flint's water supply has already come under attack for what a State Representative calls "major conflicts of interest."

Can Michigan AG Bill Schuette, be trusted overseeing the investigation of the Flint water crisis (WDET)
Melanie Moore, the Executive Director of Common Cause - Michigan, Bertram Marks, the general counsel of the Progressive Baptist Convention and Regina Strong, the Director of the Sierra Club's Michigan Beyond Coal Campaign, joined host Bankole Thompson on the Redline roundtable to examine whether the Michigan Attorney General's office, headed by AG Bill Schuette, can be trusted to oversee the Flint water crisis investigation. Each member of the roundtable expressed concern over Schuette's Monday announcement, that he has appointed former Wayne County Prosecutor, Todd Flood, to head up the AG's investigation into the Flint Water Crisis.

Schuette survey: 1,819 untested rape kits outside Wayne County (Michigan Radio)
More than 1,800 untested sexual assault kits from before Oct. 1, 2014, have been found at law enforcement agencies outside Wayne County, according to Michigan Attorney General Bill Schuette.

Michigan survey finds 1800 more untested rape evidence kits (WZZM)
Michigan Attorney General Bill Schuette announced Thursday that 1,819 untested rape kits have been discovered in Michigan outside of Detroit and Wayne County.

West Michigan police chiefs explain untested rape kits (WWMT)
Statistics from Michigan's Attorney General Bill Schuette show West Michigan has the highest number of untested sexual assault kits in the state. The attorney general says he's working to get those kits tested but West Michigan police chiefs say the numbers don't paint a full picture.

45 untested rape kits in Saginaw, Midland uncovered by AG probe (MLive)
A statewide probe into untested rape kits revealed 45 were at law enforcement agencies in Saginaw and Midland counties.

Schuette: Over 1,800 rape kits to be tested, many in southwest Michigan (WIN 98.5)
Attorney General Bill Schuette says a survey of law enforcement agencies outside the Detroit and Wayne County areas found over 1,800 untested sexual assault kits.

Ann Arbor police have 65 untested rape kits, AG investigation finds (MLive)
There are 95 untested rape kits in Ann Arbor and Ypsilanti.

Ann Arbor police rank 6th in state for highest number of untested rape kits (Michigan Daily)
The Ann Arbor Police Department ranks 6th highest out of 548 Michigan police departments in number of untested rape kits, according to survey results released Thursday by Michigan Attorney General Bill Schuette.

State survey reveals 578 untested rape kits in Kalamazoo area (MLive)
Police agencies in Southwest Michigan have almost 600 untested rape kits on their books, according to a statewide audit.

Midland police chief says each untested sexual assault evidence kit was investigated (Midland Daily News)
A number of area police departments, including the Midland Police Department, have untested sexual assault evidence kits, according to Michigan Attorney General Bill Schuette and Michigan State Police Director Col. Kriste Kibbey Etue.

State Police, Attorney General's office testing more than 1,800 sex assault kits (WWMT)
The Michigan State Police and and the State Attorney General are moving forward with testing and the potential investigation and prosecution of more than 1,800 untested sexual assault evidence kits.

Debate rages over how often government pushes for a 'yes' vote on tax hikes (Capitol Confidential)
Last month the Battle Creek Enquirer's editorial board published an editorial about a bill (now a law, Public Act 269 of 2015) to prevent municipalities and school districts from using tax dollars to promote

tax increases in the 60 days before the election.

SUPREME COURT

State Supreme Court hears hall election forgery case (Grand Haven Tribune)
Oral arguments were held last week in front of the Michigan Supreme Court.

LEGISLATIVE

Michigan lawmakers approve $28M more for Flint water crisis (AP)
Michigan lawmakers directed another $28 million on Thursday to address Flint's lead-contaminated water supply, allocating money for bottled water, medical assessments and other costs for the financially struggling city.

Michigan Senate passes $28M in Flint water crisis aid (MLive)
The Michigan Senate on Thursday unanimously passed a bill to give Flint $28 million in state money for things like water filters and health assessments for children.

Michigan Senate approves $28 million for Flint's water emergency (WSJ)
The Michigan Senate voted Thursday to direct another $28 million to address Flint's water emergency, allocating money for bottled water, medical assessments and other costs in the city struggling with a lead-contaminated supply.

Michigan Senate unanimously approves $28 M more in funding for Flint water crisis (WDIV)
The Michigan Senate has unanimously approved $28 million in additional funding to address the lead contamination of Flint's water.

Senate, House unanimously approve $28M for Flint (Detroit Free Press)
The state Senate gave quick, and unanimous, approval Thursday to give $28 million for a variety of services needed as a result of the lead contaminated water in the city of Flint.

Senator Schuitmaker's bill eliminating policewoman rank heads to governor (WSJM)
The rank of "policewoman" is about to officially be stripped from the Michigan State Police.

OPINION

Hold firm on vaccination requirements (Detroit Free Press)
It's awfully good news that the number of vaccination waivers in the state of Michigan have dropped nearly 40% in the year since the state began requiring that people who don't want their kids to get disease-preventing shots hear from health department officials about the dangers.

Editorial: Lawmakers should get rid of gag order (Detroit News)
Republican lawmakers zealous about limiting municipal tax increases passed legislation last month that tells schools and other local governments they can't say anything about millage proposals two months

before an election. This last-minute amendment was a bad idea at the time, and now it's turned into a lawsuit.

Editor's note: Politicians exploiting Flint crisis (Detroit News)
Now that the Flint water crisis is commanding such a large national spotlight, Michigan politicians are throwing elbows to get under it.

Plummeting vaccination waivers a victory, but bills threaten public health (MLive)
The number of parents choosing not to vaccinate their schoolchildren has plummeted in Michigan, a victory for public health and those who are battling the vocal anti-vaccination movement.

Middle class can't bear cost of decaying infrastructure (MLive)
The Flint Journal started 2016 with an investigative report on Flint's deteriorating multimillion-dollar drinking water situation. However, I hope the Journal does not stop there.

After Flint, you'd expect lawmakers to listen (Port Huron Times Herald)
I just read an article in the Jan. 23 Times Herald that explained how a judge has ordered Walmart to reinstate 16 employees who were fired after protesting over working conditions. The judge said that it "... was wrong to discipline employees who were absent from work because of the demonstrations." I am confused about why it is lawful for one group of people to strike in this country, but in Michigan we have a law that states that one particular group of people — teachers — cannot strike without imposing huge fines. How can this be constitutional?

#####

Flint Water Daily Update
Updated Jan. 28

Current Issues Talking Points

Michigan Legislature approves immediate supplemental funds for Flint

- The Michigan Legislature has unanimously approved Gov. Rick Snyder's $28 million supplemental proposal for Flint.
- This emergency funding is in addition to the $9.35 million allocated back in October to switch the water source back to Detroit's water system, purchase filters and screen for abnormal blood lead levels.
    - The state is working on longer-term funding to be included in the Governor's budget request in February.
- The $28 million will be used to help Flint's utilities, treating Flint children with high blood lead levels and the replacement of plumbing fixtures in schools, child care centers, foster care and nursing homes.
- This supplemental funding is just one part of the solution for healing Flint.
    - The immediate needs will be met, but so will the long-term needs of residents with regard to public health, infrastructure replacement and community support.

Flint emergency declaration extended to April 14

- Today Gov. Rick Snyder issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County.
- The Michigan House and Senate approved the request, extending the emergency until April 14, 2016.
    - This extension coincides with the current Presidential Emergency Declaration.
- Extending this emergency will help us continue providing immediate assistance to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

Federal funds

- In an interview today, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.
- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.
- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

Comprehensive Plan for Flint

- Yesterday, the Governor held a press conference in Flint to outline next steps for the city, including infrastructure needs and clean water.
- Later in the day, Dr. Mark Edwards, who is part of the Governor's newly appointed Flint Water Interagency Coordinating Committee, echoed Governor Snyder's sentiments on how to fix the water issue and how to deal with the pipes.

Medicaid/Federal Asks

- On Jan. 26, Governor Snyder announced that a request will be sent to the federal government that asks for all Flint residents under age 21 to receive additional healthcare services to address potential problems brought on from exposure to lead.
- We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts.
- Request will include:
    - Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level.

- Lead-abatement programs to help minimize and/or prevent any long term adverse health problems associated with lead exposure.
- Additional, community-based resources to ensure all children, regardless of health insurance coverage, have access to comprehensive medical treatment.

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, January 28, 2016

GENERAL INFORMATION:

- **FOLLOW UP:** 2-1-1 was hit hard in the aftermath of last night's robo-townhall by Gov. Snyder and the nationally broadcast town meeting with Rachel Maddow on MSNBC. Calls from Flint are becoming longer and expressing more frustration. We received word that some state government outreach materials are directing residents to call 2-1-1 "to share their feelings and ideas". We are working to track down the specific source for this, but it is important to clarify ***2-1-1 is an information and referral service, not a chat line.*** Flint residents clearly need a venue for sharing their feelings and ideas, but 2-1-1 is not equipped to collect or act on this information – using the service for this purpose prevents other callers from receiving the assistance they need.

CALL VOLUME:

The Michigan 2-1-1 system experienced much higher than average call volumes today. Seasonal demand for tax preparation scheduling and assistance are a major source of calls, in addition to over 600 calls from utility assistance customers who received notice that they are no longer eligible for a Michigan Energy Assistance Program that helped in past years with heating expenses. With 14,000 households receiving notices they are being dropped from the program, we anticipate demand from these utility customers will remain high for several more days, particularly in SE Michigan.

The Michigan 2-1-1 providers are working together to address system capacity challenges and to meet quality service expectations. Temporary staff are being added in some locations, but space restrictions limit the number of additional agents who can be added on-site. The 2-1-1 technology platform is highly flexible, requiring only an internet connection and a direct-dial phone number to receive calls. Available options to address the capacity need are 1) deploying regular 2-1-1 staff to work from home; 2) utilizing volunteers to take Flint water calls from an outside location; or 3) contracting for staff from 2-1-1 providers in other states. Each option has training, supervision and cost implications for 2-1-1s and our funding partners to consider.

SPECIAL NEEDS/REQUESTS

- Residents have heard news reports that initial lead and copper test results have been posted. They are calling 2-1-1 for results. 2-1-1 is not sharing individual results, but is instructing these callers to visit http://www.michigan.gov/flintwater and click on the report under the 'In The Home' link.

RUMOR CONTROL

- 2-1-1 continues to receive a number of calls regarding the rumor that Sparklett bottled water is contaminated with lead. Callers are informed that MDEQ has tested all bottled water sources and confirmed they are lead- and copper-free.
- A member of the Communications team at 2-1-1 partner Michigan Association of United Ways shared a link from Twitter and Facebook account 'BrownBlaze' based in Milwaukee with posts stating:
  - ☐ "Flint residents are barred from selling their homes and moving their families bc it is illegal to sell with a known lead or copper issue."
  - ☑ CPS is threatening to remove children from homes with water issues. **Note:** This rumor has been documented by fact-checking web site Snopes.com as "FALSE".
  - ☐ "Undocumented immigrants in Flint aren't just being denied clean water, they aren't being tested for lead poisoning." This tweet included a link to a story about undocumented

residents facing ICE raids: http://grist.org/cities/its-not-just-clean-water-flints-undocumented-immigrants-cant-access-medical-lead-testing/

Michigan 2-1-1 forwarded these links to SEOC for response.

UNRESOLVED

- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
- ☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
- ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
- ☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

Governor Rick Snyder
REINVENTING MICHIGAN
Getting It Right. Getting It Done.

In the News

NEWS (Click the link to read the full article)

GOV's ACTIVITIES

Flint water press conference
Governor Snyder commits to fixing Flint (WLNS)
The Governor's actions include increasing their physical presence in Flint with an office at City Hall, expanding Medicaid benefits to residents under the age of 21, and developing low interest loans for small businesses. With Flint residents concerned about the city's future, Governor Rick Snyder made sure to let the people know, it's crunch time.

Gov. Snyder unveils new plans to fix Flint water (Fox 2 Detroit)
Governor Rick Snyder was back in Flint Wednesday to roll out new programs to help people cope and recover during the ongoing toxic water crisis in Flint. But these new programs still haven't solved the problem of where the people of Flint can get flowing water that's safe to drink.

'Hero' Expert Marc Edwards to Oversee Flint Water Testing (NBC News)
The researcher who first uncovered lead in the water of dozens of homes in Flint, Michigan, and was pooh-poohed by government officials is now being brought in to determine when it's safe for people to drink from their taps.

Flint's Mayor, Governor Snyder Discuss New Approach to the City's Water Crisis (9&10 News)
Governor Rick Snyder met with the mayor of Flint Wednesday to discuss a new approach to the city's toxic water disaster. The state Department of Environmental quality say it's too soon to give people the go-ahead to start drinking unfiltered water.

Snyder appoints field experts to oversee long-term solutions for Flint water system (Crain's Detroit Business)
Michigan Gov. Rick Snyder on Wednesday appointed a group of medical and field experts, including a doctor and professor who helped expose the Flint water contamination crisis, to a committee charged with identifying long-term solutions.

Michigan governor appoints Flint whistleblowers to remedy water crisis (Washington Post)
Michigan Gov. Rick Snyder named a panel of experts Wednesday to help solve the city of Flint's water crisis, including some of the very critics who forced local, state and federal governments to acknowledge dangerous levels of lead in the drinking water there.

Flint mayor expects $3 million from Gov. Snyder for water bill relief (Mlive)
Flint Mayor Karen Weaver is expecting $3 million in state funds will help to pay for residents water bills

but whether that assistance comes in the form of refunds, forgiveness of past bills or future rate reductions hasn't been decided.

Gov. Snyder Forms Committee to Oversee Flint's Water Crisis (NBC News)
Michigan Gov. Rick Snyder has named a group of medical and field experts to a committee that will determine long-term solutions to fix Flint's water system and help residents who have been exposed to lead.

Few Answers on When Flint Will Have Clean Water Again (NY Times)
More than three months after officials declared that Flint residents should not drink the lead-tainted water from their taps, people who live here are still lugging bottled water from a Walmart or firehouse back to their homes, where they use it to drink, prepare food, brush their teeth and bathe their children.

Gov. Snyder pledges help to Flint amid mistrust of gov't (AP)
Flint residents coping with lead contamination will be cleared to drink unfiltered water again only when outside experts determine it is safe, Michigan Gov. Rick Snyder said Wednesday, acknowledging their mistrust of government officials while saying a full replacement of the city's pipes is not imminent.

Michigan Gov. Snyder says full replacement of Flint's lead pipes not imminent (Fox News)
Michigan Gov. Rick Snyder said Wednesday the full replacement of the Flint's lead pipes is not imminent despite the ongoing crisis of city's lead-poisoned tap water. Environmental and civil rights groups filed a lawsuit earlier in the day demanding the prompt replacement of all lead pipes in Flint's water system at no cost to customers. Snyder didn't rule at eventually replacing the lead service lines leading from water mains, but said it's a longer-term consideration.

Snyder lays out plan to make Flint's lead pipes safer (Freep)
Under mounting pressure to rip out and replace lead pipes that connect an estimated 15,000 or more customers to main water lines, Gov. Rick Snyder said at a news conference Wednesday that the state first intends to make the existing pipes safe by rebuilding a protective coating between the lead and the water.

Gov. Snyder names experts to study Flint water (WDIV)
Michigan Gov. Rick Snyder has named a group of medical and field experts to a committee that will determine long-term solutions to fix Flint's water system and help residents who have been exposed to lead.

Governor Snyder announces team to oversee Flint water system (Fox 47 News)
Gov. Snyder will name a group of medical and field experts to oversee long-term solutions to solve the Flint water crisis. The group will operate under the name of the Flint Water Interagency Coordinating Committee, and their goal will be to set up long-term solutions to fix Flint's water system.

UPDATE: Gov. Snyder on Flint water crisis: "It's a matter of trust" (WLNS)
Gov. Rick Snyder agreed that it is "a matter of trust" as efforts are made to fix the Flint water crisis.

Governor Announces Long Term Plans (WILX)
For the residents in Flint, enough is enough. "I was glad that the governor said these are just first steps because I'm asking for a staircase," said Flint Mayor Karen Weaver. "We need more, we want more, and we're working together to make that happen."

Long term lead pipe fix for Flint remains elusive (Fox 17)
Michigan Gov. Rick Snyder has named a group of medical and field experts to a committee that will determine long-term solutions to fix Flint's water system and help residents who have been exposed to lead.

Michigan Gov. Seeks Federal Loans, Expansion of Medicaid Coverage for Flint (WSJ)
Michigan Gov. Rick Snyder pledged more state assistance to address the lead-contamination crisis in Flint, as well as seeking federal loans and an expansion of Medicaid coverage for residents under the age of 21.

Interviews
Flint water crisis: 7 takeaways from CNN interview with Gov. Rick Snyder (CNN)
Embattled Michigan Gov. Rick Snyder says he's committed to dealing with the crisis that sent lead-poisoned water into homes in one of his state's poorest cities. In an exclusive interview with CNN's Poppy Harlow, Snyder spoke about the situation in Flint, his concerns about what happens next and his response to class-action lawsuits filed against the city and state.

Michigan governor: Flint water crisis could affect 'many more' kids (CNN)
It's too soon to know exactly how many children were harmed by lead-poisoned water in Flint, Michigan, the state's governor says. But officials are bracing for the possibility of a much higher tally than what blood tests have revealed so far. "There could be many more," Gov. Rick Snyder told CNN, "and we're assuming that."

On CNN, Snyder grilled on replacing lead pipes in Flint (Detroit News)
Gov. Rick Snyder said the safest thing to do for the health of Flint residents would be to replace all lead service lines in the city, but he stopped short of committing to full replacement Wednesday.

Flint meetings/tele-town hall
Michigan Gov: About 200 Flint kids have elevated blood-lead levels (AP)
Michigan Gov. Rick Snyder said officials have identified about 200 Flint children with elevated blood-lead levels since the city's water crisis was exposed in the fall. Snyder disclosed the figure during a tele-town hall event Wednesday with nearly 8,000 listeners. He said the state is working to ensure all kids are tested.

Gov. Rick Snyder, Rev. Jesse Jackson meet to discuss Flint water (Mlive)
The Rev. Jesse Jackson met with Gov. Rick Snyder today to discuss the city's water crisis, according to state officials. The meeting occurred Wednesday, Jan. 27, at the Northbank Center just prior to the first official meeting of Snyder's Flint Water Interagency Coordinating Committee, according to Snyder Press Secretary Dave Murray.

Polling
After the Flint water crisis, Michigan Gov. Rick Snyder is down but not out (Washington Post)
The numbers that Michigan Gov. Rick Snyder (R) and his team have been waiting for are out: His job approval ratings since the Flint water crisis became a national scandal. As we expected, they're not good.

Poll: Michigan thinks Snyder handled Flint badly (WOOD-TV)
A new poll shows the majority of Michigan residents think Gov. Rick Snyder has done a poor job responding to the water crisis in Flint. The EPIC-MRA poll released Wednesday found that 69 percent of respondents had an overall negative impression of Snyder's handling of the crisis, while 21 percent hand an overall positive impression and 10 percent were undecided or decline to respond.

Congressional hearing
U.S. House panel plans Flint hearing without Snyder (Detroit News)
The U.S. House Committee on Oversight and Government Reform will hold a hearing Feb. 3 about the Flint water crisis, a committee spokesman said Wednesday. Snyder said at a Wednesday news conference in Flint that he has not been contacted to testify before Congress on the Flint issue.

Congressman asks why Gov. Snyder isn't being called to Congress as town hall focuses on Flint (WXYZ)
A national talk show host held a special town hall meeting in Flint Wednesday night. Rachel Maddow was at Holmes Stem Academy with 500 invited guests, focusing on what's next during the water crisis. Federal and state lawmakers, along with those who first discovered the elevated lead levels in the drinking water were on hand in the gym.

U.S. House doesn't invite Snyder to Flint water hearing (Freep)
A U.S. House Oversight and Government Reform Committee spokesperson confirmed Wednesday that the panel will hold Congress' first hearing on the Flint water crisis next Wednesday, Feb. 3.

LT. GOVERNOR'S ACTIVITIES

State leaders address painkiller, heroin addiction at conference (Macomb Daily)
More than 300 people listened to presentations from two top state leaders Tuesday about opioids-abuse, at a conference staged by Operation Rx in Macomb County. Michigan Lt. Gov. Brian Calley, chairman of the Michigan Prescription Drug and Opioid Abuse Task Force, and U.S. Attorney Barbara McQuade were highlighted speakers at the event held at Macomb Intermediate School District offices in Clinton Township. It was designed to help professionals and the public combat prescription drug abuse and heroin use.

Give Michigan Special-Needs Students Fair Access to the Best Options (Mackinac Center)
Last fall, Lt. Gov. Brian Calley took the helm of a group to recommend reforms to Michigan's special education system. For affected Michigan families looking for something better, one particular solution, unfortunately, lies out of immediate reach.

Flint Needs Long-Term Solutions To Unsafe Water, State Official Says (NPR)

FLINT

In Flint's wake, nationwide lead water testing methods questioned (Mlive)
In the wake of Flint's ongoing lead-contaminated water crisis, the protocol by which water utilities around Michigan and other states test for lead and copper in municipal drinking water under federal guidelines is being called into question.

Michigan cities beyond Flint have concerning lead water levels, data shows (Mlive)
All eyes are fixed on Flint as the crisis over lead in the city's drinking water supply has unfolded at an

accelerating pace since 2014. But Flint is not the only municipal or private water supply in Michigan where the drinking water is testing at or above levels that researchers and public health officials consider to be the threshold for concerning exposure to a potent neurotoxin.

MSNBC's Rachel Maddow tells Flint 'America is with you now' in water crisis (Mlive)
Henadi Savage shook her as she watched a segment on MSNBC from Rachel Maddow's town hall meeting at Holmes STEM Academy in Flint. "This just make me angry," she mouthed, as a waitress dropped off the check at a large table filled up by her family at Luigi's Restaurant on Davison Road where a crowd of around 100 people looked up at televisions around the room.

MSNBC's Rachel Maddow holds Flint town hall (Detroit News)
MSNBC host Rachel Maddow opened her talk show at a live town hall Wednesday on the Flint water crisis saying, "This is a disaster of national proportions and the problem is not being fixed."

DETROIT

DPS police, protesters clash over demonstration (Detroit News)
Continuing frustration over conditions in Detroit Public Schools boiled over Wednesday when about 35 students from East English Village Preparatory Academy walked out at noon and ended up in a confrontation with district police.

Three arrested, several maced as DPS walkouts escalate (WJBK)
Police clash with students and demonstrators outside the East English Academy in Detroit as teens walked out of class, protesting a long list of problems plaguing the school district.

3 arrested in BAMN demonstration at Detroit school (Freep)
A teacher and two other people were arrested this afternoon during a confrontation with police at a student demonstration outside East English Village Preparatory Academy that was organized by members of a controversial civil rights justice group.

Teacher arrested, man pepper-sprayed during Detroit high school student protest (MLive)
A Detroit public school teacher and two adult activists were arrested Wednesday after they joined high school students in a walkout protest and march.

Detroit Federation of Teachers expected to make big announcement (WXYZ)
A major announcement is expected today regarding the Detroit Public Schools district. The Detroit Federation of Teachers says it's planning to make that announcement this afternoon around 2:30 p.m.

DEPARTMENTS

Michigan State Police warn people of scam targeting grandparents (9&10)
Michigan state police from the Alpena post want to warn people about a scam targeting grandparents.

Treasury

Four things to know about Beecher schools mid-year $700,000 deficit (MLive)
Officials in Beecher have been working to make mid-year changes after an error in the business office by the Genesee Intermediate School District will force mid-year outsourcing, pay reductions and other changes.

LEGISLATIVE

Heise fires back after group attacks him over bill (Hometown Life)
Rep. Kurt Heise, R-Plymouth Township, is speaking out against a group with a website and a Facebook page that attack him over prison-reform legislation he sponsored in the Michigan House of Representatives.

Legislation Introduced Would Repeal Emergency Financial Manager Law (CBS News)
A House Bill introduced Wednesday would effectively repeal Michigan's emergency financial manager law.

Lawmakers propose requiring water testing in schools (Detroit News)
Two Michigan lawmakers are proposing steps to close a loophole in lead testing underscored by the water crisis in Flint — the lack of adequate monitoring in schools.

Lansing lawmakers respond to 7 Action News Fix My School report about misleading cuts at DPS (WXYZ)
Lawmakers are voicing shock at what 7 Action News found when we looked closely at the financial reports sent by Detroit Public Schools to Lansing.

$28M emergency funding for Flint nears vote in state Senate (Michigan Radio)
The state Senate could vote as soon as Thursday on emergency funding to help address Flint's water crisis.

OPINION

Phil Power: Flint water and Detroit Schools raise doubts about emergency manager law (Holland Sentinel)
What you don't want is a solution that ends up aggravating the problem. But that seems to happen all too often. That's my skeptical — bordering on cynical — response to many of the well-intended brainwaves policymakers concocted to deal with problems, either in business or, more commonly, in public policy.

Jacques: For public workers, hard work to get fired (Detroit News)
The spotlight that's been on lead in Flint water and teacher "sickouts" at Detroit Public Schools has highlighted all sorts of problems within state government. And it got me wondering, what does it take for a public employee to get fired?

Editorial: EPA must release emails (Detroit News)

As details about Flint's water crisis continue to unfold, it's critical the public gets the truth from all parties responsible. It will help Flint residents recover from the trauma, and it will help inform elected leaders how to prevent this kind of problem in the future.

Many Michigan cities have higher lead levels than Flint (Detroit News)
Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

The path to truth, understanding, healing (Detroit Free Press)
In 2016, the truth about American history is still shrouded in fantasy, denial and guilt.

What's the point of environmental regulation? (Detroit Free Press)
Sprawling across 250 acres in southwest Detroit, the Marathon Petroleum refinery cranks through 123,000 barrels of oil per day.

AG Bill Schuette's Flint water review tainted by campaign donations (MLive)
The state's latest feeble attempt at an investigation into the Flint water crisis has us questioning whether Attorney General Bill Schuette is on duty for the people of Michigan, or for his political allies.

Media Advisory

January 28, 2016

PHOTO/VIDEO OPPORTUNITY TODAY

NEW TIME

Lt. Gov. Calley to participate
Community Coalition kicks off water bottle recycling program

Who: Lt. Gov. Brian Calley will join a coalition of public-private partners including the State of Michigan, City of Flint, Genesee County, Schupan Recycling, Republic Services, Young's Environmental Cleanup, Keep Genesee County Beautiful and UM-Flint

Speakers include:

- Lt. Governor Brian Calley
- Matt Flechter, Recycling Market Development Specialist, State of Michigan
- Heather Griffin, Waste Services Coordinator, City of Flint
- Shane Kelley, Planner, Genesee County Metropolitan Planning Commission

What: Will host a media event to announce Flint's coordinated recycling program in place for empty water bottles and used water filter cartridges

When: Thursday, January 28, 2016
NOON

Where: Fire Station #1
310 E. 5th St., Flint

- The press conference will take place behind the fire station near the water distribution station

Details: Public and private partners will detail the collaborative short- and long-term recycling efforts for water bottles and filter cartridges.

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, January 27, 2016

GENERAL INFORMATION:

- At 5:00 pm today Gov. Snyder held a Robo-Townhall with Flint residents. Approximately 8,000 community members participated. During the call an unknown number were cut off. They tried to call back in using caller id, but were unable to reconnect. Several very irate residents called 2-1-1 asking for a number to reconnect. Others called demanding to "take me off the governor's robocall list". By the time 2-1-1 was able to reach state partners to determine what was occurring, the Robo-Townhall was completed. State partners are working to determine if the call was recorded and if there will be link where the public can listen to the call.
    - One caller said Gov. Snyder referred to 2-1-1 "dozens of times". Managers and staff had to stay late without notice to take the additional calls, some of which lasted 30 minutes as angry callers vented on 2-1-1 staff who repeatedly had to explain that 2-1-1 is NOT part of the governor's office or a state agency.
    - Based on the anger and confusion expressed by callers, I asked the one of the PIO working at the SEOC to connect 2-1-1 to the governor's office to address how the state will refer to 2-1-1 and distinguish it as a service independent of state government. The PIO made the introduction and I was immediately contacted by the governor's Director of Communications who expressed a willingness to meet and ensure we have a system in place to coordinate information sharing between 2-1-1 and the governor's office so we can focus on the needs of Flint residents.

CALL VOLUME:

As noted above, there was an unexpected surge in call volume between 5:00 pm – 6:30 pm due to the Governor's Robo-Townhall. Otheriwise daytime call volume is slowly dropping as the seasonal increase for tax prep assistance stabilizes after the initial high demand.

SPECIAL NEEDS/REQUESTS

- **FOLLOW UP:** As noted in past updates, Michigan 2-1-1 been advised by DHHS to refer callers with concerns their children developing rashes from bathing to contact their primary care provider. With 2-1-1 as a partner with Michigan Association of United Ways on the "Children's Health Access Program" (MI-CHAP), MAUW contacted the Genesee County CHAP team to confirm they had the capacity to assist families that do not have a primary care provider. Moving forward 2-1-1 will tell callers *"If you don't have a primary care provider for your child, please contact the Genesee Children's Healthcare Access Program at 1-810-953-CHAP (1-810- 953-2427) for assistance in finding one".*

RUMOR CONTROL

☑ **Yesterday's report at on** www.Snopes.com titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?"*** (http://www.snopes.com/flint-water-crisis-cps/) has been thoroughly documented, debunked and is labeled **"FALSE".** MDHHS staff responded quickly and followed up with Snopes and provided a statement from Children's Services Agency Executive Director Steve Yager that,

> "MDHHS has not assigned a single Children's Protective Services complaint due to any issues related to Flint water. MDHHS works proactively to assist families whose water is shut off and to ensure families have water filters and bottled water in Flint. When a family is without water, our

goal is to help that family provide clean water for their children. That can be through assisting families in applying for State Emergency Relief, setting up plans for children to access safe water at a relative's home or providing bottled water. **We do not petition the court to remove a child solely for the lack of water in a family's home."**

- ☑ **Is there a contact in state government who is monitoring media who could feed news stories and updates to 2-1-1 to keep the system apprised of emerging stories?**
  - ☑ **UPDATE:** DHHS Communications staff are monitoring social media and responding to social media inquiries and leads as they are identified.
- ☑ Today a City of Flint resident called 2-1-1 reporting a social media post that said "Sparkletts 33.8oz contains lead". The 2-1-1 agent shared the information from the MDEQ statement that all sources of bottled water have been tested and MDEQ has confirmed they are all have undetectable levels of lead and copper.

UNRESOLVED

- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**
- ☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
- ☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.
- ☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

Background: $80 million from federal Clean Water Revolving Fund and Drinking Water State Revolving Fund

- We have received nothing official from the White House, so this is the team's best information at this point.

- The $80 million was part of the federal budget and covers the Drinking Water Revolving Loan Program and the Clean Water Revolving Loan Program. Funding grant awards started October 1, 2015 and go through 2020.
    - About $20 million is for the Drinking Water Program and the states match will be about $5 million.
    - About $60 million is for the Clean Water Revolving Loan Program and the states match is about $12 million.

- The state must submit a project plan for the money prior to May 1 which is to identify how the funds will be expended before any of the money can be allocated to project applications that are due on May 1 for Drinking Water and July 1 for Wastewater.
    - This allocation would be for FY2017 projects.

- Allocations to these funds are on par with previous years.

- The bulk of these loans are not forgivable, with the notable exclusion of "green" projects in disadvantaged areas for DWSRF projects.
    - "Green" project are limited to about 10 percent per year. Allowing any more would endanger the sustainability of the revolving loan programs for the entire state.

- Drinking Water State Revolving Fund money.
    - Projects may include new wells, new water treatment plants, storage facilities, upgrades or expansions to existing facilities, transmission lines, pumping facilities, and other waterworks system improvements.

- The last needs survey completed for drinking water in Michigan identified $13.8 billion in needed improvements/upgrades over the next 20 years.
    - Recently, the following projects have been funded in the DWSRF:
        - FY2014: $51M in loans to 13 projects
        - FY2015: $48M in loans to 12 projects
        - FY2016: Expected to fund $36M in loans to 7 projects.

- The 51 DWSRF programs function like infrastructure banks by providing low interest loans to eligible recipients for drinking water infrastructure projects.
    - As money is paid back into the state's revolving loan fund, the state makes new loans to other recipients.
    - These recycled repayments of loan principal and interest earnings allow the state's DWSRF to "revolve" over time.

- It is up to the states to distribute the loan funds to municipalities/water systems throughout the state.

- However, there are a number of limitations that may prevent this money from being wholly eligible for the City of Flint, particularly the requirement that at least 15 percent of available assistance must go to small systems (fewer than 10,000 people).

- States must submit an Intended Use Plan (IUP) to EPA each fiscal year.
  - This includes project prioritization based on a priority rating system developed by the state (the IUP is amendable but requires public review).
  - Projects for 2016 appear to have already been selected in the IUP.
  - **The 2016 IUP is found here:** http://www.michigan.gov/documents/deq/deq-ess-mfs-DWRF-DWiupppl2016_494117_7.pdf

- From DEQ:
  - The 2016 budget has $2.05 million general fund match, and the 2017 budget will have a proposed $5 million general fund match.
    - Interest payments also count as match. The general fund amounts should be adequate since the $80 million does not appear to be new money.
  - As background, the DEQ received two federal grants for the Clean Water State Revolving Fund ($59.9 million federal) and Drinking Water Revolving Fund ($27.7 million federal) for the budget period 10/1/15 to 9/30/20.
  - We receive similar amounts each year to capitalize the loan funds.
  - The Clean Water State Revolving Fund, often referred to as SRF, is intended for wastewater projects.
    - Both programs provide loans to local communities.

- **Drinking Water State Revolving Loan Fund background**
  - The Drinking Water State Revolving Loan Fund was established by the 1996 amendments to the Safe Drinking Water Act.
  - The DWSRF is a financial assistance program to help water systems and states to achieve the health protection objectives of the SDWA. (See 42 U.S.C. §300j-12.) The program is a powerful partnership between EPA and the states.
  - Congress appropriates funding for the DWSRF.
  - EPA then awards capitalization grants to each state for their DWSRF based upon the results of the most recent Drinking Water Infrastructure Needs Survey and Assessment. The state provides a 20 percent match.
  - States have the option of taking a variety of set-asides. These set-asides help fund state programs and activities to ensure safe drinking water. In total, states may take up to 31 percent of their capitalization grant in set-asides.
  - After taking their set-asides, states place the balance of their capitalization grant, together with the state match, into a dedicated revolving loan fund. This revolving fund provides loans and other authorized assistance to water systems for eligible infrastructure projects.
  - Building on a federal investment of over $17.3 billion, the state DWSRFs have provided more than $27.9 billion to water systems through 2014.
    - This assistance was provided through over 11,400 assistance agreements for:
      - Improving drinking water treatment.
      - Fixing leaky or old pipes (water distribution).
      - Improving source of water supply.
      - Replacing or constructing finished water storage tanks.

- Other infrastructure projects needed to protect public health

DIRECTOR

FOR IMMEDIATE RELEASE
DRAFT

CONTACT: Jennifer Eisner
(517) 241-2112

Bathing in water is safe for Flint children, adults

LANSING, Mich. – The Michigan Department of Health and Human Services today reminded parents that it is okay to bathe in water from the Flint water system. The state is aware of concerns related to skin issues, but there is currently no scientific link connecting rashes to the change in water source.

"Based on current testing and guidance from our federal partners, it's important to reiterate to families that bathing is safe for adults and children in Flint," said Dr. Eden Wells, chief medical executive with the MDHHS. "Naturally, people in Flint continue to be concerned about water quality and our department is working closely with officials from the Centers for Disease Control and Prevention as well as the local provider community to monitor all health issues that may be related to water. At this time there is no evidence to suggest this guidance should change."

MDHHS is currently recommending that bath time be used for bathing only, after which children should be taken out of the bath and not allowed to play in the water for extended periods of time. Children should be supervised at all times and not allowed to drink bath water. Any resident with concerns about a rash should contact their primary care doctor immediately.

Currently, rashes are only reportable to MDHHS when there is a suspect infectious disease such as measles or chickenpox. MDHHS, along with the local provider community, is working in partnership with the Centers for Disease Control and Prevention (CDC) and Environmental Protection Agency (EPA) to determine what additional supports and surveillance may be necessary.

In addition to Michigan Department of Environmental Quality water testing, the EPA samples throughout the city of Flint show that residual chlorine is present in the system, which help to prevent bacteria. While there are levels in some areas of the system that could be improved, EPA also collected and analyzed a sample for bacteria at the site with the lowest chlorine level. The test showed that no bacteria (coliform and E. coli) were present.

For more information about Flint water, visit www.michigan.gov/FlintWater.

Flint residents with questions should call 2-1-1 to be connected to local resources.

NEWS (Click the link to read the full article)

GOVERNOR'S ACTIVITIES

Press conference

Governor Snyder And Flint Mayor To Make Announcement (WILX)
A major announcement regarding the water crisis in Flint is expected today from the Governor. He and Flint mayor Karen Weaver are holding a news conference today.

Governor Snyder expected to announce additional water testing in Flint (WXYZ)
Governor Rick Snyder is expected to hold a press conference later this morning about additional water testing in Flint. The announcement is expected around 11AM. This comes one day after the national president of the NAACP Cornell William Brooks privately met with the governor about the water crisis.

Medicaid request

Governor Snyder Asking for Additional Health Care Services for Flint Children (9&10 News)
Governor Snyder is asking the federal government for additional health care services for Flint children who may have been exposed to lead-tainted water. The governor is asking for expanded Medicaid eligibility for all those affected up to age 21.

Snyder to seek aid for Flint children exposed to lead (Freep)
Gov. Rick Snyder said Tuesday he will seek permission from the Obama administration to allow all young people in Flint the chance to receive publicly funded health care services for lead exposure amid the city's contaminated drinking water crisis.

Gov. seeks federal health care help in Flint (AP)
Gov. Rick Snyder is asking the federal government for additional health care services for Flint children and young adults who may have been exposed to lead-tainted water. Snyder's office said Tuesday that the state is seeking expanded Medicaid eligibility for all residents in the impacted areas up to age 21. He also seeking additional community-based resources to ensure all children have access to comprehensive medical treatment and a federal Medicaid match for lead abatement.

Gov. Snyder to request extra medical care for Flint children (WWMT)
Under a new request to the federal government, Flint residents under 21 would receive extra healthcare services to address potential problems due to lead exposure. Governor Rick Snyder's office announced the request Tuesday afternoon.

Snyder requests federal medical aid for Flint (Detroit News)
Gov. Rick Snyder is requesting an unknown amount of federal medical aid to help Flint residents under 21 with potential health problems from the city's lead-contaminated water. The Snyder administration said Tuesday it plans to direct its request to the U.S. Department of Health and Human Services.

Snyder requests additional services for people affected by Flint water crisis (Mlive)
Gov. Rick Snyder is requesting additional medical services for Flint residents under 21-years-old. The request to be sent by Snyder would allow all Flint residents under the age of 21-years-old to receive additional healthcare services to address issues brought on by lead exposure, according to a news release from the governor's office.

Governor Snyder asks federal government for extra Medicaid help in Flint (WILX)
Gov. Rick Snyder is asking the federal government for additional health care services for Flint children and young adults who may have been exposed to lead-tainted water. Snyder's office said Tuesday that the state is seeking expanded Medicaid eligibility for all residents in the impacted areas up to age 21.

NAACP meeting
NAACP president, Mayor Weaver meet with Snyder to talk Flint water crisis (Mlive)
NAACP President Cornell William Brooks and Flint Mayor Karen Weaver had a private meeting with Michigan Gov. Rick Snyder to discuss plans to bring Flint out of its water crisis. Brooks was visiting Flint for a mass meeting at the University of Michigan-Flint Northbank Center in downtown Flint where NAACP heads called for action from the state in addressing a 15-point plan that the organization compiled.

NAACP president meets with Flint residents, leaders over water crisis (Fox 2 Detroit)
NAACP President Cornell William Brooks recently tweeted that environmental racism plus indifference equals lead in the water and blood.

Civil rights panel, NAACP concerned over Flint woes (Freep)
The Michigan Civil Rights Commission said Tuesday it will investigate whether discrimination played a role in Flint's water problems as the national leader of the NAACP said the residents of Flint may have been ignored because many are minorities.

Gov. Snyder meets with NAACP president on Flint water crisis (Michigan Radio)
Governor Snyder met behind closed doors with the national president of the NAACP in Flint Tuesday night. NAACP president Cornell William Brooks said he, Gov. Rick Snyder and Flint Mayor Karen Weaver had a "frank" discussions about Flint's drinking water crisis.

The Latest: NAACP leader to meet with governor (Washington Post)
National NAACP President and Chief Executive Cornell Brooks is expected to meet with Michigan Gov. Rick Snyder to discuss the crisis in Flint sparked by lead-tainted water.

Snyder won't know Flint costs before next budget is due (Detroit Free Press)
The state won't know how much it needs to spend to repair and replace water infrastructure in Flint in 2016-17 before Gov. Rick Snyder presents the 2017 fiscal year budget on Feb. 10, according to a spokesman for state Budget Director John Roberts. "We don't have an exact date yet as to when the infrastructure study will be completed," said Kurt Weiss.

Communications Help
Michigan Rep. Troubled That Gov. Snyder Is Hiring PR Firms with Dark Money (Huffington Post)
We were joined today on T & Z Talk by Michigan Democratic House leader Tim Greimel, who came on to discuss the water crisis in Flint, Michigan. In particular, to address Gov. Rick Snyder's hiring outside public relations firms using non-public funds.

Snyder fund foots bill for PR firms in Flint crisis (Detroit News)
Gov. Rick Snyder's tax-exempt nonprofit fund is footing the bill for public relations specialists as his administration grapples with the Flint water contamination crisis. A top Snyder aide said Friday that "extreme interest" from state and national media over Flint had led to the hire of Mercury Public Affairs of Washington, D.C., and Bill Nowling of Finn Partners, a New York firm with an office in Detroit. But it was not clear from where the money would come to pay them.

Gov. Snyder says non-profit fund, not state, will pay PR firm for help with Flint water crisis (Michigan Radio)
Some Democrats are upset that Gov. Snyder hired this new PR firm. They say Flint's water problems are a public health crisis not a PR one.

Gov. Snyder using Moving Michigan Forward Fund to pay public relations firms in Flint water crisis (WXYZ)
A ton of new questions are surrounding the Flint water crisis and Governor Rick Snyder. The latest may sound familiar: Who's helping the governor financially get through this public relations mess?

Executive Order
Gov. Snyder signs order re-organizing three ethnic affairs commissions (WWMT)
On Tuesday, Governor Rick Snyder signed an executive order transferring administrative responsibilities of three ethnic commissions to the Department of Licensing and Regulatory Affairs.

Bill Signing
Snyder signs bill encouraging participation in free fishing weekends (TV 6 UP)
Under legislation signed Tuesday by Governor Rick Snyder, more people will have access to boating sites on state owned land during free fishing weekends. House Bill 4983, sponsored by state Representative Bruce Rendon, allows vehicles without a recreation passport to enter state parks and use boating sites in areas where there is an opportunity to fish on free fishing weekends.

Gov. Rick Snyder signs bill encouraging participation in free fishing weekends (UP Matters/TV 3)
More people will have access to boating sites on state owned land during free fishing weekends, under legislation signed Tuesday by Gov. Rick Snyder.

Misc
Snyder Cancels Mid-East Trade Trip Because of Flint Water Crisis (Michigan Radio)

Governor Rick Snyder has cancelled plans to make a business development trip to the Middle East so he can remain in Michigan and focus on the Flint water crisis. The trade trip to Israel, Quatar, and other Middle East countries had been in the works for months to build better relationships with defense, and water technology companies.

DEQ memo names Michigan drinking water officials suspended over Flint water (Mlive)
The state's former top municipal drinking water official and the district supervisor for this area are the two unnamed Department of Environmental Quality employees suspended as a result of Flint's water crisis.

Flint class-action suit lawyers subpoena Snyder records (Metro Times)
The deadline has just passed for subpoenas to be delivered to the Snyder administration requesting records, the first credible legal action against the governor related to Flint we've heard of. It was less than a week ago when Gov. Snyder, as part of his State of the State address, declared, "Tomorrow I will release my 2014 and 2015 e-mails regarding Flint to you, the citizens, so that you will have answers to your questions about what we've done ..."

Governor Snyder, state officials sued in class action lawsuit over Flint water crisis (WZZM)
A lawsuit filed this week, by lawyers representing Flint residents, seeks to obtain documents relating to the Flint water crisis dating back to Jan. of 2011. The plaintiffs blame Gov. Rick Snyder and members of his staff and administration for a slow response to the city's water emergency. They say that slow response not only violated their 14th Amendment rights but also endangered their health and property.

Local, education leaders sue state over 'gag order' election law (Mlive)
Groups representing local government and school leaders have filed a lawsuit against the state, claiming the recent 'gag order' bill signed by Gov. Rick Snyder earlier this month is unconstitutional. The bill in question passed the legislature in December, ballooning from 12 to 53 pages in a last-minute substitute. That new language included a prohibition on local schools and governments sending informational mass communications to residents in the 60 days leading up to a ballot proposal.

LT. GOVERNOR'S ACTIVITIES

Lt. Governor: Water System At Large Will Be Back To Pre-Flint Condition In Months (WWJ)
Michigan Lt. Governor Brian Calley addressed the water crisis in Flint with WWJ. Though he says much work still needs to be done, he thinks progress will be made soon.

FLINT

The Latest: United Nations monitoring developments in Flint's lead-tainted water crisis (AP)
The lead-tainted water crisis in Flint has attracted the attention of the United Nations. Baskut Tuncak the international organization's expert on hazardous substance and waste, tells The Associated Press on Tuesday the UN is "following the developments in Flint and looking at it from the human rights lens."

Slight drop in percentage of Flint homes with high lead in water, reports show (Mlive)

The percentage of homes with lead in excess of federal limits has dropped slightly since the city stopped using Flint River water, according to the most recent test results from the state. The Michigan Department of Environmental Quality says that testing of 1,186 homes showed 87 samples -- 7.3 percent -- registered at more than 15 parts per billion of lead, exceeding the federal threshold.

Ex-Prosecutor to Spearhead Investigation into Flint Water (ABC News)
Michigan's attorney general named a former prosecutor on Monday to spearhead an investigation into the process that left Flint's drinking water tainted with lead, though Democrats questioned whether the special counsel would be impartial. Republican Bill Schuette said Todd Flood, a former assistant prosecutor for Wayne County, which includes Detroit, will lead the probe and be joined by Andy Arena, a retired head of Detroit's FBI office.

Water bill collections dropping amid Flint crisis (AP)
A Flint official says the city's water utility could run out of money by year's end as more people skip paying bills amid the crisis with lead-tainted water. City Administrator Natasha Henderson told city council members at a meeting Monday that the public health emergency is driving down collections on water bills. She says it's an "imminent concern" and it is leaving the city in a "very precarious situation."

DETROIT

What Detroit Schools Need Is Better Teachers (Wall Street Journal)
It's true that "the collapse of Detroit's schools has been decades in the making" ("Detroit's Public School Plague," Review & Outlook, Jan. 23). But I know from working with teachers in both Detroit public and charter schools that it's neither the unions nor the "lack of accountability for failure" that are responsible for the decline of Detroit schools.

Detroit's Cass Tech High School is on lockdown due to shooting in area (WDIV)
Cass Technical High School is on lockdown due to a shooting in the area, according to a Detroit Public Schools district spokeswoman. District spokeswoman Michelle Zdrodowski said the school is on lockdown as a precautionary measure.

Lawsuit against Detroit Teacher 'Sick-Outs' Hits Snag (Wall Street Journal)
Last Wednesday most of Detroit's public schools closed their doors after teachers staged a mass "sick-out," part of a series of protests spurred by complaints of hazardous school building conditions, pay cuts and other grievances. In Michigan, it's illegal for public teachers and other government employees to go on strike. Like many states, Michigan has a labor law that provides public employees with strong organizational and collective bargaining rights while banning them from engaging in unauthorized concerted work stoppages.

DPS EM passes a "snitch" ordinance to penalize striking teachers and those aware of striking teachers (Metro Times)
As we've previously reported Detroit Public Schools Emergency Manager Darnell Early (ya, ya, old news now, the same guy in charge of Flint) is displeased with the teacher "sick-outs" taking place within the district he is currently running.

Judge denies order to stop Detroit teacher 'sick-outs' (AP)

A Detroit judge has again denied a temporary restraining order requested by the city's school district that would force teachers to stop skipping school. The judge said Monday there's no proof the union or individual activists are behind the teacher absences, called sick-outs.

Q&A: A look at the Detroit Public Schools teacher sick-outs (AP)
Detroit Public Schools teachers have complained for several years about poor pay, overcrowded classrooms, a lack of supplies, unsafe building conditions and uncertainty about their futures as the district struggles under a mountain of debt. Rolling teacher sick-outs have — so far in January — forced the district to close dozens of schools on some days. A preliminary hearing will be held next month on the district's lawsuit seeking to end the sick-outs.

DEPARTMENTS

DEQ
Detroit residents angry about Marathon refinery's request to increase emissions (Michigan Radio)
The Marathon oil refinery in southwest Detroit is no stranger to controversy. But its request to increase sulfur dioxide emissions has sparked a major backlash. The company has done a huge expansion of its southwest Detroit refinery in the past few years.

New DEQ chart sheds light on Flint water response (Detroit Free Press)
An updated organizational chart posted online by the Michigan Department of Environmental Quality sheds new light on the actions the DEQ has taken – and not taken – in the wake of the Flint drinking water crisis. Two prominent names are missing from the chart posted Friday, the same day the DEQ announced it had suspended without pay, pending investigations, two unnamed officials in connection with DEQ mistakes related to Flint.

Trendwell pulls Summerfield injection well plan (Monroe News)
State and local officials and residents are hailing Trendwell Energy Corporation's decision late last week to withdraw its permit for an injection well proposed in Summerfield Township. The Rockford company notified by e-mail nearly a thousand landowners leasing property to the firm for oil and gas production that due to "our exploration results to date and the low oil-price environment, we cannot justify additional exploration activities at this time."

Can The Flint Water Crisis Happen In West Michigan (WOOD News Radio)
The City of Grand Rapids Water System continues to consistently meet the challenge and responsibility for providing safe, quality water which meets or exceeds the requirements set forth by the Environmental Protection Agency and the Michigan Department of Environmental Quality. The System proudly serves residential and commercial customers in Ada Township, Cascade Charter Township, City of Grand Rapids, City of East Grand Rapids, Grand Rapids Charter Township, City of Kentwood, Tallmadge Charter Township, City of Walker and portions of Ottawa County.

Kent County to start testing water for lead (Mlive)
The county's health department plans to get new equipment installed next week in order to start testing water for lead, copper and arsenic by the middle of February. The new testing is not in response to the spike in lead levels in the water in Flint, a lab manager said, although it could ease a backlog of water testing coming into the Michigan Department of Environmental Quality.

Residents rally against oil drilling at church (C & G Newspapers)

The temperature hovered in the teens Jan. 17, but that didn't stop a group of spirited residents from picketing outside Word of Faith International Christian Center, a church in talks with an oil and gas company to drill an exploratory well. According to a statement in a previous report from Jordan Development Co., a privately owned oil and gas exploration and development company, the company has entered into an agreement with the church, 20000 W. Nine Mile Road, to explore for oil and gas on part of the church's 110-acre property.

DHHS

In Flint, MDHHS eyes possible Legionnaires' disease sites (WKAR)

State, federal and local officials continue working to gain more control of the Flint water crisis. In recent days, we've heard both good and bad news. Among the good, early tests suggest a drop in lead levels in Flint's water since the switch back to Detroit's water system.

Four cases of listeriosis in Michigan (WLKM)

The Michigan Department of Health and Human Services has been collaborating with local health departments on a multistate foodborne outbreak of listeriosis. Rebecca Burns, director of the Branch-Hillsdale-St. Joseph Community Health Agency, said listeriosis is a bacterial infection that causes fever and muscle aches, often preceded by gastrointestinal symptoms. Twelve people in six states have been infected with the outbreak strain of listeria since July 2015, including four cases in Michigan

LARA

Council approves liquor license for nontraditional business (C & G Newspaper)

With an ever-growing downtown district, the Ferndale City Council approved a liquor license for the Rust Belt Market, 22801 Woodward Ave., in hopes of contributing to the growth of a business that cultivates other business owners in the area. The Rust Belt Market, which has been open for nearly five years at the corner of Woodward and West Nine Mile Road, is home to about 50 businesses who use the space to set up shop and sell their products, from pictures to jewelry and food.

MDARD

BCYF beef registration deadline is Monday (The Herald Palladium)

Market beef registration for the 2016 Berrien County Youth Fair is underway and the registration deadline has been set for Feb. 1. Exhibitors must be at least 5 years old to show animals at the youth fair, which will take place Aug. 15-20. Berrien County children between the ages of 5 and 20 – as of Jan. 1 – can register their market beef animals by picking up a form at the fair office or by calling the office at 269-473-4251.

MDOT

Falling ice closes Mackinac Bridge for 2nd time in four days (UP Matters TV 3)

Accumulated ice falling from the Mackinac Bridge has prompted bridge officials to close it to traffic temporarily as a safety precaution. Warmer temperatures and increased sun have loosened ice that formed on the bridge's towers and cables, causing some of it to fall on the driving lanes below. The Mackinac Bridge Authority (MBA) has closed the bridge until the ice is clear or has stopped falling, which in the past has taken an average of a few hours, depending on weather conditions.

MPSC

Utility regulators should look at water rates (The Times Herald)

Northville Township residents are up in arms because of a proposal to raise their water and sewer rates by about 10 percent. Northville Township is a customer of the Detroit Water and Sewerage Department.

Opponents of the increase have suggested a fix for what they consider arbitrary and illogical increases. They say that the Michigan Public Service Commission should set water rates, particularly within the Detroit system. There is an obvious logic to the proposal. The MPSC sets rates for monopoly public utilities in the state — for electricity, for natural gas, for the Harsens Island ferry.

LEGISLATIVE

$28M Flint water crisis aid to evolve in Michigan Senate Wednesday (Mlive)
The total amount of money the state is appropriating to help Flint recover from its water crisis will remain the same under Senate consideration Wednesday, but where those dollars are directed will look slightly different. "We have some better information about where it can be used the best, and I think we're going to make those changes," Senate Majority Leader Arlan Meekhof, R-West Olive, told reporters on the Senate floor Tuesday.

Local officials sue to block law prohibiting ballot info (AP)
School and local government officials have filed a federal lawsuit to block a new Michigan law that restricts them from informing voters about ballot issues. The complaint Tuesday against the state alleges the "gag order" law unconstitutionally infringes on free speech rights. Local officials are seeking an injunction so they can disseminate information before March 8 elections.

Pettalia Supports Gov. Snyder's Attempts to Fix Flint Crisis (WBKB)
Governor Rick Snyder has been under a lot of fire lately for the water crisis in Flint, and 106th District Representative, Peter Pettalia, feels that Snyder's state of the state address the other night was sincere and tackled the issue the best way he could. Governor Snyder accepted major responsibility for the Flint drinking water catastrophe in his state of the state address on Tuesday and set out both short–term and long–term promises to make things right.

OPINION

Our editorial: Don't pay for dirty Flint water (Detroit News)
Flint city leaders continue to bill residents for water service, including bills for past service of contaminated water. But residents shouldn't be on the hook for water they can't use. Until households have the water filters and other materials they need to make sure their water is clean, it's unfair to ask them to pay for the utility.

Editorial: Flint's water disaster offers lessons for Virginia (Richmond Times-Dispatch)
Much of the country has been horrified and angered by the disaster that has unfolded in Flint, Michigan, because of the city's tainted water supply. Let's hope state and local officials are taking notes and thinking about how to avoid similar disasters. The struggling city decided to join a regional water system then under construction and, in the meantime, draw from the Flint River. Officials with the state's Department of Environmental Quality did not require the use of anti-corrosion chemicals, in defiance of federal rules. This led to (surprise!) corrosion and dangerously elevated lead levels in the drinking water.

Editorial: Rethink how young convicts are treated (Detroit News)
This week's U.S. Supreme Court ruling granting a reprieve for convicts serving life sentences without

parole for crimes committed as juveniles forces Michigan to adhere to common sense criminal justice reforms. State officials and lawmakers should use the ruling as the impetus to rethink how it deals with young criminals.

Politics & Prejudices: What really caused the Flint disaster (Metro Times)
Dan Kildee, Flint's congressman for the last three years, should have had a sense of satisfaction the day I talked to him. For months, he had been pushing Gov. Rick Snyder to swallow his pride and ask for federal help for Flint.

This is the daily 2-1-1 summary on the Flint Water Response for Tuesday, January 26, 2016

GENERAL INFORMATION:

- **Reminder: Anyone having difficulty dialing 2-1-1 can use the alternate toll-free number 844-875-9211.**
- On Wednesday, January 27 at 7pm MSNBC's Rachel Maddow will be hosting a broadcast town meeting at Brownell/Holmes STEM Academy, 6602 Oxley Dr., Flint. See link at http://www.mlive.com/news/flint/index.ssf/2016/01/what_to_know_about_rachel_madd.html

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume continues to be high, requiring extra staffing from other regional Michigan 2-1-1 partners and using managers at Central Michigan 2-1-1 to again take calls during the peak demand. Wait time today did increase around the noon hour resulting a 20-30 minute hold time for callers during that period. Callers did not express frustration or dissatisfaction with longer than average wait times.

Follow on 1/25/16 call volume: Jennie Pollak, Central Michigan 2-1-1 Manager, reported that during yesterday's peak demand there were a maximum of four (4) calls in queue for Flint Water Assistance. The major cause of high call volume over the past week is related to referrals for free tax preparation assistance.

- 2-1-1 is exploring options to address capacity issues with the SEOC and Michigan Community Service Commission, including utilizing volunteers or contracting with an out-of-state 2-1-1 provider to assist with water-related calls.

SPECIAL NEEDS/REQUESTS

- ☐ **Callers continue to have many questions about various water filter options.**
  - ☐ Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**
  - ☐ There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
  - ☐ Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**
- ☐ **FOLLOW UP:** SEOC is coordinating with Michigan 2-1-1 on a standard form to use for water resource delivery requests. A MI211 vendor is converting the form into an electronic that will allow 2-1-1 agents to collect the callers' needs and delivery information, then automatically send the individual requests in real-time to the Genesee Sheriff contact responsible for managing deliveries. **The vendor notes it is possible to automate work orders directly to an e-tablet or mobile device if this would be useful for tracking. Is there SEOC/Sheriff's Dept interest in pursuing this option?**

- A handful of callers have asked 2-1-1 specifically about FEMA relocation assistance. 2-1-1 has directed them to traditional relocation services such as DHHS with the caveat that this kind of support is minimal and that no formal relocation assistance has been established at this time for Flint residents due to the water situation.
- Callers are asking about reimbursement for medical expenses, such as previous co-pays, that are related to treatment or testing. Until further notice 2-1-1 is telling callers they are responsible for their medical expenses, but we anticipate this will be an ongoing concern.

RUMOR CONTROL

☑ **FOLLOW UP ON 1/25/16:** 2-1-1 is receiving calls from residents who are very confused and concerned about the statement from Attorney General Schuette that, "I would certainly not bathe a newborn or infant in Flint water".

☑ SEOC provided a copy of the "Lead In Water" information sheet as a reference for 2-1-1 agents and posted the document at www.michigan.gov/flintwater under the "In Your Body" link.

☑ **DHHS has issued the following statement on the safety of bathing in Flint water:**

- Parents can maintain routine bathing practices. We do recommend that bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.
- We are aware that there have been concerns related to rashes.
- If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.
- Currently, rashes are only reportable to MDHHS when there is a suspect infectious disease such as measles or chickenpox.
- MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.
- We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.

☑ **FOLLOW UP ON 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**

☑ **RESOLUTION:** DHHS Medical Epidemiologist, Dr. McFadden, provided the following response:

Q: Can Legionella bacteria be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes?

A: Boiling water is one effective way to kill bacteria including Legionella, so steam that comes directly from a source of boiling water will not contain live Legionella and is not a source for Legionella transmission.

Inhalation of aerosolized water droplets containing Legionella is one of the ways that people get legionellosis. ***In-home portable humidifiers are known to generate***

aerosolized water particles that can then be inhaled. Dirty reservoirs and filters in humidifiers can quickly breed bacteria like Legionella. Use of tap water for these devices is strongly discouraged. Most manufacturer guidelines specify that only sterile water should be used in such devices (including rinsing of humidifier containers) and they should be cleaned regularly and thoroughly to prevent bacterial growth and transmission of potentially-aerosolized organisms like legionella. If these devices are used, manufacturer guidelines should be closely followed.

- ☐ **WHO FROM STATE OF MICHIGAN IS MONITORING SNOPES.COM?** www.Snopes.com is a popular fact-checking web site that works to identify the source of internet rumors, then verify or dispel them. It labels stories as 'True', 'False' or 'Unproven'. There is long article posted today on Snopes at http://www.snopes.com/flint-water-crisis-cps/ titled: ***"Flint Residents Told That Their Children Could Be Taken Away If They Don't Pay for City's Poison Water?".*** The label on the story is **'UNPROVEN'**.
    - **SEOC is following up with SNOPES after receiving an advisory message from 2-1-1.**
    - **Strongly advise a PIO or other communications professional is tasked with monitoring this site on a daily basis to address rumors as they emerge.**
- ☐ **Is there a contact in state government who is monitoring media who could feed news stories and updates to 2-1-1 to keep the system apprised of emerging stories?**
- **FOLLOW-UP ON 1/25/16:** 2-1-1 received a report that the e-tablets being used for real-time data tracking of water resource deliveries to homes have been taken away due to concerns that tracking data on the needs of homebound residents is a potential violation of HIPPA. **SUGGESTION:** 2-1-1 received a recommendation that e-tablets could have an electronic disclaimer that residents could sign when they receive their first delivery. This could also authorize regular deliveries of water-related supplies to homebound residents.
    - ☐ **Is there any discussion about establishing a regular delivery schedule for homebound residents, particularly those with a need for sterile water for medical devices like nebulizer? What issues need to be addressed to support this?**

UNRESOLVED

- ☑ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites. **RESOLUTION: SEOC has approved inclusion of this need on the standard referral form mentioned above in the Special Needs/Requests section.**
- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☑ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.

  RESOLUTION: See DHHS statement above in Rumor Control
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead

contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**

- ☑ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles? RESOLUTION:** Youngs Environmental has provided 2-1-1 with information on several recycling drop off sites.
- ☑ **From 1/25/26:** 2-1-1 has received several calls from individuals complaining about their interaction with National Guard members at water distribution sites. In one instance the caller, who works for the City of Flint, called the Fire Station to talk about the situation and was referred to 2-1-1. We understand there are two sides to these interactions and would like to handle them consistently and in an appropriate way. **Can the SEOC or National Guard provide guidance on handling concerns about residents' interactions with responders? RESOLUTION:** National Guard provided 2-1-1 a contact to report any issues. Jennie Pollak at Central Michigan 2-1-1 is the internal contact for collecting these reports, then forwarding them in a manner that protects the caller's confidentiality.
- ☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**

Flint Water Discussion Points
Updated Jan. 26

Current Issues Talking Points

Medicaid/Federal Asks

- Governor Snyder today announced that a request will be sent to the federal government that asks for all Flint residents under age 21 to receive additional healthcare services to address potential problems brought on from exposure to lead.
- We want to make sure comprehensive medical care services are available, and we hope the federal government will partner in our efforts.
- Request will include:
    - Expanded Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level.
    - Lead-abatement programs to help minimize and/or prevent any long term adverse health problems associated with lead exposure.
    - Additional, community-based resources to ensure all children, regardless of health insurance coverage, have access to comprehensive medical treatment.

House passage of the $28 million supplemental bill (unanimous vote)

- The supplemental request includes short-term funding to address immediate needs in the city, including bottled water, filters and testing kits.
    - The supplemental request will also include funds to address the most critical needs of Flint residents.
    - The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support to the health of Flint residents.
- The health and safety of Flint residents remains a top priority. The Governor has worked closely with the Legislature to encourage quick passage of the supplemental to encourage immediate action.
- We look forward to the Senate taking action on this bill this week.

General High-level talking points

- There are people in the state of Michigan that can't drink their water, and that is unacceptable to all of us. As Governor, Rick Snyder has taken responsibility, taken emergency response measures and is committed to dedicate all the resources needed to make this right for the people of Flint.

- The top priority for Governor Snyder and his administration is ensuring every Flint resident has access to clean, safe drinking water. We are committed to providing affected children and families access to medical and educational resources to ensure long-term care and treatment.

- The Flint water crisis has been a systemic failure of government at all levels: from the city of Flint, the state of Michigan, the civil servant scientists and the U.S. Environmental Protection Agency (EPA).

- The Governor has held himself and his government accountable. The Governor replaced the leadership of Michigan Department of Environmental Quality (MDEQ) and has taken disciplinary measures on the staff and civil servant scientists responsible for the crisis. Actions have been taken to ensure a new and capable team is overseeing Flint water and creating a department culture focused on the health and safety of Michigan residents. Two DEQ officials involved in the testing of Flint water have been suspended pending an investigation, in accordance with civil service rules.

- The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support to the health of Flint residents. In addition, the supplemental budget request will provide funds to the city to help alleviate the need for utility shutoffs.

- Governor Snyder and his administration are committed to working in partnership with Flint Mayor Karen Weaver, independent experts, and the federal government to ensure both short-term and long-term solutions.

Resources distributed (as of 1/25/2016):

- 176,118 cases of water
- 93,048 filters
- 29,320 testing kits
- 198,552 filter cartridges

Homes visited by Flint Water Response Teams (as of 1/24/16): 37,844

For more information, visit www.mi.gov/flintwater or www.helpforflint.com.

AT A GLANCE: Flint Action Timeline: For the 2006 – Jan. 16, 2016 Timeline click here

- **Sept. 28, 2015:** For the first time, DEQ and DHHS directors briefed the governor on the potential scope and magnitude of the lead issue. They begin discussion on what actions should be taken if the concerns raised by outside researchers were to be verified.
- **Oct. 1. 2015:** DHHS director informed the governor that his epidemiologists reviewed the data and confirmed Dr. Mona Hanna-Attisha's conclusions that blood lead levels in children were elevated – due to an association with lead contaminated water in certain ZIP codes.
- **October 2, 2015:** Governor releases 10-point Plan to address water systems, designates $1 million for water filters and anticorrosion treatment. This action was taken with 24 hours of DHHS confirmation that there was lead present in Flint's drinking water. The 10-Point Plan is available here.
- **Oct. 8, 2015:** Governor announces plan to reconnect to Detroit water.
- **Oct. 15, 2015:** Governor signs supplemental appropriation with $9.35 million to assist Flint in reconnecting to DWSD. Mott Foundation contributed $4 million and Flint $2 million. Flint officially reconnects to Detroit water system the following day, October 16.

For October 15, 2015 – January 16, 2016 click here

- **January 19, 2016:** Governor gives State of the State Address. Focuses on Flint response, short-term and long-term solutions.
- **January 20, 2016:** Governor releases all Flint emails sent and received on Flint between January 2014 and December 2015.
- **January 20, 2016:** Governor appeals denial of federal major disaster declaration for Flint. House of Representatives passes $28 million supplemental bill to support Flint.
- **January 22, 2016:** Two DEQ officials involved in Flint water testing are suspended pending an investigation, in accordance with Civil Service rules.
- **January 22, 2016:** Executive power to appoint city administrator and all department heads is returned to Flint Mayor via resolution approved by Flint RTAB and Treasurer Khouri.
- **January 22, 2016:** Governor announces he will seek additional federal aid to help Flint residents despite rejected appeal. Will request resources under the Individual Households Program which provides housing assistance, personal property replacement and emergency protective measure funding. This announcement followed the President's denial of the major disaster declaration appeal.

NEWS: More than 176,100 cases of water have been provided to Flint residents http://1.usa.gov/1ON4vXD

Since Jan. 9, more than 93,048 water filters have been distributed to Flint residents http://1.usa.gov/1ON4vXD

Water resource sites remain open daily from 9am-9pm. Find one near you: mi.gov/flintwater #FlintWater

#FlintWater resource teams have made a lot of progress visiting homes. Call 211 if you haven't been visited.

Questions

Talking Points for FCO Samaniego
Congressional/Legislative Conference Call
January 26, 2016

[Captain Kelenske will provide the primary operational overview]

- Thank you Captain.
- FEMA continues to support the State of Michigan with technical assistance and assisting with the supply of commodities to respond to the water situation in Flint.
- As of the end of the day yesterday, the following commodities were requested by and provided to the state of Michigan:
    - 610,200 liters of water
    - 83,728 water filter replacement cartridges
    - 5,000-23 cup water dispenser & filtration systems (ZeroWater)
    - 30,000 water filters

- Currently FEMA has a total of 53 staff supporting the commodities mission:
    - 24 staff collocated with the State Police at the SEOC in Lansing;
    - 27 staff supporting logistics at the federal and state staging areas;
    - 1 staff working in the Joint Information Center in Flint; and
    - 1 staff activated in our Regional Office in Chicago.
- FEMA also has deployed staff to support HHS:
    - An 11 person Incident Management Assistance Team is deployed to Flint;
    - 5 members of our National IMAT team are deployed to the Secretary's Operations Center in Washington, D.C.;
- We do not have any limitations or shortfalls.

Potential questions:

- When will the appeal be submitted/resolved? Do you think it's likely to be approved?
    - Defer to state to answer when it will be submitted.
    - FEMA will review the Governor's appeal as quickly as possible. Once a decision is made, the state will be notified.

Governor Rick Snyder

GOV's ACTIVITIES

Flint water
Governor Snyder answers questions about Flint water crisis (WDIV)
Governor Rick Snyder sat down with Local 4 on Monday to answer questions you have. The Defenders have been flooded with questions and comments about the water crisis in Flint. Now we're getting answers directly from the governor.

Flint water task force wants to question Gov. Snyder before issuing final report (Mlive)
A task force on Flint water wants to ask Gov. Rick Snyder some questions before issuing its final report next month and the governor says he's ready to answer. Chris DeWitt, a spokesman for the group, said details of the meeting are being worked out with Snyder's office in advance of a final report that's expected to be issued by the end of February.

Subpoenas Served to Governor Snyder and MDEQ in Flint class action suit (Michigan Radio)
The legal team representing one of the class action lawsuits stemming from the Flint water crisis served subpoenas for records today on Governor Snyder, the Governor's Office and the Michigan Department of Environmental Quality (MDEQ).

State civil rights panel plans to hold Flint hearings (Detroit News)
The Michigan Civil Rights Commission voted Monday to conduct a series of public hearings on whether racial discrimination contributed to Flint's contaminated water. The commission, created under the state constitution and appointed by the governor, unanimously adopted a resolution to convene at least three public meetings on Flint water, including one within 30 days. Dates have not yet been finalized.

State of the State
Snyder mentions NMU program during State of the State address (TV 6 UP)
During Governor Snyder's State of the State address, he gave a shout out to a group of students and leaders of Invent@NMU. Invent@NMU helps students, community members and start-ups turn inventions or product ideas into reality. This program offers opportunities that Snyder says should be "part of our DNA in this state."

FLINT WATER

Expert: Flint's lead test results show improvement (Detroit News)

Water samples taken from Flint homes in recent weeks indicate the city's water quality is improving, an expert said Monday, but state officials don't want residents to abandon bottled water and filters.

Ex-prosecutor to lead investigation into Flint water (AP)
A former prosecutor and a retired head of the Detroit FBI will play key roles in an investigation into Flint's water crisis as part of an effort to seek answers and prevent potential conflicts of interest in the ongoing probe, Michigan's attorney general announced Monday.

Former Detroit FBI chief to assist Flint water probe (Freep)
he team Michigan Attorney General Bill Schuette appointed to lead his investigation of the lead contamination of Flint drinking water vowed Monday to turn over every stone in determining whether state laws were broken in the lead-up to the public health crisis.

DETROIT

'Illegal' teacher strikes common in Michigan long before Detroit Public Schools sick-outs (MLive)
The year was 1979 and Michigan classrooms in more than 25 districts were empty.

Cass Tech students walk out to support teachers (Detroit News)
Detroit Public School teachers, students and other supporters rallied Monday in support of instructors who have staged repeated sickouts to protest poor building conditions and other problems in the state's largest school district.

City of Detroit releases DPS inspections reports, requirements moving forward (WDIV)
The city of Detroit has released the results of recent inspections conducted at Detroit Public Schools (DPS) buildings.

Grant program invests in Detroit neighborhoods (Detroit News)
Development projects in two neighborhood districts, a bridal boutique co-owned by a reality television star, and trade school specializing in fashion and film, were among the recipients of $500,000 in grants in the second round of Detroit's Motor City Match program.

City finds heat, electric issues, rodents at DPS sites (Detroit News)
Mold and rodent abatement, and heating and electrical repairs are among the corrective actions being ordered for several ailing Detroit Public Schools buildings, according to inspection documents released Monday.

Judge refuses to issue order ending Detroit teacher sick-outs, sets another hearing (MLive)
A Michigan Court of Claims judge on Monday refused to issue an immediate order barring Detroit Public Schools teachers from conducting "sick-out" protests that have intermittently forced schools to close.

Judge denies order to stop Detroit teacher 'sick-outs' (AP)
A Detroit judge has again denied a temporary restraining order requested by the city's school district that would force teachers to stop skipping school. The judge said Monday there's no proof the union or individual activists are behind the teacher absences, called sick-outs.

Students plan walk out in support of Detroit teachers (Fox 2)

Students at several Detroit Public Schools have threatened to walkout in support of teachers on Monday. FOX 2 has learned that students at three different schools are planning to walk out of class Monday in support of their teachers who have been protesting the conditions of classrooms for several weeks.

Several Michigan schools close due to social media threats (Michigan Radio)
Several schools around the state closed Monday in response to threats made on social media over the weekend.

Social media threats shut down schools in metro Detroit (Freep)
Classes were canceled Monday at a handful of schools across metro Detroit after districts received threats that were posted on social media today and over the weekend.

Are Detroit's sick-outs legal? School district takes teachers to court (Christian Science Monitor)
Detroit teachers on Monday plan to rally outside a courthouse where a judge is set to hear a case that could force them to stop skipping class to protest working conditions in the city's public schools.

Mayor puts the brakes on elections billboard contract (Detroit News)
Detroit Mayor Mike Duggan is putting the brakes on a controversial campaign to spend nearly $1 million reminding residents to vote.

Duggan appoints 3 new members to city water commission (Detroit News)
Mayor Mike Duggan Monday said he has appointed three new members to the Detroit Water and Sewerage Department's Board of Water Commissioners.

Detroit Public Schools' executives are still among the highest paid in the country (WXYZ)
Last year, in his first budget address as emergency manager for the Detroit Public Schools, Darnell Earley hit a familiar note.

DEPARTMENTS

Attorney General
Michigan Attorney General Picks Investigator for Flint Water Case (New York Times)
The attorney general of Michigan said Monday that a former county prosecutor would lead his office's investigation into the water crisis in Flint, where a 2014 switch of the city's drinking water source led to contamination and widespread health concerns.

Local Circuit Court judge to resign from bench, join AG's office (LSJ)
8th Circuit Court Judge David Hoort will step down from the bench next month. Hoort is resigning to accept a position in the Michigan Attorney General's Office. He will work as an attorney in the Civil Litigation, Employment and Elections Division.

AG creates 'conflict wall' in Flint water probe (CNN)

Michigan Attorney General Bill Schuette announced Monday he is appointing an ex-prosecutor and Detroit's former FBI chief to join the investigation into Flint's water crisis, creating a "conflict wall" between the state's probe and the lawsuits targeting the state.

Flint Water Crisis: Investigation Will Be 'Exhaustive, Independent' Says Attorney General (ABC News)
Michigan Attorney General Bill Schuette announced two new leaders of the investigation into the ongoing Flint water crisis.

Water Bills in Poisoned Flint an 'Outrage,' Attorney General Says (NBC News)
Michigan's top prosecutor said Monday that it's an "outrage" that residents of Flint are being forced to pay for water that's unsafe to drink — and his office may take action to stop the billing.

MDOT
Decision on I-375 delayed indefinitely (Freep)
A recommendation on what to do with Detroit's aging I-375 expressway, originally expected more than a year ago, has now been delayed indefinitely.

DHHS
Reminders for women to stay on top of their health during Cervical Health Awareness month (FOX 28)
The Michigan Department of Health and Human Services reminds women to improve their health by staying current on their cervical cancer screening, in recognition of January as Cervical Cancer Awareness Month.

DEQ
Harsens Island bridge plan resurrected (Times Herald)
Efforts to build a bridge to Harsens Island are moving forward. The Detroit International Bridge Company has applied for a permit from the Michigan Department of Environmental Quality to build a 1,750-foot bascule bridge across the North Channel of the St. Clair River.

Supreme Court
High Court gives Michigan teen lifers 2nd chance (Detroit News)
More than 1,000 prison inmates, some behind bars more than 50 years for murders they committed as teenagers, will get a chance to seek their freedom under a Supreme Court decision announced Monday.

The Supreme Court just gave juvenile lifers a shot at parole (MLive)
Nearly 350 prisoners in Michigan serving mandatory life sentences for murder or other violent acts committed as minors could now be eligible for parole under an opinion handed down Monday by the U.S. Supreme Court.

MSHDA
Metro Detroit housing projects earn federal tax credits (Detroit News)
Six projects in Metro Detroit are among those across the state receiving some of more than $11.7 million in low-income housing tax credits, Michigan State Housing Development Authority officials announced Monday.

MEDC
2015 'best year ever' for tourism in West Michigan (WZZM)

The year 2015 was a record-breaking year for tourism across West Michigan, which means more money into the local economy.

LEGISLATIVE

Michigan Lawmakers Join 15 Other States Introducing Privacy Legislation (MPRN-Lansing)
A bipartisan group of state lawmakers hopes to send privacy protection legislation to Gov. Rick Snyder's desk this year.

Michigan lawmakers jump in to help National Guard in Flint (WLNS)
Lawmakers had their boots on the ground to join the troops in Flint Monday. "We're to help and observe. See what the needs are on the ground. That's why we're here. That's the only way you know what's going on is by going door to door and hear from the people of Flint what's going on," said Rep. Holly Hughes (R), Montague.

Disgraced Former Detroit Mayor Says Michigan Lawmakers Have Long Known About Flint Water Crisis (Huffington Post)
In a letter reportedly written from federal prison, disgraced former Detroit mayorKwame Kilpatrick claims Michigan officials have known about contamination in Flint's water supply for much longer than they're letting on.

Former Representative Cindy Gamrat launches new website against surveillance abuse (WWMT)
Former State Representative Cindy Gamrat has launched a new website to help people suffering from surveillance abuse.

OPINION

Editorial: Don't pay for dirty Flint water (Detroit News)
Flint city leaders continue to bill residents for water service, including bills for past service of contaminated water. But residents shouldn't be on the hook for water they can't use.

Let DPS families choose schools (Detroit News)
The plans proposed to date to address Detroit's public school crisis are too expensive and insufficient to the task of eliminating debt while elevating the education prospects of the city's 46,000 public school kids. For a city that has seen the Detroit Three become vital again through re-invention, it's sad that Motor City perseverance has yet to pervade the education sector.

Jacques: More school choice would help Detroit (Detroit News)
This is National School Choice Week, and it's an awareness campaign of the variety of choices parents should have regarding where to send their children to school.

Thompson: Independent probe needed in Flint (Detroit News)
It is hard to predict what Michigan Attorney General Bill Schuette will do next, having staged one news conference after another and making carefully calculated announcements regarding Flint's water crisis.

Editorial: High court does what Michigan failed to do (Detroit Free Press)
Here's what we know about young people's brains. We know they aren't fully formed until well after the legal age of adulthood, at least as far as judgment is concerned.

Susan J. Demas: Flint water crisis could propel Kildee to run for governor in 2018 (MLive)
He's a gravelly-voiced guy from Flint, a place nobody spent much time thinking about until last month.

End disasters in Detroit schools, Flint by ending emergency management (MLive)
When is enough really enough? Gov. Rick Snyder, through appointment of emergency managers, primarily in communities of color, continues to extend an oppressive form of governance that takes away local control and power from Michigan residents.

The Flint disaster is Rick Snyder's fault (Washington Post)
But the Flint disaster, three years in the making, is not a failure of government generally. It's the failure of a specific governing philosophy: Snyder's belief that government works better if run more like a business.

#####

This is the daily 2-1-1 summary on the Flint Water Response for Friday, January 22, 2016

GENERAL INFORMATION:

- Based on State of Michigan references to "Call 211" in print and online media sources, many callers to the service think 2-1-1 is a state agency. This leads some to ask questions about potential bias in the information 2-1-1 is providing about the Flint water situation. The public understanding of 2-1-1 as an independent and impartial service is essential to maintaining our position as a trusted source of information with both the community at-large and state partners. **Michigan 2-1-1 would like to set up a call or meeting with the appropriate state representatives and some key stakeholders to standardize how the state publicizes the 2-1-1 service.**

- Central Michigan 2-1-1 has created a Drop Box folder for 2-1-1 agents taking Flint Water calls. It holds a four page master document that ensures updates and new information are immediately available to all 2-1-1 staff. It includes sections on Background Information (including President Obama's Emergency Declaration), Rumor Control, Health & Water Quality/Safety Concerns, the Taxonomy Terms 2-1-1 is using to provide referrals and track needs, a general Q&A section, and links to Printed Materials and online resources such www.helpforflint.com along with various flyers and statements on the response from State of Michigan.
    - If you have information or materials to include on the master document, please email them to jennifer.pollak@lifewayscmh.org, melissa.ladd-patnode@lifewayscmh.org, and tpage@uwmich.org.

CORRECTIONS AND CLARIFICATIONS

None today

CALL VOLUME:

Call volume continues to be higher than average, but is dropping from the Wednesday peak. Average wait time was down significantly to under 15 minutes during peak volume

- There was a brief period today when the queue for Flint water calls reached 20 callers. Central Michigan 2-1-1 contacted other regional 2-1-1 partners for assistance and was able to reduce the queue and wait time for Flint caller back down to approximately two minutes.

SPECIAL NEEDS/REQUESTS

- The lifting of the requirement to provide identification is making it easier for undocumented residents and residents without ID to access water resources. 2-1-1 working to verify whether the Hispanic Center will continue to provide access assistance for the residents.

- 2-1-1 continues to receive several calls a day from churches, nursing homes and business owners asking about filters for their establishments. They are being referred to the Chamber of Commerce to share the impact on their organizations.

RUMOR CONTROL

- No new rumors to report.

UNRESOLVED

- ☐ **From 1/15/16:** 2-1-1 is trying to identify a resource *to pick up* test kits from homebound/senior residents who cannot drop off test kits at designated sites.

- ☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.
- ☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?
- ☐ **From 1/18/16:** Callers are asking about shower heads that can filter water for bathing. 2-1-1 continues to receive reports of rashes attributed to bathing in unfiltered water.
- ☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**
- ☐ **From 1/20/16:** Another rumor reported is that Legionella can be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes. **Can a health professional verify the risk of boiling Flint water or using it in an ultrasonic/cool mist humidifier?**
- ☐ **1/21/16:** Calls continue to increase regarding how to recycle empty water bottles. A recycling vendor contacted 2-1-1 and was referred to United Way of Genesee County. **Does the City of Flint offer recycling? If not, what are the options for people to dispose of the empty plastic bottles?**

Flint Water Discussion Points
Updated Jan. 25

General High-level talking points

- There are people in the state of Michigan that can't drink their water, and that is unacceptable to all of us. As Governor, Rick Snyder has taken responsibility, taken emergency response measures and is committed to dedicate all the resources needed to make this right for the people of Flint.

- The top priority for Governor Snyder and his administration is ensuring every Flint resident has access to clean, safe drinking water. We are committed to providing affected children and families access to medical and educational resources to ensure long-term care and treatment.

- The Flint water crisis has been a systemic failure of government at all levels: from the city of Flint, the state of Michigan, the civil servant scientists and the U.S. Environmental Protection Agency (EPA).

- The Governor has held himself and his government accountable. The Governor replaced the leadership of Michigan Department of Environmental Quality (MDEQ) and has taken disciplinary measures on the staff and civil servant scientists responsible for the crisis. Actions have been taken to ensure a new and capable team is overseeing Flint water and creating a department culture focused on the health and safety of Michigan residents. Two DEQ officials involved in the testing of Flint water have been suspended pending an investigation, in accordance with civil service rules.

- The Governor has asked to completely re-open the budget proposal the administration has been working on since last fall to assess all of the resources available to provide long-term support to the health of Flint residents. In addition, the supplemental budget request will provide funds to the city to help alleviate the need for utility shutoffs.

- Governor Snyder and his administration are committed to working in partnership with Flint Mayor Karen Weaver, independent experts, and the federal government to ensure both short-term and long-term solutions.

Current Issues Talking Points

House passage of the $28 million supplemental bill (162-0 vote)

- The supplemental request is a short-term solution to address immediate needs in the city, including bottled water, filters and testing kits.
- The health and safety of Flint residents remains a top priority. The Governor has worked closely with the Legislature to encourage quick passage of the supplemental to encourage immediate action.
- We look forward to the Senate taking action on this bill this week.

$80 million from federal Clean Water Revolving Fund

- $80 million is part of the federal budget and will be offered to state in the form of low-interest loans.
- It has not been determined how much of this money will be awarded to Flint. The state must submit a plan to the federal government detailing the spending allocations before it's awarded.

Denial of the major disaster declaration and upcoming appeal

- The Flint water disaster is the result of failures in all levels of government. Just as our own Legislature is working to quickly approve funding to provide clean water resources and long-term support for the people of Flint, it is our hope to receive further support from the federal government and Michigan's Congressional Delegation.

- On Friday, January 22, the President denied the Governor's appeal for a federal disaster declaration to aid Flint.
- The Governor will request that the President reconsider awarding funds under two programs allowed under the emergency declaration: The Individuals and Households Program, which provides such things as housing assistance and replacement of personal property; and money for emergency protective measures.

Resources distributed (as of 1/24/2016):

- 164,991 cases of water
- 91,763 filters
- 28,763 testing kits
- 197,775 filter cartridges

Homes visited by Flint Water Response Teams (as of 1/24/16): 37,844
For more information, visit www.mi.gov/flintwater or www.helpforflint.com.

AT A GLANCE: Flint Action Timeline: For the 2006 – Jan. 16, 2016 Timeline click here

- **Sept. 28, 2015:** For the first time, DEQ and DHHS directors briefed the governor on the potential scope and magnitude of the lead issue. They begin discussion on what actions should be taken if the concerns raised by outside researchers were to be verified.
- **Oct. 1. 2015:** DHHS director informed the governor that his epidemiologists reviewed the data and confirmed Dr. Mona Hanna-Attisha's conclusions that blood lead levels in children were elevated – due to an association with lead contaminated water in certain ZIP codes.
- **October 2, 2015:** Governor releases 10-point Plan to address water systems, designates $1 million for water filters and anticorrosion treatment. This action was taken with 24 hours of DHHS confirmation that there was lead present in Flint's drinking water. The 10-Point Plan is available here.
- **Oct. 8, 2015:** Governor announces plan to reconnect to Detroit water.
- **Oct. 15, 2015:** Governor signs supplemental appropriation with $9.35 million to assist Flint in reconnecting to DWSD. Mott Foundation contributed $4 million and Flint $2 million. Flint officially reconnects to Detroit water system the following day, October 16.

For October 15, 2015 – January 16, 2016 click here

- **January 19, 2016:** Governor gives State of the State Address. Focuses on Flint response, short-term and long-term solutions.
- **January 20, 2016:** Governor releases all Flint emails sent and received on Flint between January 2014 and December 2015.
- **January 20, 2016:** Governor appeals denial of federal major disaster declaration for Flint. House of Representatives passes $28 million supplemental bill to support Flint.
- **January 22, 2016:** Two DEQ officials involved in Flint water testing are suspended pending an investigation, in accordance with Civil Service rules.
- **January 22, 2016:** Executive power to appoint city administrator and all department heads is returned to Flint Mayor via resolution approved by Flint RTAB and Treasurer Khouri.
- **January 22, 2016:** Governor announces he will seek additional federal aid to help Flint residents despite rejected appeal. Will request resources under the Individual Households Program which provides housing assistance, personal property replacement and emergency protective measure funding. This announcement followed the President's denial of the major disaster declaration appeal.

Situation Report

January 25, 2016

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 25.

State agencies at the JIC included the Michigan State Police and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Transportation, and Military and Veterans Affairs. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Held a media availability at Flint Fire Station No. 8 to provide an update on the activities and mission of the water response teams. Maj. Gen. Gregory Vadnais, Spl/F/Lt. Dave Kaiser, Genesee County Sheriff's Office and the American Red Cross participated in the event. Roughly 10 local, state and national media outlets attended.
    - MSP F/Lt. Dave Kaiser conducted interviews with WNEM-TV 5, ABC 12, and MLive after the briefing. Maj. General Vadnais conducted a live interview with WNEM-TV 5 during the noon newscast.
- Media hotline staff answered over 10 emails and phone calls ranging from donations to updates about the water response teams.
- Key agency PIOs conducted multiple news interviews throughout the day, including interviews with Michigan Radio, Flint Journal and Detroit News.
- Coordinated with FEMA to arrange a Congressional/Legislative briefing for tomorrow afternoon.
- Created a media monitoring report and looked for information requiring correction; found none.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications from MDE and MDARD.
- JIC is planning to issue the nightly activity news release around 7 p.m.

MICHIGAN ECONOMIC
DEVELOPMENT CORPORATION

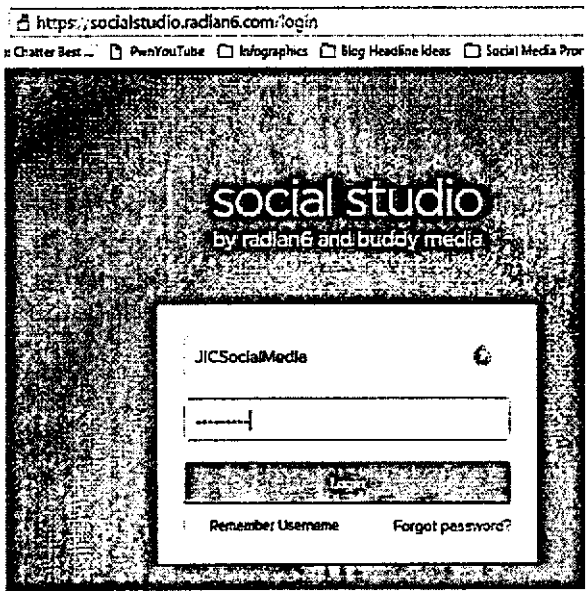
JIC Social Media Quick Start Guide for Radian6 (version 1.0)

Purpose: This quick start guide provides brief instructions on how to use the social media monitoring tool Radian6 to monitor and measure the online discussion and social media chatter around the Flint water emergency. Radian6 retrieves results from more than 150 million sites and sources including: social media (Facebook, Twitter, etc.), blogs, discussion forums, local and national mainstream news (NYTimes.com, WSJ.com, DetroitNews.com, etc.), and much more.

How To Use: The social media manager assigned to the JIC can use Radian6 to monitor online *volume*, *sentiment* and *content*. Furthermore, the JIC social media manager can flag content that they deem important or noteworthy. On average, there are more than 1,000 tweets per hour about the Flint water crisis. The manually-flagged content will be included in an automated email daily summary sent to JICManager@michigan.gov. Finally, the JIC social media manager is invited to include a screenshot of the "Analyze Tab", which is essentially a high-level summary of the daily social media metrics, to be included in the Daily Media Recap report.

Support Desk: Contact Chad Wiebesick, Director of Social Media and Interactive Marketing at Michigan Economic Development Corporation. Email: wiebesickc@michigan.org Cell: 517-455-3038

How To Log On:
Login: https://socialstudio.radian6.com/login
User: JICSocialMedia
Passworld: n3wspa55!



PURE MICHIGAN®

Engage Tab

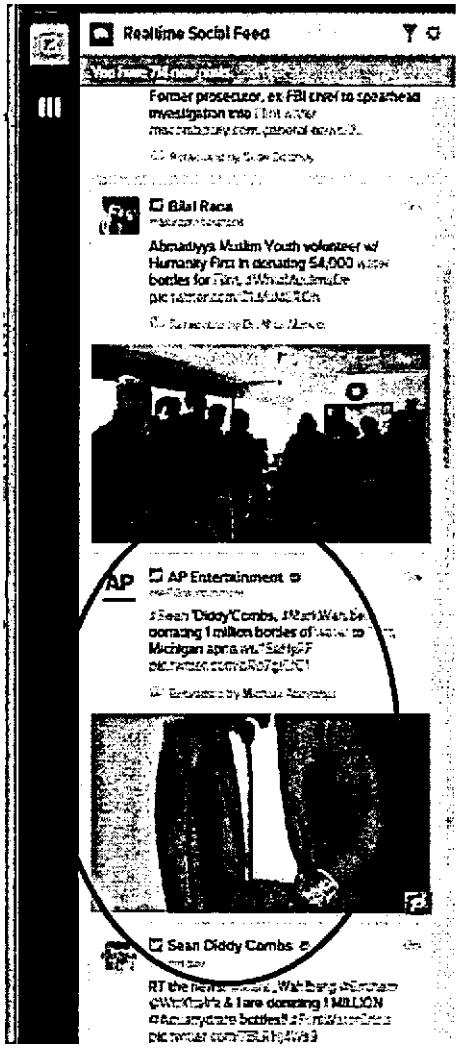
There are four columns:

1. 'Realtime Social Feed' – a firehose feed of social content and mainstream news.
2. 'Mainstream News' – a feed from local, state, national and international online news outlets.
3. 'Facebook Live Feed' – a live feed from Facebook.
4. 'Flagged Content' – this column shows the content that has been manually flagged by the JIC social media manager.

How To Flag Content

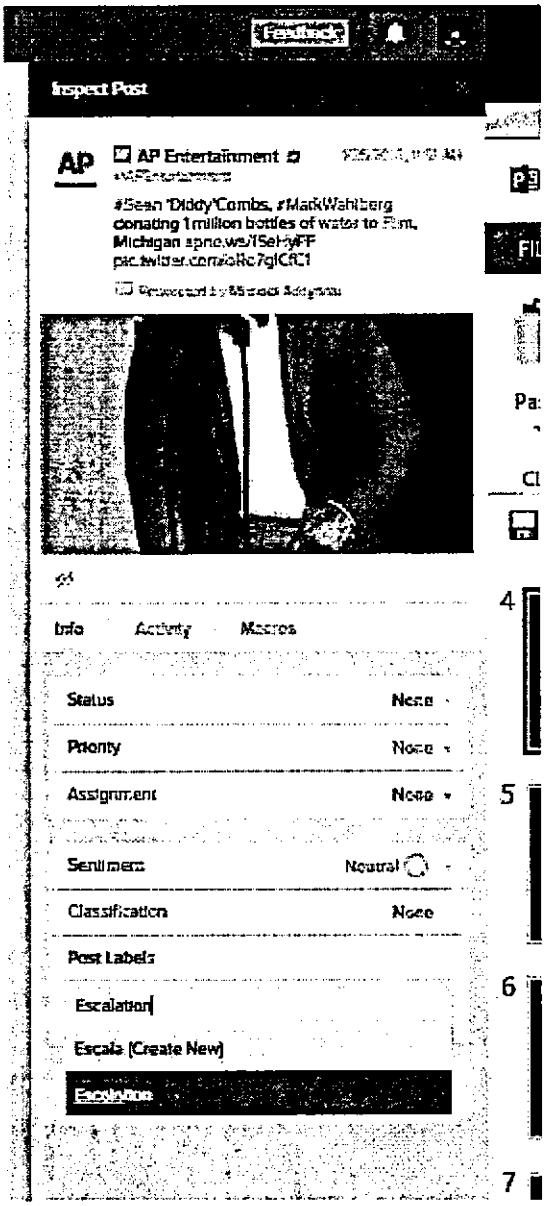
Of the hundreds of pieces of online content being published and shared on an hourly and daily basis, the JIC social media manager can flag content to be included automatically in a daily summary report.

Step one: Click on the content.



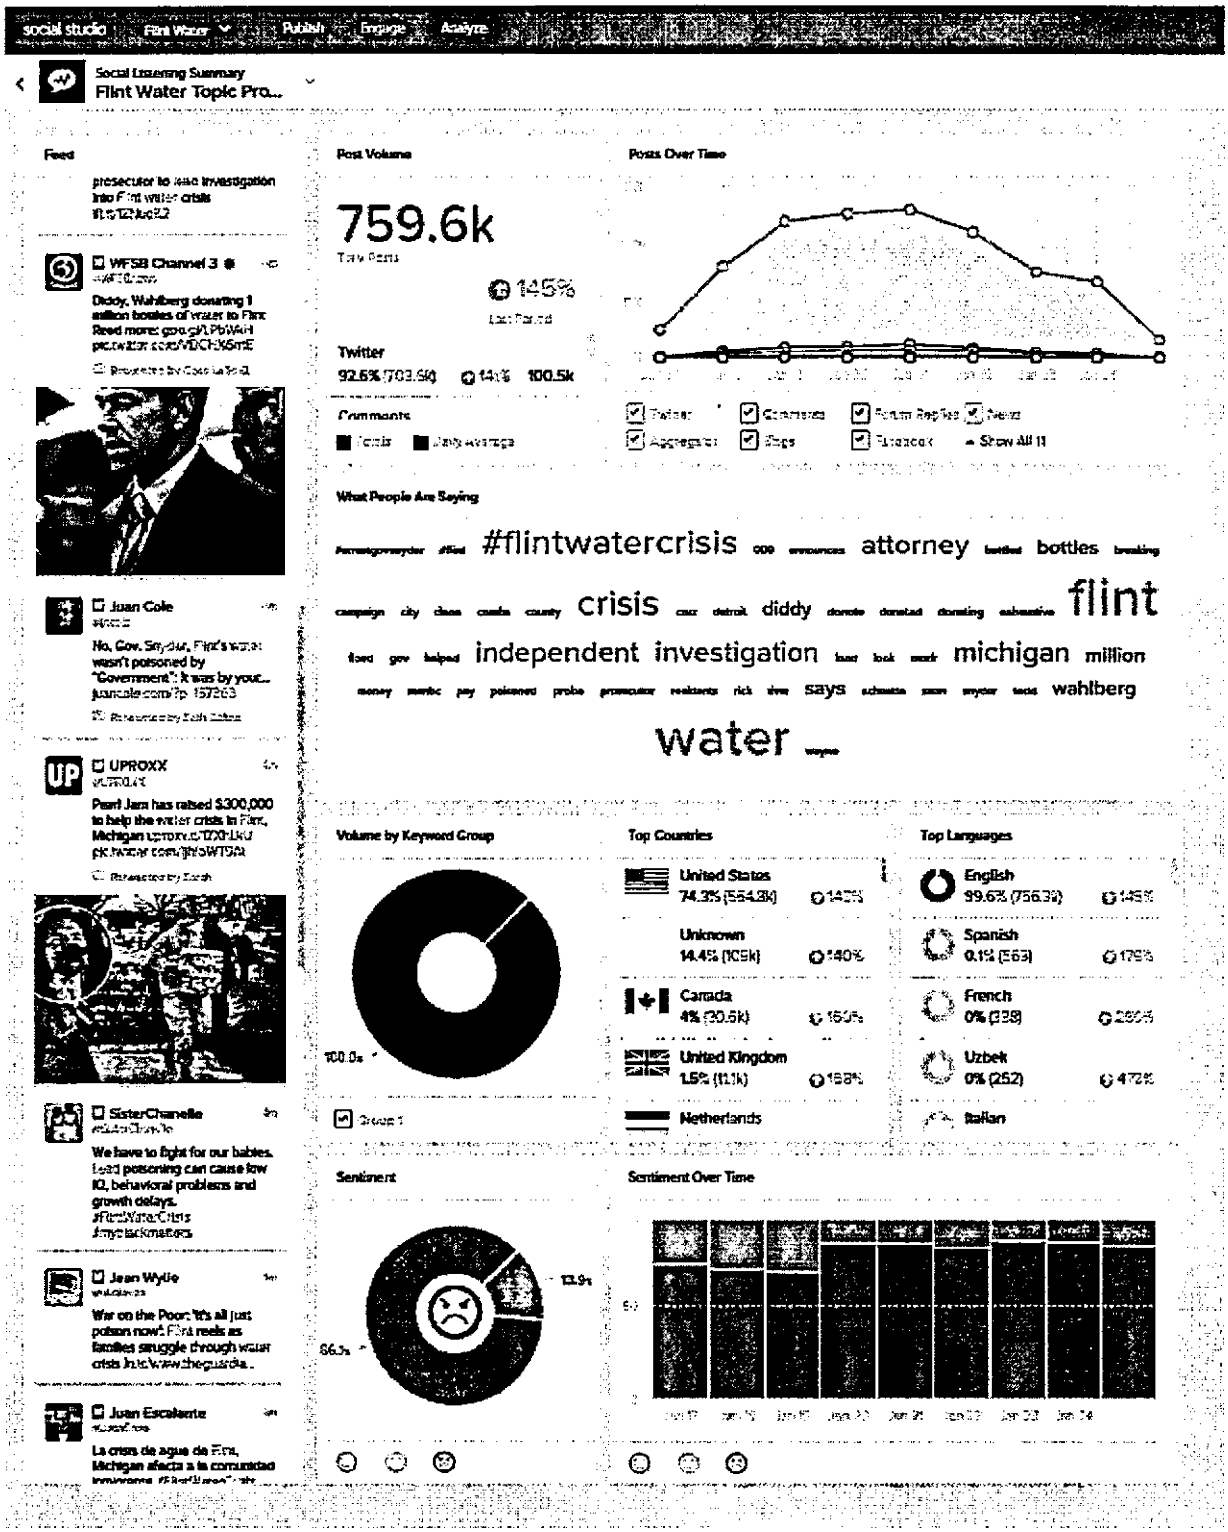
Step Two:

Next, the piece of content will open in a new column on the right side of the dashboard. In the "Post Label" field, type Escalation. That will automatically tag the content and allow it to be included in the daily email summary report.



Screenshot of Analyze Tab

You are invited to capture a screenshot and email it to the person on duty assigned to compiling the Daily Media Report.



Governor Rick Snyder
REINVENTING MICHIGAN
Getting It Right. Getting It Done.

In the News

NEWS (Click the link to read the full article)

GOV's ACTIVITIES

Interviews

Gov on Flint crisis: 'It will always be terrible' (Detroit News)
It's clear Gov. Rick Snyder has thought a lot about this question: What would you have done differently in your response to the Flint water crisis? "I would have called out the National Guard on Oct. 1," the governor told me in an interview Thursday. This is certainly a recognition that his public response lacked the urgency the situation required.

Returning powers to Flint

State grants additional executive powers to Flint mayor (AP)
Michigan officials have approved granting additional executive powers to Flint's mayor as the city moves out of state oversight.

Management powers restored to Flint mayor (Detroit News)
With Flint's water crisis dominating national headlines, Gov. Rick Snyder's administration moved Friday to restore much of Flint Mayor Karen Weaver's management powers. The state's Flint receivership transition advisory board granted Weaver the power to hire and fire the city administrator, Flint's police and fire chiefs and all other city department directors

DEQ workers suspended

Michigan governor suspends state workers over Flint water crisis (Al Jazeera)
Michigan Governor Rick Snyder on Friday suspended two state workers in connection with water testing failures in the Flint contamination crisis, and the state restored some powers to Mayor Karen Weaver.

Two Michigan DEQ officials involved in Flint water testing suspended (Mlive)
wo Michigan Department of Environmental Quality employees have been suspended as a result of pending questions regarding actions related to water testing in Flint. Both employees have been suspended pending an investigation, in accordance with Civil Services rules, according to a news release from Gov. Rick Snyder's office.

2 suspended in Michigan's DEQ over handling of Flint water crisis (WDIV)
An internal investigation by Gov. Rick Snyder's office has led to two suspensions over the Flint water crisis. Two people have been suspended without pay, according to Local 4 Mara MacDonald's sources. The employees could be fired once the civil servant process is complete.

Disaster appeal denied

Snyder seeking additional federal aid in Flint water crisis after appeal rejected (Mlive)

President Barack Obama has denied Gov. Rick Snyder's appeal for a federal disaster declaration to aid in Flint's water crisis. A letter from the Federal Emergency Management Agency (FEMA) states the call for a federal disaster declaration was called "not appropriate for this event."

Gov. Snyder asking for more federal funding, despite rejection (WWMT)

Governor Rick Snyder is asking for more funding for Flint, after President Obama denied his request for a federal disaster declaration a second time. The government says the crisis in Flint is man-made.

FEMA again denies Snyder's Flint disaster request (Detroit News)

The Federal Emergency Management Agency denied Friday Gov. Rick Snyder's appeal of its decision that Flint's contaminated water crisis is a federal emergency instead of a major disaster. Snyder requested $96 million in disaster relief, but Obama extended $5 million in federal emergency aid and followed Thursday with an $80 million allocation to the state of Michigan for federal drinking water construction aid and loans.

US denies appeal for Flint disaster declaration (Elkhart Truth)

The Obama administration has denied an appeal by Michigan Gov. Rick Snyder for additional aid for Flint through a disaster declaration, saying the program isn't appropriate for the city's drinking water crisis.

Communications assistance

Snyder hires help to deal with news media on Flint water (AP)

Gov. Rick Snyder is hiring public relations specialists to help him deal with the Flint water crisis. Snyder chief of staff Jarrod Agen says public money won't be used. The Detroit News and Detroit Free Press say the governor has hired the Mercury firm, where Agen's wife is a senior vice president in the firm's Ft. Lauderdale, Florida, office.

Snyder hires PR firm with ties to new chief of staff (Freep)

Gov. Rick Snyder has hired the national public relations firm Mercury LLC, where the spouse of Snyder's new chief of staff is a senior vice president, to help with communications during the Flint water crisis. The governor has also hired another communications expert, Bill Nowling, chief of staff Jarrod Agen said late Friday.

Report: Gov. Snyder hires public relations firm in wake of Flint water crisis (Mlive)

Gov. Rick Snyder has hired a national public relations firm as well as another communications expert to help with communications during the Flint water crisis. Snyder hired the public relations firm Mercury LLC, which has a tie to his new Chief of Staff Jarrod Agen, according to a report from the Detroit Free Press. Agen's wife, Bettina Inclan-Agen, is a senior vice president in Mercury's Florida office in Fort Lauderdale. The company has no offices in Michigan.

Snyder hires two PR firms amid Flint crisis (Detroit News)

Gov. Rick Snyder has hired two public relations firms to help his office deal with the Flint water

contamination crisis. Mercury Public Affairs of Washington, D.C., and Bill Nowling of Finn Partners, a New York firm with offices in Detroit, are working for the governor, Chief of Staff Jarrod Agen confirmed Friday.

With Flint water crisis center stage, Gov. Snyder hires national PR firm (Michigan Radio)
The Snyder administration is now in over-drive to create both the perception and the reality that the state is engaged in making rapid progress in dealing with the Flint water crisis.

Snyder hires Mercury PR firm to help with Flint lead crisis (Crain's)
Gov. Rick Snyder is hiring public relations specialists to help him deal with the Flint water crisis.

Task force report

Flint water task force urges action on new system (Freep)
Gov. Rick Snyder's Flint Water Advisory Task Force says it's essential to re-establish a trusted drinking water distribution system in Flint "to replace the unsustainable and expensive bottled water and filter distribution program." In a letter to Snyder released Friday, the task force also calls on the state to ask the U.S. Centers for Disease Control and Prevention to help the state in assessing outbreaks of Legionnaires' disease in 2014 and 2015, which may have been linked to the Flint water problem, and which caused nine deaths in Genesee County.

Emails

Michigan Governor Releases Emails About Flint's Water — But There's a 7-Month Gap (Vice News)
Michigan Governor Rick Snyder, whose administration has been embroiled in controversy over its response to the city of Flint's contaminated water, released 274 pages of relevant emails on Wednesday in an attempt at transparency. But there's a seven-month gap in the disclosed correspondence between February and September 2015 — a critical period during which many developments occurred and concerns over the public water supply reached a fever pitch.

Lawyers look for Snyder documents dating back to 2011 (Freep)
A lawyer representing a growing number of Flint residents will serve a comprehensive request for documents to Gov. Rick Snyder on Monday. "The Governor says he has immunity from the Freedom of Information Act, but he doesn't have immunity from our lawsuit," said Michael Pitt, who is one of a group of attorneys who filed class action lawsuits this week against the state in Genesee County and the state Court of Claims.

EPA response

Michigan questions legality of EPA directive on Flint (Detroit News)
The state of Michigan responded Friday to a U.S. Environmental Protection Agency directive to address "serious and ongoing concerns" with Flint's drinking water by questioning whether the federal order is even legal. Michigan Department of Environmental Quality Director Keith Creagh, in a Friday letter to EPA Administrator Gina McCarthy, disputed whether the EPA "has the legal authority" to require a state to take the actions outlined in the order, saying the state would share those concerns by letter or in person.

Michigan official takes confrontational tone with EPA chief over Flint water crisis (AP)
Michigan's top environmental officer was by turns cooperative and confrontational with the U.S. Environmental Protection Agency on Friday, pledging to work together to ensure the safety of Flint's drinking water but challenging the legality and scope of some federal demands.

State questions EPA's Flint order but will comply (Freep)
The political and regulatory blame game taking place as Flint's water and public health crisis unfolds, took another turn Friday with the new head of Michigan's Department of Environmental Quality saying the state will comply with a federal order regarding the handling of the emergency, but taking a combative stance in doing so.

Michigan questions some U.S. demands regarding Flint water (Holland Sentinel)
Michigan's top environmental officer was by turns cooperative and confrontational with the U.S. Environmental Protection Agency in a letter pledging to work with the federal government to ensure the safety of Flint's drinking water but challenging the legality and scope of some federal demands.

Jeb Bush defends Snyder's handling of Flint crisis (Detroit News)
Former Florida Gov. Jeb Bush on Sunday defended Republican Gov. Rick Snyder's response to Flint's lead-contaminated water crisis and said the focus should be on fixing the city's drinking water system "instead of blaming people."

Jeb Bush praises Rick Snyder's handling of Flint Water Crisis (Huffington Post)
Republican presidential candidate Jeb Bush on Sunday applauded Michigan Gov. Rick Snyder's response to the water contamination crisis in Flint -- even though the situation was caused by Snyder's own administration.

Detroit Public Schools
Another showdown today over Detroit schools (Detroit News)
This morning is the latest showdown over Detroit Public Schools as district leaders try to get a court to halt the massive teacher "sickouts" that have closed dozens of schools over the past two months

Misc.
Governor Snyder: Race had no Role in Michigan Water Response (Urban Twist)
Michigan Governor, Rick Snyder said on Friday that race was not a factor in the state's response to lead contamination in the drinking water in Flint. Flint is a poor, majority-black city where the supply has been tainted for more than a year, but for much of that time, state officials reported that it was safe to drink.

Celebs weigh in on Flint (WILX)
Actor Matt Damon told The Daily Beast he thought Governor Rick Snyder should resign because of the Flint water crisis, and went on to call for Snyder to be put on trial.

Report: Matt Damon calls on Gov. Snyder to resign over Flint water crisis (MLive)
A Hollywood heavyweight has chimed in on the Flint water crisis and had some blunt words for Michigan Gov. Rick Snyder.

Dems urge Snyder to request disaster loans for Flint (Detroit News)
Democratic members of Michigan's congressional delegation are urging Gov. Rick Snyder to request disaster loans through the federal Small Business Administration to assist businesses owners who have been affected by the lead contamination of drinking water in Flint.

Governor Snyder's popularity may be tainted after the Flint water crisis (WLNS)
After the Flint water crisis, some critics are placing blame on one person, Governor Rick Snyder. A Lansing polling expert gives his predictions on Snyder's popularity.

State's top doctor admits 'missed opportunity' for earlier Flint response (Freep)
The Michigan Department of Health and Human Services' own review last July showed a spike in blood-lead levels in Flint children in the months after the city switched its water supply to Flint River water. But

state epidemiologists explained it away, a "missed opportunity" that could have resulted in an earlier response to the crisis, the agency's chief medical officer said.

Flint lead problem could be eased by recoating old pipes (AP)
Flint's mayor has floated a shockingly high price tag to fix the Michigan city's lead-contamination problem: $1.5 billion to replace damaged pipes. Gov. Rick Snyder put the figure at $700 million.

An unnatural disaster in Flint (Chicago Tribune)
A year ago, Michigan Gov. Rick Snyder chose an unfortunate metaphor to launch his second term in office. During his state of the state address in January 2015, the Republican governor shared his vision for bringing all Michigan residents into a "river of opportunity."

Government run like a business poisons kids (Huffington Post)
The people of Michigan hired themselves a GOP businessman to be governor in 2011. And what they got was children poisoned by public water in Flint.

The Flint, Mich. water crisis is just the latest racial violence (The Athens News)
People in Flint, Michigan, a poverty-stricken, black-majority city, have been ignored for months as they complained that the water from the new source coming into their city was brownish-colored, had a unusual odor and was having strange health effects.

Kwame Kilpatrick calls Rick Snyder a liar about Flint water crisis from behind bars (CBS)
Disgraced former Detroit Mayor Kwame Kilpatrick reached out from behind bars to lambaste Michigan Gov. Rick Snyder about the Flint water crisis and accuse the governor of misleading the public about his knowledge of it.

Flint water crisis timeline (Crains)
March 2013: The Flint City Council approves joining the Karegnondi Water Authority after an exploration period of several years. The idea is to pipe water in from Lake Huron to mid-Michigan instead of relying on Detroit city water. Flint Emergency Manager Ed Kurtz supports the plan.

FLINT WATER
Exclusive: Gov. Rick Snyder's men originally rejected using Flint's toxic river (Daily Beast)
The emergency manager for Flint, Michigan, appointed by Gov. Rick Snyder in 2012, rejected using the city's river as drinking water after consulting with the state's environmental protection agency.

Lead levels in Flint appear to be falling (Detroit Free Press)
Preliminary results from tests on Flint's drinking water done since the city switched back to Detroit's water system and added phosphates show that lead levels appear to be falling.

Militia in Flint join calls for justice in water crisis (Detroit Free Press)
Flint may have seen multiple rallies in recent weeks that called attention to the city's water crisis — but few if any were as surprising as a rally held by the Genesee County Volunteer Militia.

Jimmy Fallon donates $10,000 to Flint (Detroit Free Press)
Late night talk show host Jimmy Fallon is donating $10,000 to Flint as its residents grapple with a water crisis linked to lead contamination.

Jeb Bush defends Snyder's handling of Flint crisis (Detroit News)
Former Florida Gov. Jeb Bush on Sunday defended Republican Gov. Rick Snyder's response to Flint's lead-contaminated water crisis and said the focus should be on fixing the city's drinking water system "instead of blaming people."

FEMA again denies Snyder's Flint disaster request (Detroit News)
The Federal Emergency Management Agency denied Friday Gov. Rick Snyder's appeal of its decision that Flint's contaminated water crisis is a federal emergency instead of a major disaster.
